Executive Summary

The Brownfields Program

The Brownfields program is a redevelopment tool for properties with environmental contamination, or the perception of environmental contamination. Started by the EPA in 1995 and continued in Florida in 1997 by the Florida Brownfield Redevelopment Act, Section 376.77-376.86 of the Florida Statutes, this program provides business incentives to rehabilitate a contaminated property and return it to productive use for the community. Grants, loans and tax credits are available for site clean-up, job creation and affordable housing. Redevelopment of distressed properties can increase property values and revitalize a neighborhood. The goal of the Brownfields program is to conserve our undeveloped land resources by reusing developed properties in new ways to enhance the overall quality of life in the surrounding community.

A **Brownfield Area (BA)** is defined by Section 376.79(4), Florida Statute, as “...a contiguous area of one or more Brownfield sites, some of which may not be contaminated, and which has been designated by a local government by resolution.” Local governments who have designation authority in Hillsborough County are Hillsborough County, the City of Tampa, the City of Plant City and the City of Temple Terrace.

A **Brownfield Site (BF)** is defined by Section 376.79(3), Florida Statute, as “...real property, the expansion, redevelopment, or reuse of which may be complicated by actual or perceived environmental contamination.” There may be one or more Brownfield sites contained within a Brownfield Area. Brownfield site owners enter into an environmental clean-up agreement with the Florida Department of Environmental Protection (FDEP), or one of the delegated County programs such as the EPC.

EPC’s Program Role

The **Environmental Protection Commission of Hillsborough County (EPC)** is the local natural resource protection agency created by the Florida Legislature in 1967 to serve the citizens of Hillsborough County. The EPC was delegated Brownfields program authority by the Florida Department of Environmental Protection (FDEP) in 2004, which was renewed in 2012. Brownfield sites require Site Rehabilitation, which begins with an environmental assessment of soils and groundwater. Site rehabilitation is conducted in accordance with the following Florida regulations:

- Chapter 62-780, Florida Administrative Code, Contaminated Site Cleanup Criteria
- Chapter 62-777, Florida Administrative Code, Contaminant Cleanup Target Levels

The EPC manages the site rehabilitation process through a voluntary cleanup contract with the property owner called a **Brownfield Site Rehabilitation Agreement (BSRA)**. The goal of site rehabilitation is to return the soils and groundwater to clean conditions, or conditions that are protective of human health and the environment as allowed under these regulations. A **Site Rehabilitation Completion Order (SRCO)** issued by EPC is the final document closing the environmental investigation at the site and terminating the BSRA. The EPC works closely with the property representative, environmental consultants and attorneys to accomplish site closure. Site rehabilitation and closure take into account future land use, allowing economy of cost paired with responsible protection of human health and the environment.

In addition to the delegated duties, **EPC promotes the two goals of the Brownfields program, environmental restoration and responsible redevelopment**, by working with the local economic development agencies and environmental professionals to increase awareness of the opportunities that the Brownfields program can provide. This can involve meetings with interested parties, or presentations to environmental professional groups.

EPC continues to support the University of South Florida's EPA Area-Wide Planning Grant that was awarded in February 2017. EPC assists USF with any contaminated site questions encountered in the planning area, and has presented information about the Brownfields program and other environmental topics to USF students and the public in the grant area.

EPC also has been looking at ways to evaluate the economic impact of redeveloped Brownfield sites in Hillsborough County. A comparison of property values today and at the time the BSRA was signed is presented in the Conclusions section for completed sites managed by EPC.

This report covers the Brownfields Program activities by EPC from June 1, 2017 to May 31, 2018.

2017 - 2018 Annual Summary

The EPC manages **34 of the 62 Brownfield sites** in Hillsborough County. FDEP manages sites that have RCRA program issues or existing Consent Orders with the FDEP, or sites where Hillsborough County is the property owner. EPC and FDEP work closely to ensure that sites needing environmental assessment are directed to the appropriate agency. Below is the breakdown of the 34 Brownfield sites managed by the EPC.

- **13 sites are in environmental assessment**
- **6 sites are in groundwater monitoring to evaluate for closure conditions**
- **1 site is in remediation**
- **1 site is in closure**
- **12 sites are complete**
- **1 is inactive due to bankruptcy, but currently is up for sale**
- **486 acres are in EPC's Brownfield site rehabilitation program**

Three new **SITES with BSRAs** were added to the EPC's program in the past year:

- **Mitusina (Ruskin, 49 acres)**
- **Pitch Pine (Tampa, 2.61 acres)**
- **Tampa Jai Alai (Tampa, 13.09 acres)**

One new **BROWNFIELD AREA** was added this year:

- **Blue Humphrey Street (Tampa, 6.14 acres)**

The following sites were issued **SRCOs** this past year:

- **Liberty Tampa (Tampa, 0.95 acres)**
- **Spruce Street (Tampa, 3.42 acres)**

Hillsborough County has **15 designated Brownfield Areas** without BSRAs. These areas are ready for redevelopment in the Brownfields program, but no environmental investigations are ongoing.

2017-2018 Project Accomplishments

Sites Closed in 2017-2018

Liberty Tampa

PROJECT SPECIFICS: SRCO January 16, 2018

**Liberty Tampa, BF291602001; 0.95 acres,
227 North Meridian, Tampa**

The Liberty Tampa Brownfield site was first developed in the late 1930s or early 1940s for repair of heavy equipment. In the 1970s the site was used for manufacturing components for barges and in the 1980s was used for the manufacture of aluminum doors. A Site Assessment Report submitted in February 2017 detected no groundwater contamination. Soils contaminated with petroleum compounds have been removed. A Site Rehabilitation Completion Order dated January 16, 2018 closed the environmental part of the project. Redevelopment is underway for a proposed multistory 240-room hotel and parking garage with a small retail section that is anticipated to produce approximately 125 new jobs.

Liberty Tampa site under construction, March 2018

Sites Closed in 2017-2018

Spruce Street

PROJECT SPECIFICS: **Conditional SRCO March 13, 2018**

**Spruce Street/Tampa Landfill #2, BF291405001; 3.42 acres,
4310 W Spruce St, Tampa**

The Spruce Street Brownfield site is located in Tampa's Westshore area. The site is located within the boundaries of an area known as the Old City of Tampa Landfill # 2. This old landfill area encompasses approximately 100 acres and was used by the City of Tampa for solid waste disposal prior to the mid-1960's. The Conditional SRCO issued March 13, 2018 contains engineering and institutional controls for soil and groundwater conditions. A 5-story apartment building with 262 residential units has been constructed at the site. An adjacent multi-level parking garage supports the apartments. It is anticipated that at least 5 new full-time positions will be created at the complex. This development was also issued an EPC Director's Authorization (DA) for construction over old landfills. The DA requires passive landfill gas vents to prevent migration of gas from offsite parcels that still have buried debris.

Construction complete: The Novus Westshore Apartments

New Brownfield Sites in 2017

Pitch Pine

PROJECT SPECIFICS: BSRA executed December 12, 2017

**Pitch Pine, BF291703001; 2.61 acres,
1607 N 43rd Street, Tampa**

The Pitch Pine Brownfield site executed a BSRA with EPC on December 12, 2017. This site was the former location of Weekly Lumber and Pitch Pine, businesses that treated lumber onsite with Chromated Copper Arsenate (CCA). Treated wood was dried in an unpaved area that allowed the CCA liquid to drip on the ground. The soils and groundwater are affected with the metals used in this process. An environmental site assessment is ongoing. Currently, the site is used by demolition and recycling contractors.

Materials Recycling at Pitch Pine Brownfield site

New Brownfield Sites in 2017

Tampa Jai Alai

PROJECT SPECIFICS: BSRA executed December 21, 2017

**Former Tampa Jai Alai, GF Properties LM LLC, BF291704001; 13.09 acres,
5145 S Dale Mabry Highway, Tampa**

This site was used for solid waste disposal in the 1950s. Preliminary assessment reports documented soil and groundwater contamination, and landfill gas generation. Construction at the site is permitted under a Director's Authorization from EPC to address the specific environmental concerns associated with construction in former waste disposal areas. Waste has been removed from most of the site, but some remains along the edge of the property. Construction has begun to build a multifamily community with 140 townhouses and 160 apartments. This redevelopment is expected to create 6 new property management and maintenance jobs.

Grading at the Former Tampa Jai Alai Brownfield site

New Brownfield Sites in 2017

Miroslav Mitusina

PROJECT SPECIFICS: BSRA executed June 22, 2017

**Miroslav Mitusina, BF291701001; 49 acres
1112 SW 10th Street, Ruskin**

The Miroslav Mitusina Brownfield Area was designated by Hillsborough County on April 19, 2017, and signed a BSRA June 22, 2017. The property was formerly used as a fish farm and has one residence on site. Two medical manufacturing buildings, a day care center and a plant farm are proposed for the site. One manufacturing building will house a chrome coating process for medical devices and the other will be a location for making stainless steel medical tubing. It is anticipated that these redevelopment plans will create 100 jobs. The property is in the site assessment phase of the Brownfields project.

Mitusina Brownfield Site in Ruskin

New Brownfield Area Designation Hillsborough County 2018

Blue Humphrey Street Brownfield Area

PROJECT SPECIFICS: BA Designation February 26, 2018

**Blue Humphrey Street Brownfield Area BF291801000, 6.14 acres
4102 W Humphrey Street, Tampa**

The property was previously vacant, and was used for illegal dumping of solid waste. Waste was removed from the site, soils tested, and all environmental impacts were removed prior to designation of the Brownfield Area. No BSRA is anticipated for this site. Construction is in progress to build an affordable housing community with 56 units at the site. It is anticipated that this Brownfield project will create 2 new jobs.

Sweetwater Villas under construction

Active Project Summaries

City of Tampa

Former Gulf Coast Metals, now Trademark Metals Recycling

PROJECT SPECIFICS: Site Assessment Complete

**Former Gulf Coast Metals, now Trademark Metals, BF291302001; 3.24 acres,
6912 East 9th Avenue, Tampa**

This site is located in the heavy industrial area of Orient Road in Tampa. The Gulf Coast Metals site designation was approved by the City of Tampa in May 2013 and a BSRA was executed in September 2013 with Trademark Metals. Aluminum scrap was recycled and refined onsite in a smelter from 1983-2012. The property was purchased by Trademark Metals from the former owner Gulf Coast Metals. Contaminated soils have been removed, and groundwater affected by site operations has been assessed. Groundwater is now being monitored to evaluate for closure conditions.

Soil Removal at the former Gulf Coast Metals site

City of Tampa

Tampa Armature Works

PROJECT SPECIFICS: Redevelopment Complete

Tampa Armature Works, BF290606001; 4.27 Acres
1910 Ola Ave, Tampa

The Tampa Armature Works property was formerly used as a garage for the City of Tampa’s streetcars and for manufacture and repair of electrical components. Soils have been assessed, and removal of soils contaminated with arsenic, petroleum compounds and PCBs has been conducted. The groundwater is currently being monitored for arsenic, petroleum compounds and solvents. The property owner is considering possible environmental closure paths at this time. The site has been redeveloped as a collection of markets, restaurants, bars and meeting places.

Tampa Armature Works Public Market

Port Tampa Bay

Winner Metals

PROJECT SPECIFICS: Remedial Action Complete

Winner Metals Brownfield Site BF290101004; 42 Acres
2801 Guy N Verger Blvd, Tampa, FL 33605

The 42-acre Winner Metals site has completed the site Remedial Action Plan (RAP) for placement of two feet of clean fill above soil affected by petroleum products, arsenic and pH from a former metals recycling operation. This layer of clean fill will function as the Engineering Control to prevent direct exposure to the former site soils. The groundwater is being monitored to see if natural attenuation of these contaminants is taking place. Once the groundwater effects are shown to be declining, the site could begin the conditional closure process. This site is zoned heavy industrial and is part of the large Tampa Port Authority complex. Redevelopment plans are to expand container cargo operations.

Aerial view of former Winner Metals site

Port Tampa Bay

Former TECO Hookers Point/Hendry Marine Corporation

PROJECT SPECIFICS: Pending Conditional SRCO

**Hendry Corporation/Former TECO Hookers Point BF290702001; 31.97 Acres;
1650 Hemlock St., Tampa, FL 33605**

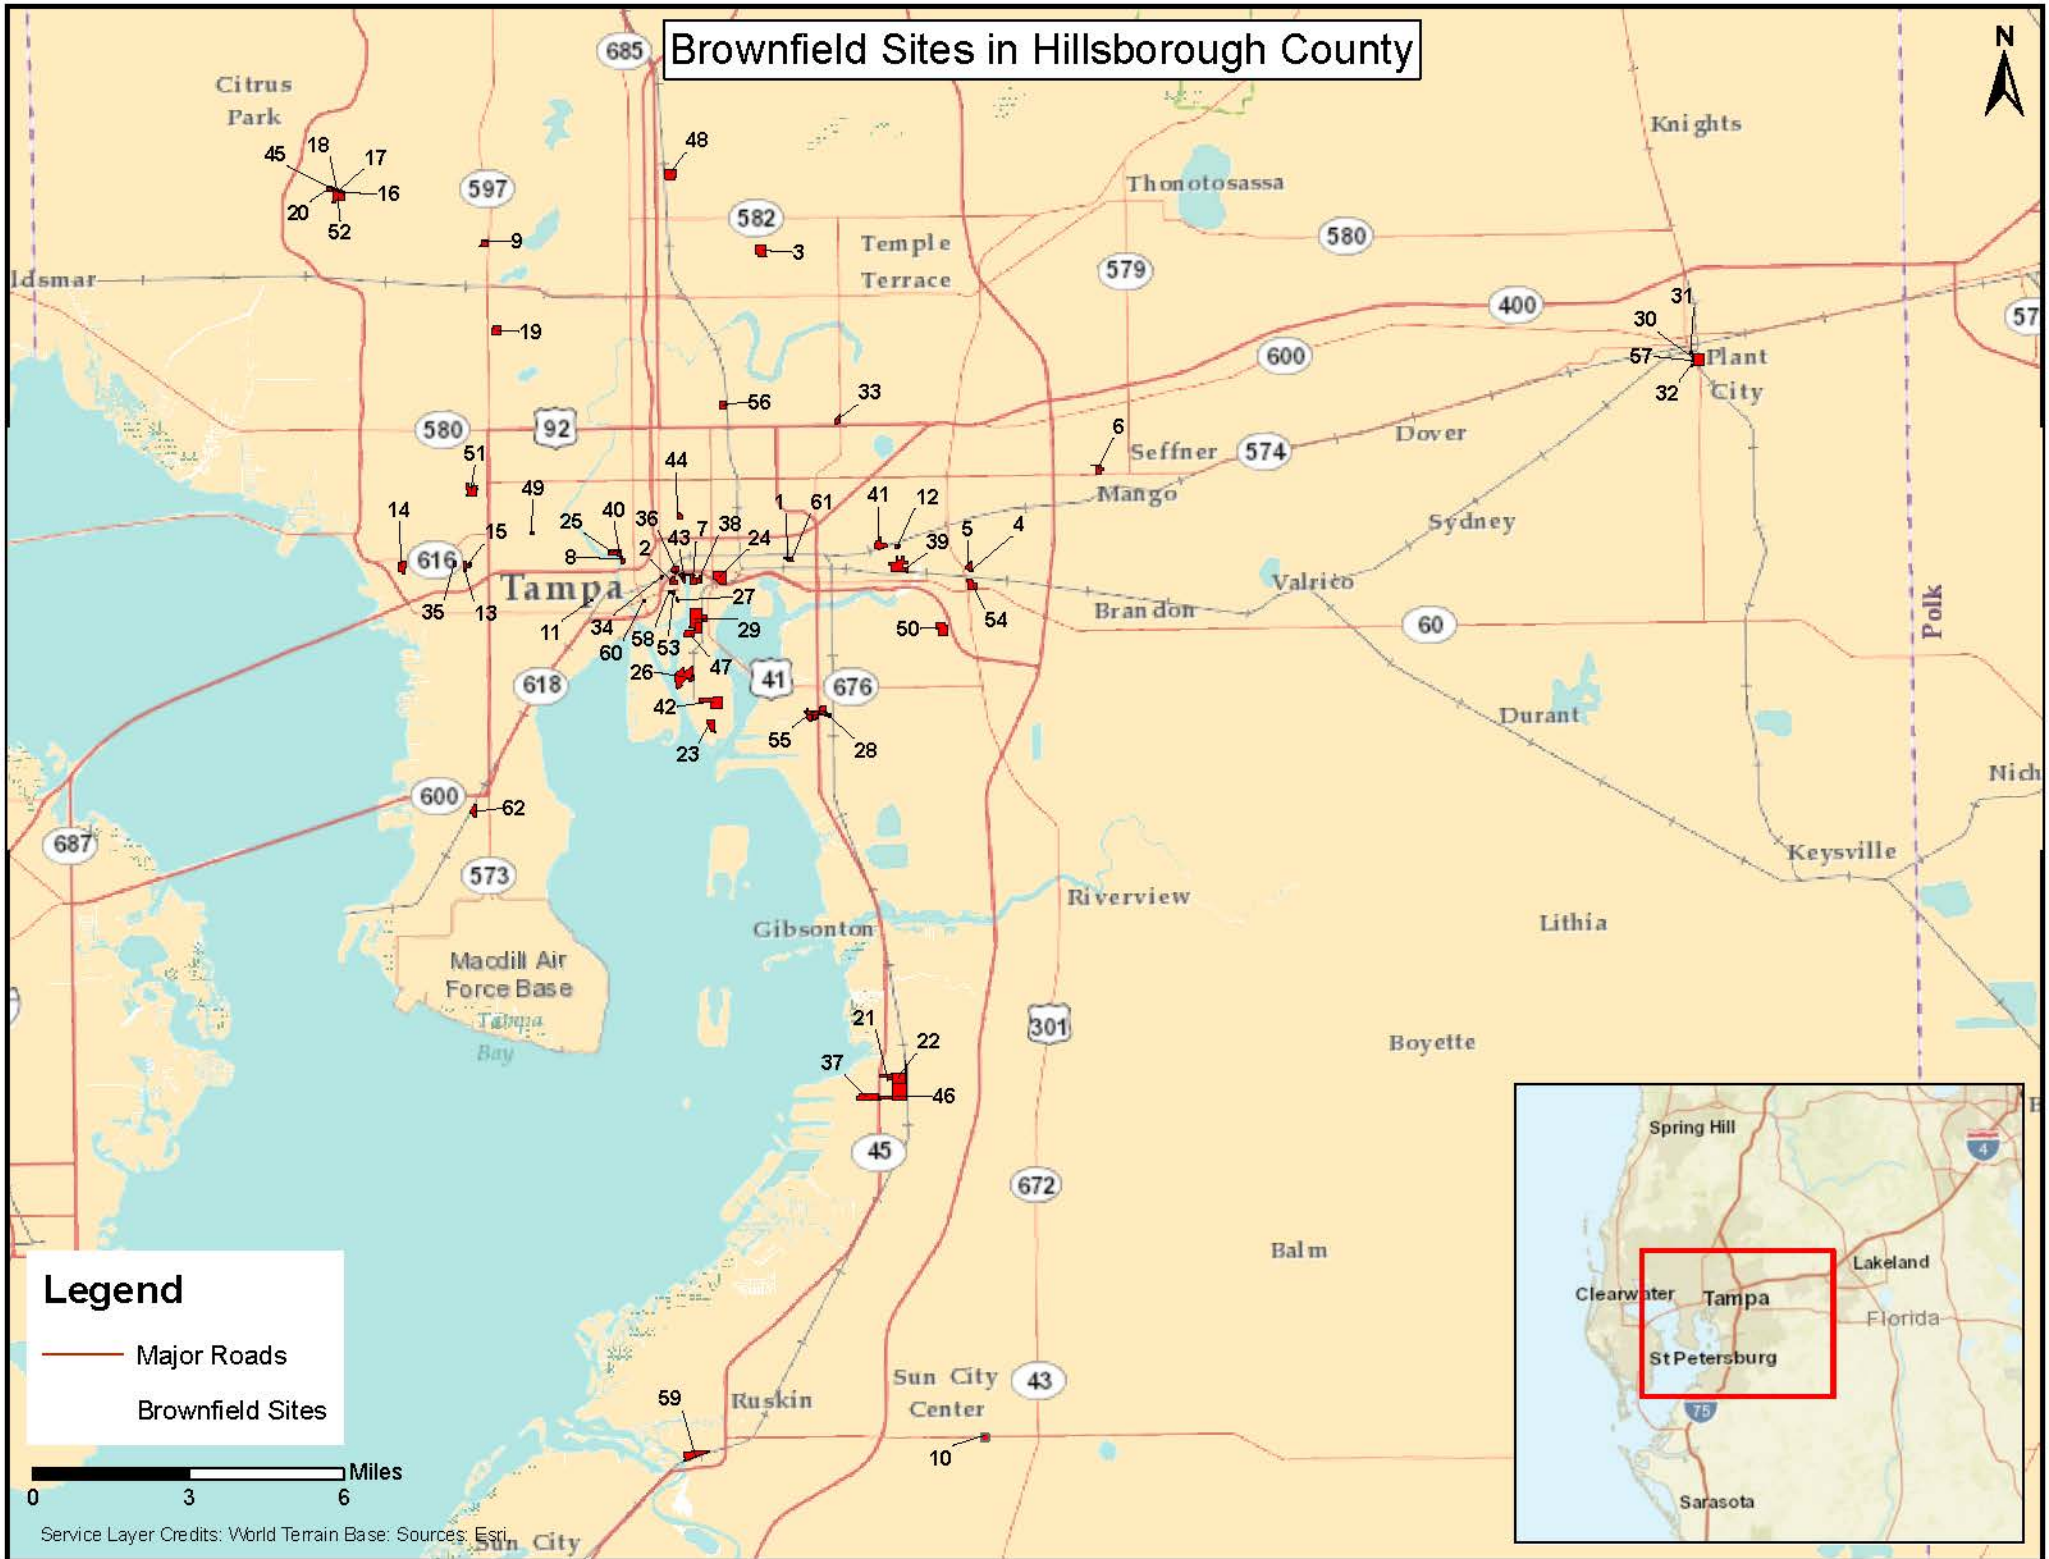

This Brownfield site is a former power plant that operated for 55 years. The plant has been demolished and now ship repair and bulk container storage take place at the site. Site assessment for petroleum and metals in the soils and groundwater is complete. Source removal of contaminated soils is complete. Conditional closure of the site with institutional and engineering controls is pending.

2018 Report Conclusions

EPC closed two Brownfield sites this year, and a third is pending closure. Three new Brownfield sites were started, and one Brownfield Area was created for building affordable housing. Interest in the Brownfields program continues to be strong in Hillsborough County as redevelopment in urban/suburban areas has become more desirable than moving out toward undeveloped land.

EPC continues to promote the Brownfields Program, meeting with economic development groups, the University of South Florida EPA grant recipients, as well as making presentations to professional groups and college students. EPC is also an active member of the Florida Brownfields Association, and participates in their Technical Committee to assist with site remediation issues, such as the redevelopment of old solid waste disposal areas and urban background soil characteristics.

One of the advantages to the Brownfields program is the coordination of the progress of both the site rehabilitation and redevelopment. Brownfield sites may assess and remediate soils in parallel process with site grading and preparation for redevelopment. Improvements to the environment and the community are achieved faster when this approach is used.

Presented below is a comparison of the change in assessed property value for EPC Brownfield projects that have completed site redevelopment and/or site rehabilitation. The sites that have redeveloped the property prior to finalizing the environmental site closure are included at the bottom of the table. Property values show the change in property value from the start of the Brownfield project to present day. This table does not account for various tax and economic development incentives that may have been used, and may affect the county's tax income for several years.

Apparent Change in Property Values, EPC Brownfield Sites				
Site Name	Year BSRA Signed	Year SRCO Issued	Property Value Change	Redevelopment
Hillsborough CC	2005	2008	\$3,259,686	College parking, buildings
Circle Tampa Ventures	2006	2007	\$45,969,200	Apartments
McKibbon Hotel Group	2006	2010	\$41,724,293	Hotels, medical services
IKEA/Panattoni Group	2007	2009	\$6,530,262	Furniture sales
Crosland/Varela	2008	2015	\$51,039,800	Apartments
Tampa Tank	2008	2011	\$384,235	Industrial
Sun City BP	2011	2013	(\$94,840)	Bank
Hydraulic Hose	2011	2016	(\$178,000)	Undeveloped
Nebraska Ave	2011	2016	\$116,651	Undeveloped
Liberty Tampa	2016	2018	(\$1,580,753)	Under construction
Spruce Street	2014	2018	\$30,267,400	Apartments
Water Works Park	2013	not yet issued	\$755,311	Park
Hudson Nursery	2014	not yet issued	\$2,468,683	Restaurants and retail
West Tampa Convention	2013	not issued	\$396,377	Retail
Brownfields Sites Total Apparent Increased Property Value:			\$181,058,305	

As Brownfield sites close and the program continues to grow, it can be expected to make a larger contribution to the community and economy of Hillsborough County.

The EPC of Hillsborough County continues its delegated responsibilities and has furnished a copy of this Annual Report to the FDEP.

JUNE 2018
