## 2023 Chemical Monitoring for Community Systems

System Name: City of Bradenton

PWS-ID No. 6410182

MONITORING & REPORTS		DUE	COMMENTS
Microbiological ("Bacteriological")		Monthly	Disinfectant residuals must be reported.
Nitrate and Nitrite		2023	Sample at each POE every year. *
Primary Inorganics		2023	Sample at each POE every year.
Secondaries		2023	Sample at each POE every three years.
Radiologicals	Gross Alpha	2031	Sample at each POE every three, six or nine years.
	Uranium	2031	Sample at each POE every three, six or nine years.
	Radium-226	2031	Sample at each POE every three, six or nine years.
	Radium-228	2031	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2023	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2 Quarters in 2023	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		Quarterly	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2025	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2023	CCR must be delivered by July 1, 2023. The CCR Certification of Delivery must be submitted to the Department by August 10, 2023. Use Form 62-555.900(alternate 19), F.A.C.
Cross Connection Control Annual Report		March 31, 2023	Complete and submit DEP form 62-555.900(13)

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2023 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2023 to provide time for revisions, re-tests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

2023 Chemical Monitoring for NTNC

Water System: Duette Elementary School

PWS-ID No. 6412425

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2023	Sample at each POE every year. *
Primary Inorganics		2025	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2025	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2025	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Dalapon (2031)		Annually in Q2 April - Jun	Sample at each POE, annually in Quarter 2 (Q2).
Hexachlorocyclopentadiene (2042)		Annually in Q2 April - Jun	Sample at each POE, annually in Quarter 2 (Q2).
2, 4-D (2105)		Annually in Q2 April - Jun	Sample at each POE, annually in Quarter 2 (Q2).
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July - Sept 2025	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2031	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2025	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Meter(s) Calibration		Last Calibration: Feb 28, 2022	Pursuant to 62-555.350(2) F.A.C. requires that water systems maintain and calibrate master meters in accordance to manufacturer specifications at no less than interval of every 5 years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2023 and may not include additional sampling required during the year due to special circumstances. 	Uranium	Quarterly	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Quarterly	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Quarterly	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2025	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2025	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July - Sept 2025	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2025	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Meter(s) Calibration		Last Calibration: Unknown	Pursuant to 62-555.350(2) F.A.C. requires that water systems maintain and calibrate master meters in accordance to manufacturer specifications at no less than interval of every 5 years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2023 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2023 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2023 Chemical Monitoring for NTNC  
PWS-ID No. 6412525

Water System: Myakka Park

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2023	Sample at each POE every year. *
Primary Inorganics		2025	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2024	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2025	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Toxaphene (2020)		Annually in Q2 April - Jun	Sample at each POE, annually in Quarter 2 (Q2).
Chlordane (2959)		Annually in Q2 April - Jun	Sample at each POE, annually in Quarter 2 (Q2).
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July - Sept 2025	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2031	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2025	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
