

NPDES Stormwater Multi Sector Generic Permit Guidance

Sector C: Chemical and Allied Products Manufacturing Facilities

This document was published as a guide only and it does not include all the applicable legal requirements. Facility Operators are responsible for obtaining complete information about applicable regulations. The Department does not relieve any person from any requirements of federal regulations or Florida law though this guide. As this document is only a guide, facilities may find that some aspects contained in this publication may not be applicable in their case.

Sector C - Chemical and Allied Products Manufacturing Facilities of the Multi-Sector Generic Permit (MSGP) covers storm water discharges associated with industrial activities at facilities primarily engaged in the manufacture of chemicals and allied products. This sector of industry includes facilities which manufacture a broad range of products including plastic and synthetic materials, detergents, paints and varnishes, drugs, fertilizers and pesticides, adhesives, inks, explosives, artist's inks and paints, and organic and inorganic chemicals used for industrial purposes.

The following requirements were established by EPA under the nonstructural conditions to identify specific practices that must be implemented by all permittees:
