## Belleair Water Plant

| MONITORING & REPORTS   |             | DUE                | COMMENTS   |
|--|-------------|--------------------|--|
| Microbiological ("Bacteriological")  |             | Monthly            | Six Distribution samples per month. Disinfectant residuals must be reported.   |
| Nitrate and Nitrite  |             | 2021               | Sample at each POE every year. *   |
| Primary Inorganics   |             | 2023               | Sample at each POE every three years.  |
| Secondaries  |             | 2023               | Sample at each POE every three years.  |
| Radiologicals  | Gross Alpha | 2026               | Sample at each POE every three, six or nine years.   |
|  | Uranium     | 2029               | Sample at each POE every three, six or nine years.   |
|  | Radium-226  | 2026               | Sample at each POE every three, six or nine years.   |
|  | Radium-228  | 2026               | Sample at each POE every three, six or nine years.   |
| Volatile Organic Contaminants (VOCs)   |             | 2023               | Sample at each POE every three years.  |
| Synthetic Organic Contaminants (SOCs)  |             | 2 Quarters in 2023 | Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.   |
| Stage II Disinfection Byproducts (DBPs)<br><i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i> |             | Quarterly 2021     | Sample according to approved Stage 2 D/DBPR Monitoring Plan.   |
| Asbestos   |             | 2029               | Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.   |
| Lead & Copper  |             | June - Sept 2023   | Sample from sites approved on the Lead and Copper Sampling Plan every three years.   |
| Consumer Confidence Report (CCR) & CCR Certification of Delivery                                   |             | July 1, 2021       | CCR must be delivered by July 1, 2021. The CCR Certification of Delivery must be submitted to the Department by August 10, 2021. Use Form 62-555.900(alternate 19), F.A.C. |

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2021 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

### **It is important for you to provide this information to your operator and/or sampler:**

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2021 to provide time for revisions, re-tests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2021 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2021 to provide time for revisions, re-tests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

## 2021 Chemical Monitoring for Community Systems PWS-ID No. 6521405

### Pinellas County Utilities

| MONITORING & REPORTS   |             | DUE                | COMMENTS   |
|--|-------------|--------------------|--|
| Microbiological ("Bacteriological")  |             | Monthly            | 210 Distribution samples per month. Disinfectant residuals must be reported.   |
| Nitrate and Nitrite  |             | 2021               | Sample at each POE every year. *   |
| Primary Inorganics   |             | 2023               | Sample at each POE every three years.  |
| Secondaries  |             | 2023               | Sample at each POE every three years.  |
| Radiologicals  | Gross Alpha | 2026               | Sample at each POE every three, six or nine years.   |
|  | Uranium     | 2029               | Sample at each POE every three, six or nine years.   |
|  | Radium-226  | 2026               | Sample at each POE every three, six or nine years.   |
|  | Radium-228  | 2026               | Sample at each POE every three, six or nine years.   |
| Volatile Organic Contaminants (VOCs)   |             | 2023               | Sample at each POE every three years.  |
| Synthetic Organic Contaminants (SOCs)  |             | 2 Quarters in 2023 | Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.   |
| Stage II Disinfection Byproducts (DBPs)<br><i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i> |             | Quarterly 2021     | Sample according to approved Stage 2 D/DBPR Monitoring Plan.   |
| Asbestos   |             | 2029               | Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.   |
| Lead & Copper  |             | June – Sept 2023   | Sample from sites approved on the Lead and Copper Sampling Plan every three years.   |
| Water Quality Parameters (WQPs)  |             | June – Sept 2023   | Sample from sites approved on the Lead and Copper Sampling Plan every three years.   |
| Cross Connection Control Annual Report (2019)  |             | March 31, 2021     | Complete and submit DEP form 62-555.900(13).   |
| Consumer Confidence Report (CCR) & CCR Certification of Delivery                                   |             | July 1, 2021       | CCR must be delivered by July 1, 2021. The CCR Certification of Delivery must be submitted to the Department by August 10, 2021. Use Form 62-555.900(alternate 19), F.A.C. |

| Radiologicals                         | Gross Alpha | 2026               | Sample at each POE every three, six or nine years.   |
|                                       | Uranium     | 2026               | Sample at each POE every three, six or nine years.   |
|                                       | Radium-226  | 2026               | Sample at each POE every three, six or nine years.   |
|                                       | Radium-228  | 2026               | Sample at each POE every three, six or nine years.   |
| Volatile Organic Contaminants (VOCs)  |             | 2023               | Sample at each POE every three years.  |
| Synthetic Organic Contaminants (SOCs) |             | 2 Quarters in 2023 | Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C. |

## Tarpon Springs Water System (Tarpon WTP)

| MONITORING & REPORTS                  |             | DUE                | COMMENTS   |
|---------------------------------------|-------------|--------------------|--|
| Nitrate and Nitrite                   |             | 2021               | Sample at POE every year. *  |
| Primary Inorganics                    |             | 2023               | Sample at each POE every three years.  |
| Secondaries                           |             | 2023               | Sample at each POE every three years.  |
| Radiologicals                         | Gross Alpha | 2026               | Sample at each POE every three, six or nine years.   |
|                                       | Uranium     | 2026               | Sample at each POE every three, six or nine years.   |
|                                       | Radium-226  | 2023               | Sample at each POE every three, six or nine years.   |
|                                       | Radium-228  | 2023               | Sample at each POE every three, six or nine years.   |
| Volatile Organic Contaminants (VOCs)  |             | 2023               | Sample at each POE every three years.  |
| Synthetic Organic Contaminants (SOCs) |             | 2 Quarters in 2023 | Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C. |

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

# FLORIDA DEPARTMENT OF Environmental Protection

Southwest District Office  
13051 North Telecom Parkway #101  
Temple Terrace, Florida 33637-0926

**Ron DeSantis**  
Governor

**Jeanette Nuñez**  
Lt. Governor

**Noah Valenstein**  
Secretary

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2021 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

**It is important for you to provide this information to your operator and/or sampler:**

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2021 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**
