PROJECT: Vulnerability Assessment
RECIPIENT: City of St. Pete Beach
FRCP FUNDS: $70,000

SUMMARY: The goal of the Vulnerability Assessment is to evaluate the impacts of sea level rise and rainfall on facilities owned by the City, and to identify potential mitigation and adaptation strategies to protect them. The Vulnerability Assessment will be completed as part of the Coastal Resiliency Plan developed by Kimley-Horn and the City of St. Pete Beach in April 2019.
