2020 Chemical Monitoring for Community Systems  
**PWS-ID No. 6510050**

**Aloha Gardens Utilities**

MONITORING & REPORTS		DUE	COMMENTS
Microbiological (“Bacteriological”)		Monthly	One raw sample per well. 9 distribution samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at POE every year. *
Primary Inorganics		2020	Sample at each POE every three years.
Secondaries		2020	Sample at each POE every three years.
Radiologicals	Gross Alpha	2023	Sample at each POE every three, six or nine years.
	Uranium	2026	Sample at each POE every three, six or nine years.
	Radium-226	2023	Sample at each POE every three, six or nine years.
	Radium-228	2023	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2020	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2 Quarters in 2020	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Heptachlor (2065)		2020	Sample at Well #8 POE.
Heptachlor Epoxide (2067)		2020	Sample at Well #8 POE.
Chlordane (2959)		2020	Sample at Well #8 POE.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		Quarterly 2020	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2020	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June – Sept 2020	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2020 to provide time for revisions, re-tests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

## 2020 Chemical Monitoring for NTNC

Baker Acres RV Ranch

PWS-ID No. 6510107

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2022	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July-Sept. 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2021	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		July - Dec. 2020	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Water Quality Parameters		Quarterly	Sample from POE and Distribution
Tank Cleaning & Inspection		2023	FAC Rule 62-555.350 (2) states all finished water storage tanks with access manholes shall be inspected and cleaned at a minimum of every 5 years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. ## 2020 Chemical Monitoring for Community Systems

System Name: Country Aire Village

PWS-ID No. 6510379

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2021	Sample at each POE every three years.
Secondaries		2021	Sample at each POE every three years.
Radiologicals	Gross Alpha	2027	Sample at each POE every three, six or nine years.
	Uranium	2027	Sample at each POE every three, six or nine years.
	Radium-226	2021	Sample at each POE every three, six or nine years.
	Radium-228	2021	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2021	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July-Sept 2021	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2021	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept 2021	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2020 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

## 2020 Chemical Monitoring for Community Systems

### Crestridge Gardens Utilities (Systemwide)

**PWS-ID No. 6510403**

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacteriological")	Monthly	Disinfectant residuals must be reported.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>	July-Sept 2020	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos	2021	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper	June-Sept 2021	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

### Crestridge Gardens Utilities – Plant 2

MONITORING & REPORTS	DUE	COMMENTS	
Nitrate and Nitrite	2020	Sample at each POE every year. *	
Primary Inorganics	2021	Sample at each POE every three years.	
Secondaries	2021	Sample at each POE every three years.	
Radiologicals	Gross Alpha	2021	Sample at each POE every three, six or nine years.
	Uranium	2021	Sample at each POE every three, six or nine years.
	Radium-226	2021	Sample at each POE every three, six or nine years.
	Radium-228	2021	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)	2021	Sample at each POE every three years.	
Toluene (2991)	Quarterly 2020	Sample quarterly at Plant 2 POE.	
Synthetic Organic Contaminants (SOCs)	2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.	
Di(2-Ethylhexyl)Phthalate (2039)	Quarterly 2020	Sample quarterly at Plant 2 POE.

## 2020 Chemical Monitoring for Community Systems

City of Dade City Water Department (**System-Wide**)

PWS-ID No. 6510424

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacteriological")	Monthly	15 distribution samples per month. Disinfectant residuals must be reported.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>	Quarterly	Sample each quarter according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos	2020	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper	Jul-Sept 2020	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.
Cross Connection Control Report	March 31, 2020	Submit a completed form 62-555.900(13) F.A.C annually.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

### 10<sup>th</sup> Street Plant

MONITORING & REPORTS	DUE	COMMENTS	
Nitrate and Nitrite	2020	Sample at each POE every year.*	
Primary Inorganics	2020	Sample at each POE every three years.	
Secondaries	2020	Sample at each POE every three years.	
Radiologicals	Gross Alpha	2026	Sample at each POE every three, six or nine years.
	Uranium	2026	Sample at each POE every three, six or nine years.
	Radium-226	2026	Sample at each POE every three, six or nine years.
	Radium-228	2026	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)	2020	Sample at each POE every three years.	
Synthetic Organic Contaminants (SOCs)	2020	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.	
Tank(s) Inspection & Cleaning	<b>Report Overdue</b>	Pursuant to 62-555.350(2) F.A.C. all finished drinking water storage tanks with access manholes shall be inspected and cleaned at a maximum interval of every 5 years.	

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

### 15<sup>th</sup> Street Plant

MONITORING & REPORTS		DUE	COMMENTS
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2020	Sample at each POE every three years.
Secondaries		2020	Sample at each POE every three years.
Radiologicals	Gross Alpha	2026	Sample at each POE every three, six or nine years.
	Uranium	2026	Sample at each POE every three, six or nine years.
	Radium-226	2026	Sample at each POE every three, six or nine years.
	Radium-228	2026	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2020	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2020	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

### Elba Heights Plant

MONITORING & REPORTS		DUE	COMMENTS
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2020	Sample at each POE every three years.
Secondaries		2020	Sample at each POE every three years.
Radiologicals	Gross Alpha	2026	Sample at each POE every three, six or nine years.
	Uranium	2026	Sample at each POE every three, six or nine years.
	Radium-226	2026	Sample at each POE every three, six or nine years.
	Radium-228	2026	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2020	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2020	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Tank(s) Inspection & Cleaning		2020	Pursuant to 62-555.350(2) F.A.C. all finished drinking water storage tanks with access manholes shall be inspected and cleaned at a maximum interval of every 5 years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

## Orange Valley Water Facility

MONITORING & REPORTS		DUE	COMMENTS
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2020	Sample at each POE every three years.
Secondaries		2020	Sample at each POE every three years.
Radiologicals	Gross Alpha	2027	Sample at each POE every three, six or nine years.
	Uranium	2027	Sample at each POE every three, six or nine years.
	Radium-226	2027	Sample at each POE every three, six or nine years.
	Radium-228	2027	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2019	Sample at each POE every three years.
Tot Xylene (VOC)		Quarterly	Sample at the POE the quarterly.
Synthetic Organic Contaminants (SOCs)		2019	Sample at each POE every year.
Dalapon (SOC)		Quarterly	Sample at the POE the quarterly.
Tank(s) Inspection & Cleaning		2022	Pursuant to 62-555.350(2) F.A.C. all finished drinking water storage tanks with access manholes shall be inspected and cleaned at a maximum interval of every 5 years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

Lead & Copper		June-Sept 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2020 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2020 Chemical Monitoring for NTNC

Water Systems Big Oaks RV

PWS-ID No. 6510616

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2022	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July-Sept 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. Asbestos		2020	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June – Sept 2021	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2020 to provide time for revisions, re-tests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

## 2020 Chemical Monitoring for Community Systems

Hillcrest Estates

PWS-ID No. 6510778

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2021	Sample at each POE every three years.
Secondaries		2021	Sample at each POE every three years.
Radiologicals	Gross Alpha	2024	Sample at each POE every three, six or nine years.
	Uranium	2024	Sample at each POE every three, six or nine years.
	Radium-226	2024	Sample at each POE every three, six or nine years.
	Radium-228	2024	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2021	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July-Sept 2021	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2020	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		July-Sept. 2021	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

	Radium-228	2024	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2021	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July - Sept 2021	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2021	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2021	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

#### It is important for you to provide this information to your operator and/or sampler:

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2020 to provide time for revisions, re-tests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

## 2020 Chemical Monitoring for Community Systems

### Orangewood Water System (Systemwide)

**PWS-ID No. 6511311**

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacteriological")	Monthly	7 distribution samples per month. Disinfectant residuals must be reported.
Raw Water Microbiological ("Bacteriological")	Monthly	One raw sample per well. Sample at each active well monthly.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>	July - Sept 2020	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos	2020	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper	June - Sept 2020	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

### Orangewood Water System (Well 1)

MONITORING & REPORTS	DUE	COMMENTS	
Nitrate	Quarterly 2020	Sample at each POE every quarter. *	
Nitrite	2020	Sample at each POE every year. *	
Primary Inorganics	2020	Sample at each POE every three years.	
Secondaries	2020	Sample at each POE every three years.	
Radiologicals	Gross Alpha	2023	Sample at each POE every three, six or nine years.
	Uranium	2023	Sample at each POE every three, six or nine years.
	Radium-226	2023	Sample at each POE every three, six or nine years.
	Radium-228	2023	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)	2020	Sample at each POE every three years.	
Synthetic Organic Contaminants (SOCs)	2 Quarters in 2020	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.	
Heptachlor (2065)	July - Sept 2020	Sample at each POE every year. *	
Heptachlor Epoxide (2067)	2020	Sample at each POE every year. *

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2020 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2021	Sample at each POE every three years.
Secondaries		2021	Sample at each POE every three years.
Radiologicals	Gross Alpha	2024	Sample at each POE every three, six or nine years.
	Uranium	2024	Sample at each POE every three, six or nine years.
	Radium-226	2021	Sample at each POE every three, six or nine years.
	Radium-228	2021	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2021	Sample at each POE every three years.
Toluene (2991)		2020	Sample at POE every year. *
Synthetic Organic Contaminants (SOCs)		2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July - Sept 2020	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2020	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		Jan - June & July- Sept 2020	Sample from sites approved on the Lead and Copper Sampling Plan bi-annually.
Water Quality Parameters (WQP)		Jan - June & July- Sept 2020	Sample from sites approved on the Lead and Copper Sampling Plan bi-annually.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment. This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

#### **It is important for you to provide this information to your operator and/or sampler:**

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by **9/30/2020** to provide time for revisions, re-tests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

**Noah Valenstein**  
Secretary

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2020 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

## 2020 Chemical Monitoring for Community Systems

### PCUD – Pasadena Shores (East Pasco)

PWS-ID No. 6512205

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	One Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Monthly	One Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2021	Sample at each POE every three years.
Secondaries		2021	Sample at each POE every three years.
Radiologicals	Gross Alpha	2024	Sample at each POE every three, six or nine years.
	Uranium	2021	Sample at each POE every three, six or nine years.
	Radium-226	2024	Sample at each POE every three, six or nine years.
	Radium-228	2024	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2021	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July - Sept 2021	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2020	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		July - Sept 2021	Sample from sites approved on the Lead and Copper Sampling Plan bi-annually.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2020 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

## 2020 Chemical Monitoring for Community Systems

System Name: Paradise Lakes- **New Well**

PWS-ID No. 6514545

MONITORING & REPORTS		DUE	COMMENTS
Microbiological ("Bacteriological")		Monthly	Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2021	Sample at each POE every three years.
Secondaries		2021	Sample at each POE every three years.
Radiologicals	Gross Alpha	2024	Sample at each POE every three, six or nine years.
	Uranium	2027	Sample at each POE every three, six or nine years.
	Radium-226	2021	Sample at each POE every three, six or nine years.
	Radium-228	2021	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2020	Sample at each POE every year until advised otherwise*.
Synthetic Organic Contaminants (SOCs)		2021	Sample at each POE every year until advised otherwise*.
Dalapon		2020	Sample at each POE every year until advised otherwise*.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July-Sept 2020	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2021	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept 2020	Sample from sites approved on the Lead and Copper Sampling Plan. Reduced to Ten samples.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

### **It is important for you to provide this information to your operator and/or sampler:**

2020 Chemical Monitoring for NTNC

PWS-ID No. 6514595

Water System: Settlers Rest

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2022	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July-Sept 2020	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2020 to provide time for revisions, re-tests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

2020 Chemical Monitoring for NTNC

Water System: Hudson High School-3

PWS-ID No. 6514846

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2022	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Toluene (2991)		Quarterly in 2020	Sample at each POE quarterly.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July-Sept. 2020	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept. 2020	Sample from sites approved on the Lead and Copper Sampling Plan. Sample WQP biannually at 2 sites.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

## 2020 Chemical Monitoring for Community Systems

System Name: Chelsea Meadows

PWS-ID No. 6514852

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2021	Sample at each POE every three years.
Secondaries		2021	Sample at each POE every three years.
Radiologicals	Gross Alpha	2024	Sample at each POE every three, six or nine years.
	Uranium	2027	Sample at each POE every three, six or nine years.
	Radium-226	2024	Sample at each POE every three, six or nine years.
	Radium-228	2024	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2021	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July-Sept 2021	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2021	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept 2020	Sample from ten sites approved on the Lead and Copper Sampling Plan. Sample WQP biannually at two sites.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

## 2020 Chemical Monitoring for NTNC

Water System: Sunburst RV Park

PWS-ID No. 6515123

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2022	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Dichloromethane (2964)		2020	Sample at each POE.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July-Sept 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2020 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2020 to provide time for revisions, retests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

## 2020 Chemical Monitoring for Community Systems

System Name: South Fork MHP

PWS-ID No. 6515179

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2020	Sample at each POE every year.*
Primary Inorganics		2021	Sample at each POE every three years.
Secondaries		2021	Sample at each POE every three years.
Radiologicals	Gross Alpha	2024	Sample at each POE every three, six or nine years.
	Uranium	2024	Sample at each POE every three, six or nine years.
	Radium-226	2024	Sample at each POE every three, six or nine years.
	Radium-228	2024	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2021	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2021	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>		July-Sept 2021	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2021	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept 2021	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2020	CCR must be delivered by July 1, 2020. The CCR Certification of Delivery must be submitted to the Department by August 10, 2020. Use Form 62-555.900(alternate 19), F.A.C.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.
