## **Executive Summary**

### **Florida's Proposed Section 111(d) State Plan Implementing EPA's Emission Guidelines for Municipal Solid Waste Landfills**

On August 29, 2016, the U.S. Environmental Protection Agency (EPA) amended the Code of Federal Regulations (C.F.R.), Title 40, Part 60, promulgating Subpart Cf (Emission Guidelines for Existing Sources: Municipal Solid Waste [MSW] Landfills). Developed under Section 111 of the Clean Air Act, these Emission Guidelines apply to existing MSW Landfills that commenced construction or modification on or before July 17, 2014.

On March 26, 2020, EPA made revisions to the Emission Guidelines for MSW Landfills to clarify that after the effective date of an EPA-approved State Plan implementing subpart Cf, owners and operators of MSW landfills must comply with the approved and effective state, tribal, or federal plan implementing subpart Cf instead of older landfill regulations (40 CFR Part 60, Subpart WWW or State Plans implementing 40 CFR Part 60, Subpart Cc).

Under Section 111(d) of the Clean Air Act, any state with one or more affected MSW units must develop and submit to the EPA a "State Plan" to implement the Emission Guidelines. 40 C.F.R. Part 60, Subparts B and Cf specify the content and the conditions for developing and adopting a Section 111(d) State Plan.

The Department of Environmental Protection (DEP) has prepared Florida's Section 111(d) State Plan pursuant to Section 111 of the Clean Air Act and in compliance with all of the standards and conditions of 40 C.F.R. Part 60, Subparts B and Cf. The plan, as set forth in this submittal document, consists of an inventory of MSW Landfills and emissions, compliance schedules, and amendments to Chapter 62-204, Florida Administrative Code (F.A.C.) (including emission limitations and testing, monitoring, recordkeeping, and reporting requirements).

Pursuant to 40 CFR 60.23(g), EPA has approved the Department's request for alternative public participation requirements for the submittal of State Plans. These approved alternative public participation requirements allow the Department to cancel the December 1, 2020 public hearing if no hearing is requested by November 20, 2020.

In support of the Department's requested approval of this plan, this submittal document also includes a demonstration of legal authority, identification of enforceable mechanisms, and a copy of the notice of opportunity to submit comments and request a public hearing on Florida's revision to its proposed Section 111(d) State Plan.

## Response to 40 C.F.R. Part 60, Subpart B, Criteria

### § 60.23 Adoption and Submittal of State Plans; Public Hearings

**(d) Any hearing required by paragraph (c) of this section shall be held only after reasonable notice. Notice shall be given at least 30 days prior to the date of such hearing and shall include:**

**(1) Notification to the public by prominently advertising the date, time, and place of such hearing in each region affected.**

- On October 21, 2020, DEP published, in the Florida Administrative Register (F.A.R.), a notice of opportunity to submit comments and request a public hearing pursuant to 40 C.F.R. 60.23 on Florida's Section 111(d) MSW Landfill State Plan submittal. A public hearing will be held on December 1, 2020, if requested. The "Public Participation" section of this submittal document contains a copy of the notice as it appeared in the F.A.R.

**(2) Availability, at the time of public announcement, of each proposed plan or revision thereof for public inspection in at least one location in each region to which it will apply.**

- A copy of the October 21, 2020, F.A.R. public notice and Florida's proposed State Plan were posted on DEP's website and made available for public inspection at least 30 days prior to the scheduled hearing date. Notification of the availability of this information was also transmitted to each of DEP's district offices and the offices of each DEP-approved local air pollution control program at least 30 days in advance of the scheduled hearing date. The "Public Participation" section of this submittal contains records of these notifications.

**(3) Notification to the Administrator.**

- EPA's Region 4 office was notified at least 30 days in advance of the scheduled hearing date and was provided with copies of the material to be considered. The "Public Participation" section of this submittal contains the pre-hearing submittal letter.

**(4) Notification to each local air pollution control agency in each region to which the plan or revision will apply.**

- Notification to affected local programs occurred together with the notification of availability of information for public inspection. (See response to (d)(2) above.)

**(5) In the case of an interstate region, notification to any other State included in the region.**

- On October 21, 2020, DEP notified the states of Georgia, Alabama, and Mississippi of Florida's proposed State Plan and of the opportunity to submit comments and request a

public hearing at least 30 days in advance of the scheduled hearing date. The “Public Participation” section of the final submittal will contain records of these notifications.

#### **§ 60.24 Emission Standards and Compliance Schedules**

**(a) Each plan shall include emission standards and compliance schedules.**

- DEP has adopted by reference all of the emission standards and test methods of 40 C.F.R. Part 60, Subpart Cf, into Rule 62-204.800(9)(h), F.A.C. DEP’s adoption of 40 C.F.R. Part 60, Subpart Cf became effective on January 13, 2017. DEP’s adoption of EPA’s March 23, 2020 revisions to 40 C.F.R. Part 60, Subpart Cf became effective on June 15, 2020. Certified copies of the full text of the amended rules is included in the “Materials to be Incorporated into State Plan” section of this submittal.
- All of the standards and conditions of 40 C.F.R. Part 60, Subpart Cf, have been adopted by reference into the Florida Administrative Code. As such, the emission limitations and test methods adopted by the State of Florida are at least as protective as the emission guidelines of 40 C.F.R. Part 60, Subpart Cf.

#### **§ 60.25 Emission Inventories, Source Surveillance, Reports**

**(a) Each plan shall include an inventory of all designated facilities, including emission data for the designated pollutants and information related to emissions as specified in appendix D to this part. Such data shall be summarized in the plan, and emission rates of designated pollutants from designated facilities shall be correlated with applicable emission standards. As used in this subpart, “correlated” means presented in such a manner as to show the relationship between measured or estimated amounts of emissions and the amounts of such emissions allowable under applicable emission standards.**

- As required by 40 C.F.R. 60.25(a), this Florida’s State Plan includes an inventory of affected landfills and emissions for comparison with federal standards. In the Source and Emission Inventory section of this plan, DEP has provided an inventory of affected MSW landfills and emissions data.
- The monitoring and correlation of compliance data will be conducted according to the conditions of 40 C.F.R. 60.25(b) and (c). DEP will commence annual progress reporting to EPA pursuant to 40 C.F.R. 60.25(e), with the first full year after EPA’s approval of Florida’s State Plan. The manner and form of reporting will be in accordance with 40 C.F.R. 60.25(f), and will be coordinated with EPA Region 4. Additional information about DEP’s annual reporting requirements for MSW Landfills can be found in the Provisions for Annual State Progress Reports below.

## § 60.26 Legal Authority

(a) Each plan shall show that the State has legal authority to carry out the plan, including authority to:

- (1) Adopt emission standards and compliance schedules applicable to designated facilities.
- (2) Enforce applicable laws, regulations, standards, and compliance schedules, and seek injunctive relief.
- (3) Obtain information necessary to determine whether designated facilities are in compliance with applicable laws, regulations, standards, and compliance schedules, including authority to require recordkeeping and to make inspections and conduct tests of designated facilities.
- (4) Require owners or operators of designated facilities to install, maintain, and use emission monitoring devices and to make periodic reports to the State on the nature and amounts of emissions from such facilities; also authority for the State to make such data available to the public as reported and as correlated with applicable emission standards.

- DEP has the authority to carry out the conditions set forth in this plan as required by 40 C.F.R. 60.26(a). The laws that provide DEP this authority are located in the Florida Statutes (F.S.) at Sections 403.031 (definitions), 403.061 (Department's powers and duties), and 403.0872 (Title V air operating permits). Subsections 403.061(6), (7), (8), and (13), F.S., give DEP the authority to obtain information, to require recordkeeping, and use of monitors, and to conduct inspections, etc. Subsection 403.061(35), F.S., provides DEP the authority to exercise the duties, powers, and responsibilities required of the state under the federal Clean Air Act. The sections of Florida Statutes that give authority for compliance and enforcement are 403.121 (judicial and administrative remedies), 403.131 (injunctive relief), 403.141 (civil remedies), and 403.161 (civil and criminal penalties). Finally, Section 119.07, F.S., provides the authority for making the information available to the public.
- An enforceable mechanism is a legal instrument by which DEP can enforce a set of standards and conditions. DEP has adopted 40 C.F.R. Part 60, Subpart Cf, into Chapter 62-204, F.A.C., thereby making it an enforceable rule. DEP's mechanism for enforcing the standards and conditions of 40 C.F.R. Part 60, Subpart Cf, is Rule 62-204.800(9)(h), F.A.C.
- DEP's statutory legal authorities under Chapter 403, F.S, are described in further detail on the following pages.

## Legal Authority

Chapter 403, F.S., entitled “Environmental Control,” provides the legal framework for most of the activities of the air resource management program within DEP. Except as provided under Sections 403.8055 and 403.201, F.S., for fast-track rulemaking and the granting of variances under Chapter 403, F.S., respectively, Chapter 120, F.S., Florida’s “Administrative Procedure Act,” sets forth the procedures DEP must follow for rulemaking, variances, and public meetings. The most recent version of the Florida Statutes can be found online at <http://www.leg.state.fl.us/Statutes>.

The principal sections of Chapter 403, F.S., that grant DEP authority to operate its air program are listed below. Authority to develop and update Florida’s State Implementation Plan (SIP) and 111(d) Designated Facilities Plan is expressly provided by Subsection 403.061(35), F.S., which provides that “the department shall have the power and the duty to control and prohibit pollution of air and water in accordance with the law and rules adopted and promulgated by it and, for this purpose, to ... exercise the duties, powers, and responsibilities required of the state under the federal Clean Air Act, 42 U.S.C. ss. 7401 et seq.”

- 403.031 Definitions, including the definition of “regulated air pollutant” (403.031(19)).
- 403.061 Authority to promulgate plans to provide for air quality control and pollution abatement (403.061(1)); adopt rules for the control of air pollution in the state (403.061(7)); take enforcement action against violators of air pollution laws, rules and permits (403.061(8)); establish and administer an air pollution control program (403.061(9)); set ambient air quality standards (403.061(11)); monitor air quality (403.061(12)); require reports from air pollutant emission sources (403.061(13)); require permits for construction, operation, and modification of air pollutant emission sources (403.061(14)); and exercise the duties, powers, and responsibilities required of the state under the federal Clean Air Act (403.061(35)).
- 403.087 Authority to issue, deny, modify, and revoke permits.
- 403.0872 Authority to establish an air operating permit program as required by Title V of the Clean Air Amendments of 1990.
- 403.0877 Authority to require engineering certification of permit applications.
- 403.121 Authority to seek judicial and administrative remedies for violations.
- 403.131 Authority to seek injunctive relief for violations.
- 403.141 Authority to find civil liability for violations.
- 403.161 Authority to assess civil and criminal penalties for violations.
- 403.182 Authority for local pollution control programs.
- 403.201 Authority to grant variances.
- 403.716 Authority to require training of medical waste incinerator operators.
- 403.8052 Authority to establish a Small Business Assistance Program for small-business sources of air pollutant emissions.
- 403.8055 Authority to adopt EPA standards by reference through a fast-track process.
- 403.814 Authority to allow use of general permits (permits-by-rule) for minor sources.

Other statutory authorities (outside of Chapter 403, F.S.) for Florida’s air resource management program are as follows:

- 120.569 Authority of agency head to issue an emergency order in response to an immediate threat to public health, safety, or welfare.
- 316.2935 Authority to prohibit the sale and operation of motor vehicles whose emission control systems have been tampered with and to prohibit the operation of motor vehicles that emit excessive smoke.
- 320.03 Authority to establish an Air Pollution Control Trust Fund and use \$1 fee on every motor vehicle license registration sold in the state for air pollution control purposes, including support of approved local air pollution control programs.
- 376.60 Authority to establish a fee for asbestos removal projects.

Rules adopted by DEP under its statutory authority are codified in the Florida Administrative Code. The most recent versions of F.A.C. rules can be found online at <https://www.flrules.org>. Rule chapters containing SIP or 111(d) State Plan provisions are as follows:

- 62-204 Air Pollution Control – General Provisions

### **Provisions for Annual State Progress Reports**

Pursuant to 40 CFR 60.25(f), DEP will submit to EPA, on an annual basis, a report which details the progress in the enforcement of the state plan. The first report will be submitted within one year of approval of the state plan and will include the following elements:

1. Enforcement actions initiated against designated facilities during the reporting period.
2. Identification of the achievement of any increment of progress required by the plan during the reporting period.
3. Identification of designated facilities that have ceased operation during the reporting period.
4. Submission of emission inventory data for designated facilities that were not in operation at the time of plan development but began operation during the reporting period.
5. Submission of additional data as necessary to update the information submitted in this plan or in the previous progress reports.
6. Submission of copies of technical reports on all performance testing conducted on designated facilities, complete with concurrently recorded process data.

## **Review Process for Gas Collection and Control System Design Plans**

Pursuant to 40 CFR § 60.38f(d), Florida's State Plan must specify a process for reviewing gas collection and control system (GCCS) Design Plans. Facilities subject to gas collection and control systems (GCCS) are required to complete a site-specific GCCS Design Plan within one year of submission of an initial or subsequent NMOC emission rate report indicating an exceedance of the appropriate emission thresholds defined in 40 CFR § 60.33f.

DEP will implement the following process for the review and approval of GCCS Design Plans:

1. On or before the deadline established in Rule 62-204.800(9)(h), F.A.C., and 40 CFR Part 60, Subpart Cf., each owner or operator of a MSW landfill that estimates NMOC emissions, in the initial or annual NMOC emissions rate report, equal to or exceeding the thresholds defined in 40 CFR § 60.33f shall submit the site-specific Design Plan in its entirety to the Department for approval within one year in accordance with the requirements of Rule 62-204.800(9)(h), F.A.C., and 40 CFR Part 60, Subpart Cf. The Design Plan shall contain a professional engineer's seal and a certification by a responsible official at the designated MSW landfill as to truth, accuracy, and completeness of the plan. The certification shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate, and complete.
2. Upon receipt of a complete Design Plan, the DEP will approve it, reject it, or request additional information within 90 days. The DEP will provide notice, in writing, of the approval or disapproval of the Design Plan. If the owner or operator does not receive approval, rejection, or a request for additional information within 90 days, the owner or operator may continue with implementation of the Design Plan.

## Florida Municipal Solid Waste Landfills Subject to 40 C.F.R. Part 60, Subpart Cf

40 CFR § 60.25(a) requires that each plan include an inventory of all designated facilities including emissions data for the designated pollutants. Florida currently has 57 MSW landfills, 42 of which are subject to 40 CFR Part 60, Subpart Cf and 15 of which are subject to 40 CFR Part 60, Subpart XXX, as shown in **Tables 1-5**. Each table shows the following categories of MSW landfills:

- **Table 1:** MSW Landfills subject to 40 CFR Part 60, Subparts WWW or Cc with a Regulatory GCCS and Design capacity Greater than 2.5 Million Megagrams (14 landfills)
- **Table 2:** MSW Landfills subject to 40 CFR Part 60, Subparts WWW or Cc without any GCCS or without a Regulatory GCCS and Design capacity Greater than 2.5 Million Megagrams (9 landfills)
- **Table 3:** MSW Landfills in the Closed Landfill Subcategory (Qualifying for Reporting Exemptions under 40 CFR § 60.31f(e)) (17 landfills)
- **Table 4:** Open MSW Landfills with Design Capacity Less than 2.5 Million megagrams (2 landfills)
- **Table 5:** MSW Landfills subject to 40 CFR Part 60, subpart XXX, and therefore not subject to 40 CFR Part 60, Subpart Cf (15 landfills)

Where adequate data was available, DEP estimated 2020 NMOC emissions from MSW landfills (**Table 2** below). NMOC emissions were calculated following Tier 1, 2, or 3 procedures using the Landfill Gas Emissions Model (LandGEM), version 3.02. Unless facility records reported current Tier 2 or Tier 3 results, the following default parameters, as specified by the NSPS and Emission Guidelines for determining CAA applicability, were used for facility emission estimation:

- Methane generation rate,  $k = 0.02$  /yr
- Potential methane generation capacity,  $Lo = 170$  m<sup>3</sup>/Mg
- NMOC concentration = 4,000 ppmv as hexane
- Methane Content = 50% by volume

NMOC emission estimations derived from the parameters presented above result in conservatively high emissions estimates as compared to actual facility emission rates. However, the above listed parameters represent those established by EPA for facility screening procedures and are therefore utilized for the emissions estimated in this plan, except where facility reported Tier 2 or Tier 3 values exist. Where current Tier 2 or Tier 3 results were available for a facility, the above listed parameters were replaced with site-specific data.

Florida Administrative Register

Volume 42, Number 235, December 6, 2016

DEPARTMENT OF BUSINESS AND PROFESSIONAL REGULATION

Board of Professional Engineers

RULE NO.: RULE TITLE:

61G15-18.011 Definitions

PURPOSE AND EFFECT: The purpose of the amendment is to incorporate the Florida Fire Prevention Code into the Board's rules by reference.

SUMMARY: To incorporate the Florida Fire Prevention Code.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board, based upon the expertise and experience of its members, determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

RULE NO.: 64B8-4.009  
 RULE TITLE: Applications

PURPOSE AND EFFECT: The proposed rule amendments are intended to incorporate the revised application for interns/residents/fellows and house physicians, and the revised temporary certificate for visiting physicians.

SUMMARY: The proposed rule amendments to incorporate the revised application for interns/residents/fellows and house physicians, and the revised temporary certificate for visiting physicians.

**SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:**

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has not been prepared by the Agency.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the

statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: During discussion of the economic impact of this rule at its Board meeting, the Board concluded that this rule change will not have any impact on licensees and their businesses or the businesses that employ them. The rule will not increase any fees, business costs, personnel costs, will not decrease profit opportunities, and will not require any specialized knowledge to comply. This change will not increase any direct or indirect regulatory costs. Hence, the Board determined that a Statement of Estimated Regulatory Costs (SERC) was not necessary and that the rule will not require ratification by the Legislature. No person or interested party submitted additional information regarding the economic impact at that time.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

Re: Air Program Pre-Hearing Submittal: Proposed 111(d) State Plan for Municipal Solid Waste Landfills implementing 40 C.F.R. Part 60, Subpart Cf.

Dear Ms. Walker:

Notice is hereby given that, pursuant to 40 C.F.R. 60.23, the Florida Department of Environmental Protection (Department) is accepting comments and will hold a public hearing, if requested, on Florida's proposed 111(d) State Plan submittal for Municipal Solid Waste (MSW) Landfills.

On October 21, 2020, the Department published a notice of opportunity to submit comments and request a public hearing in the Florida Administrative Register. The public hearing, if requested, will be held on December 1, 2020. This State Plan submittal incorporates the August 29, 2016, promulgation of the Emission Guidelines for MSW Landfills, codified at 40 C.F.R. Part 60, Subpart Cf. 81 Fed. Reg. 59,276. The Department has identified 42 facilities that are subject to these regulations, which are included in the source inventory section of this State Plan submittal.

Copies of the public notice published in the Florida Administrative Register and the pre-hearing State Plan submittal are enclosed. These documents are submitted to you as notification to the Administrator pursuant to the requirement of 40 C.F.R. 60.23(c).
