2019 Chemical Monitoring for Community Systems

Sunshine #6 (Backwater Heights #1 & #2)

PWS-ID No. 6090099

MONITORING & REPORTS		Well #1	Well #2	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	Monthly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Monthly	Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2019	2019	Sample at each POE every year.*
Primary Inorganics		2021	2021	Sample at each POE every three years.
Secondaries		2021	2021	Sample at each POE every three years.
Radiologicals	Gross Alpha	2027	2027	Sample at each POE every three, six or nine years.
	Uranium	2027	2027	Sample at each POE every three, six or nine years.
	Radium-226	2027	2027	Sample at each POE every three, six or nine years.
	Radium-228	2027	2027	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2021	2021	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2021	2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		2021		Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2021		Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		2021		Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2019		CCR must be delivered by July 1, 2018. The CCR Certification of Delivery must be submitted to the Department by August 10, 2018. Use Form 62-555.900(alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2018 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2019 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2019 Chemical Monitoring for Community Systems

PWS Name: Beverly Hills (Systemwide)

PWS ID #: 6090150

MONITORING & REPORTS	DUE	COMMENTS
Distribution Microbiological ("Bacteriological")	Monthly	10 Distribution Samples per month. Disinfectant residuals must be reported.
Raw Water Microbiological ("Bacteriological")	Monthly	Sample each active well monthly.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>	July-Sept. 2019	Sample per approved Stage 2 D/DBPR Monitoring Plan.
Lead & Copper	June-Sept. 2020	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2019	CCR must be delivered by July 1, 2019. The CCR Certification of Delivery must be submitted to the Department by August 10, 2019. Use Form 62-555.900(alternate 19), F.A.C.
Asbestos	2020	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Cross Connection Control Annual Report	March 31, 2019	Complete and submit DEP form 62-555.900(13).

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2018 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2019 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2019	Sample at each POE every year.*
Primary Inorganics		2019	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2019	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2019	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July - Sept. 2019	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept. 2019	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2019 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2019 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2019 Chemical Monitoring for Community Systems

System Name Oak Forest

PWS-ID No. 6091274

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2019	Sample at each POE every year.*
Primary Inorganics		2021	Sample at each POE every three years.
Secondaries		2021	Sample at each POE every three years.
Radiologicals	Gross Alpha	2024	Sample at each POE every three, six or nine years.
	Uranium	2024	Sample at each POE every three, six or nine years.
	Radium-226	2027	Sample at each POE every three, six or nine years.
	Radium-228	2027	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2021	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July - Sept. 2021	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2021	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept. 2021	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2019	CCR must be delivered by July 1, 2019. The CCR Certification of Delivery must be submitted to the Department by August 10, 2019. Use Form 62-555.900(alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2019 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2019 Chemical Monitoring for NTNC

Water Systems Bayfront Health Seven River

PWS-ID No. 6092186

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2019	Sample at each POE every year.*
Primary Inorganics		2019	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	2025	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2019	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2019	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July -Sept 2019	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2020	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept 2021	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2019	CCR must be delivered by July 1, 2019. The CCR Certification of Delivery must be submitted to the Department by August 10, 2019. Use Form 62-555.900(alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2019 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2019 Chemical Monitoring for Community Systems

Constate Utilities

PWS-ID No. 6094773

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2019	Sample at each POE every year.*
Primary Inorganics		2021	Sample at each POE every three years.
Secondaries		2021	Sample at each POE every three years.
Radiologicals	Gross Alpha	2027	Sample at each POE every three, six or nine years.
	Uranium	2027	Sample at each POE every three, six or nine years.
	Radium-226	2027	Sample at each POE every three, six or nine years.
	Radium-228	2027	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2021	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July - Sept. 2021	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2020	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept. 2021	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2019	CCR must be delivered by July 1, 2019. The CCR Certification of Delivery must be submitted to the Department by August 10, 2019. Use Form 62-555.900(alternate 19), F.A.C.

Lead & Copper		June - Sept. 2019	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2019 to provide time for revisions, retests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

Ark Angels Daycare

PWS-ID No. 6094907

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2019	Sample at each POE every year.*
Primary Inorganics		2019	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2019	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2019	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July - Sept. 2019	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept. 2021	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2019	Sample at each POE every year.*
Primary Inorganics		2021	Sample at each POE every three years.
Secondaries		2021	Sample at each POE every three years.
Radiologicals	Gross Alpha	2027	Sample at each POE every three, six or nine years.
	Uranium	2024	Sample at each POE every three, six or nine years.
	Radium-226	2027	Sample at each POE every three, six or nine years.
	Radium-228	2027	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2021	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July-Sept 2021	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2021	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept 2021	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2019	CCR must be delivered by July 1, 2019. The CCR Certification of Delivery must be submitted to the Department by August 10, 2019. Use Form 62-555.900(alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2019 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2019	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2019	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July - Sept. 2019	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept. 2019	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2019 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2019 Chemical Monitoring for NTNC

Water Systems: Citrus Combined Cycle

PWS-ID No. 6095093

MONITORING & REPORTS		DUE	COMMENTS
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2019	Sample at each POE every year.*
Primary Inorganics		2019	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2019	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2019	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		Quarterly 2019	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		Submit Waiver	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept. 2019	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.
