Remlap Ranch

Case No 00085-2023

Okeechobee County

This is a 6,706-acre cattle ranch along Taylor Creek outside the Lake Wales Ridge National Wildlife Refuge in Highlands County. It is primarily composed of improved pasture dominated by hemarthria and Bahia grasses with moderate native species interspersed throughout. There are isolated freshwater marshes, hydric hammocks and cabbage palm hammocks dominated by cabbage palm, live oaks, and palmetto. A slough runs through the western side of the property.

Best Management

Cow-calf. Enrolled 4/26/2023. NOI 341100492

BMP Agreement

Yes

Species Habitat

The Remlap property is an opportunity for conserving 6,706.1 acres in Okeechobee County and bolstering the connectivity between conservation lands along the Kissimmee River. The property is in a highly biodiverse region of Florida. It contains an array of vegetative communities that can provide habitat to support many of the region's imperiled species populations. The protection of this property is a natural extension of the protected lands occurring in the Northern Okeechobee Watershed and Lower Kissimmee Basin, facilitating landscape connectivity throughout the state. This property falls completely within Strategic Habitat Conservation Areas (Priorities 1-2),

defined as a high probability of suitable habitat for one or more rare or vulnerable species. The entire property falls within Priority 5 in linkage priorities for the Florida Ecological Greenways Network (FEGN). The FEGN designates hubs of ecological importance for creating a statewide wildlife corridor; levels 1-3 are part of the Florida Wildlife Corridor. Though the property is not considered a part of the Florida Wildlife Corridor, large tracts of contiguous land is necessary for the conservation of species with large home ranges to fulfill their food and reproductive requirements, such as the eastern indigo snake (*Drymarchon couperi*), Florida black bear (*Ursus americanus floridanus*), and Florida panther (*Puma concolor coryi*). The protection of this property would horizontally connect areas of high linkage priorities between the Kissimmee River and conservation easements to the east.

The Remlap property contains suitable habitat for a wide array of listed species occurring in the region. Most of its acreage is composed of improved pasture (5,438.1 acres), and although it is a heavily altered community, it offers breeding and foraging habitat for several wildlife species, some of which are imperiled. The protected species expected to occur on the Remlap Property are those that inhabit pastures, forested wetlands, and herbaceous marshes. The northern crested caracara (*Caracara cheriway*) has been documented nesting on the northern limits of the property. Additionally, the wood stork (*Mycteria americana*) is likely to occur based on the habitat present and surrounding the property. Other species that can benefit from the conservation of this property is the Florida burrowing owl (*Athene cunicularia floridana*), Florida sandhill crane (*Antigone canadensis pratensis*), and southeastern American kestrel (*Falco sparverius paulus*).

Patches of unimproved/woodland pasture occur in the northeastern corner of the property. This vegetative community has a well-developed canopy of live oak (*Quercus virginiana*), laurel oak (*Q. laurifolia*), slash pine (*Pinus elliotii*), and cabbage palm, an understory that is dominated by saw palmetto (*Serenoa repens*), blackberry (*Rubus*

sp.), palms and ferns, and little to no ground cover. This community can provide potential habitat for the white-tailed deer (*Odocoileus virginianus*), Osceola wild turkey (*Meleagris gallopavo osceola*), and southern fox squirrel (*Sciurus niger niger*). Both unimproved/woodland and improved pastures function as important links for wide-ranging species such as the eastern indigo snake, Florida black bear, and Florida panther.

Isolated freshwater marshes are found throughout the ranch. These systems usually have a long hydroperiod and form isolated wetlands throughout the pastures and mesic forests. They have very poorly drained, mucky, and/or depressional soils that are frequently flooded and support herbaceous emergent aquatic plant species. Species common to these marshes are arrowhead (*Sagittaria* spp.), pickerelweed (*Pontederia cordata*), water lily (*Nymphaea* spp.), and alligator flag (*Thalia geniculata*). When hydrology allows, these wetlands provide habitat for the American alligator (*Alligator mississippiensis*), eastern indigo snake, state Florida state-listed wading birds, and resident and migratory waterbirds.

Dry prairie is an imperiled (G2) and underrepresented ecosystem that is found within this property in small patches on the southwestern corner. This habitat is a treeless vegetative community with low cover of shrubs and herbs. Wiregrass (*Aristida stricta*), dwarf live oak (*Quercus minima*), saw palmetto (*Serenoa repens*), bottlebrush threeawn (*Aristida spiciformis*), and broomsedge bluestem (*Andropogon virginicus*) are the dominant vegetation. This property falls within the historical range of the Florida grasshopper sparrow (*Ammodramus savannarum floridanus*); however, this species is not likely to occur in the small tracts of remnant prairie. This community can provide habitat for the gopher tortoise (*Gopherus polyphemus*), Bachman's sparrow (*Peucaea aestivalis*), eastern meadowlark (*Sturnella magna*), wintering habitat for savannah sparrow (*Passerculus sandwichensis*), eastern grasshopper sparrow (*Ammodramus savannarum pratensis*), among other grassland birds that are facing nationwide population declines.

Several state-listed species can potentially occur on the Remlap property: Florida burrowing owl (*Athene cunicularia floridana*), Florida sandhill crane (*Gus canadensis pratensis*), southern fox squirrel (*Sciurus niger niger*), and southeastern American kestrel (*Falco sparverius paulus*). Additionally, threatened plant species that are likely to occur on the property are the giant orchid (*Pteroglossaspis ecristata*), many-flowered grass-pink (*Calopogon multiflorus*), nodding pinweed (*Lechea cernua*). Endangered plant species likely to occur on this property include celestial lily (*Nemastylis floridana*), sand butterfly pea (*Centrosema arenicola*), cutthroat grass (*Coleataenia abscissa*), Small's flax (*Linum carteri* var. *smallii*), and yellow fringeless orchid (*Platanthera integra*).

Water Resource Values and Benefits

The Remlap property is located less than 14 miles northwest of Lake Okeechobee, and it is found within the northern Okeechobee inflow sub basin; part of the larger Lake Okeechobee watershed. It provides a protective buffer to Sandfly Gully and Taylor Creek from the intensive agricultural and residential areas in the vicinity, improving water quality flowing into Lake Okeechobee. A series of interconnected ditches are found throughout the property, draining the pastures and groves and flowing south into Sandfly Gully and Taylor Creek. Ultimately, the conservation of this property will reduce nutrients flowing into Lake Okeechobee.

Several isolated freshwater marshes are found throughout the property. These marshes offer ecological services to the surrounding areas such as flood control and water purification for people and wildlife. The conservation of this property will contribute to enhanced water quality, aquifer recharge, flow attenuation, and flood hazard reduction. The property lies within the Kissimmee River Basin, which is a major source of groundwater recharge for the Floridan Aquifer, the largest and most productive aquifer in the state. The ranch helps to maintain the natural hydrology of the basin by allowing water to infiltrate into the soil and replenish the aquifer. The conversion of this property to anything other than its present state would diminish the amount of water that is entering the aquifer and would build runoff, causing floodings around the area.

Development Impacting Continuation of Agricultural Activities

The primary threat to the property is urban sprawl radiating from Okeechobee and the east coast of Florida. Residential development of this area is a highly likely future scenario as large rural residential communities are increasingly common in Okeechobee County, especially in this immediate area.

Natural Resources

The primary threat to the property is urban sprawl radiating from Okeechobee and the east coast of Florida. Residential development of this area is a highly likely future scenario as large rural residential communities are increasingly common in Okeechobee County, especially in this immediate area. More intensive development would negatively impact the Kissimmee River Basin and the aquifer.

Interest Statement

The Palmer Family wishes to conserve natural resources, their agricultural legacy and the local agricultural economy. They are interested in ensuring the continuation of a multi-generational family cattle operation so that it remains sustainable for future generations.

Property Rights to be Acquired

The Palmer Family wants to ensure the continuation of agricultural and other income generating activities on this property. They wish to retain the right to subdivide, pursuant to RFLPP regulations. They also wish to build additional residences and will work with RFLPP to determine the specifics on residences and subdivisions. They wish to conduct compatible activities, consistent with the RFLPP requirements and regulations. NOTE: The Palmer Family may slightly reduce the size of the boundary of the conservation easement; any reduction will be small and reasonable and be decided upon in cooperation with RFLPP staff.

Rural and Family Lands Protection Program Additional Information

Please answer the following questions about your agricultural operation, as they apply, and include any additional documents, photos, maps, etc.

Date _____

Project Name _____

Case Number RFLPP-_____

Landowner Name and Phone number _____

Physical Address of the Project _____

Agent Name and Phone number _____

Contact Name and Phone number for Site Visit _____

10	Do you use prescribed fire as an important land management tool? (Use scale) <i>Yes</i>	1=Very Important; 3=Moderately Important; 5=Not Important; Not applicable <i>3</i>
11	Are there effects of natural disasters evident on the property? (Use scale) <i>Yes</i>	1=None; 3=Moderate; 5=Severe; Brief description: <i>2 Some washouts, culverts</i>
12	Without RFLPP or similar acquisition, what is the chance this property will be in agricultural operations in 50 years? (Use scale)	1=100%; 3=50%; 5=0% <i>2 my children all want it to be.</i>
13	Do you view your livestock herd management practices to be: (Use scale) <i>5</i>	1=Inadequate; 3=Adequate; 5= Excellent; Not Applicable <i>5</i>
14	Are there non-family hunting or fishing leases on the property? <i>No</i>	1=Yes; 2= No <i>2</i>
15	How intensely do you control feral hogs on your property? (Use scale) <i>2</i>	None present; 1=Very (frequent, multiple control methods); 3=Moderately; 5=No Control
16	How intensively are invasive plant species (cogon grass, smutgrass, climbing fern, etc.) being controlled? (Use scale) <i>1</i>	None present; 1=Very (frequent, multiple control methods); 3=Moderately; 5=No Control
17	For all operations, how would you characterize the severity of soil erosion (gullies, washouts, rills, etc.)? (Use scale) <i>2</i>	1=None; 3=Moderate; 5=Severe; Brief description:
18	Have you received any awards related to the agricultural operation in the last 10 years? <i>None</i>	None; More than 1; Local; State; National; Briefly describe:
19	For livestock, what is the general condition of the herd? (Use scale) <i>5</i>	1=Inadequate; 3=Adequate; 5= Excellent; Not Applicable
20	For timber, plant nurseries and produce, what is the general plant vigor or health of crops/stands? (Use scale) <i>Not Applicable</i>	1=Inadequate; 3=Adequate; 5= Excellent; Not Applicable

Please provide the following additional information by circling answers/filling in:

	Questions	Answers (circle all that apply and fill in as appropriate)
1	Types of primary agricultural operations onsite? <i>Cattle, hay, so</i>	Cattle; other livestock; row crops; plant/tree nursery; timber; other forest products; citrus; other fruit; sod; hay; Other:
2	Types of secondary ag-related income on the site? <i>Sod</i>	Bees; small vegetable plots; secondary sod; hay; Other:
3	This property is used for: <i>Primary source of income</i>	Primary source of income; primary residence; weekend retreat; recreation; investment; prevent future development; land appreciation
4	Do you have historical resources and/or structures on the property? (Use scale)	None; 1; 2; 3 or more; Brief description:
5	Constraints to Ag Operation? <i>Market fluctuation, equipment limitations, Labor cost and availability,</i>	Encroachment of development; market fluctuations, materials and equipment limitations, labor cost and availability, pests and pathogens, extreme weather
6	Of the top constraint, how severe is it to your ongoing operation? <i>3</i>	1=Not very severe; 3=Moderate; 5=Very severe
7	What do you view as the biggest threats to this operation? <i>Residential/commercial development, Financial Constraints, surrounding land values</i>	Residential/commercial development; financial constraints; surrounding land values; disinterest from younger generations; market for products
8	How closely does this operation follow a Management or Stewardship Plan? (Use scale) <i>1</i>	1=Very Closely; 3=Somewhat; 5=Not Followed or Not Applicable
9	Severity of current problems with pests or pathogens? (Use scale) <i>1</i>	1=None; 3=Moderate; 5=Severe

**Department of Agriculture and Consumer Services
2023 Rural and Family Lands Protection Project**

Uniform Technical Review and Evaluation Report

Agency/Division: **DOACS Animal Industry**

Technical Team Point of Contact: Meghan Garcia

Date: 10/3/2023

Project / Property: Remlap Ranch

Acres: 6706

County: Okeechobee

Please score this project using a numerical scale of 1 to 10 to describe the benefit of this project to the following measures, where 1 is lowest threat/use/benefit and 10 is the highest threat/use/benefit to achieving the RFLPP Program Goals and Objectives. For Program benefits that are not applicable to your Agency, please score with "N/A" to denote it is not applicable.

1. Assessment of the viability of agricultural activities and operations of property:
Not Applicable _____ Benefit Score 10

2. Assessment of overall condition of crops, livestock, or timber resources on property:
Not Applicable _____ Benefit Score 10

3. Assessment of the overall natural resources of property:
Not Applicable _____ Benefit Score 10

4. Assessment of wildlife habitat attributes of property:
Not Applicable _____ Benefit Score 9

5. Assessment of water bodies, aquifer recharge areas, springsheds or wetlands on property:
Not Applicable X Benefit Score _____

6. Assessment of overall hydrologic function on property:
Not Applicable X Benefit Score _____

7. Assessment of the connectivity of this Project to other agricultural lands:
Not Applicable _____ Benefit Score 10

8. Assessment of the connectivity of this Project as buffer to other conservation lands, ecological greenways, wildlife corridors, functioning ecosystems, or military installations:
Not Applicable ☒ Benefit Score _____
9. Assessment of threat to conversion of this property to non-agricultural uses or potential for development negatively impacting agriculture:
Not Applicable _____ Threat Score 8
10. Assessment of historical resources, including sites, viewsheds, or structures known or observed on the property:
Not Applicable _____ Benefit Score 9
11. Assessment of intensity of hunting, fishing, or other recreational activities on property:
Not Applicable _____ Use Score 9
12. Assessment of control of invasive, non-native plant or animal species on property:
Not Applicable ☒ Benefit Score _____
13. Assessment of prescribed fire regime on property:
Not Applicable ☒ Use Score _____
14. Assessment of range management regime on property:
Not Applicable _____ Use Score 9
15. Assessment of fertilizer management regime on property:
Not Applicable ☒ Use Score _____
16. Known existence of state or federally listed plant or animal species on property:
Not Applicable ☒ Benefit Score _____
17. Assessment of overall condition of agricultural infrastructure (fencing, pens, farm buildings, etc.) on property:
Not Applicable _____ Benefit Score 9
18. Confirm whether the property is within an agricultural area as determined:
- Pursuant to Section 163.3177(6)(a), Florida Statutes; ☐ Yes ☐ No
 - Is within a rural land stewardship area pursuant to Section 163.3248, FS; ☐ Yes ☐ No
 - Is classified as agricultural pursuant to Section 193.461, FS; or ☐ Yes ☐ No
 - Is part of an Agricultural Cooperative ☐ Yes ☐ No
- 18) N/A for Animal Industry**
- (See additional page to provide supplementary comments)

19. Please succinctly provide any additional assessments, observations, or information not covered in items 1 – 18:

- Current Premise has been in family for 22 years after loss of previous location to eminent domain.
- Some hay and approximately 1700 head of cattle in cow/calf commercial breeding operation being operated onsite.
- Rotational grazing utilized, with ample recovery and no overgrazing observed.
- Low intensity grazing with supplemental minerals and molasses provided year round.
- Water flow infrastructure maintained, and improvements made where needed.
- Facility currently maintains active mitigation practices and land management.
- FDACS BMP program- currently followed throughout.
- Abundant wildlife observed during the inspection.
- Plentiful habitat and easements for wildlife observed, and currently has an easement for Grasshopper sparrow.
- All infrastructure, including gates, fencing, original residence circa 1950, farm buildings, cattle pens were maintained and in very good working order.
- There were minimal amounts of cogon grass, smut grass, and tropical soda apple observed. Ongoing treatment and mitigation appear to be successful.

Remlap Ranch

South Region (Okeechobee County)

Site Visit Summary:

- 6,706-acre cattle ranch along Taylor Creek outside the Lake Wales Ridge National Wildlife Refuge in Highlands County.
- Primarily composed of improved pasture dominated by hemarthria and bahia grasses with moderate native species interspersed throughout.
- Isolated freshwater marshes with limited native species and some non-native invasive species are scattered across the property.
- Hydric hammocks and cabbage palm hammock dominated by cabbage palm, live oaks, and palmetto are associated with Taylor Creek to the east and become more mesic towards the edges, where they contain limited native species.
- A slough runs through the western side of the property bordered by areas classified as dry prairie. However, dry prairie areas were inaccessible at the time of the survey.
- 2 crested caracaras were observed on the property outside of the hydric hammocks.

OPTION AGREEMENT FOR SALE AND PURCHASE

THIS OPTION AGREEMENT FOR SALE AND PURCHASE ("Agreement") is made this ____ day of _____, 202__, between STEVE PALMER and JENNIFER SMITH PALMER, a married couple, WESTON REID PALMER; a married man, SAVANAH PALMER REICHEL, a married woman, and SUMMER MORGAN HENDERSON a/k/a SUMMER HENDERSON a married woman, whose address is 948 Dansby Road, Wauchula, Florida 33873 as ("Seller") and the BOARD OF TRUSTEES OF THE INTERNAL IMPROVEMENT TRUST FUND OF THE STATE OF FLORIDA, whose address is Florida Department of Agriculture and Consumer Services ("FDACS"), Rural and Family Lands Protection Program, 315 South Calhoun Street, Suite 500, Tallahassee, Florida 32301-1843, as "Buyer". Buyer's agent in all matters shall be the Rural and Family Lands Protection Program.

1. **GRANT OF OPTION.** Seller hereby grants to Buyer the exclusive option to purchase a perpetual conservation easement (the "Easement") in the entirety of the real property located in Okeechobee County, Florida, described in Exhibit "A" (the "Property"), in accordance with the provisions of this Agreement. This Agreement becomes legally binding on execution of this Agreement, but exercise of the option is subject to approval by Buyer and is effective only if FDACS gives written notice of exercise to Seller.

2. **OPTION TERMS.** The consideration for the option granted by this Agreement is \$100.00 ("Option Payment"). Upon execution of this Agreement by FDACS, FDACS will apply to the Chief Financial Officer for a state warrant in the amount of the Option Payment, which will be forwarded to the escrow agent to hold for the benefit of Seller. The Option Payment is non-refundable such that Seller shall be entitled to retain the Option Payment regardless of whether Buyer exercises the Option; provided, however, the Option Payment shall be credited toward the purchase price at closing if Buyer timely exercises the option as discussed below. The option may be exercised during the period beginning with Buyer's written notice of approval of this Agreement and ending 120 days after Buyer's approval of this Agreement ("Option Expiration Date"), unless extended by written agreement or other provisions of this Agreement. If Buyer's funds in the amount of the purchase price (as hereinafter defined in paragraph 3.A.) are not available by the Option Expiration Date the period of exercise of the option may be extended until such funds become available, not to exceed 60 days after the Option Expiration Date, by written notice to Seller. If Buyer's funds are not available at the end of the extension, then this Agreement shall terminate and neither party shall have further obligations under the provisions of this Agreement. If Buyer does not exercise its option by the Option Expiration Date, as extended if applicable, then the escrow agent is directed to release and disburse the Option Payment to Seller the following day. If Buyer does timely exercise its option, then escrow agent shall credit the Option Payment toward the purchase price paid by Buyer at closing.

3.A. **PURCHASE PRICE.** The purchase price for the Easement is THIRTY-TWO MILLION, ONE HUNDRED THOUSAND AND 00/100 DOLLARS (\$32,100,000) ("Initial Purchase Price") which, after credit for the Option Payment, will be paid at closing. Seller hereby authorizes Buyer to issue a state warrant for the Purchase Price directly to an escrow agent who is authorized by law to receive such payment, and who is acceptable to Buyer, and to require the escrow agent to pay Seller's expenses of sale and real estate taxes. The Initial Purchase Price is subject to adjustment in accordance with paragraph 3.B. This Agreement is contingent upon approval of the Final Adjusted Purchase Price, hereinafter defined, by Buyer and upon confirmation that the Final Adjusted Purchase Price is not in excess of the maximum value of the Easement as determined in accordance with Sections 570.71-715, Florida Statutes, and Rule 5I-7.009, Florida Administrative Code, ("FDACS Approved Value"). The determination of the FDACS Approved Value and the Final Adjusted Purchase Price can only be made after the completion and FDACS approval of the survey required in paragraph 6.

3.B. **ADJUSTMENT OF PURCHASE PRICE.** If, prior to closing, FDACS determines that the Initial Purchase Price exceeds the FDACS Approved Value of the Easement, the Initial Purchase Price will be reduced to the FDACS Approved Value of the Easement (herein the "Final Adjusted Purchase Price"). If the Final Adjusted Purchase Price is less than 97% of the Initial Purchase Price because of the adjustment provided for in this paragraph, Seller shall, in Seller's sole discretion, have the right to terminate this Agreement and neither party shall have any further obligations under this Agreement. If Seller elects to terminate this Agreement, Seller shall provide written notice to FDACS of Seller's election to terminate this Agreement within 10 days after Seller's receipt of written notice from FDACS of the Final Adjusted Purchase Price. If Seller fails to give Buyer a written notice of termination within the aforesaid time

period from receipt of FDACS written notice, then Seller shall be deemed to have waived any right to terminate this Agreement based upon a reduction in the Initial Purchase Price pursuant to the provisions of this paragraph 3.B. The Final Adjusted Purchase Price as calculated in this paragraph 3.B. is subject to further adjustment in accordance with the provisions of this Agreement. The Initial Purchase Price and the Final Adjusted Purchase Price, whichever is applicable depending on whether or not an adjustment has occurred under the provisions of this paragraph 3.B., are hereinafter referred to as the "Purchase Price".

4. ENVIRONMENTAL SITE ASSESSMENT. Buyer, prior to the exercise of the option and at its sole cost and expense, may conduct an environmental site assessment of the Property to determine the existence and extent, if any, of any Hazardous Materials on the Property. If further investigations, testing, monitoring or environmental site assessments are required by FDACS to determine the existence or extent of Hazardous Materials on the Property, Buyer, at its sole option may elect to extend the Option Expiration Date to conduct such procedures at the Buyer's sole cost and expense. For purposes of this Agreement "Hazardous Materials" shall mean any hazardous or toxic substance, material or waste of any kind or any other substance which is regulated by any Environmental Law (as hereinafter defined in paragraph 5.)

5. HAZARDOUS MATERIALS. If the environmental site assessment provided for in paragraph 4 confirms the presence of Hazardous Materials on the Property, Buyer, at its sole option, may elect to terminate this Agreement and neither party shall have any further obligations under this Agreement. Should Buyer elect not to terminate this Agreement, Seller shall, at Seller's sole cost and expense and prior to the exercise of the option and closing, promptly commence and diligently pursue any assessment, clean up and monitoring of the Property necessary to bring the Property into full compliance with Environmental Law to FDACS' satisfaction in its sole discretion. "Environmental Law" shall mean all federal, state and local laws, including statutes, regulations, ordinances, codes, rules, judgments, orders, decrees, permits, concessions, grants, franchises, licenses, agreements and other governmental restrictions relating to the protection of the environment or human health, welfare or safety, or to the emission, discharge, seepage, release or threatened release of any contaminant, solid waste, hazardous waste, pollutant, irritant, petroleum product, waste product, radioactive material, flammable or corrosive substance, carcinogen, explosive, polychlorinated biphenyl, asbestos, hazardous or toxic substance, material or waste of any kind into the environment, including, without limitation, ambient air, surface water, ground water, or land including, but not limited to, the Federal Solid Waste Disposal Act, the Federal Clean Air Act, the Federal Clean Water Act, the Federal Resource and Conservation and Recovery Act of 1976, the Hazardous and Solid Waste Amendments of 1984, the Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980, the Federal Superfund Amendments and Reauthorization Act of 1986, Chapters 161, 253, 373, 376 and 403, Florida Statutes, Rules of the U.S. Environmental Protection Agency, Rules of the Florida Department of Environmental Protection, and the rules of the Florida water management districts now or at any time hereafter in effect. However, should the estimated cost to Seller of clean up of Hazardous Materials exceed a sum which is equal to 3% of the Initial Purchase Price as stated in paragraph 3.A. Seller may elect to terminate this Agreement and neither party shall have any further obligations under this Agreement. If Hazardous Materials on the Property prior to closing are discovered after closing, Seller shall remain obligated hereunder, with such obligation to survive the closing, delivery, and recording of the Easement described in paragraph 9 of this Agreement, to diligently pursue and accomplish the cleanup of Hazardous Materials in a manner consistent herein and with all applicable Environmental Laws to FDACS' satisfaction in its sole discretion, and at Seller's sole cost and expense.

Further, if neither party elects to terminate this Agreement as provided above, Seller shall indemnify and save harmless and defend Buyer, its officers, servants, agents, and employees from and against any and all claims, suits, actions, damages, liabilities, expenditures or causes of action of whatsoever kind arising from Hazardous Materials on the Property prior to closing. Seller shall defend, at Seller's sole cost and expense, any legal action, claim or proceeding instituted by any person against Buyer as a result of any claim, suit, or cause of action for injuries to body, life, limb or property for which Hazardous Materials on the Property are alleged to be a contributing legal cause. Seller shall save Buyer harmless from and against all judgments, orders, decrees, attorney's fees, costs, expenses, and liabilities in and about any such claim, suit, investigation, or defense thereof, which may be entered, incurred or assessed as a result of the foregoing.

The limitation herein on Seller's contractual obligation to indemnify Buyer as specified in this paragraph 5 shall not be construed to limit Seller's legal liability under any Environmental Law for Hazardous Materials located on the Property or to limit Buyer's legal and equitable remedies against Seller under any Environmental Law for Hazardous Materials located on the Property.

6. SURVEY. Buyer may have the Property surveyed at its expense. If the survey ("Survey"), certified by a professional surveyor and mapper licensed by the State of Florida, shows any reduction in acreage from the appraised

acreage to the surveyed acreage, any encroachment on the Property or that improvements intended to be located on the Property encroach on the land of others, the same shall be treated as a title defect.

7. TITLE INSURANCE. Buyer may provide a marketable title insurance commitment, to be followed by an owner's marketable title insurance policy (ALTA Form "B" with Florida revisions) from a title insurance company approved by FDACS, insuring marketable title to the Easement in the amount of the Purchase Price at Buyer's expense.

8. DEFECTS IN TITLE. If the title insurance commitment or Survey furnished pursuant to this Agreement discloses any defects in title which are not acceptable to Buyer, Seller shall, within 90 days after notice from Buyer, remove said defects in title. Seller agrees to use diligent effort to correct the defects in title within the time provided therefor, including the bringing of necessary suits. Defects arising from liens against the Property shall be satisfied at closing from Seller's proceeds. If Seller is unsuccessful in removing the title defects within said time, Buyer shall have the option to either: (a) accept the title as it then is with a reduction in the Purchase Price by an amount determined by FDACS, (b) accept the title as it then is with no reduction in the Purchase Price, (c) extend the amount of time Seller has to remove the defects in title, (d) cut out the affected portion of the Property and reduce the Purchase Price by an amount equal to the product of the Purchase Price per acre for the acres being cut out, multiplied by the acreage cut out, or (e) terminate this Agreement, thereupon releasing Buyer and Seller from all further obligations under this Agreement. If Seller fails to make a diligent effort to remove the title defects, Seller shall be in default and the provisions of paragraph 18 of this Agreement shall apply.

9. INTEREST CONVEYED. At closing, Seller shall execute and deliver to Buyer a perpetual, enforceable conservation easement in substantially the same form as attached hereto as Exhibit "B," free and clear of all liens, reservations, restrictions, easements, leases, tenancies and other encumbrances, except for those that are acceptable encumbrances in the sole discretion of Buyer and do not impair the marketability of the title to the Easement.

9.1 SUBORDINATION. If at the time of conveyance of the Easement, the Property is subject to a mortgage or other liens and encumbrances not accepted by Buyer and Seller elects to subordinate such encumbrances rather than satisfy them at closing, Seller shall obtain the agreement of the holder of such encumbrances, by separate instrument that will be recorded immediately after the Easement, to subordinate its rights in the Property to the Easement to the extent necessary to permit the Buyer to enforce the purpose of the Easement in perpetuity and to prevent any modification or extinguishment of the Easement by the exercise of any superior rights of the holder. The priority of any existing mortgage with respect to any valid claim on the part of the mortgage holder to the proceeds of any sale, condemnation proceedings, or insurance or to the leases, rents, and profits of the Property shall not be affected by the Easement, and any lien that may be created by Buyer's exercise of any of its rights under this Agreement or by Buyer's rights under the provisions of the Easement shall be junior to any such existing mortgage. Upon request, Buyer agrees to subordinate its rights under this Agreement and the Easement to the rights of any future mortgage holders or beneficiaries of deeds of trust to the proceeds, leases, rents, and profits described above and likewise to subordinate its rights under any lien and to execute any documents required with respect to such subordination, except that the priority of any lien created by Buyer's exercise of any of its rights under this Agreement or Buyer's rights under the provisions of the Easement prior to the creation of a mortgage or deed of trust shall not be affected thereby, nor shall this Agreement or the Easement be subordinated in any other respect.

10. PREPARATION OF CLOSING DOCUMENTS. Upon execution of this Agreement, Seller shall submit to Buyer a properly completed and executed beneficial interest affidavit and disclosure statement as required by Sections 286.23 and 380.08(2), Florida Statutes. Buyer shall prepare the easement described in paragraph 9 of this Agreement, Buyer's and Seller's closing statements and the title, possession and lien affidavit certified to Buyer and title insurer and an environmental affidavit on FDACS forms provided by FDACS.

10.1 BASELINE DOCUMENTATION. Buyer shall prepare baseline documentation adequately documenting the condition of the Property, which Baseline shall be signed by Seller at or prior to the date of closing. The cost of the baseline documentation shall be borne by Buyer. If the form of conservation easement provides for use of a management plan, the management plan shall be prepared as a part of the baseline documentation and the cost therefore absorbed in the same manner the cost of the baseline documentation is absorbed.

11. FDACS REVIEW FOR CLOSING. FDACS will approve or reject each item required for closing under this Agreement. If FDACS rejects an item for closing which was submitted by the Seller, Seller will have 30 days thereafter to remove and resubmit any rejected item. If Seller fails to timely deliver any items required of Seller, or FDACS rejects any item after delivery, the Option Expiration Date shall be extended until FDACS approves Seller's documents or until Buyer elects to terminate the Agreement.

12. EXPENSES. Seller will pay the documentary revenue stamp tax and all other taxes or costs associated with the conveyance, including the cost of recording the Easement described in paragraph 9. of this Agreement and any other recordable instruments that FDACS deems necessary to assure good and marketable title to the Easement.
13. TAXES AND ASSESSMENTS. Seller shall be responsible for paying all real estate taxes and assessments applicable to the Property that are legally due and payable.
14. CLOSING PLACE AND DATE. The closing shall be on or before 15 days after Buyer exercises the option; provided, however, that if a defect exists in the title to the Property, title commitment, Survey, environmental site assessment, or any documents required to be provided or completed and executed, the closing shall occur either on the original closing date or within 60 days after receipt of documentation removing the defects, whichever is later. Buyer shall set the date, time and place of closing.
15. RISK OF LOSS AND CONDITION OF PROPERTY. Seller assumes all risk of loss or damage to the Property and warrants that the conservation easement shall be transferred and conveyed to Buyer with the Property in the same or essentially the same condition as of the date of Seller's execution of this Agreement, ordinary wear and tear excepted. If the condition of the Property is altered, by an act of God or other natural force beyond the control of Seller, however, Buyer may elect, at its sole option, to terminate this Agreement and neither party shall have any further obligations under this Agreement. Seller represents and warrants that there are no parties other than Seller in occupancy or possession of any part of the Property. Seller warrants that there are no facts known to Seller materially affecting the value of the conservation easement or the Property that are not readily observable by Buyer or which have not been disclosed to Buyer.
- Seller agrees to clean up and remove all abandoned personal property, refuse, garbage, junk, rubbish, trash, and debris (hereafter, "trash and debris") from the Property to the satisfaction of FDACS prior to the exercise of the option by Buyer. If the Seller does not remove all trash and debris from the Property prior to closing, Buyer at its sole option, may elect to: (a) deduct the expense necessary to remove trash and debris from the Seller's proceeds of sale up to but not to exceed 3% of the Initial Purchase Price and proceed to close, with the Buyer incurring any additional expenses necessary to remove all trash and debris and clean up the Property subsequent to closing, (b) extend the amount of time the Seller has to remove all trash and debris from the Property, (c) terminate this Agreement, and neither party shall have any further obligations under the Agreement.
16. RIGHT TO ENTER PROPERTY. Seller agrees that from the date this Agreement is executed by Seller through Closing, Buyer, and its agents, upon reasonable notice, shall have the right to enter the Property for all lawful purposes in connection with this Agreement.
17. ACCESS. Seller warrants that there is legal and practical ingress and egress for the Property over public roads or valid, recorded easements for the use and benefit of and as an appurtenance to the Property.
18. DEFAULT. If Seller defaults under this Agreement, Buyer may waive the default and proceed to closing, seek specific performance, or refuse to close and elect to receive the return of any money paid, each without waiving any action for damages, or any other remedy permitted by law or in equity resulting from Seller's default.
19. BROKERS. Seller warrants that no persons, firms, corporations or other entities are entitled to a real estate commission or other fees as a result of this Agreement or subsequent closing, except as accurately disclosed on the disclosure statement required in paragraph 10. Seller shall indemnify and hold Buyer harmless from any and all such claims, whether disclosed or undisclosed.
20. RECORDING. Buyer may record this Agreement, or notice of it, in the appropriate county or counties.
21. ASSIGNMENT. This Agreement may be assigned by Buyer, in which event Buyer will provide written notice of assignment to Seller. Seller may not assign this Agreement without the prior written consent of Buyer.
22. TIME. Time is of essence with regard to all dates or times set forth in this Agreement.
23. SEVERABILITY. If any of the provisions of this Agreement are deemed to be unenforceable and the unenforceability of said provisions does not adversely affect the purpose and intent of this Agreement, in Buyer's sole discretion, the enforceability of the remaining provisions of this Agreement shall not be affected.

24. SUCCESSORS IN INTEREST. This Agreement shall bind and inure to the benefit of Seller and Buyer and their respective heirs, legal representatives, and successors. Whenever used, the singular shall include the plural and one gender shall include all genders.
25. ENTIRE AGREEMENT. This Agreement contains the entire agreement between the parties pertaining to the subject matter contained in it and supersedes all prior and contemporaneous agreements, representations, and understandings of the parties. No supplement, modification or amendment to this Agreement shall be binding unless executed in writing by the parties. Notwithstanding the foregoing, the parties acknowledge that the legal description contained in Exhibit "A" was prepared based upon historic chain of title information, without the benefit of a current survey of the Property. The parties agree that if, in the opinion of FDACS, it becomes necessary to amend the legal description of the Property to correct errors, to more properly describe the Property, to cut out portions of the Property affected by title defects unacceptable to Buyer or which cannot be timely cured by the Seller, or to otherwise revise the legal description of the Property, the legal description to be used in the Survey (if any) and in the closing instruments required by this Agreement shall be revised by or at the direction of FDACS, and shall be subject to the final approval of FDACS. Anything to the contrary hereinabove notwithstanding, such a revision of the legal description of the Property shall not require a written amendment to this Agreement. In such event, the Seller's execution and delivery of the closing instruments containing the revised legal description and the Buyer's acceptance of said instruments and of the final Survey (if any) containing the revised legal description shall constitute a full and complete ratification and acceptance of the revised legal description of the Property by the parties.
26. WAIVER. Failure of Buyer to insist upon strict performance of any covenant or condition of this Agreement, or to exercise any right herein contained, shall not be construed as a waiver or relinquishment for the future of any such covenant, condition or right; but the same shall remain in full force and effect.
27. COUNTERPARTS. This Agreement may be executed in one or more counterparts, but all such counterparts, when duly executed, shall constitute one and the same Agreement.
28. ADDENDUM. Any addendum attached hereto that is signed by the parties shall be deemed a part of this Agreement.
29. NOTICE. Whenever either party desires or is required to give notice unto the other, it must be given by written notice, and either delivered personally, transmitted via facsimile transmission or email, mailed postage prepaid, or sent by overnight courier to the following address:
- For Seller:
Steve Palmer
948 Dansby Road
Wauchula, Fl. 33873
- For Buyer:
FDACS – Rural and Family Lands Protection Program
315 South Calhoun Street, Suite 500
Tallahassee, Florida 32301-1843
Attn: Director
30. CERTIFICATION REGARDING TERRORISM. Seller hereby certifies that to the best of Seller's knowledge, after making all appropriate inquiries, Seller is in compliance with, and shall use all funds derived from the sale of the Easement in compliance with all applicable anti-terrorism laws, regulations, rules and executive orders, including but not limited to, the USA Patriot Act of 2001, 18 U.S.C. sections 2339A-C, and U.S. Presidential Executive Orders 12947 and 13224.
31. SURVIVAL. The covenants, warranties, representations, indemnities, and undertakings of Seller set forth in this Agreement shall survive the closing, the delivery and recording of the Easement described in paragraph 9 of this Agreement.
32. LIKE-KIND EXCHANGE. Seller may desire to effectuate a like-kind exchange ("Exchange") under Section 1031 of the Internal Revenue Code in connection with this sale of the Easement. Buyer agrees to use reasonable efforts to accommodate Seller in effectuating an Exchange, subject to each of the following provisions: (1) the Exchange does not directly or indirectly increase the Final Adjusted Purchase Price; (2) the Exchange will not delay or otherwise adversely affect the closing; (3) there is no loss, cost, damage, tax, expense, or adverse consequence incurred by Buyer

resulting from, or in connection with, the Exchange; (4) all documents to be executed by Buyer in connection with the Exchange must be subject to the approval of Buyer, which approval must not be unreasonably withheld provided that Seller has otherwise fully complied with the terms of this paragraph, and must expressly state, without qualification, "Buyer is acting solely as an accommodating party to the Exchange, Buyer will have no liability with respect to it, and is making no representation or warranty that the transactions qualify as a tax-free exchange under Section 1031 of the Internal Revenue Code, or any applicable state or local laws"; and (5) other than with respect to the Easement or the Property, in no event must Buyer be obligated to acquire any property or otherwise be obligated to take title, or appear in the records of title, to any property in connection with the Exchange. Seller shall indemnify and hold harmless Buyer from and against all claims, losses, costs, damages, taxes, and expenses incurred after the date of this Agreement in connection with the Exchange or Buyer's cooperation with Seller to effectuate the Exchange. Seller acknowledges that Buyer has made no representations or warranties concerning the tax consequences or effect of the Exchange.

IF THIS AGREEMENT IS NOT EXECUTED BY THE SELLER, ON OR BEFORE **AUGUST 22, 2025**, BUYER SHALL BE UNDER NO OBLIGATION TO ACCEPT THIS AGREEMENT. THE EXERCISE OF THE OPTION PROVIDED FOR HEREIN IS SUBJECT TO: (1) CONFIRMATION THAT THE PURCHASE PRICE IS NOT IN EXCESS OF THE FDACS APPROVED VALUE OF THE EASEMENT, AND (2) FDACS APPROVAL OF ALL DOCUMENTS TO BE FURNISHED HEREUNDER. THE STATE OF FLORIDA'S PERFORMANCE AND OBLIGATION TO PAY THE FINAL PURCHASE PRICE UNDER THIS AGREEMENT IS SUBJECT TO AN APPROPRIATION BY THE LEGISLATURE AND APPROVAL BY THE BOARD OF TRUSTEES. THE FINAL PURCHASE PRICE MAY NOT EXCEED THE MAXIMUM OFFER AUTHORIZED BY LAW.

THIS IS INTENDED TO BE A LEGALLY BINDING AGREEMENT WHEN DULY EXECUTED. IF NOT FULLY UNDERSTOOD, SEEK THE ADVICE OF AN ATTORNEY PRIOR TO SIGNING.

Schedule of Exhibits and Addenda

Exhibit A – Legal Description

Exhibit B - Deed of Easement

Exhibit A to Deed of Easement – Legal Description of Property Subject to Easement

Exhibit B to Deed of Easement – Significant Natural Areas Map

Exhibit C to Deed of Easement – Easement Monitoring Form

Exhibit D to Deed of Easement – Map of Building Envelope

Addendum 1 – Beneficial Interest and Disclosure Affidavit

EXHIBIT A

The Land referred to herein below is situated in the County of OKEECHOBEE, State of Florida, and is described as follows:

PARCEL 1:

ALL THAT PART OF THE EAST ½ OF SECTION 1, TOWNSHIP 36 SOUTH, RANGE 33 EAST, NORTH AND EAST OF U.S. 98, LESS THE RIGHT-OF-WAY FOR COUNTY ROAD C-68, OKEECHOBEE COUNTY, FLORIDA.

PARCEL 2:

ALL OF SECTION 1 LYING WEST AND SOUTII OF TAYLOR CREEK; ALL OF SECTIONS 2, 3, 4 AND 5; ALL IN TOWNSHIP 36 SOUTH, RANGE 34 EAST. OKEECHOBEE COUNTY, FLORIDA.

PARCEL 3:

THE NORTHWEST ONE-QUARTER AND THE NORTH ONE-HALF OF THE NORTHEAST QUARTER OF SECTION 6, LESS ROAD RIGHT-OF-WAY AND LESS THE NORTHWEST 1/4 LYING SOUTHWESTERLY OF US HWY 98 (AKA SR 700), TOWNSHIP 36 SOUTH, RANGE 34 EAST. OKEECHOBEE COUNTY, FLORIDA.

PARCEL 4:

ALL OF SECTION 26 LYING SOUTH OF COUNTY ROAD C-68 AND WEST OF TAYLOR CREEK; LESS THAT PORTION OF SECTION 26 CONVEYED TO THE STATE OF FLORIDA IN O.R. BOOK 27, PAGE 411; AND, ALL OF SECTIONS 27, 28 AND 32 LYING SOUTH OF COUNTY ROAD C-68; AND, ALL THAT PART OF SECTION 33 LYING SOUTH OF COUNTY ROAD C-68, LESS AND EXCEPT: COMMENCING AT A POINT ON THE WEST LINE OF SAID SECTION 33 THAT IS 1126.25 FEET SOUTH 01 °10'06" WEST OF THE NORTHWEST COMER OF SAID SECTION 33 AND RUN THENCE NORTH 74°11 '09" EAST 2606.32 FEET; THENCE SOUTH 15°48'51" EAST 50 FEET TO THE POINT OF BEGINNING; THENCE SOUTH 15°48'51" EAST 410 FEET; THENCE SOUTH 74°11 '09" WEST 165 FEET; THENCE SOUTH 15°48'51" EAST 300 FEET; THENCE NORTH 74°11 "09" EAST 300 FEET; THENCE NORTH 15°48'51" WEST 300 FEET; THENCE SOUTH 74°11 '09" WEST 105 FEET; THENCE NORTH 15°48'51" WEST 410 FEET; THENCE SOUTH 74°11 '09" WEST 30 FEET TO THE POINT OF BEGINNING. ALL IN TOWNSHIP 35 SOUTH, RANGE 34 EAST. OKEECHOBEE COUNTY, FLORIDA.

PARCEL 5:

A PARCEL OF LAND LYING WITHIN SECTIONS 27, 28 AND 33, TOWNSHIP 35 SOUTH, RANGE 34 EAST, OKEECHOBEE COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCING AT THE NORTHWEST COMER OF SAID SECTION 27, BEAR SOUTH 89°57' 15" EAST ALONG THE NORTH LINE OF SECTION 27 A DISTANCE OF 342.20 FEET; THENCE BEAR SOUTH 11 °04'31" EAST A DISTANCE OF 345.09 FEET TO THE POINT OF BEGINNING; THENCE BEAR SOUTH 10°58'46" EAST A DISTANCE OF 2892.00 FEET; THENCE BEAR SOUTH 10°40'27" EAST TO THE NORTH

74°11 '08" WEST ALONG THE NORTHERLY RIGHT-OF-WAY OF STATE ROAD NO. 68 TO THE INTERSECTION WITH THE WEST LINE OF SECTION 33 A DISTANCE OF 7017.37 FEET; THENCE BEAR NORTH 01°10'06" EAST A DISTANCE OF 1073.97 FEET TO THE NORTHWEST CORNER OF SECTION 33; THENCE BEAR NORTH 01 °05'05" EAST ALONG THE WEST LINE OF SECTION :28, A DISTANCE OF 4091.20 FEET; THENCE BEAR NORTH 81°04'41" EAST A DISTANCE OF 5922.34 FEET TO THE POINT OF BEGINNING.

PARCEL 6:

ALL OF SECTION 34, AND ALL OF SECTIONS 35 AND 36 LYING WEST OF TAYLOR CREEK; ALL IN TOWNSHIP 35 SOUTH, RANGE 34 EAST.

DEED OF RURAL LANDS PROTECTION EASEMENT

THIS DEED OF RURAL LANDS PROTECTION EASEMENT is made this ____ day of _____ 202_, by STEVE PALMER and JENNIFER SMITH PALMER, a married couple, WESTON REID PALMER; a married man, SAVANAH PALMER REICHEL, a married woman, and SUMMER MORGAN HENDERSON a/k/a SUMMER HENDERSON a married woman, whose address is 948 Dansby Road, Wauchula, Florida 33873, ("Grantor"), in favor of the BOARD OF TRUSTEES OF THE INTERNAL IMPROVEMENT TRUST FUND OF THE STATE OF FLORIDA, whose address is Florida Department of Agriculture and Consumer Services, Rural and Family Lands Protection Program, 315 South Calhoun Street, Suite 500, Tallahassee, Florida 32301-1843 ("Grantee").

The terms "Grantor" and "Grantee" shall include the singular and the plural, and the heirs, successors and assigns of Grantor and Grantee, and the provisions of this Easement shall be binding upon and inure to the benefit of Grantor, Grantee and their heirs, successors, and assigns.

NOTICES

All notices required to be given pursuant to this Deed of Rural Lands Protection Easement shall be sent to the parties at the following addresses.

Grantor's Address: Steve Palmer, 948 Dansby Road, Wauchula, Florida 33873

**Grantee's Address: Florida Department of Agriculture and Consumer Services,
315 South Calhoun Street, Suite 500, Tallahassee, Florida 32301-1843.
Attention: Program Director, Rural and Family Lands Protection Program.**

RECITALS

A. Grantor is the sole owner in fee simple of certain real property described in Exhibit "A" attached hereto ("Property"), which is the subject of the terms of this Deed of Rural Lands Protection Easement ("Easement").

B. This Easement is acquired under the Rural and Family Lands Protection Program administered by the Florida Department of Agriculture and Consumer Services ("FDACS"). The goal of this program is to protect the integrity, economic viability, and function of working landscapes, ensure opportunities for sustainable agricultural activities on working lands, and to promote the conservation, restoration, and enhancement of species habitat and natural areas consistent with sustainable agricultural activities and the purposes for which this Easement is acquired.

C. The fact that any use of the Property that is expressly prohibited by the terms of this Easement may become greatly more economically valuable than uses allowed by the terms of this Easement, or that neighboring properties may, in the future, be put entirely to uses that are not allowed by this Easement has been considered by Grantor in granting this Easement and by Grantee in accepting it.

D. Grantor and the Grantee mutually recognize the special character of the Property as a working landscape that has traditionally been used for agriculture, as that term is defined in Section 570.02(1), Florida Statutes, and have the common purpose of conserving certain values and character of the Property by conveyance to the Grantee of a perpetual Easement on, under, over, and across the Property, to conserve the character of the Property, continue certain land use patterns that are consistent with the purposes of this Easement, and prohibit certain further development activities on the Property.

E. The existing agricultural uses and ecological values of the Property are documented in the Baseline Documentation Report ("BDR") for the Property signed by Grantor and Grantee and dated _____. The BDR consists of reports, maps, photographs, and other documentation that the parties agree provide, collectively, an accurate representation of the Property at the time of this Easement and which is intended to serve as an objective information baseline for monitoring compliance with the terms of this Easement. The BDR is maintained in the offices of the FDACS and is incorporated in this Easement by this reference. A copy of the BDR is available from the FDACS upon request.

F. Significant Natural Area ("SNA"). There are certain agricultural lands with important species habitat or water resources occurring within the boundaries of the Property, more particularly identified as SNA(s) in the BDR. An SNA is defined as a particularly outstanding or sensitive area that the parties agree are desirous of protection due to the presence of the following: 1) high-quality terrestrial or aquatic habitats, which possess significant biodiversity, high-quality resources, intact community organization, or other ecologically significant qualities; 2) habitats for rare species of plants or animals; or 3) significant geological features or historic sites. Designation of an SNA accords an extra level of protection, ensuring that the natural or cultural features within the SNA will continue to be managed

appropriately and, in a manner, ensuring the continued protection of the resources. While the designation of these areas as SNAs in the BDR is intended to set them aside for conservation, management activities in an SNA may include activities commensurate with the management of conservation lands to include such activities as prescribed burning, removal of invasive species and native species restoration, and maintenance of existing agricultural structures, primarily roads, fences, drainage improvements, and boundary signs. In addition, Grantor may continue livestock grazing in an SNA, as long as Grantor's management of such grazing activity protects the quality and integrity of the SNA. Other activities that may be undertaken in SNAs are scientific research, environmental education, and activities related to ecosystem services market programs, at Grantor's sole discretion. The SNAs are identified on the map in Exhibit "B" attached hereto.

G. Grantee is an agency authorized under the terms of Sections 570.71, Florida Statutes, to hold easements for the preservation and protection of agricultural lands threatened by conversion to other uses, as well as the promotion and improvement of wildlife habitat, protection and enhancement of water bodies, aquifer recharge areas, wetlands and watersheds, and perpetuation of open space on lands with SNAs.

H. Conservation Purpose. The definition of "conservation purpose" contained in 26 U.S.C. 170(h)(4), includes the preservation of open space, including farmland and forest land, where such preservation is pursuant to a clearly delineated state conservation policy and will yield a significant public benefit. The Rural and Family Lands Protection Program, is a state conservation policy, delineated in Chapter 570, Florida Statutes established for the promotion and improvement of wildlife habitat, protection and enhance water bodies, aquifer recharge areas, wetlands, and watersheds, perpetuate open space on lands with significant natural areas, and protect agricultural lands threatened by conversion to other uses. Grantor and the Grantee have the common purpose of conserving open space by conveyance to the Grantee of this Easement and expect this Easement will yield a significant public benefit consistent with the enumerated purposes of the Rural and Family Lands Protection Program.

I. The parties agree to honor the purposes for which this Easement is acquired and to preserve and protect in perpetuity the values of the Property for the benefit of this generation and the generations to come.

NOW, THEREFORE, to achieve these purposes, and in consideration of \$10.00 and other good and valuable consideration, including the recitals above, and the mutual covenants, terms, conditions, and restrictions contained herein, the receipt and sufficiency of which is acknowledged, and pursuant to the laws of Florida, and in particular Section 570.71, Florida Statutes, but without intending the validity of this Easement to be dependent on the continuing existence of such laws, Grantor hereby voluntarily grants and conveys to Grantee this Easement in perpetuity over the

Property of the nature and character hereinafter set forth, and the parties intending to be bound hereby agree as follows:

ARTICLE I. RECITALS

The Recitals set forth above are true and correct and incorporated herein by reference.

ARTICLE II. DURATION OF EASEMENT

This grant of Easement over the Property shall be perpetual. It is an easement in gross, runs with the land, and is enforceable by Grantee against Grantor, Grantor's personal representatives, heirs, successors and assigns, lessees, agents, guests, and licensees.

ARTICLE III. PURPOSE OF EASEMENT

It is the purpose of this Easement to (i) effect the Rural and Family Lands Protection Program ("RFLPP") pursuant to Florida Statutes; (ii) assure that the Property will be retained forever in its condition as a working landscape; (iii) preserve the Property as productive agricultural land that sustains for the long term both the economic and ecological values of the Property and its environs; and (iv) provide a relatively natural habitat for fish, wildlife, plants, or similar ecosystems, through management guided by the following principles:

- Maintenance of economically viable agricultural practices that protect the landscape as a working enterprise in harmony with the open space and scenic qualities of the Property.
- Maintenance of soil productivity and control of soil erosion.
- Maintenance or improvement of the overall quality of the timber resource.
- Protection of the integrity and function of the working landscape, including any buffers to natural areas, ecological greenways and functioning ecosystems.
- Promotion of the restoration, enhancement, or management of species habitat.
- Protection, restoration, or enhancement of water bodies and aquifer recharge areas including uplands and springsheds, wetlands, or watersheds.
- Conservation and protection of unique and fragile natural areas and rare species habitats.
- Perpetuation of open space on working lands that contain SNAs.
- Allowance of appropriate uses of the Property for activities which will provide long term economic sustainability.

The above purposes (i.e., clauses (i) through (iv), inclusive of the bulleted principles) are hereinafter referred to as the "Easement Purposes." Grantor agrees that this Easement will confine the use of the Property to such activities as are consistent with the Easement Purposes, and Grantor agrees to manage the Property in a manner consistent with the Easement Purposes.

ARTICLE IV. RIGHTS GRANTED TO THE GRANTEE

To accomplish the Easement Purposes the following rights are conveyed to Grantee by this Easement:

A. The right to enforce protection of the Easement Purposes of the Property for which this Easement was acquired.

B. All future residential, commercial, and industrial rights, together with all development rights incidental thereto, that are now or hereafter allocated to, implied, reserved, or inherent in the Property except as may be specifically reserved to Grantor in this Easement. The parties agree that such rights are hereby terminated and extinguished and may not be used on or transferred to other property. Neither the Property nor any portion thereof may be included as part of the gross area of other property not subject to this Easement for the purposes of determining density, lot coverage, or open space requirements, under otherwise applicable laws, regulations or ordinances controlling land use and building density. No development rights that have been encumbered or extinguished by this Easement shall be transferred to any other lands pursuant to a transferable development rights scheme or cluster development arrangement or otherwise. Nor shall any development rights or density credits be transferred onto the Property from other property.

C. The right to enter upon the Property on an annual basis, and more often if Grantee determines that such entry is warranted, at reasonable times in order to inspect and monitor compliance with and otherwise enforce the terms of this Easement ("Inspections"); provided that such entry shall be upon prior reasonable notice to Grantor, which, except in the event of an emergency or enforcement requiring immediate access as determined by Grantee, is defined as seven (7) days advance notice. Grantee shall not unreasonably interfere with Grantor's use and quiet enjoyment of the Property.

D. The right to conduct Inspections, annually or otherwise, to monitor Grantor's compliance with the terms of this Easement shall be in accordance with Rule Chapter 5I-7, F.A.C., and the Easement Monitoring Form attached hereto as Exhibit "C". The Grantee will review the completed monitoring form after each inspection and shall determine whether the uses and activities on the Property are consistent with the terms of this Easement and, where applicable, Grantee will enforce the terms through a corrective action plan, as agreed to by Grantor and Grantee; however, nothing in

this section prohibits the Grantor and the Grantee from mutually agreeing to a reasonable opportunity to cure an identified deficiency in lieu of establishing a corrective action plan. Upon Grantee's finding that Grantor is in compliance with the terms of this Easement, a copy of the completed monitoring form will be provided to the Grantor and a copy will be retained by the Grantee for a minimum of five (5) years. Upon a finding of noncompliance, a corrective action plan may be developed, which may be a notation in the comments section on the monitoring form regarding completion of certain actions or cessation of actions in order to attain compliance or the plan may be a more detailed plan developed separately to set expectations and deadlines for completion of remedial measures. In either case, the Grantee will work with the Grantor to negotiate a reasonable schedule, but all remedial measures shall be completed at Grantor's expense.

E. The right to prevent any activity on or use of the Property that is inconsistent with the Easement Purposes or terms of this Easement and to require the restoration of or to restore, in accordance with law, such areas or features of the Property that may be damaged by any inconsistent activity or use, at Grantor's cost.

F. The right to have the ad valorem taxes, assessments and any other charges on the Property paid by Grantor.

G. A right to prior notice of Grantor's intent to sell or transfer title as provided in Article IX, Paragraph G. This right of notice shall be triggered by sales or transfers of title by Grantor, including gifts and bequests as well as transfers to entities in which Grantor owns, directly or indirectly, a majority of the controlling interests.

H. The right to be indemnified by Grantor for any and all liability, loss, damage, expense, judgment or claim arising out of or related to any negligent or willful act or omission of the Grantor, Grantor's agents, guests, lessees, licensees, invitees, or any others on the Property with the express or implicit permission of Grantor.

I. The right to be indemnified by Grantor for any liability for injury or property damage to persons on the Property arising out of any condition of the Property known, or should have been known, to the Grantor.

J. The right to have the Property maintained in accordance with the terms of this Easement, understanding that the Property may develop through the forces of nature hereafter, subject only to the exercise of Grantor's Reserved Rights, and the Rights Granted to the Grantee, as described in this Easement.

K. The right to cut and remove timber in Grantee's sole discretion, if Grantor, within 60 days after written notice from Grantee, fails to cut and remove said timber damaged by natural disaster, fire, infestation, or the like. Any such cutting and removal by Grantee shall be at the expense of Grantee and all proceeds from the sale

of any such timber shall inure to the benefit of Grantee.

ARTICLE V. PROHIBITED USES

The Property shall be maintained to preserve the Easement Purposes. Without limiting the generality of the foregoing, Grantor agrees that the following uses and practices, though not an exhaustive recital of inconsistent uses and practices, are expressly prohibited or restricted on the Property, except for those rights and practices reserved by grantor in this Easement:

A. Dumping of biodegradable or nonbiodegradable, toxic, unsightly, offensive or hazardous substances, trash or garbage, wastes, abandoned vehicles, appliances, machinery, toxic wastes or substances, pollutants or contaminants, or similar material including those defined by the Federal Solid Waste Disposal Act, the Federal Clean Air Act, the Federal Clean Water Act, the Federal Resource Conservation and Recovery Act of 1976, the Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980, the Federal Superfund Amendments and Reauthorization Act of 1986, the Federal Emergency Planning and Community Right-To-Know Act, the Federal Insecticide, Fungicide and Rodenticide Act, the Toxic Substances Control Act, Chapters 161, 253, 373, 376, and 403, Florida Statutes, and the rules and regulations of the (i) United States Environmental Protection Agency, (ii) the Florida Department of Environmental Protection, and (iii) the governmental water management district applicable to or having jurisdiction over the Property ("Water Management District"), now or at any time hereafter in effect, or any Florida Statute defining hazardous materials, wastes or substances, toxic wastes or substances, pollutants or contaminants (collectively referred to as "Contaminants") on the Property, now or at any time hereafter in effect. This prohibition shall not be construed to include reasonable amounts of waste generated in accordance with allowed uses, including agriculture or game management, conducted in accordance with the terms of this Easement, and that is disposed of in accordance with applicable local, state, and federal requirements, and Best Management Practices ("BMPs") adopted by FDACS or its successor agency, as amended from time to time.

B. Activities that affect the hydrology of the land or that detrimentally affect water conservation, erosion control, soil conservation, or fish and wildlife habitat, except those required for environmental restoration, federal, state or local regulatory programs, or BMPs, including but not limited to, mining, excavation of surface or subsurface materials, the exploration for and extraction of oil, gas, minerals, dolostone, peat, muck, marl, limestone, limerock, kaolin, fuller's earth, phosphate, common clays, gravel, shell, sand and similar substances. There shall be no activities that will be detrimental to drainage, flood control, or fish and wildlife habitat preservation either directly or indirectly by Grantor or on Grantor's behalf or with the joinder or consent of Grantor in any application for a permit so to do, by an

individual or entity acting under and by virtue of the authority of a grant or reservation or other form of ownership of or interest in or control, unless otherwise provided in this Easement. There shall be no dredging of new canals, construction of new dikes, manipulation of natural water courses, or disruption, alteration, or pollution of existing surface or subsurface water flow or natural water sources, freshwater lakes, ponds and pond shores, marshes, creeks, or any other water bodies except as consistent with BMPs for the type of agricultural activities being conducted. Provided, however, Grantor may construct, operate, maintain, or replace groundwater wells, ditches, swales and other water conveyance structures, drainage structures or other water management improvements incident to allowed uses on the Property, conduct seismic or other non-invasive testing, drill for and extract oil, gas, and all other hydrocarbons under the property by slant or directional drilling from adjacent properties, subject to legally required permits and regulations. As reasonably necessary, Grantor may combat erosion or flooding or conduct other allowed activities using material from existing excavation sites identified in the BDR.

C. Planting of nuisance, exotic or non-native plants as listed by the Exotic Pest Plant Council or the University of Florida's Institute of Food and Agricultural Sciences, or their successors, except for plants approved by Grantee and needed to support agricultural activities allowed hereunder. The Grantor shall, to the extent practical, control and prevent the spread of nuisance exotics or non-native plants on the Property. Grantor hereby grants to Grantee the right, in Grantee's sole discretion and at Grantee's expense, to develop and implement an exotic plant removal plan for the eradication of exotics, or non-native wild plants, on the Property. Under no circumstances shall this right conveyed to Grantee be construed to diminish Grantor's responsibilities under this paragraph or as an obligation of the Grantee.

D. Concentrated animal feeding operation not in compliance with applicable federal and state laws, rules, and regulations, as amended.

E. New construction or placing of temporary or permanent buildings, mobile homes, or other structures in, on or above the ground of the Property except as may be necessary by Grantor for maintenance or to serve the permitted uses of the Property that are consistent with the Easement Purposes or during emergency situations or as may otherwise be specifically provided for in this Easement. For purposes of this paragraph the term "emergency" shall mean those situations that will have an immediate and irreparable adverse impact on the Easement Purposes.

F. Construction or placing of roads, billboards or other advertising, utilities, or structures, except those structures and unpaved roads necessary for the agricultural operations on the land or structures necessary for other activities allowed under this Easement, and except for linear facilities described in section 704.06(11), Florida Statutes. Provided, however, Grantee (i) may erect and maintain signs designating the Property as land under the protection of Grantee, and (ii) shall be entitled to recover from Grantor, and Grantor's personal representatives, heirs, successors, and

assigns reasonable compensation based on diminution in value of Grantee's interest for the construction and operation of any public or private linear facilities and related access and appurtenances, as described in section 704.06(11), Florida Statutes.

G. Fertilizer use, including sludge or sludge products, for agriculture activities not in accordance with agricultural BMPs recommended by the United States Department of Agriculture Natural Resources Conservation Service ("NRCS") or FDACS, whichever is more stringent, as those BMPs may be amended from time to time. No agricultural activities shall occur within a 100-foot buffer around sinkholes or karst features that are connected to spring conduits, except as provided in the applicable BMPs.

H. Actions or activities that may reasonably be expected to adversely affect state or federally listed threatened or endangered species.

I. Any subdivision of the Property that is inconsistent with the division of land pursuant to Rule Chapter 5I-7, F.A.C., as amended, except as expressly allowed under this Easement.

J. Commercial water wells on the Property.

K. Harvesting of cypress trees in the SNAs.

L. Mitigation banks not authorized under and in compliance with Florida Statutes and Administrative Rules, as amended, or the rules of applicable federal mitigation bank programs.

M. Construction or improvements in any SNA or conversion of any SNA, except temporary structures (defined hereinafter) for hunting allowed in Article VI, Paragraph M. Temporary structures are defined as those structures that are able to be readily removed. Any use of the Property which would impair, adversely impact, or destroy an SNA, including a change to more intensive agricultural practices, is also prohibited.

N. Conversion of forested areas within the SNAs as shown in the BDR to non-forested areas.

ARTICLE VI. GRANTOR'S RESERVED RIGHTS

Grantor reserves to Grantor, and to Grantor's personal representatives, heirs, successors, and assigns, the following specified rights ("Reserved Rights"), which are deemed to be consistent with the Easement Purposes. The exercise of the Reserved Rights is subject to the prohibitions in Article V and must be in full accordance with all applicable BMPs and local, state and federal law, as amended from time to time, as well as in accordance with the Easement Purposes.

A. Grantor has, and shall be deemed hereby to have retained, the underlying fee simple title in the Property, subject to this Easement. Further, Grantor retains and reserves all rights of, in, and to the Property not conveyed to Grantee under Article IV or prohibited by Article V.

B. Agricultural and Related Rights. (i) The right to continued use of the Property for agricultural purposes and uses identified in the BDR; (ii) The right to convert any property not designated an SNA (as delineated in the BDR) to other agricultural and silviculture purposes and uses; (iii) The right to engage in cattle grazing as set forth in the BDR, including the right to maintain, utilize, restore, fertilize, and mow improved pasture; (iv) The right, as part of cattle operations, to supplement the cattle using minerals and hay; (v) The right to use current technologies on the Property, including fertilizers, pesticides and herbicides commonly used on agricultural property in the State of Florida at such time; and (vi) The right to install, use, maintain, replace and repair non-commercial groundwater wells on the Property. Any and all agricultural uses shall be conducted in accordance with BMPs and in compliance with all laws, rules, and regulations.

C. The right to conduct silvicultural operations on the Property provided, however, that prior to any timbering in an SNA, Grantor shall consult with Grantee concerning reforestation methods and methods consistent with the perpetual protection of the SNAs.

D. The right to conduct prescribed burning and mechanical brush management on the Property; provided, however Grantor shall obtain and comply with a prescribed fire authorization from the Florida Forest Service of FDACS or its successor agency.

E. The right to mortgage the Property; provided, however, that the Mortgagee's lien shall be inferior and subordinate to this Easement.

F. The right to contest tax appraisals, assessments, taxes, and other charges on the Property.

G. The right to continue to use, maintain, repair, and reconstruct existing buildings, barns, outbuildings, fences, roads, ponds, wells, utilities, drainage ditches, culverts and such other facilities on the Property as depicted in the BDR. Expanding existing cow pens as necessary to conduct normal cattle operations on the Property shall be allowed, except when located in an SNA. Grantor must obtain the advanced written approval of grantee to expand existing buildings, barns, outbuildings, fences, roads, ponds, wells, utilities, drainage ditches, culverts and such other facilities on the Property.

H. The right to sell, devise or otherwise transfer ownership of fee title to the Property to a third party. No easements, rights-of-way, restrictions, or less than fee simple interests in the Property shall be granted or conveyed after the date of this instrument unless such encumbrances are approved, in advance and in writing, by the Grantee and recorded in the public records of the county(ies) in which the Property is located. The Grantee may give such approval if it determines, in its sole discretion, that such encumbrance would be consistent with the Easement Purposes.

I. The right to exclusive use of the improvements on the Property.

J. The right to obtain and comply with all permits for management of stormwater, water wells, and consumptive uses as may be required by the Water Management District or any governmental agency having jurisdiction over those activities.

K. The right to construct buildings or other structures incident to agricultural uses carried on in accordance with sound agricultural practices. Grantor must first obtain the advanced written approval of Grantee before constructing buildings or other structures incident to agricultural uses. Such buildings shall not be used as residences.

L. The right to establish (by survey, fencing, or marking) and maintain property lines around the perimeter of the Property to protect the Property from trespassing and to assist Grantor in the management of the Property in accordance with this Easement.

M. The right to observe, maintain, photograph, introduce and stock native fish or wildlife on the Property, and to use the Property for hiking and horseback riding and other activities that are low impact and minimally disruptive to the natural environment, as well as to use the Property for agritourism, provided Grantor complies with Florida Statutes and Administrative Rules, as amended, for agritourism that is both related to the agricultural uses reserved in this Easement and consistent with the terms of this Easement. Grantor reserves, and shall continue to own, the hunting and fishing rights on or related to the Property, including the right to locate, construct, and maintain hunting blinds, tree stands, wildlife food plots, and feeders on the Property that are temporary and readily removable. Grantor may lease and sell privileges of such rights.

N. The right to install connections to normal utility systems, such as electric, cable, water, sewer, communication, and telephone that are consistent with the Easement Purposes and incidental to serve the allowed uses of the Property. If a connection to a sewer system is not available, this right shall include the right to install a septic system provided it is not located in an SNA. The granting of easements or rights-of-way for power lines, gas lines, sewer lines, waterlines,

telecommunications towers, and wind farms are prohibited, unless approved by Grantee pursuant to Article VI, Paragraph H. Existing utilities may be replaced or repaired at their current location.

O. Grantor reserves the right to subdivide the Property into not more than two (2) individual parcels of not less than 2,800 acres each. Grantor shall provide legal descriptions for the two (2) parcels upon subdivision of the Property. There shall be no further subdivision of the Property which is the subject of this Easement. It is understood by Grantor and Grantee that, if any or all of the two (2) parcels are conveyed to Grantor's family members, the conveyances shall not be subject to the provisions of Article IX, Paragraph G.1.

P. Grantor reserves two (2) building envelope(s), and the right, after giving notice to Grantee, to develop within the envelope up to 25,000 square feet of impervious surfaces for residential purposes, as described and depicted in Exhibit ____ attached hereto (the "Building Envelope(s)"). The Building Envelope(s) will not exceed ten (10) contiguous acres and is limited to one single family residence and ancillary structures within the Building Envelope(s). Impervious surfaces are defined as material that does not allow water to percolate into the soil on the Property, including residential buildings, residential support buildings with or without flooring, paved areas, and any other surfaces that are covered by asphalt, concrete, or roofs, not including agricultural buildings. Any such development may not be constructed within an SNA. Grantor, at its expense, shall provide to Grantee legal descriptions and surveys for the Building Envelope(s) prior to development.

Q. The right to engage in environmental, natural resource, habitat, water restoration, and other ecosystem services projects or markets under other programs provided such action shall be in compliance with all applicable laws, statutes, rules, and ordinances, and are consistent or complementary with the purposes and the terms of this Easement. These projects include those that promote the conservation, restoration, and proper hydrological functioning of the natural environment, provided such activities are consistent with the BMPs applicable to such water resource management and restoration projects. The Grantor has the exclusive right to sell conservation credits or other form of ecosystem services rendered and retain all consideration from such sales provided such activities are consistent and complementary to the terms of the Easement. Any such ecosystem services shall not reduce the agriculture production area by more than 10% of the total agricultural production area listed in the BDR. Grantor, at its expense, shall provide to Grantee legal descriptions and surveys for the proposed ecosystem services project prior to development.

ARTICLE VII. GRANTEE'S REMEDIES

A. If Grantee determines that Grantor is in violation of the terms of this Easement, including any amendments, modifications, updates, or revisions thereto, or that a violation is threatened, Grantee shall give written notice to Grantor of such violation and demand corrective action sufficient to cure the violation and, where the violation involves injury to the Property, to restore the portion of the Property so injured. If Grantor fails to cure the violation within 30 days after receipt of notice thereof from Grantee or, under circumstances where the violation cannot reasonably be cured within a 30-day period, fails to begin curing such violation within the 30-day period, or fails to continue diligently to cure such violation until finally cured, Grantee may bring an action at law or in equity in a court of competent jurisdiction to: (i) enforce the terms of this Easement, (ii) enjoin the violation, *ex parte* as necessary, by temporary or permanent injunction, (iii) recover any damages to which it may be entitled for violation of the terms of this Easement or injury to any values or Easement Purposes protected by this Easement, including damages for the loss of scenic, aesthetic, or environmental values, and (iv) require the restoration of the Property to the condition that existed prior to any such violation or injury.

B. Without limiting Grantor's liability therefor, Grantee, in its sole discretion, may apply any damages recovered to the cost of undertaking any corrective action on the Property. If Grantee, in its sole discretion, determines that circumstances require immediate action to prevent or mitigate significant damage to the values of the Property, Grantee may pursue its remedies under this Article VII without prior notice to Grantor or without waiting for the period provided for cure to expire.

C. Grantee's rights under this Article apply equally in the event of either actual or threatened violations of the terms of this Easement, and Grantor agrees that Grantee's remedies at law for any violation of the terms of this Easement are inadequate and that Grantee shall be entitled to the injunctive relief described in this Article, both prohibitive and mandatory, in addition to such other relief to which Grantee may be entitled, including specific performance of the terms of this Easement, without the necessity of proving either actual damages or the inadequacy of otherwise available legal remedies. Grantee's remedies described in this Easement shall be cumulative and shall be in addition to all remedies now or hereafter existing at law or in equity.

D. Enforcement of the terms of this Easement shall be at the discretion of Grantee, and any forbearance by Grantee to exercise its rights under this Easement in the event of any breach of any term of this Easement by Grantor shall not be deemed or construed to be a waiver by Grantee of such term or of any subsequent breach of the same or any other term of this Easement or of any of Grantee's rights under this Easement. No delay or omission by Grantee in the exercise of any right or remedy upon any breach by Grantor shall impair such right or remedy or be construed as a waiver.

E. Grantor hereby waives any defense of estoppel, adverse possession, or prescription.

F. Nothing contained in this Easement shall be construed to entitle Grantee to bring any action against Grantor for any injury to or change in the Property resulting from causes beyond Grantor's control, including fire, flood, storm, and earth movement, or from any prudent action taken by Grantor under emergency conditions to prevent, abate, or mitigate significant injury to the Property resulting from such causes.

G. Grantor shall hold harmless, indemnify, and defend Grantee and its directors, officers, employees, agents, and contractors and the personal representatives, successors, and assigns of each of them (collectively "Indemnified Parties") from and against all liabilities, penalties, costs, losses, damages, expenses, causes of action, claims, demands, or judgments arising from or in any way connected with: (1) injury to or the death of any person, or physical damage to any property, resulting from any act, omission, condition, or other matter related to or occurring on or about the Property, regardless of cause, except to the extent due to the negligence of any of the Indemnified Parties; (2) the obligations specified in Article IX, Paragraphs A and B; or (3) the enforcement of this Easement.

ARTICLE VIII. PUBLIC ACCESS

A. **No General Public Access.** The granting of this Easement does not convey to the public the right to enter the Property for any purpose whatsoever, and Grantee will cooperate with Grantor in the enforcement of this prohibition.

B. **Scientific, Environmental, Conservation, Educational Organizations.** Notwithstanding the foregoing, Grantor, in its sole discretion, may grant to scientific, environmental, conservation and educational organizations the right to enter upon the Property or adjoining property of Grantor to conduct scientific or educational investigations or studies consistent with the Easement Purposes, on such terms as Grantor, in its sole discretion, may determine.

ARTICLE IX. MISCELLANEOUS

A. **Costs and Liabilities.** Grantor retains all responsibilities and shall bear all costs and liabilities of any kind related to the ownership, operation, upkeep, and maintenance of the Property, including the maintenance of adequate comprehensive general liability coverage. Grantor shall keep the Property free of any liens arising out of any work performed for, materials furnished to, or obligations incurred by Grantor.

B. **Taxes.** Grantor shall pay before delinquency all taxes, assessments, fees, and charges of whatever description levied on or assessed against the Property by competent authority (collectively "taxes"), including any taxes imposed upon or incurred as a result of this Easement, and shall furnish Grantee with satisfactory evidence of payment upon request. Grantee is authorized but in no event obligated to make or advance any payment of taxes, upon 3 days prior written notice to Grantor, in accordance with any bill, statement, or estimate procured from the appropriate authority, without inquiry into the validity of the taxes or the accuracy of the bill, statement, or estimate, and the obligation created by such payment shall bear interest until paid by Grantor at the maximum rate allowed by law.

C. **Extinguishment.** If unexpected circumstances arise in the future that render the Easement Purposes impossible or unfeasible to accomplish, this Easement can only be terminated or extinguished, whether in whole or in part, by judicial proceedings in a court of competent jurisdiction, and the amount of the proceeds to which Grantee shall be entitled, after the satisfaction of prior claims and costs of sale, from any sale, exchange, or involuntary conversion of all or any portion of the Property subsequent to such termination or extinguishment, shall be determined, unless otherwise provided by Florida law at the time, in accordance with Article IX, Paragraph D. Grantee shall use all such proceeds in a manner consistent with the Easement Purposes or the purposes of the bond or statutory program under which Grantee obtained the purchase money for this Easement. Grantor believes that any changes in the use of neighboring properties will increase the benefit to the public of the continuation of this Easement, and Grantor and Grantee intend that any such changes shall not be deemed to be circumstances justifying the termination or extinguishment of this Easement. In addition, the inability of Grantor to conduct or implement any or all the uses allowed under the terms of this Easement, or the unprofitability of doing so, shall not impair the validity of this Easement or be considered grounds for its termination or extinguishment.

D. **Proceeds.** This Easement constitutes a real property interest immediately vested in Grantee, which, for the purposes of Article IX, Paragraphs C and E, the parties stipulate to have a fair market value determined by multiplying the fair market value of the Property unencumbered by the Easement (minus any increase in value after the date of this grant of Easement attributable to improvements) by the ratio of the value of the Easement at the time of this grant to the value of the Property, without deduction for the value of the Easement, at the time of this grant (Grantee's percentage interest is referred to herein as Grantee's "Proportionate Share"). For the purposes of this paragraph, the ratio of the value of the Easement to the value of the Property unencumbered by the Easement shall remain constant.

E. **Condemnation.** If the Easement is taken, in whole or in part, by exercise of the power of eminent domain or otherwise acquired by any authority with power of eminent domain through a purchase in lieu of a taking, Grantee shall be entitled to

its Proportionate Share from the recovered proceeds in conformity with the terms of Article IX, Paragraph D. The respective rights of Grantor and Grantee set forth in this paragraph shall be in addition to, and not in limitation of, any rights of Grantee under applicable law.

F. **Assignment.** This Easement is transferable by Grantee, but Grantee may assign its rights and obligations under this Easement only to a governmental entity in accordance with Florida law. As a condition of the transfer, the terms and conditions of the Easement shall continue.

G. **Property Interest Transfers.** In addition to Grantee's approval rights set forth in Article VI, Paragraph H, Grantor further agrees to give written notice to Grantee of the transfer of any interest in the Property. The failure of Grantor or Grantee to perform any act required by this paragraph shall not impair the validity or priority of this Easement or limit its enforceability in any way.

1. Right of Grantee to Negotiate in Advance of Sale.

a. The terms of this right are such that if Grantor intends to publicly offer the Property for sale, or any interest or portion thereof, Grantor shall deliver to Grantee notice of such intent (including the date, time, and location of the intended offering) at least 45 days prior to offering the Property for sale.

b. In addition, if Grantor receives an unsolicited, but acceptable, offer from a prospective buyer to purchase the Property, or any interest therein or portion thereof, Grantor shall deliver to Grantee notice of Grantor's intent to accept the offer, including the names and addresses of any party to whom the Property is to be transferred, a description of the land to be transferred, and all relevant terms of the offer received, such that Grantee receives the notice at least 45 days prior to execution of a contract for such sale (Grantor agrees that any such contract for sale shall be made expressly subject to Grantee's right to negotiate for the purchase of the Property provided in Paragraph 1.c. below).

c. Under notice provided pursuant to Paragraphs 1.a. and 1.b. above, Grantor shall, in good faith, afford Grantee an opportunity to negotiate the acquisition of the Property, or such portion thereof or interest therein that Grantor intends to sell. If Grantee desires to negotiate the acquisition of the Property (or such portion thereof or interest therein as applicable), Grantee shall so notify Grantor within 30 days after receipt of Grantor's notice of intent. If Grantor and Grantee are unable, in good faith, to agree to terms of an acquisition of the Property (or such interest therein or portion thereof as applicable) within 45 days after Grantee's notice to Grantor under this paragraph, Grantor may sell the Property free of the right granted in this Article IX, Paragraph G.1.

d. This right of notice shall not be triggered by sales or transfers between Grantor and lineal descendants of Grantor or entities in which Grantor owns a majority of the controlling interests. The right or notice granted herein applies to the original Grantor and to said original Grantor's heirs, successors, and assigns.

2. Subsequent Transfers. Grantor agrees to notify Grantee of the names and addresses of any party to whom the Property, is to be transferred at least 45 days prior to the date of such transfer.

3. Continuation of Agricultural Production. As a condition of any Property transfer, Grantor shall deliver certified notice in writing to the prospective transferee that the Property must continue to be used for bona fide agricultural production purposes in accordance with this Easement. In addition, Grantor will incorporate the terms of this Easement in any deed or other legal instrument by which Grantor divests or conveys any interest in the Property, including a lease or other legal instrument by which any interest in the Property is conveyed.

4. Statement of Compliance. Grantor may request in writing at least 45 days prior to sale, mortgage, transfer or long term (five years or longer) lease of the Property, or any portion thereof, a written statement from Grantee stating that, to Grantee's actual knowledge, Grantor is in compliance with the terms of this Easement, or if Grantor is not in compliance with the terms of this Easement, stating what violations of this Easement exist according to Grantee's actual knowledge. Grantee agrees in such cases to acknowledge, execute, and deliver to Grantor or to any mortgagee, transferee, purchaser, or lessee such a written statement concerning compliance within 45 days from receipt by Grantee of a written request therefor. Nothing contained in this Easement shall relieve the Grantor from the responsibility to comply with applicable federal, state, and local laws and regulations.

5. Grantor's Liability after Transfer. In the event of a sale or the transfer of title of the Property to an individual or entity other than the current legal owner, Grantor will immediately notify Grantee. Thereafter, Grantee will confer with the new owner within 30 days and explain, discuss, and plan the transfer of the responsibility of carrying out the terms of this Easement, such that the long-term benefits to everyone concerned and the terms of this Easement will not be impaired by default or otherwise. Grantor and each subsequent owner of the Property shall have no personal liability for the observance or performance of the obligations of the Grantor hereunder, with respect to any interest in the Property conveyed, after the Grantor or subsequent owner has conveyed their interest in the Property as permitted by and pursuant to the terms of this Easement.

H. **Notices.** Any notice, demand, request, consent, approval, or communication that either party desires or is required to give to the other party under this Easement shall be in writing and either served personally or sent by first class mail, postage prepaid, or by overnight mail service, addressed to the parties as set forth in this Easement, or to such other addresses such party may establish in writing to the other. If time is of the essence, initial notice by electronic mail is acceptable, but shall be followed by written notice as provided in this paragraph as soon as possible.

I. **Recordation.** Grantee shall record this instrument and any amendments in timely fashion in the official records of the county(ies) in which the Property is located and may re-record it at any time as may be required to preserve its rights in this Easement.

J. **Non-Homestead Certification.** Grantor hereby certifies that if a Grantor who is married signs this Easement without the joinder of his or her spouse, the Property is neither the homestead of Grantor/Grantor's spouse nor the primary physical residence of Grantor/Grantor's spouse, nor is the Property contiguous to the homestead or primary physical residence of Grantor/Grantor's spouse.

K. **Amendments.** The terms of this Easement may be amended by the mutual consent of the parties hereto. No amendment shall be effective until executed with the formality of a deed and recorded in the public records of the county(ies) in which the Property is located.

L. **Controlling Law.** The laws of the State of Florida shall govern the interpretation and performance of this Easement.

M. **Liberal Construction.** Any general rule of construction to the contrary notwithstanding, this Easement shall be liberally construed in favor of the Grantee to effect the Easement Purposes and the policy and purpose of Section 570.71, Florida Statutes. If any provision in this instrument is found to be ambiguous, an interpretation consistent with the Easement Purposes that would render the provision valid shall be favored over any interpretation that would render it invalid.

N. **Severability.** If any provision of this Easement, or the application thereof to any person or circumstance, is found to be invalid, the remainder of the provisions of this Easement, or the application of such provision to persons or circumstances other than those as to which it is found to be invalid, as the case may be, shall not be affected thereby.

O. **Joint Obligation.** The obligations imposed by this Easement upon Grantor shall be joint and several.

P. **Successors.** The covenants, terms, conditions, and restrictions of this Easement shall be binding upon, and inure to the benefit of, the parties hereto and their respective personal representatives, heirs, successors, and assigns and shall continue as a servitude running in perpetuity with the Property.

Q. **Termination of Rights and Obligations.** A party's rights and obligations under this Easement terminate upon transfer of the party's entire interest in the Easement or Property as permitted by and pursuant to the terms hereof, except that liability for acts or omissions occurring prior to transfer shall survive transfer.

R. **Captions.** The captions in this instrument have been inserted solely for convenience of reference and are not a part of this instrument and shall have no effect upon construction or interpretation.

S. **References.** References to statutes or rules in this Easement shall be to the text of such statute or rule on the date of execution of this Easement unless stated otherwise.

TO HAVE AND TO HOLD unto Grantee, its successors, and assigns forever.

- B. Significant Natural Areas Map
- C. Easement Monitoring Form
- D. Map of Building Envelope(s)

EXHIBIT A

The Land referred to herein below is situated in the County of OKEECHOBEE, State of Florida, and is described as follows:

PARCEL 1:

ALL THAT PART OF THE EAST ½ OF SECTION 1, TOWNSHIP 36 SOUTH, RANGE 33 EAST, NORTH AND EAST OF U.S. 98, LESS THE RIGHT-OF-WAY FOR COUNTY ROAD C-68, OKEECHOBEE COUNTY, FLORIDA.

PARCEL 2:

ALL OF SECTION 1 LYING WEST AND SOUTII OF TAYLOR CREEK; ALL OF SECTIONS 2, 3, 4 AND 5; ALL IN TOWNSHIP 36 SOUTH, RANGE 34 EAST. OKEECHOBEE COUNTY, FLORIDA.

PARCEL 3:

THE NORTHWEST ONE-QUARTER AND THE NORTH ONE-HALF OF THE NORTHEAST QUARTER OF SECTION 6, LESS ROAD RIGHT-OF-WAY AND LESS THE NORTHWEST 1/4 LYING SOUTHWESTERLY OF US HWY 98 (AKA SR 700), TOWNSHIP 36 SOUTH, RANGE 34 EAST. OKEECHOBEE COUNTY, FLORIDA.

PARCEL 4:

ALL OF SECTION 26 LYING SOUTH OF COUNTY ROAD C-68 AND WEST OF TAYLOR CREEK; LESS THAT PORTION OF SECTION 26 CONVEYED TO THE STATE OF FLORIDA IN O.R. BOOK 27, PAGE 411; AND, ALL OF SECTIONS 27, 28 AND 32 LYING SOUTH OF COUNTY ROAD C-68; AND, ALL THAT PART OF SECTION 33 LYING SOUTH OF COUNTY ROAD C-68, LESS AND EXCEPT: COMMENCING AT A POINT ON THE WEST LINE OF SAID SECTION 33 THAT IS 1126.25 FEET SOUTH 01 °10'06" WEST OF THE NORTHWEST COMER OF SAID SECTION 33 AND RUN THENCE NORTH 74°11 '09" EAST 2606.32 FEET; THENCE SOUTH 15°48'51" EAST SO FEET TO THE POINT OF BEGINNING; THENCE SOUTH 15°48'51" EAST 410 FEET; THENCE SOUTH 74°11 '09" WEST 165 FEET; THENCE SOUTH 15°48'51" EAST 300 FEET: THENCE NORTH 74°11 "09" EAST 300 FEET; THENCE NORTH 15°48'51" WEST 300 FEET; THENCE SOUTH 74°11 '09" WEST 105 FEET; THENCE NORTH 15°48'51" WEST 410 FEET; THENCE SOUTH 74°11 '09" WEST 30 FEET TO THE POINT OF BEGINNING. ALL IN TOWNSHIP 35 SOUTH, RANGE 34 EAST. OKEECHOBEE COUNTY, FLORIDA.

PARCEL 5:

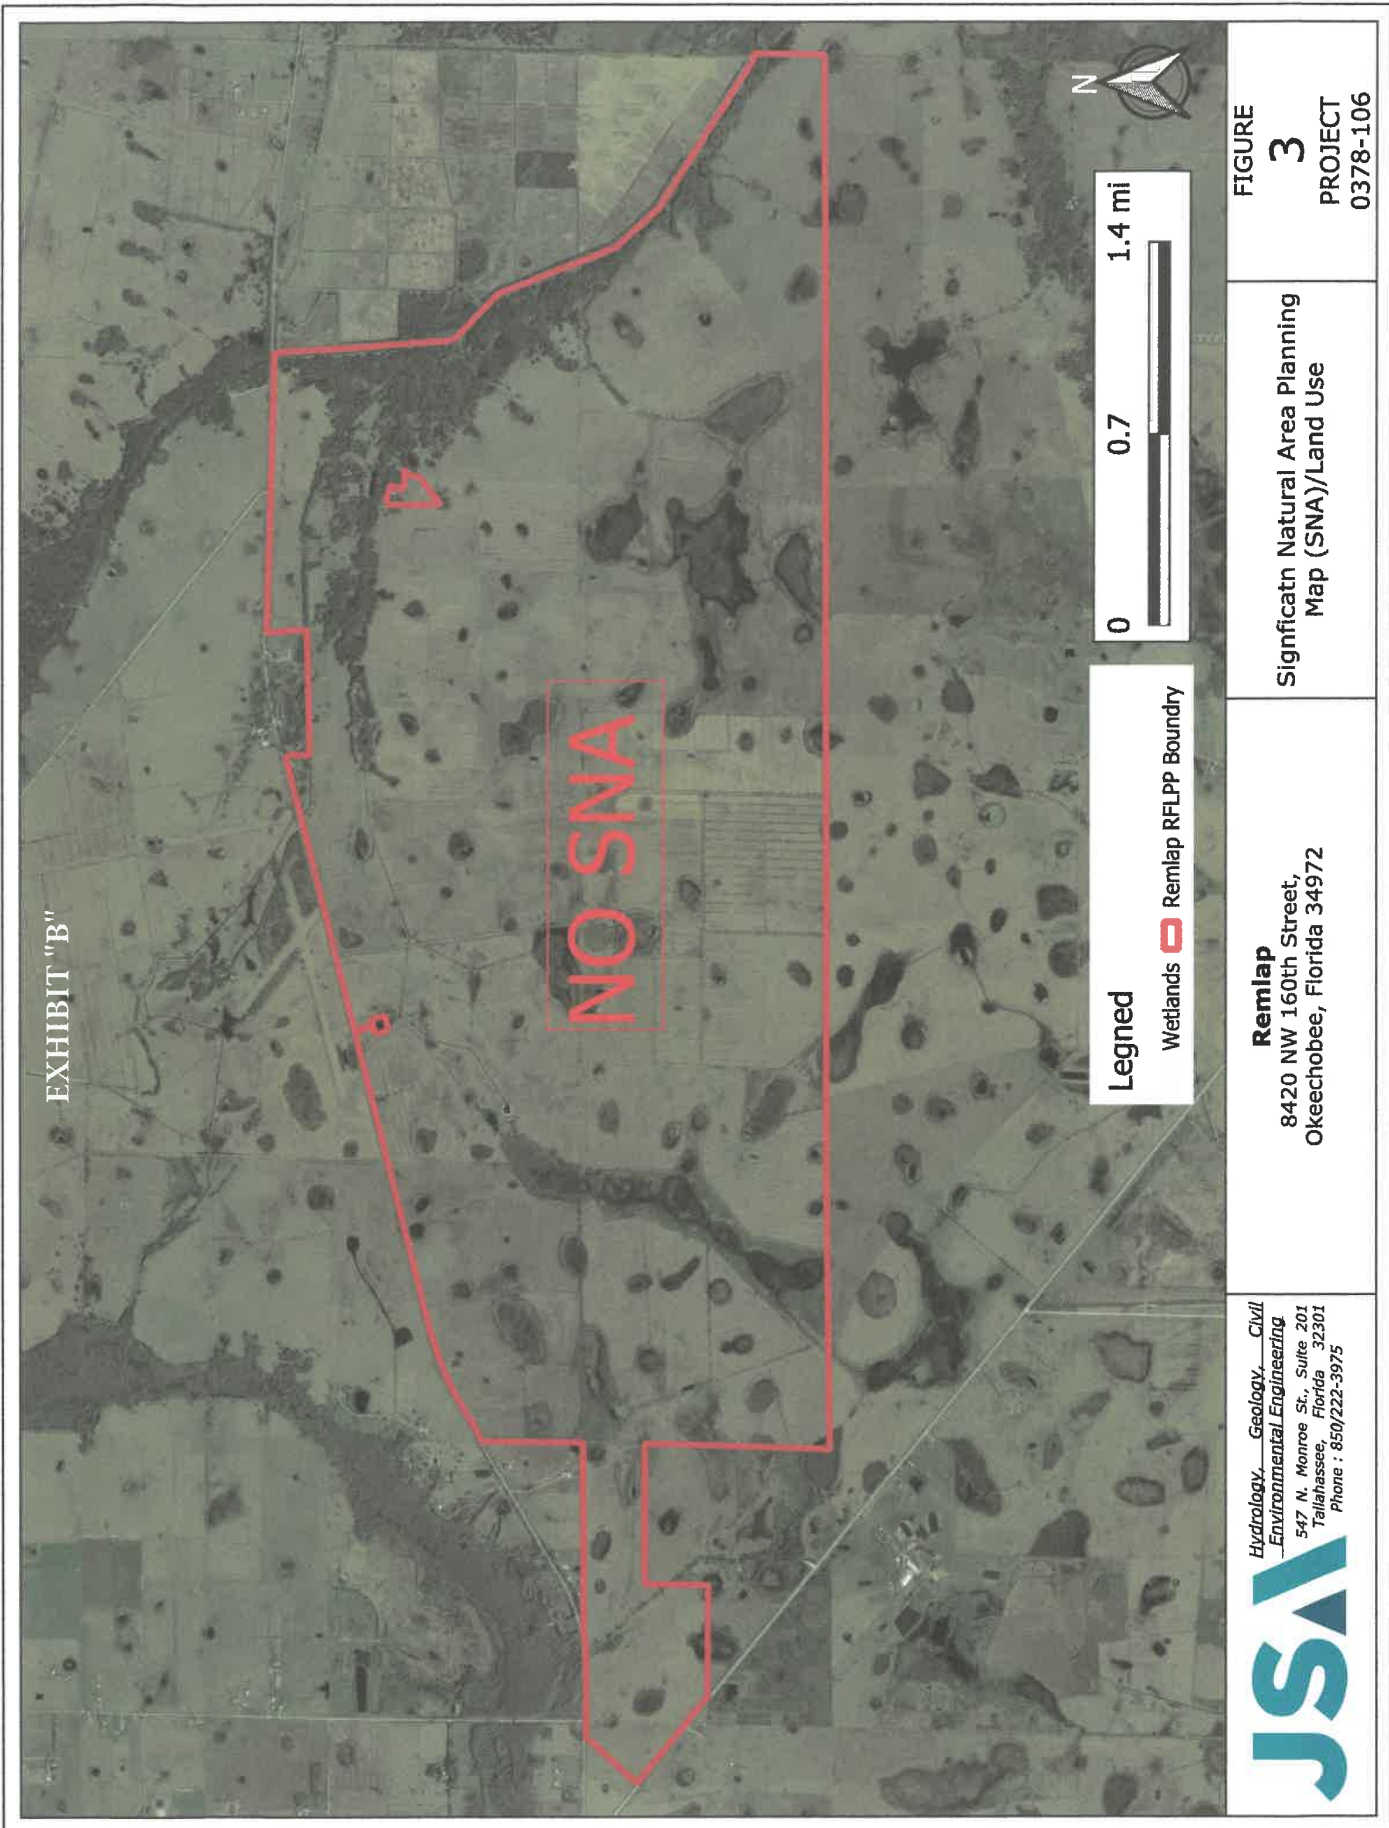

A PARCEL OF LAND LYING WITHIN SECTIONS 27, 28 AND 33, TOWNSHIP 35 SOUTH, RANGE 34 EAST, OKEECHOBEE COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCING AT THE NORTHWEST COMER OF SAID SECTION 27, BEAR SOUTH 89°57' 15" EAST ALONG THE NORTH LINE OF SECTION 27 A DISTANCE OF 342.20 FEET; THENCE BEAR SOUTH 11 °04'31" EAST A DISTANCE OF 345.09 FEET TO THE POINT OF BEGINNING; THENCE BEAR SOUTH 10°58'46" EAST A DISTANCE OF 2892.00 FEET; THENCE BEAR SOUTH 10°40'27" EAST TO THE NORTH

74°11 '08" WEST ALONG THE NORTHERLY RIGHT-OF-WAY OF STATE ROAD NO. 68 TO THE INTERSECTION WITH THE WEST LINE OF SECTION 33 A DISTANCE OF 7017.37 FEET; THENCE BEAR NORTH 01°10'06" EAST A DISTANCE OF 1073.97 FEET TO THE NORTHWEST CORNER OF SECTION 33; THENCE BEAR NORTH 01 °05'05" EAST ALONG THE WEST LINE OF SECTION :28, A DISTANCE OF 4091.20 FEET; THENCE BEAR NORTH 81°04'41" EAST A DISTANCE OF 5922.34 FEET TO THE POINT OF BEGINNING.

PARCEL 6:

ALL OF SECTION 34, AND ALL OF SECTIONS 35 AND 36 LYING WEST OF TAYLOR CREEK; ALL IN TOWNSHIP 35 SOUTH, RANGE 34 EAST.

RURAL AND FAMILY LANDS PROTECTION PROGRAM EASEMENT MONITORING FORM

Sections 570.70 and 570.71, F.S.; Rule 5I7.014, F.A.C

CONSERVATION EASEMENT PROJECT: _____ ACRES: _____

FDACS CONTRACT #: _____ COUNTY: _____

LANDOWNER(S)/REPRESENTATIVE(S): _____

MONITOR: _____ MONITORING DATE: _____

MONITORING ASSISTANCE (IF ANY) /NAME: _____ AGENCY: _____

MONITORING ASSISTANCE (IF ANY) /NAME: _____ AGENCY: _____

PURPOSE OF MONITORING SITE INSPECTION:

- ☐ DOCUMENT COMPLIANCE WITH THE TERMS OF THE CONSERVATION EASEMENT
- ☐ ASSURE PROPERTY IS ENROLLED IN AND GRANTOR IS IMPLEMENTING ALL APPLICABLE BEST MANAGEMENT PRACTICES (BMPs)
- ☐ OUTLINE THE ACTIVITIES ON THE PROPERTY DURING PRECEDING YEAR(S)
- ☐ REVIEW ANY PROPOSED ACTIVITIES TO ASSURE COMPLIANCE WITH THE TERMS OF THE CONSERVATION EASEMENT

Please document below responses to each question explaining any activities/changes on the property during the past year as they relate to the Recitals, Prohibited Uses, and Grantor's Reserved Rights established in the Deed of Conservation Easement or Deed of Rural Lands Protection Easement. The conservation easement should be reviewed prior to the monitoring inspection to ensure all provisions and restrictions considered during the site inspection are properly documented in this report.

A.	Has there been any timber harvesting on the property? If so, on how many acres? _____ Using what harvest type? _____ Was the harvesting in a Significant Natural Area (SNA)? If so, was the grantor contacted? Was cypress harvested?
B.	Has there been any use of the property which would impair or destroy SNAs?
C.	Has there been any construction in SNAs? Has there been any improvements to SNA? Has there been any conversion of SNAs?
D.	Has there been any conversion of forested areas, to non-forested areas?
E.	Has there been any conversion of areas not in improved pasture, to improved pasture?
F.	Has there been any dumping of trash, solid or liquid waste, or toxic or hazardous substances on the property?

G.	Has there been any exploration, excavation, extraction, mining, or drilling on the Property for any of the restricted substances identified in the Conservation Easement (CE)?
H.	<p>Has there been any hydrological modifications to, or dredging, on the property?</p> <p>Have there been any water wells or water bodies constructed? If so, what permits, if any, were obtained?</p> <p>Has there been any construction, repair, or improvements to any water control structures?</p> <p>Are there any commercial water wells on the property?</p> <p>Are any activities occurring on the property that affect soil conservation or are detrimental to fish and wildlife habitat?</p>
I.	<p>Has there been any use of fertilizer on the property?</p> <p>If so, at what application rate?</p>
J.	<p>Has there been any use of pesticides or herbicides on the property? (list chemicals used)</p> <p>If so, did process application follow instructions on the label?</p>
K.	<p>List all the BMPs that are applicable to the property:</p> <p>Agricultural BMPs</p> <p>Silvicultural BMPs</p> <p>Wildlife BMPs</p> <p>Is the property enrolled in all the applicable BMP's indicated above?</p> <p>Are all those BMPs being implemented and complied with?</p>
L.	<p>Are there any exotic, nuisance, non-native or invasive species present?</p> <p>Is the Grantor, to the extent possible, attempting to control or prevent their spread? If so, list actions taken or response needed:</p>
M.	<p>Have there been any new roads or trails constructed on the property?</p> <p>Any existing roads, culverts, or road ditches repaired?</p> <p>Have any motorized vehicles been driven off roads and/or trails for purposes other than performing agricultural operations?</p>

LANDOWNER REMARKS

A.	Comments about the program:
B.	Requests/Questions:

MONITOR REMARKS

A.	General observations:
B.	Describe response taken by landowner to actions requested during last site inspection: 1. 2. 3.
C.	Is the Grantor or their representative charged with any follow-up or corrective action, based on the current site inspection? 1. 2. 3.
D.	Is the Baseline Documentation Report adequate for future monitoring? Y / N If not, why?

REPORT REVIEW AND ACCEPTANCE

Purpose of Monitoring Report Review:

To assure the site inspection complies with all monitoring requirements.

To affirm the property is enrolled in, and land managers are implementing, all applicable BMPs.

To affirm all land management activities are consistent with the terms and conditions of the CE.

To review landowners' response to any requested follow-up or corrective action from **previous site inspection(s)**.

To affirm review any newly requested actions or activities proposed **current site inspection** to comply with the CE requirements.

To review any suggested updates to the property's baseline inventory, for purposes of the Baseline Documentation Report.

A.	Has a site inspection been performed? Were all pertinent monitoring specifications completed?
B.	<p>Were all conditions/activities/management strategies observed during the site inspection consistent with the terms of the CE?</p> <p>If not, complete section "D" below.</p>
C.	<p>Did the landowner or their representative remedy the activities or conditions identified during the previous site inspection? Has their response been acceptable?</p> <p>If not, why?</p>
D.	Is the follow-up/corrective action charged to the landowner reasonable and consistent with the terms and conditions of the CE?
E.	If the site monitor suggested updates to the property's Baseline Documentation Report, are those suggestions reasonable and consistent with the terms and conditions of the CE?

By signing below, the preparer and the RFLPP Director acknowledges receipt of monitoring report and accepts its findings, including any corrective actions documented in this report.

Date: August 11, 2025

Project Information:

Richards Appraisal File Number	<u>1461</u>
Parcel Name	<u>Remlap Ranch</u>
Project Name	<u>FDACS-RFLPP-Remlap Ranch. CE</u>
Location	<u>Okeechobee County, Florida</u>
Effective Date of Appraisals	<u>June 12, 2025</u>

Summary of Review

Pursuant to your request, I have reviewed two individual appraisal reports on the Remlap Ranch Company Conservation Easement located in Okeechobee County, Florida. One appraisal report was prepared by Mr. Joseph S. String, MAI of String Appraisal Services, Inc. The other report was prepared by Mr. Philip M. Holden, MAI of S.F. Holden, Inc. I have determined after review of the reports and some minor changes to each appraisal that they are acceptable as submitted.

The String report is dated August 11, 2025. The Holden report is also dated August 11, 2025. Both appraisals have a valuation date of June 12, 2025. The value indications for the proposed conservation easement reflected by each appraiser were:

(1) Joseph S. String, MAI	\$29,700,000
(2) Philip M. Holden, MAI	\$32,100,000

In the reviewer's opinion the appraisal reports were completed substantially in conformance with USPAP, were well documented, and reflected a reasonable value

indication for the subject property. Both firms submitting appraisals consider their report to be complete appraisal reports according to USPAP. Both appraisals are considered sufficient to satisfy the requirements of Standard 2 of USPAP as it is applied to this type of report. The appraisals are also in substantial conformance with the Supplemental Appraisal Standards for the Board of Trustees, Division of State Lands, Bureau of Appraisal, Florida Department of Environmental Protection, March 2, 2016.

The intended users of this appraisal assignment are the Florida Department of Agriculture and Consumer Services, Rural and Family Lands Protection Program (FDACS/RFLPP). The intended use is for FDACS/RFLPP and any other specific organization or entity that may be involved in the specific transaction or for consideration in determining the effect on value of the proposed conservation easement on the subject property.

Both Mr. String and Mr. Holden utilized the Sales Comparison technique to estimate the value of the subject property which is essentially vacant ranch land utilizing the “before and after” technique which is deemed by the reviewer to be the most appropriate method. The appraisers utilized meaningful data, appropriate adjustment procedures and therefore, the resultant conclusions are well supported.

It is important to note that the Hypothetical Condition is made by the appraisers in assuming that the proposed conservation easement is in place on the date of the appraisal. Hypothetical Condition is defined as that which is contrary to what exists but is assumed for appraisal purposes. Uniform Standards dictate that these type assumptions are prominently disclosed. This Hypothetical Condition is prominently disclosed and treated appropriately by both appraisers and are necessary for a credible assignment result. One common **Extraordinary Assumption** was made by the appraisers regarding; relying upon the “Draft Copy” of the easement which is not yet executed by the parties. The appraiser’s each stress the importance of the final agreement being exactly like the draft. These are all common and reasonable procedures for this property type under the circumstances.

The appraisers and the reviewer are in agreement that the highest and best use for the subject parcel is for continued agriculture and recreational use for the foreseeable future. More details regarding the highest and best use is included in a later section of this review report.

The valuation problem consists of estimating the impact on value of a proposed “Conservation Easement” which will encumber the subject property. The significance of the conservation easement is that it is proposed to assure that the property will be retained forever in its natural, scenic, wooded condition to provide a relatively natural habitat for fish, wildlife, plants or similar ecosystems and to preserve portions of the property as productive farmland and forest land that sustains for the long term both the economic and conservation values of the property and its environs, through management.

In order to value the subject property, the appraisers have applied the traditional appraisal methods and have arrived at a supportable opinion of the impact on Market Value of the proposed conservation easement.

Statement of Ownership and Property History

The subject is currently titled as:

Steve and Jennifer Smith Palmer, Et Al
948 Dansby Road
Wauchula, Florida 33873

There have been four conveyances in the last 5 years all of which were non-arm's length. The property is not known to be listed for sale or under contract.

Property Description

This appraisal assignment encompasses a contiguous tract containing acreage of 5,940.55 acres which are part of a larger commonly owned ranch parcel containing approximately 6,705 acres known as the Remlap Ranch. The ranch is located on the south side of NW 160th Street (CR 68), east of US Highway 98, and west of US Highway 441, seven miles northwest of the City of Okeechobee in Central Okeechobee County, Florida.

Legal and physical access to the subject is via about 4 miles of frontage on NW 160th Street (CR 68) along the northern boundary and roughly 0.4 miles of frontage along US Highway 98 along the western boundary. Internal access is provided by all-weather ranch roads and dirt trails located throughout the subject.

The appraisal problem encompasses estimating the impact on value of a proposed conservation easement on 5,940.55 acres of the subject ranch holding. According to mapping provided by the client, the subject contains approximately 5,214.18 acres of uplands (87.8%) and approximately 726.37 acres of wetlands (12.2%). Otherwise, the ranch contains a mosaic of improved pasture areas, pine flatwoods, unimproved pasture and woodland pasture, wetland forests, cabbage hammocks, wetland pines and scrub.

The surrounding area is typically comprised of larger cattle ranches and/or recreational tracts and large government land holdings. Residential development is rural and very limited in the immediate area and typically only in support of larger agricultural holdings.

The subject parcel has a relatively level topography as is common in this area of Okeechobee County Florida with elevations ranging from about 30 to 44 feet above sea level.

The title insurance policy refers to older OGM reservations which were dated from 1950 to 1981. These reservations are older and the access has not been preserved due to the Marketable Record Title Act (MRTA) which bars the right of entry. The appraisers opined that there is no impact on value.

The subject property is found on Okeechobee County FEMA Flood Maps 12093C0400C, 12093C0405C, and 12093C0300C all dated July 16, 2015. According to these maps, the subject is located in Flood Zones A, X, AE, and X500.

The subject ranch is improved with typical ranching improvements such as fencing, cross-fencing, gates, ditches, drainageways, culverts, internal ranch road and trails, water holes, agricultural wells, pole barns and a set of cattle pens.

While electrical and telephone services are readily available to the area a municipal source for potable water or sewage disposal is not. Wells and septic systems are typical in the region.

The subject has a zoning designation of “A” Agricultural by Okeechobee County. The subject has a land use classification of Agriculture by Okeechobee County. This classification allows virtually all facets of agricultural uses. The predominant zoning and land use density permitted by Okeechobee County is one dwelling unit per ten acres of land area when considering the current access.

Highest and Best Use

Highest and best use is defined as the reasonably probable and legal use of vacant land or an improved property which is physically possible, appropriately supported, financially feasible, and that results in the highest value. The four criteria the highest and best use must meet are legal permissibility, physical possibility, financial feasibility, and maximum profitability.

Before

Mr. String concluded that the Highest and Best Use for the subject would be for continued agriculture, silviculture, and recreation with near term potential to subdivide into smaller 200 to 500 acre parcels, with long term potential for ten-acre homesites.

Mr. Holden concluded that the Highest and Best Use for the subject would be for continued agricultural and recreational uses with potential for large tract rural residential.

After

Mr. String concluded that the Highest and Best Use for the subject, as encumbered, would be essentially limited to continued agricultural and recreational uses with two residential entitlements and one subdivision of no less than 2800 acres subject to the conservation easement limitations.

Mr. Holden concluded that the Highest and Best Use for the subject would be continued agricultural and recreational use subject to the conservation easement limitations.

Both appraisers recognize the limited development potential of the property in the before scenario. The two most significantly impacting criteria of the proposed conservation easement are the loss of development rights and/or the limited rights to subdivide the property.

Overall, the highest and best use conclusions of both appraisers are reasonably similar. Each has made a convincing argument and has provided adequate market evidence to support these conclusions. Each of the appraisers have adequately addressed the issue of highest and best use for the subject property and more importantly the reviewer is convinced that the sales data utilized is that of a basically similar highest and best use.

Reviewer Comments

The reviewer found the reports to be very comprehensive and informative as to the relative components of a typical appraisal report. The physical characteristics and site descriptions were also found to be typical as were the details and documentation of the comparable sales expected in an appraisal for this property type. The reports have also conformed to the reporting standards expected by FDEP/FDACS and are substantially in conformance with the Uniform Standards of Appraisal Practice (USPAP).

In the valuation of the Subject property the appraisers have applied the sales comparison approach to value which is deemed to be the traditional and most appropriate method to value a vacant agricultural parcel. Considering that the subject of the appraisal is to estimate the impact on value of the proposed conservation easement it was necessary to apply the before and after methodology.

In the before scenario the appraisers contrasted the subject property to a set of unencumbered comparable sales within the subject market area. In estimating the value for the subject, the appraisers analyzed sales of agricultural properties offering similar locational attributes and highest and best use characteristics. Mr. String analyzed five comparable sales in his effort and Mr. Holden analyzed four comparable sales to contrast to the subject. The appraisers had two commonly utilized sales in this effort.

In the after scenario the appraisers contrasted the subject property to a set of comparable sales encumbered with conservation easements. Due to the limited number of sales meeting these criteria the sale search had to be expanded for this property type. In estimating the value for the subject as encumbered the appraisers analyzed sales of agricultural properties offering similar locational attributes and highest and best use characteristics similarly encumbered by conservation easements. Mr. String analyzed four comparable sales in his effort and Mr. Holden analyzed three comparable sales to contrast to the subject. The appraisers had three commonly utilized sales in this effort.

The appraisers demonstrated a very thorough analysis of the comparable data and adapted a very straightforward and reasonable valuation process. Both Mr. String and Mr. Holden utilized a qualitative adjustment process to contrast the sale properties to the subject. This method is widely accepted, well supported and reasonable.

Analysis of Appraisers' Sales

String Appraisal

The following sales were utilized by Mr. String in the valuation of the subject before the proposed conservation easement.

Sale No.	Subject	Sale 1	Sale 2	Sale 3	Sale 4	Sale 5
County	Okeechobee	Okeechobee	Polk	Osceola	Okeechobee	Charlotte/ Lee
Sale Date	N/A	July 2025	Nov 2024	April 2024	Feb 2025	May 2023
Price/Ac	N/A	\$12,458	\$12,025	\$10,189	\$8,707	\$6,177
Size/Ac	5,940.55	2,278.99	4,158.00	3,435.00	7,527.05	2,752.01
Upland %	88%	89%	65%	88%	89%	66%
Overall Rating	N/A	Superior	Superior	Slightly Superior	Slightly Superior	Inferior

Mr. String analyzed the five tabulated sales above for the purpose of estimating the value of the subject before placing the conservation easement on the property. The sales are located in Okeechobee, Polk, Osceola, and Charlotte/Lee Counties in Florida.

The sales analyzed for the subject parcel have sale dates ranging from May 2023 to July 2025. The comparables selected are all agricultural properties with similar highest and best use characteristics. The comparable sales selected and analyzed by Mr. String are considered to be good indicators of value for the subject. These sales reflect a range from \$6,177 to \$12,458 per acre.

Mr. String has elected to apply a qualitative adjustment process to the comparable sales for comparable factors such as conditions of sale, financing, motivation, market conditions, location, access, size, upland percentage, zoning/FLU, highest and best use and improvements. Overall, the entire process of contrasting the sales to the subject property seems reasonable. The appraiser utilized sound logic and reasoning in contrasting the comparable sales to the subject property and, overall, the analyses and qualitative adjustment process is well supported and adequately discussed.

In his final analysis Mr. String recognizes a more refined range of from \$6,177 per acre reflected by inferior rated sale 5 to \$10,189 per acre reflected by slightly superior rated sale 3. Mr. String concludes at a value of \$8,500 per acre. This equates to a final indication of \$8,500 per acre times 5,940.55 acres; or \$50,494,675 which is rounded to \$50,500,000.

The following sales were utilized by Mr. String in the valuation of the subject after the proposed conservation easement.

Sale No.	Subject	Sale 1	Sale 2	Sale 3	Sale 4
County	Okeechobee	Charlotte	Highlands	Polk	Manatee
Sale Date	N/A	Dec 2024	Jan 2023	Nov 2024	Oct 2023
Price/Ac	N/A	\$1,869	\$2,712	\$3,497	\$3,831*
Size/Ac	5,940.55	3,745	1,069.20	1,112.73	1,044.00
Upland %	88%	68%	75%	82%	68%
Overall Rating	N/A	Slightly Inferior	Inferior	Similar	Slightly Superior

*The appraisers had slightly varying index price differences due to separate confirmation sources which reported a slight difference in the reported acreage. Overall, the difference is minimal and this slight difference on the index price has no impact on final value conclusions.

Mr. String analyzed the four tabulated sales above for the purpose of estimating the value of the subject after placing the conservation easement on the property. The comparables are located in Charlotte, Highlands, Polk, and Manatee Counties in Florida.

The sales analyzed for the subject parcel have sale dates ranging from January 2023 to December 2024. The sales selected are all agricultural properties with similar highest and best use characteristics and encumbered by perpetual conservation easements. The comparable sales selected and analyzed by Mr. String are considered to be reasonably good indicators of value for the subject. These sales reflect a range from \$1,869 to \$3,831 per acre.

Mr. String has elected to apply a qualitative adjustment process to the comparable sales for comparable factors such as conditions of sale, financing, motivation, market conditions, encumbered percentage, location, access, size, upland percentage, improvements and impact of Conservation Easement. Overall, the entire process of contrasting the sales to the subject property seems reasonable. The appraiser utilized sound logic and reasoning in contrasting the comparable sales to the subject property and, overall, the analyses and qualitative adjustment process is well supported and adequately discussed.

In his final analysis Mr. String recognizes a more refined range of from around \$2,712 per acre as reflected by inferior rated sale 2 to \$3,831 per acre reflected by slightly superior rated sale 4 and similar to “similar” rated sale 3 which reflects \$3,497 per acre. Mr. String concludes at a value of \$3,500 per acre times 5,940.55 acres; or \$20,791,925 which is rounded to \$20,800,000.

Mr. String’s value estimate for the conservation easement is the difference between the value of the property before, minus the value of the property as encumbered. This summary follows:

Total Value Before	\$50,500,000
Total Value After	<u>\$20,800,000</u>
Value of Easement	\$29,700,000

Holden Appraisal

The following sales were utilized by Mr. Holden in the valuation of the subject before the proposed conservation easement.

Sale No.	Subject	Sale 1	Sale 2	Sale 3	Sale 4
County	Okeechobee	Osceola	Okeechobee	Okeechobee	Okeechobee
Sale Date	N/A	April 2024	May 2024	Jan 2024	Feb 2025
Price/Ac	N/A	\$10,189	\$8,633	\$8,298	\$8,707
Size/Ac	5,940.55	3,435.00	1,432.30	1,164.40	7,527.05
Upland %	88%	88%	96%	85%	89%
Overall Rating	N/A	Very Superior	Very Superior	Slightly Inferior	Similar

Mr. Holden analyzed the four tabulated sales above for the purpose of estimating the value of the subject before placing the conservation easement on the property. The comparables are located in Osceola and Okeechobee Counties, Florida. Mr. Holden also analyzed an additional very recent transaction also in Okeechobee County but did not apply qualitative adjustments to this transaction referring to it as a “supplemental sale.”

The sales analyzed and adjusted for the subject parcel have sale dates ranging from January 2024 to February 2025. The comparable sales selected are all agricultural properties with similar highest and best use characteristics. The comparable sales selected and analyzed by Mr. Holden are considered to be good indicators of value for the subject. These sales reflect a range from \$8,298 to \$10,189 per acre.

Mr. Holden has elected to apply a qualitative adjustment process to the comparable sales for comparable factors such as interest conveyed, conditions of sale, market conditions, location, size/shape, access/exposure, topography/site improvements, building improvements and zoning/land use. Overall, the entire process of contrasting the sales to the subject property seems reasonable. The appraiser utilized sound logic and reasoning in contrasting the comparable sales to the subject property and, overall, the analyses and qualitative adjustment process is well supported and adequately discussed.

In his final analysis Mr. Holden recognized the refined range of from \$8,298 per acre as indicated by slightly inferior rated sale 3 and \$8,633 per acre as indicated by very superior rated sale 2. He concludes at \$8,500 per acre very much in line with similar rated Sale 4 at \$8,707 per acre. As such, a conclusion is reached at \$8,500 per acre. This equates to a final indication of 5,940.55 acres times \$8,500 per acre; or \$50,494,675 which is rounded to \$50,500,000.

The following sales were utilized by Mr. Holden in the valuation of the subject after the proposed conservation easement.

Sale No.	Subject	Sale 1	Sale 2	Sale 3
County	Okeechobee	Manatee	Polk	Highlands
Sale Date	N/A	Oct 2023	Nov 2024	Jan 2023
Price/Ac	N/A	\$3,828*	\$3,497	\$2,712
Size/Ac	5,940.55	1,044.88	1,112.73	1,069.20
Upland %	88%	68%	82%	75%
Overall Rating	N/A	Very Superior	Similar	Similar

*The appraisers had slightly varying index price differences due to separate confirmation sources which reported a slight difference in the reported acreage. Overall, the difference is minimal and this slight difference on the index price has no impact on final value conclusions.

Mr. Holden analyzed the three tabulated sales above for the purpose of estimating the value of the subject after placing the conservation easement on the property. The sales are located in Highlands, Polk, and Manatee Counties in Florida.

The sales analyzed for the subject parcel have sale dates ranging from January 2023 to November 2024. The comparables selected are all agricultural properties with similar highest and best use characteristics and all sales are actually encumbered by perpetual conservation easements. The comparable sales selected and analyzed by Mr. Holden are considered to be good indicators of value for the subject. These sales reflect a range from \$2,712 to \$3,828 per gross acre.

Mr. Holden has elected to apply a qualitative adjustment process to the comparable sales for comparable factors such as interest conveyed, conditions of sale, market conditions, location, size/shape, access/exposure, topography and site improvements, building improvements, permitted uses and residential density. Overall, the entire process of contrasting the sales to the subject property seems reasonable. The appraiser utilized sound logic and reasoning in contrasting the comparable sales to the subject property and, overall, the analyses and qualitative adjustment process is well supported and adequately discussed.

In his final analysis Mr. Holden brackets the subject between the indications from similar rated Sale 3 at \$2,712 per acre and similar rated Sale 2 at \$3,497 per acre. He concludes at a final value of \$3,100 per acre. This equates to a final indication of 5,940.55 acres times \$3,100 per acre; or \$18,415,705 which is rounded to \$18,400,000.

Mr. Holden's value estimate for the conservation easement is the difference between the value of the property before, minus the value of the property as encumbered. This summary follows:

Total Value Before	\$50,500,000
Total Value After	<u>\$18,400,000</u>
Value of Easement	\$32,100,000

Conclusions

Overall, the reviewer found both reports to be well supported and reasonable leading the reader to similar conclusions. The reports reflected a reasonable range of conclusions to value offering a variance of 8.08%. The appraisers both arrived at similar conclusions regarding the highest and best use of the subject. As such, both reports are considered acceptable and approvable as amended.

The **purpose of the appraisals** was to estimate the market value of the subject property before and after acquisition of the proposed conservation easement to be placed on the subject property to estimate its impact on value. The intended use of the appraisals was to serve as a basis for potential acquisition of a conservation easement by the Department of Agriculture and Consumer Services, Rural and Family Lands Protection Program (DACS/RFLPP).

The reviewer has completed a **field review** of the above referenced appraisals. The Purpose of the Review is to form an opinion as to the completeness and appropriateness of the methodology and techniques utilized to form an opinion as to the value of the subject property.

The **Scope of the Review** involved a field review of each of the appraisal reports prepared on the subject property. The reviewer inspected the subject of these appraisals and is familiar with all of the data contained within the reports. The reviewer has not researched the marketplace to confirm reported data or to reveal data which may have been more appropriate to include in the appraisal report. As part of the review assignment the reviewer has asked the appraisers to address issues deemed relevant to the assignment. I have also analyzed the reports for conformity with and adherence to the *Uniform Standards of Professional Appraisal Practice* (USPAP) as promulgated by the Appraisal Foundation and that of the Appraisal Institute as well as the Supplemental Appraisal Standards for the Board of Trustees, Division of State Lands, Bureau of Appraisal, Florida Department of Environmental Protection, March 2, 2016.

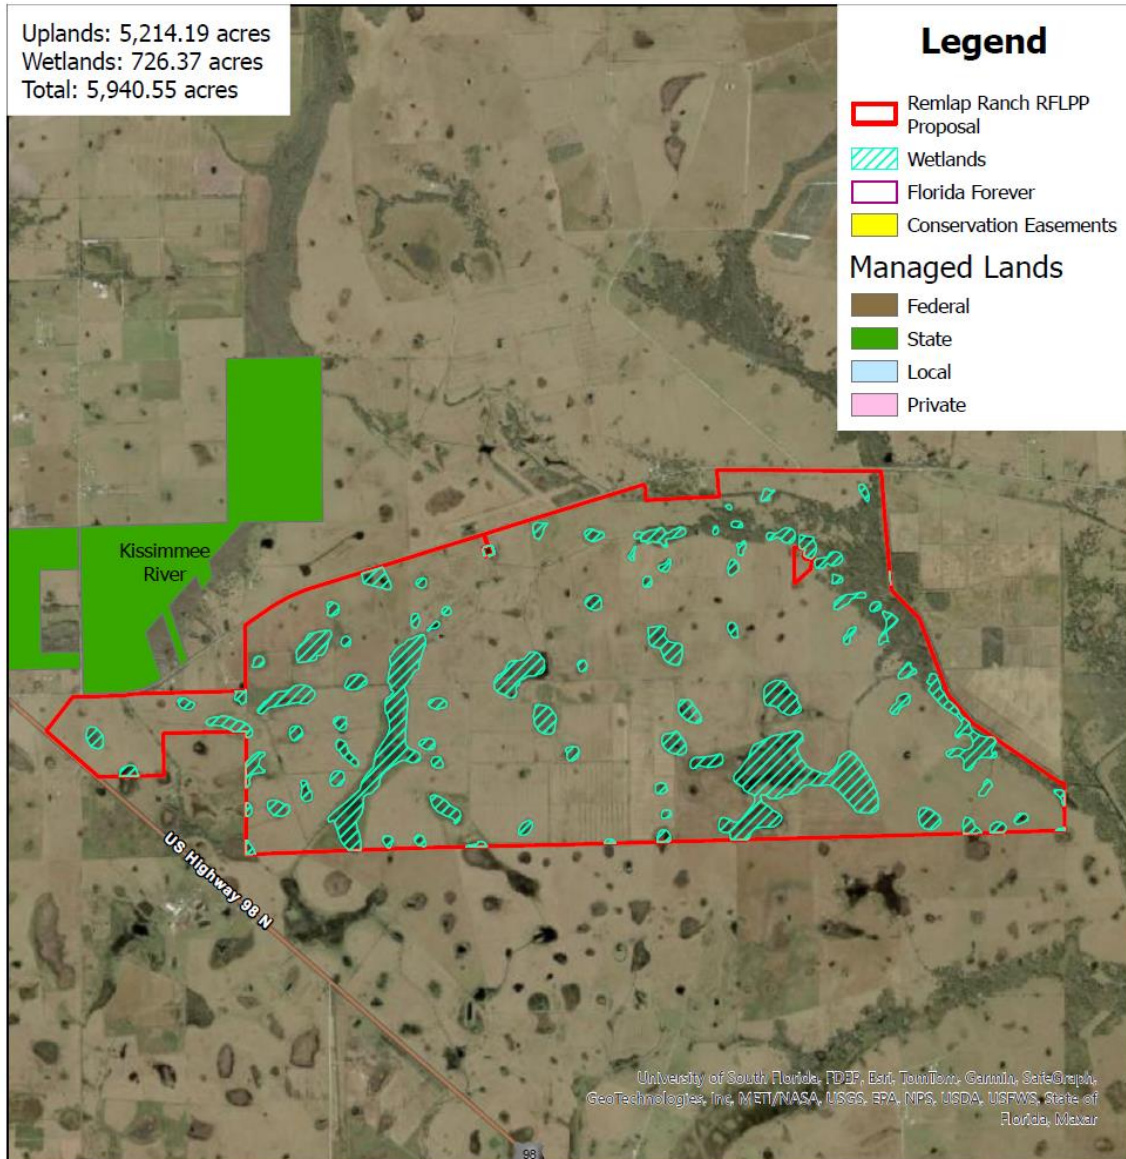

Acceptance of Appraisals

The appraisal reports referenced herein are considered acceptable and approvable by the signed reviewer subject to the attached certification.

Certification

I certify that, to the best of my knowledge and belief:

1. The facts and data reported by the review appraiser and used in the review process are true and correct.
2. The analyses, opinions, and conclusions in this review report are limited only by the assumptions and limiting conditions stated in this review report, and are my personal, unbiased professional analyses, opinions and conclusions.
3. I have no present or prospective interest in the property that is the subject of this review and I have no personal interest or bias with respect to the parties involved.
4. My compensation is not contingent on an action or event resulting from the analyses, opinions, or conclusions in, or the use of this review report.
5. My analyses, opinion, and conclusions are developed and this review report was prepared in conformity with the Uniform Standards of Professional Appraisal Practice.
6. My analyses, opinion, and conclusions are developed and this review report was prepared in conformity with the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute and with the Supplemental Standards for the Board of Trustees Division of State Lands, Bureau of Appraisal, Florida Department of Environmental Protection, March 2016.
7. The appraisals reviewed are in substantial compliance with USPAP, SASBOT as well as Rule 18-1.006, Florida Administrative Code (FAC).
8. I did personally inspect the subject property.
9. No one provided significant professional assistance to the person signing this review report.
10. As of the date of this report, Thomas G. Richards, MAI has completed the requirements of the continuing education program for members of the Appraisal Institute.
11. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
12. I have not appraised or performed any other services for any other party in regard to this property.

Thomas G. Richards, MAI
