SPECIFIC OPERATING AGREEMENT
FOR
DELEGATION OF THE STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION'S

DOMESTIC WASTEWATER PROGRAM AUTHORITY

TO
THE CITY OF JACKSONVILLE, DUVAL COUNTY, FLORIDA

THIS SPECIFIC OPERATING AGREEMENT ("SOA") is effective ninety (90) days after the date executed herein (the "Effective Date"), by and between **THE STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION ("DEP")**, and **CITY OF JACKSONVILLE, DUVAL COUNTY, FLORIDA,** a municipal and consolidated government ("Local Program").

PART I
ADMINISTRATION OF THE AGREEMENT

SECTION 1 – INTRODUCTION

(a) Pursuant to Section 403.182 of the Florida Statutes (F.S.), the Florida Department of Environmental Regulation, which is now the Florida Department of Environmental Protection (Department or DEP), entered into a general agreement on June 3, 1982, with the consolidated City of Jacksonville Bio-Environmental Services Division. On August 9, 1989, a subsequent general agreement became effective. This 1989 general agreement details the general working relationship between the Department and the Local Program and provides that the details of any authority delegated by the Department to the Local Program for administering any of the Department's specific programs be set forth in a Specific Operating Agreement (SOA). The 1982 general agreement was amended on June 28, 1995 (without mention of the 1989 general agreement) to further delineate each agency's responsibility and authority concerning domestic and industrial wastewater facilities in Duval County. The Local Program referred to in this SOA is Duval County, by and through the City of Jacksonville's Environmental Quality Division, located in Duval County, Florida.

(b) Therefore, the Department and the Local Program hereby enter into this SOA to delineate each agency's responsibility for developing and implementing the program defined here in under appropriate state and local statutes, ordinances, and regulations.

(c) This SOA supersedes the sewage collection and transmission portions, and those portions applicable to sewage collection and transmission, of the general agreements of June 3, 1982, (as amended on June 28, 1995) and August 9, 1989, between the Department and the Local Program.

(d) Nothing here or in the general agreements is intended to limit the Department's or the Local Program's independent authority established by law.

SECTION 2 – PARTIES

Notwithstanding provisions in the general agreements, parties to this SOA are DEP and the Local Program. DEP's Division of Water Resource Management (Division) shall be responsible for transferring information needed by the Local Program as described in this SOA while keeping DEP's Northeast District Office (District) informed, except as otherwise required for efficiency or specified by this SOA.

SECTION 3 – MODIFICATION OF SOA AND CONFLICT BETWEEN PRIOR SOA'S

This SOA may be modified in writing as necessary by mutual consent of DEP and the Local Program. Approvals of modifications to the text of this SOA shall be signed by the DEP Secretary or the Secretary's designee and the Local Program Director. Upon execution by both parties of a mutually agreeable written modification, the provisions of this SOA shall supersede provisions of other prior SOA's between DEP and the Local Program which conflict with this SOA, applicable to the program defined here.

SECTION 4 – PERIODIC REVIEW OF SOA

This SOA shall be jointly reviewed by DEP and the Local Program at five (5) year intervals, for the purpose of determining its adequacy and the need for any modifications.

SECTION 5 – TERMINATION OF SOA

This SOA may be terminated without cause by either DEP or the Local Program upon written notice to the other party of at least ninety (90) days prior to the effective date of termination. Pursuant to Section 403.182(4), F.S., this SOA may be terminated for good cause by DEP. This SOA may also be terminated by the Local Program when the Local Program determines DEP has not fulfilled its obligations under the SOA and DEP takes no corrective action within 90 days of being notified of the failure. Such notice from the Local Program shall be signed by the Local Program Director. Notice from DEP shall be signed by the DEP Secretary or the Secretary's designee. Upon termination, the Local Program shall provide DEP copies of all files applicable to this SOA.

SECTION 6 – SEVERABILITY

If any part of this SOA is found invalid or unenforceable by any court or administrative body, the remaining parts of this SOA shall not be affected.

PART II
PROGRAM MANAGEMENT

SECTION 7 – BUDGET

The Local Program shall annually provide a summary of its approved budget outlining funding and staffing. The DEP shall make its DWW-related budget summary available to the Local Program upon request. The Local Program shall maintain an adequate level of DWW program funding, staffing, and equipment to comply with all statutes, rules, and policies pertaining to delegated DWW program activities.

SECTION 8 – PROGRAM ORGANIZATION

8.01 RULES, REGULATIONS, AND ORDERS

(a) Within 90 days of the execution of this SOA, the Local Program shall comply with, as amended from time to time, the following sections of Chapter 120, F.S.: s. 120.52, 120.525, 120.53, 120.565, 120.569, 120.57, 120.573, 120.574, 120.595, 120.60, 120.62, 120.66, 120.665, 120.68, and 120.69. The Local Program hereby certifies that the Local Program's existing ordinances, rules, regulations, or orders are compatible with, or stricter or more extensive than, and not in conflict with those imposed by Chapter 403, F.S., and rules adopted thereunder. DEP has determined that such stricter or more extensive ordinances shall be enforced by DEP if it elects to exercise its jurisdiction over the DWW program within the jurisdiction of the Local Program pursuant to Section 403.182(6), F.S. This determination is only applicable to the following referenced ordinance and applies only to delegated facilities. The Local Program certifies the existing remedies and adjudicatory procedures in the Jacksonville EPB's Rule 3, "Water Pollution," are adequate to implement and enforce the Local Program's DWW program ordinances.

For the purposes of DEP exerting enforcement authority to enforce stricter or more stringent local program rules or ordinances, any subsequent proposed new or amended Local Program DWW laws, ordinances, rules, regulations, which may be more extensive, stricter, or more stringent than the provisions of Chapter 403, F.S., or DEP's DWW rules, shall be submitted by the Local Program for consideration by DEP as proposed modifications to this SOA, and shall not be enforceable under state DEP authority by either party unless and until such modifications are approved by DEP. Subsequent new or amended Local Program DWW laws, ordinances, rules, regulations, or orders which are less stringent than or in conflict with the provisions of Chapter 403, F.S., or DEP's DWW rules shall be considered good cause for termination of this SOA.

The Local Program shall implement subsequent revisions of applicable DEP rules at the time the DEP rule becomes effective with notification from DEP.

(b) If applicable, actions taken by the Local Program pursuant to this SOA shall be subject to the provisions of Chapter 120, Florida Statutes.

(c) Legal interpretation of DEP rules shall be made by DEP. Legal interpretation of Local Program ordinances shall be made by the Local Program. In the event that there is litigation concerning the interpretation of DEP's rules, then DEP shall provide testimony concerning the interpretation of those rules. To the extent that litigation involves interpretation of Local Program ordinances, the Local Program shall provide testimony concerning the interpretation of those ordinances.

8.02 PERSONNEL AND EQUIPMENT

The Local Program shall procure and maintain necessary equipment, and maintain a staff capable of performing the duties specified in this SOA, as modified from time to time. Local Program staff shall have the same minimum qualifications as the respective DEP staff for this region of the state. DEP and the Local Program shall provide each other with current organizational charts within 90 days of execution by all parties of this SOA and such charts shall be updated per the schedule in Section 9.04. Upon request of either DEP or the Local Program, updated versions shall be provided to the requesting party.

8.03 INFORMATION TECHNOLOGY SYSTEMS

The Local Program shall install and maintain adequate information technologies hardware and software necessary to perform all data entry requirements of this SOA, as modified from time to time. Central operation and maintenance of DEP's electronic data management systems shall be provided by DEP. DEP shall provide technical assistance, as necessary, to help the Local Program implement the data entry requirements of this SOA.

8.04 NOTIFICATION OF FACILITY OWNERS

Within 30 days after the execution of this SOA by the parties and future versions of this SOA, the Local Program shall, if necessary, update their website and any other public information provided by the Local Program to the public regarding collection system permitting to reflect the SOA and offer to provide a copy of the SOA if requested.

SECTION 9 – PROGRAM PLANNING AND MANAGEMENT

9.01 PLANS

The Local Program shall prepare an annual work plan describing staffing (Full Time Equivalents), and equipment committed and budgeted for the delegated DWW program. The work plan must include an estimated number of anticipated permits to be processed in the next year along with justification for these numbers and confirmation the Local Program can handle this level of permitting. The Local Program shall submit its annual work plan to the DEP, with a copy provided to the District, no later than June 30 of each year.

9.02 TRAINING

a) All parties to this SOA shall ensure that their respective personnel have the requisite training needed to allow each employee to accomplish the work assigned. Specific training requirements for the Local Program include the following:
   (1) Attendance of appropriate Local Program staff at applicable DEP wastewater training sessions: The Division shall provide advance notice (at least 30 days for out-of-town travel) to the Local Program of such training sessions;
   (2) Program specific training and information from other appropriate sources such as the United States Environmental Protection Agency (EPA) and professional organizations; and
   (3) Participation in training conducted by DEP related to the delegated activities, including operation of DEP's electronic data management systems.

b) DEP may also provide training to the Local Program in preparation for modifications to this SOA to expand the scope of delegation.

9.03 MEETINGS AND CONFERENCES

a) In addition to fulfilling the provisions of the SOA, the Local Program shall be appropriately represented at the following specific meetings:
   (1) DEP Wastewater Management Program training sessions;
   (2) DEP data management training sessions;
   (3) Monthly DEP teleconferences with Tallahassee Wastewater Management Program staff;
   (4) Quarterly meetings with District wastewater staff; and
   (5) DEP DWW workshops and programmatic meetings, held from time to time.

b) The Local Program is also encouraged to participate in other meetings pertaining to the DEP wastewater program. The Division shall provide advance notice to the Local Program of such meetings.

9.04 REPORTING REQUIREMENTS

a) LOCAL PROGRAM ELECTRONIC DATA ENTRY

Applicable data, such as permitting data, for facilities delegated under Part III of this SOA shall be entered by the Local Program into the following DEP electronic data management systems according to the schedule shown provided the systems are operating and available for use of the Local Program:

REPORTING SYSTEM	FREQUENCY	RECIPIENT
Permit Application (PA) or its successor	Within 3 working days of permit application receipt or from date of latest application processing activity	Electronic Data Management System

REPORTING SYSTEM	FREQUENCY	RECIPIENT
Wastewater Facility Regulation System (WAFR) or its successor	Within 5 working days of receipt of permitting information	Electronic Data Management System
OCULUS or its successor	Within 5 working days of receipt of information	Electronic Data Management System

b) LOCAL PROGRAM REPORTS

The Local Program shall submit copies of the following reports, based on the extent of delegation in this SOA, according to the schedule shown. (Where possible, reports will be made through DEP's electronic data management systems.)

REPORT	FREQUENCY	RECIPIENT
Annual Budget Summary*	Annually by June 30	DEP Division and District
Organizational Charts*	Annually by June 30	DEP Division and District
Local Program Ordinances, Laws, Rules, Regulations, and Orders*	As drafted, subsequently adopted, and annually by June 30	DEP Division and District
Annual Work Plan*	Annually by June 30	DEP Division and District
Summary of collection/transmission permits issued and denied; notifications of completion of construction (see Section 11.01(b)(5)	Monthly (by third Monday of the following month)	DEP Division and District

*These may be submitted as one report.

Reports shall be directed to the Program Administrator, Wastewater Management Program, for the DEP Division; and to the Permitting Program Administrator for the DEP District.

c) DEP REPORTS

DEP shall submit copies of the following reports to the Local Program according to the schedule shown:

REPORT	FREQUENCY	RECIPIENT
Organizational charts	Annually by June 30	Local Program

REPORT	FREQUENCY	RECIPIENT
DEP Rules, Regulations, Orders, Forms, Policies, and Guidance Memoranda	As drafted, and within 15 days after adoption or issuance	Local Program

9.05 AUDITS AND PERFORMANCE EVALUATIONS

a) DEP shall periodically conduct financial audits and program performance evaluations of the Local Program's implementation of the delegated program. The Local Program shall have adequate time (at least 30 days) to complete pre-audit surveys and to comment on draft audit findings.

b) The purpose of the financial audits is to determine if all fees for DEP permits and other state funds received by the Local Program for delegated activities have been properly accounted for and distributed. For the purposes of this SOA, appropriate records of all monetary transactions shall be maintained on file for at least the previous five (5) years, or the period of delegation, whichever is less.

c) The purpose of the performance evaluations is to determine if permit applications and Local Program actions are being managed in accordance with applicable requirements and policies, and that appropriate files are being maintained for all delegated DEP permitting actions taken and other responsibilities assumed by the Local Program. Program records associated with this SOA or contracts between DEP and the Local Agency will be made available to DEP upon request and will be retained by the Local Agency in accordance with, and for the durations specified in: Chapter 119, F.S.; DEP and the Department of State's records retention schedules; any DEP and Local Agency contracts; and the Department of State's regulations regarding electronic records, as applicable. If not otherwise specified, permitting program records will be maintained for a minimum of five (5) years. DEP shall have a goal of performing a Local Program performance evaluation at least once every three (3) years, or more frequently if warranted. Oversight of reports and data entry shall be performed on a continuous basis.

PART III
PROGRAM RESPONSE

SUB-PART A – PERMITTING

SECTION 10 – DELEGATED PERMITTING ACTIVITIES

a) Beginning on the effective date of this SOA, DEP delegates to the Local Program the authority to issue and deny, under applicable statutes, regulations, orders, and guidelines, state permits for sewage collection and transmission facilities (and appurtenant pump stations) in the Local Program's jurisdiction, except for sewage collection and transmission facilities larger than 12 inches in diameter (and appurtenant pump stations) for which the county is the owner or permit applicant as well as any sewage collection and transmission exempted from state permitting under Section 403.1815, F.S. (e.g., Jacksonville Electric Authority (JEA).

b) After the first program performance evaluation following a period of at least one year after the effective date, this SOA may be modified to expand the scope of delegation to include domestic wastewater treatment, disposal, and reuse facilities. However, relief mechanisms (including variances, waivers, exemptions, and mixing zones) and Water Quality Based Effluent Limitations shall not be delegated with permitting activities.

SECTION 11 – PERMITTING PROCEDURES

11.01 APPLICATION REVIEW PROCEDURES

a) DEP PROCEDURES

When the DEP District receives a permit application, or notice requesting the use of a general permit, for a delegated facility on or after the effective date (or modification date, as applicable) of this SOA, the DEP District shall return the application documents and associated fees to the applicant with instructions to resubmit the application to the Local Program. The permit application timeclock shall not start until the Local Program receives the application documents and fees. Complete permit applications with sufficient state fees received before the effective date (or modification date, as applicable) of this SOA shall be processed pursuant to the general agreements between DEP and the Local Program executed on June 3, 1982 (as amended on June 28, 1995) and August 9, 1989.

b) LOCAL PROGRAM PROCEDURES

(1) Individual Permits

(1) The Local Program shall ensure that a legible, stamped date of receipt is promptly applied to each permit application received, or an electronic record or receipt is recorded for each permit application, for delegated facilities. The Local Program agrees to accept permit application documents electronically as well as in paper copy form. Upon request by DEP, the Local Program shall provide the District with a copy (at the District's discretion) of each delegated facility permit application submitted directly to the Local Program office within three (3) working days of receipt. Completeness comments shall be provided (at the District's discretion) to the Local Program within 15 days of receipt. A copy, which can be an electronic copy, of all applicable correspondence shall be maintained on file at the Local Program office.

(2) The Local Program, after considering any completeness comments provided by the District, shall review each application for completeness within thirty (30) days of receipt. If the application is determined to be incomplete by the Local Program, a letter of incompleteness shall be sent by the Local Program to the applicant (and District at its discretion), within the thirty (30) days of the stamped date of receipt, identifying and requesting the additional

information.

(3) When the application is determined to be complete, the Local Program shall process the application and take final agency action on the application in accordance with the procedures and time frames which would apply to DEP as if DEP were taking final action on the application. Review of the engineering features of plans and specifications and preliminary design reports shall be performed by or under the supervision of a licensed professional engineer registered in the State of Florida in accordance with Chapter 471, F.S. The Local Program shall provide the District with a draft copy (at the District's discretion) of any intent to deny notice at least ten (10) working days before the Local Program mails the notice to the applicant. Permits, notices of intent, and denial letters shall be signed by the Local Program Director or authorized designees. The Local Program shall provide a list of authorized designees to DEP within seven (7) days of the effective date of this SOA and within three (3) days of any changes thereafter. The Local Program shall provide the District with copies of all issued permits (other than general permits, at the District's discretion), and Final Orders denying permits.

(4) The provisions of Chapter 120, F.S., shall govern actions taken by the Local Program under this SOA. Actions taken by the Local Program under local ordinances and not under this SOA shall not be subject to the provisions of Chapter 120, F.S., by virtue of this SOA. All timely petitions for formal administrative hearings received by the Local Program on delegated DWW permitting applications processed by the Local Agreement shall be referred to the Division of Administrative Hearings (DOAH) for the assignment of an administrative law judge if the petitions are submitted pursuant to Chapter 120, F.S., and satisfy the requirements set forth in subsection 120.54(5)(b) 4., F.S., and the Uniform Rules of Procedures, with particular attention to Rules 28-106.204 and 28-106.303, F.A.C. At the time of referral of a petition to DOAH, a copy of the notice of referral, the petition, and the challenged decision shall be mailed to DEP's Office of General Counsel, Attention: Chief Deputy General Counsel, at 3900 Commonwealth Boulevard, MS 35, Tallahassee, Florida 32399-3000. DEP shall have the right, if it so chooses, to intervene in the DOAH proceeding. For all hearings challenging agency action, the Local Program shall be responsible for preparation for the hearings, appearance at the hearings, and the preparation and submittal of the proposed recommended orders to the assigned administrative law judge. Prior to all final hearings, the Local Program attorneys shall consult with DEP attorneys regarding issues related to the case. Final agency action resulting from such DOAH proceedings shall be taken by the Local Program. Appeals of final orders entered following an administrative

hearing shall be the responsibility of the Local Program. DEP may join the appeal as a party. Orders entered by the Local Program pursuant to administrative hearings shall be published in the Florida Administrative Register if they have precedential significance. All final orders entered after an administrative hearing under Sections 120.569 or 120.57, F.S., shall be published in the Florida Administrative Register and copies provided to DEP within thirty (30) days of publication.

(2) General Permits

The Local Program shall review and process each general permit notice within thirty (30) days of receipt. If a notice does not qualify, the Local Program shall, within the thirty (30) day period, provide the applicant with a denial of general permit use. If formal written denial of general permit use is not provided within the thirty (30) day period, the applicant may use the general permit. The Local Program can encourage applicants to submit application documents electronically but must also accept paper application documents. The Local Program shall not require a regular permit when a general permit can be used, unless required by a local law, ordinance, rule, regulation, or order more stringent than DEP rule. If requested by the District, the Local Program shall provide a copy of a notice requesting the use of a general permit and all applicable general permit correspondence within three (3) working days of request.

(3) All permitting shall be done according to procedures established by applicable statutes, rules, and policies. The Local Program shall have the same requirements for timeliness to issue or deny permits as DEP. The following statutes, rules, procedures, and guidelines are specifically referenced with respect to the permitting programs included in this SOA:

i) Chapter 120, F.S.;
ii) Chapter 403, F.S.;
iii) Title 62, F.A.C., or its successor;
iv) DEP Permit Application (PA) guidance; and,
v) DEP Water Facilities Regulation (WAFR) guidance.

(4) The Local Program shall enter the appropriate permit activities data into DEP's electronic data management systems [Permit Application (PA) or its successor, Wastewater Facility Regulations Systems (WAFR) or its successor, OCULUS or its successor, and other data management systems identified by DEP] for all delegated facility permits in accordance with the schedule specified in Part II of this SOA. Only state permit fee amounts shall be entered into PA (i.e., local permit fee amounts shall be omitted). Data entry shall otherwise be complete and accurate.

(5) The Local Program shall provide DEP a monthly report (by the third Monday of the following month – see Section 9.04(b)) providing the names and locations of newly permitted DWW collection and transmission facilities, with a list of each permit number, issue date, project name, location, number of units and type of

service (e.g., single family, multi-family, commercial), design flow, receiving plant, and committed, permitted, and actual flows to the receiving plant at the time of permitting. The monthly report shall also provide a summary of the notification of completion of construction forms submitted and their status.

11.02 CONFLICT RESOLUTION

Although the Local Program has the initial responsibility for decisions on final agency action for delegated DEP permit applications, DEP retains the power to make such a decision whenever an irreconcilable conflict arises between the Local Program and DEP with respect to permit issuance or denial. If a conflict arises between the Local Program and DEP, the two agencies shall promptly attempt to reach an agreement to resolve the conflict. If an agreement is not reached, DEP shall declare in writing that an irreconcilable conflict exists, and the Local Program shall take no further action on the subject permit. DEP shall have ultimate authority in deciding the final agency action on the state permit.

11.03 PERMIT FEES

a) The state fees for DEP permits shall be the amounts established in Chapter 62-4, F.A.C., or its successor, as otherwise specifically established in DEP rules as all or some may be amended from time to time. The Local Program may assess additional or separate local fees for any required Local Program permits in addition to state fees. Within ninety (90) days of the execution of this SOA by the parties, the Local Program shall seek to amend its fee schedule and incorporate fees equivalent to the state fees to be charged to applicants seeking to obtain a delegated state permit.
b) Beginning on the effective date of this SOA, the required state permit fees for delegated facilities shall be split between DEP and the Local Program with DEP receiving 30 percent and the Local Program receiving 70 percent of the fees. DEP's Bureau of Finance and Accounting shall periodically invoice the Local Program for DEP's appropriate share.
c) When an application for a delegated facility is received by the Local Program without the required state fees (or with incorrect fees), the Local Program shall follow procedures consistent with Section 62-4.050(5), F.A.C., or its successor. All permit application fees and refunds of fees shall be processed in accordance with generally accepted accounting principles.

11.04 NON-DELEGATED PERMIT APPLICATIONS

When the Local Program receives a permit application, or notice requesting the use of a general permit for a non-delegated facility for which DEP is to take final agency action, the Local Program shall return the application and associated fees to the applicant with three (3) working days of receipt, with instructions to resubmit the application to DEP. The permit application timeclock shall not start until DEP receives the application and fees.

SUB-PART B – COMPLIANCE AND ENFORCEMENT

SECTION 12 – LEAD AND SUPPORT ROLES

a) DEP shall be the lead agency for compliance and enforcement activities related to delegated and non-delegated collection/transmission systems. Nothing in this SOA delegates compliance and enforcement authority to the Local Program. The Local Program may, at its discretion, serve a support role by providing technical and legal assistance as appropriate.
b) Information on actions taken by DEP shall be available to the Local Program upon request. Whenever either party requests information concerning a specific facility, the requested information shall be provided. If the required information is not available, the agency making the request shall be promptly notified.
c) The Local Program shall promptly forward all complaints from the public relating to DWW collection/ transmission systems compliance to DEP.
d) Nothing in this SOA shall prohibit either agency from taking enforcement action for violation of their respective laws, rules, regulation, and ordinances. For violations of similar requirements, DEP and the Local Program shall consider consolidation of the lawsuits.
e) DEP and the Local Program agree to cooperate with each other and with other agencies as appropriate during emergencies as defined in Section 252.34(2), F.S., and other abnormal events relating to DWW collection systems facilities.

PART IV
ADMINISTRATION OF THE SPECIFIC OPERATING AGREEMENT

SECTION 13 – INQUIRIES

Inquiries from the Governor's Office, Cabinet, and members of the Legislature regarding collection/transmission system permitting, shall be forwarded, as applicable, to the Local Program. For those collection/transmission systems delegated to the Local Program under this SOA, the Local Program shall respond, as applicable, to any inquiries from the Governor's Office, Cabinet, and members of the Legislature regarding collection/transmission system permitting within seven (7) days from receipt of any inquiry by the Local Program, and shall provide copies of the responses to DEP.

SECTION 14 - EFFECTIVE DATE AND MODIFICATION DATES

The effective date of this SOA shall be ninety (90) days after the execution date of this Agreement by all parties.
