Range of IU Inventory Data

Basic IU Information

- ID number/ NAICS code
- Name
- Facility (site) address
- Mailing address
- Billing address
- Contact(s) - name and title
- Telephone and facsimile numbers
- E-mail address
- Authorized representative(s)
- Jurisdiction
- Name of the owner/operator of facility

IU Classification

- SIU Definition Criteria
  - ◊ Subject to categorical pretreatment standards
  - ◊ Process discharge to WWF ☐25,000 GPD
  - ◊ Process discharge to WWF at ☐5% hydr
    or organic capacity of receiving WWF
  - ◊ Reasonable potential
  - ◊ NSCIU classification
- Non-SIU
  - ◊ Regulated
- Waste hauler

IU Operations

- Description
- Production
- Hours/days of operation, shifts/day and employees/shift
- Chemicals used/stored onsite
- Waste generated/disposal practices
  - ◊ Nature of waste
  - ◊ Date or frequency of disposal
  - ◊ Quantity disposed
  - ◊ Waste transporter
  - ◊ Destination
  - ◊ Manifest information
- Other:
  - ◊ Pollution prevention activities

Other environmental permits held

Discharge Point(s)

- Receiving
- Location in system
- Identifier
- Monitoring location(s)
  - ◊ ID
  - ◊ Description
  - ◊ Wastestream description
  - ◊ Pollutants present in discharge
  - ◊ Applicable standards
    - None
    - General and specific prohibitions
    - Categorical pretreatment standards or regulations
      - > Existing source vs. new source
      - > Adjustments
        - Wastestream types
        - Production volumes
    - Local limits
    - Surcharge levels
    - Exceptions
  - ◊ Discharge type
  - ◊ Discharge frequency
  - ◊ Pretreatment
    - Description
    - Maintenance
    - Diagram/plans
  - ◊ Flow metering equipment
    - Type(s)
    - Description
    - Measuring units
    - Multiplier
    - Totalizer reading and date
    - Calibration date
    - Comments
    - Other

Waste Hauler Information

- Truck ID
- Truck capacity
- Allowed discharge locations
- Allowed nature of waste

Manifest information
