PROJECT: Town of Longboat Key Sea Level Rise and Recurrent Flooding Vulnerability Assessment Phase 2
RECIPIENT: Town of Longboat Key
FRCP FUNDS: $45,443

SUMMARY: The Town of Longboat Key (Town) has entered into an Agreement with Aptim Environmental & Infrastructure Inc. (APTIM) to perform professional services for the Town of Longboat Key. Per Work Assignment 2018-01 (Phase1), APTIM provided a high-level assessment of potential impacts from sea level rise and recurrent flooding on public and private infrastructure in Longboat Key. This work effort included: Establishing a SLR Projection, limited field observations of low-lying neighborhoods, stormwater systems, and critical Town infrastructure, a Public Workshop, an Initial Assessment Report, and a Presentation of Findings. From this Phase 1 effort, it was determined by APTIM and ratified by consensus by the Town Commission that additional study, investigation, and planning was warranted.
