

# **BROWARD COUNTY BROWNFIELDS REDEVELOPMENT PROGRAM**

## **2010 ANNUAL REPORT**

# **BROWARD COUNTY BROWNFIELDS REDEVELOPMENT PROGRAM**

## **2010 ANNUAL REPORT**

(Period Beginning January 1, 2010 and Ending December 31, 2010)

### **INTRODUCTION**

Florida's Brownfields Redevelopment Program began with the passage of the Brownfield Redevelopment Act (Act) by the Florida Legislature in 1997. The Act, later amended, defines brownfield sites as "real property, the expansion, redevelopment, or reuse of which may be complicated by actual or perceived environmental contamination." The Act encourages the reuse and redevelopment of brownfield sites within designated brownfield areas. The Act also provided the framework for Florida's Brownfields Redevelopment Program to facilitate redevelopment of these sites while also providing for environmental cleanup and protection of the public health and the environment.

Broward County's Brownfields Redevelopment Program is currently administered by the Environmental Protection and Growth Management Department (EPGMD). EPGMD consists of staff with expertise in planning, redevelopment, and environmental contamination assessment and cleanup. On May 23, 2000, as authorized by Florida Statutes, the Florida Department of Environmental Protection (FDEP) delegated the administration of the Brownfields Redevelopment Program within Broward County to EPGMD. On May 25, 2010, a Delegation Agreement was executed by the FDEP and Broward County to extend the delegation period for another ten (10) years.

### **DESIGNATED BROWNFIELD AREAS**

At the end of the 2010 reporting period, there were thirteen (13) areas within Broward County designated as Brownfield Areas, encompassing approximately 8,419 acres (13.15 square miles). Twelve (12) of the areas have been previously reported. Table 1 at the end of this Report summarizes fundamental information about the designated areas. A map depicting the Brownfield areas in Broward County is also provided at the end of this Report.

#### Designated Areas within 2010 Reporting Period

There was one (1) newly Brownfield designated area within the 2010 reporting period. On January 19, 2011, the City of Margate designated a Brownfield Area and renamed it the Margate Economic Enhancement District (MEED). MEED consists of 1,373 acres and is assigned the Brownfield Area ID BF061101000.

### **BROWNFIELD SITE REHABILITATION AGREEMENTS (BSRAs)**

Two (2) new BSRAs were executed with Broward County during the 2010 annual reporting period, both for the Pompano Beach Replacement Library and Civic Campus. There are also three (3) other BSRA sites in Broward County that have been previously reported; they are the McArthur Dairy site, the Dania Beach Motocross site, and the Harbour Cove Apartments site. Table 2 at the end of this Report provides

fundamental information regarding these sites, and the activities conducted to date are detailed in this section.

**McArthur Dairy, BF060201001**  
**(Status: Rehabilitation Ongoing)**

Broward County EPGMD executed a BSRA with McArthur Dairy on June 11, 2003. The property consists of 10.348 acres and is located at 1101 NW 40th Ave. in Lauderhill, which lies within that city's US441/SR7 Brownfield-designated corridor (Brownfield Area BF060201000).

The McArthur Dairy site contains contamination resulting from two petroleum and one chlorinated solvent discharge; one of the petroleum contaminant plumes is also eligible for future state funding in the Petroleum Cleanup Program. The property is currently a vacant lot which is fenced off from public access. No redevelopment has been initiated.

A brief summary of rehabilitation activities conducted during the 2010 reporting period for each of the contaminant areas is as follows:

- 1) Petroleum Contamination at the former Diesel Underground Storage Tank Area (also eligible in the State Petroleum Cleanup Program) – A biosparge system was initiated in October 2010. The remediation system was shut down in January 2011 after groundwater met Cleanup Target Levels. The area is currently undergoing post-active remediation monitoring.
- 2) Commingled Petroleum and Chlorinated Solvent Contamination at the Boiler Room Area – A Remedial Action Approval Order was issued on October 12, 2010, to authorize remediation via oxygen injection. The intermittent injection is currently ongoing.

**Above:** Excavation of contaminated soils at the former boiler room area at McArthur Dairy

**Dania Motocross, BF060301001**  
**(Status: Rehabilitation Complete, SRCO Issued)**

The second BSRA in Broward County was executed April 12, 2004, with South Florida Sports Committee, Inc. The property is located at 2600 SW 36th Street in Dania Beach and consists of 12 acres.

Prior to the time of BSRA execution, years of groundwater monitoring was performed at the facility under a Final Judgment entered on November 1, 1988, in the Circuit Court of the Seventeenth Judicial Circuit In and For Broward County. The BSRA was executed to effectively utilize the risk-based corrective action

techniques of the Brownfield Cleanup Criteria for lingering dissolved metals contamination (specifically consisting of manganese, iron, and aluminum) in groundwater.

After conducting supplemental groundwater assessment, South Florida Sports Committee submitted a certified No Further Action with Conditions (NFAC) proposal to Broward County. Broward County approved the NFAC proposal on October 14, 2004, which established Alternative Groundwater Cleanup Target Levels and implemented a deed restriction prohibiting future groundwater use. A Conditional Site Rehabilitation Completion Order (SRCO) was issued by Broward County on August 1, 2006. The site is currently being marketed for redevelopment as a warehouse complex.

**Harbour Cove, BF060401001**  
**(Status: Rehabilitation Complete, SRCO Issued)**

The third BSRA in Broward County was executed December 17, 2005, with Harbour Cove Associates, Ltd. The property is located at 100 NW 9th Terrace in Hallandale Beach and consists of 7.06 acres.

On February 4, 2004, Broward EPGMD was informed that free petroleum product was identified in excavation test pits at the property. Historical sources indicated that the Harbour Cove site was once used as a landfill and lakefill site.

After completing site assessment, a Monitoring Only Approval Order was issued to monitor the ammonia and petroleum-contaminated site groundwater in accordance with Chapter 62-785, Florida Administrative Code. Upon completing the prescribed monitoring to establish Alternative Groundwater Cleanup Target Levels, Harbour Cove enacted an institutional control for no groundwater use on the property. Soils contaminated with low concentrations of metals and polynuclear aromatic hydrocarbons have also been addressed through institutional and engineering controls. Redevelopment of the Harbour Cove site as a large, multi-story apartment complex has been successfully completed, and a Conditional SRCO was issued by Broward County on May 6, 2009.

**Pompano Replacement Library and Civic Campus A (Petroleum Contamination), BF069901001**  
**(Status: Rehabilitation Complete, SRCO Issued)**

The fourth BSRA in Broward County was executed December 6, 2010, with the City of Pompano Beach. The property is located at 128-140 SW 1<sup>st</sup> Avenue and 132 SW 1<sup>st</sup> Terrace in Pompano Beach and consists of 0.5 acres.

Site assessment, tank removal, and soil and groundwater source removal were performed during calendar year 2010 but before the BSRA was executed. Once Cleanup Target Levels had been achieved, a Brownfield SRCO was issued on 12/29/10. No restrictions are required. The area is still undeveloped. Plans are still being finalized to redevelop the area as a public library and government campus.

**Pompano Replacement Library and Civic Campus B (Arsenic Contamination), BF069901002**  
**(Status: Rehabilitation Ongoing)**

The fifth BSRA in Broward County was executed December 6, 2010, with the City of Pompano Beach. The property is located at 142-150 SW 1<sup>st</sup> Avenue in Pompano Beach and consists of 0.75 acres.

This site is adjacent to site BF069901001. A source removal of contaminated soil was conducted in 2010. The site is currently in interim groundwater monitoring to establish Alternative Groundwater Cleanup Target Levels. If the groundwater contamination remains stable, the site will qualify for No Further Action with Conditions during calendar year 2011. Plans are still being finalized to redevelop the area as a public library and government campus.

**Right:** Initial proposed conceptual redevelopment plan for the Pompano Replacement Library and Civic Campus.

## **SITE REHABILITATION COMPLETION ORDERS (SRCO)**

### SRCOs Issued During the 2010 Reporting Period

One (1) SRCO was issued in Broward County during the 2010 reporting period. On December 29, 2009, a SRCO was issued for the Pompano Beach Replacement Library and Civic Campus A (BF069901001). The SRCO was issued without any restrictions on the subject properties.

### Previously Issued SRCOs

Two (2) Brownfield SRCOs had previously been issued in Broward County:

- On August 1, 2006, a Conditional SRCO was issued for the Dania Motorcross Brownfield Site (BF060301001). The Conditional SRCO specifies groundwater use restrictions on the property.
- On May 6, 2009, a Conditional SRCO was issued for the Harbour Cove Apartments Brownfield Site (BF060501001). The Conditional SRCO specifies engineering controls and groundwater use restrictions on the property.

## **BROWNFIELD SITE SPECIFIC ACTIVITY, ASSESSMENT, AND PILOT PROJECT GRANTS**

No new grants were awarded during the current reporting period to projects within Broward County. The following grants had been previously awarded:

- 1) In 2008, the Pompano Beach Community Redevelopment Agency (CRA) received two Site-Specific Activities Grants of up to \$50,000 each for two adjacent parcels, located at 201 Hammondville Road (Former B-T Oil Gas Station) and 324 NW 2<sup>nd</sup> Avenue (Former J&S Garage Site). The parcels are located in a larger 24-acre project area that will include a mass transit facility, community facilities, commercial use, and affordable housing developments. This project area will function as the “marquee” development for the CRA’s Northwest District and will spur additional redevelopment. The grants funded assessment and source removal activities.
- 2) A Phase II Assessment for the Turner Envirologic, Inc., Brownfield site (BF060501000, also known as the former East Coast Asphalt facility) was performed through a Targeted Brownfield Assessment Grant on February 21, 2005. Petroleum contamination at the facility is enrolled in the FDEP’s Petroleum Cleanup Program with a low priority score; however, the assessment was necessary in order to determine potential redevelopment strategies for the site.
- 3) In June 1999, the USEPA awarded a \$200,000 Pilot Assessment Grant to the City of Fort Lauderdale. The Pilot targeted 190 acres in Fort Lauderdale’s most economically and environmentally distressed area, the Northwest Progresso Flagler Heights neighborhood.
