 Notice of availability of funds for State Agencies and Water Management Districts.

The Florida Coastal Management Program (FCMP) announces the availability of federal funds for projects related to coastal resource protection. Priorities include water quality improvements encompassing research, monitoring, or restoration, and protection of vulnerable coastlines. The proposed projects should be able to be completed within 12 months, with anticipated project start dates in July 2021. They should be designed to generate and provide information, plans, or meet needs for protection, coordination and response to hazards along Florida’s coast. Financial assistance is available in the form of reimbursement grants ranging from \$15,000 to \$74,000, depending upon availability of federal coastal management funds received from the National Oceanic & Atmospheric Administration (NOAA). The FCMP anticipates that grant recipients will not be required to provide non-federal matching funds or services. Rule Sections 62S-5.002(4) and .003, F.A.C., describe the procedures for submitting applications and the procedures and criteria by which applications will be evaluated, respectively.
