Raw Water Micro ("Bacteriological"	0	Monthly	1 Raw Water Sample per well.
Distribution Micro ("Bacteriological"		Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrit	e	2022	Sample at each POE every year.*
Primary Inorganio	CS	2024	Sample at each POE every three years.
Secondaries		2024	Sample at each POE every three years.
Radiologicals	Gross Alpha	2027	Sample at each POE every three, six or nine years.
	Uranium	2024	Sample at each POE every three, six or nine years.
	Radium-226	2027	Sample at each POE every three, six or nine years.
	Radium-228	2027	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2024	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2024	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)		July-Sept 2024	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2030	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-September 2024	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2022. Use Form 62-555.900(alternate 19), F.A.C.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/2022</u> to provide time for revisions, re-tests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

2022 Chemical Monitoring for Community Systems

System Name: Camper's Holiday			PWS-ID No. 6272304
MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	1 Raw Water Sample per well.
Distribution Microbi	ological ("Bacteriological")	Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2022	Sample at each POE every year.*
Primary Inorganics		2024	Sample at each POE every three years.
Secondaries		2024	Sample at each POE every three years.
Radiologicals	Gross Alpha	2027	Sample at each POE every three, six or nine years.
	Uranium	2027	Sample at each POE every three, six or nine years.
	Radium-226	2024	Sample at each POE every three, six or nine years.
	Radium-228	2024	Sample at each POE every three, six or nine years.
Volatile Organic Cor	ntaminants (VOCs)	2024	Sample at each POE every three years.
Toluene (2991)		Oct-December 2022	Sample at each POE during Quarter indicated for three years (2020,2021 & 2022).
Synthetic Organic Co	Synthetic Organic Contaminants (SOCs)		Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)		July – Sept 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-September 2024	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2022. Use Form 62-555.900(alternate 19), F.A.C.
Meter(s) Calibration		Last Calibration: 2019/03	Pursuant to 62-555.350(2) F.A.C. requires that water systems maintain and calibrate master meters in accordance to manufacturer specifications at no less than interval of every 5 years.
Tank(s) Inspection & cleaning		Last 5-year Inspection: 2020/07	Pursuant to 62-555.350(2) F.A.C. all finished drinking water storage tanks with access manholes shall be inspected and cleaned at a maximum interval of every 5 years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

### It is important for you to provide this information to your operator and/or sampler:

It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/2022</u> to provide time for revisions, re-tests, and/or corrections.

Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)		July-Sept. 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

#### It is important for you to provide this information to your operator and/or sampler:

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/2022</u> to provide time for revisions, re-tests, and/or corrections.
- > Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/2022</u> to provide time for revisions, retests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
1, 1-Dichloroethylene (2977)		Oct-Dec 2022	Sample at each POE annually.
1, 1, 1-Trichloroethane (2981)		Oct-Dec 2022	Sample at each POE annually.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)		July-Sept. 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Tank(s) Inspection & cleaning		Last 5-year Inspection: 2021/02	Pursuant to 62-555.350(2) F.A.C. all finished drinking water storage tanks with access manholes shall be inspected and cleaned at a maximum interval of every 5 years.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/2022</u> to provide time for revisions, retests, and/or corrections.
- > Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.
