2022 Chemical Monitoring for Community Systems

System Name: Aloha Gardens Utilities

PWS-ID No. 6510050

MONITORING & REPORTS		DUE	COMMENTS
Microbiological ("Bacteriological")		Monthly	Disinfectant residuals must be reported.
Nitrate and Nitrite		2022	Sample at each POE every year. *
Primary Inorganics		2023	Sample at each POE every three years.
Secondaries		2023	Sample at each POE every three years.
Radiologicals	Gross Alpha	2023	Sample at each POE every three, six or nine years.
	Uranium	2026	Sample at each POE every three, six or nine years.
	Radium-226	2023	Sample at each POE every three, six or nine years.
	Radium-228	2023	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2023	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2 Quarters in 2023	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Heptachlor (2065)		2022	Sample at Well #8 POE.
Heptachlor Epoxide (2067)		2022	Sample at Well #8 POE.
Chlordane (2959)		2022	Sample at Well #8 POE.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		Quarterly 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2023	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2022. Use Form 62-555.900(alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, retests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

2022 Chemical Monitoring for NTNC

Water System: Baker Acres RV Ranch

PWS-ID No. 6510107

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2022	Sample at each POE every year.*
Primary Inorganics		2022	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		July-Sept. 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Tank Cleaning & Inspection		Before July 2023	FAC Rule 62-555.350 (2) states all finished water storage tanks with access manholes shall be inspected and cleaned at a minimum of every 5 years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July-Sept 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2030	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-September 2024	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2022. Use Form 62-555.900(alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

MONITORING & REPORTS		DUE	COMMENTS
Microbiological (“Bacteriological”)		Monthly	Disinfectant residuals must be reported.
Nitrate and Nitrite		2022	Sample at each POE every year. *
Primary Inorganics		2024	Sample at each POE every three years.
Secondaries		2024	Sample at each POE every three years.
Radiologicals	Gross Alpha	2027	Sample at each POE every three, six or nine years.
	Uranium	2027	Sample at each POE every three, six or nine years.
	Radium-226	2024	Sample at each POE every three, six or nine years.
	Radium-228	2024	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2024	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2 Quarters in 2024	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Dalapon (2031)		2022	Sample at POE every year. *
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		Quarterly 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2030	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June – Sept 2024	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2022. Use Form 62-555.900(alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, re-tests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

2022 Chemical Monitoring for NTNC

Water System: Lakeview-in-the-Hills

PWS-ID No. 6511027

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2022	Sample at each POE every year. *
Primary Inorganics		2022	Sample at each POE every three years.
Radiologicals	Gross Alpha	2025	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	2025	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	2025	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	2025	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July-Sept 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2021 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2021. Use Form 62-555.900(alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2022 Chemical Monitoring for Community Systems
PWS-ID No. 6511423

System Name: Summertree

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacteriological")	Monthly	Disinfectant residuals must be reported.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>	July-September 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos	2026	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper	2022	Sample from 20 sites approved on the Lead and Copper Sampling Plan.
Water Quality Parameters (WQPs)	2022	Sample from sites approved on the Lead and Copper Sampling Plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2021. Use Form 62-555.900(alternate 19), F.A.C.

2022 Chemical Monitoring for Community Systems

System Name: South Pretty Pond MHP

PWS-ID No. 6511569

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2022	Sample at each POE every year.*
Primary Inorganics		2024	Sample at each POE every three years.
Secondaries		2024	Sample at each POE every three years.
Radiologicals	Gross Alpha	2024	Sample at each POE every three, six or nine years.
	Uranium	2024	Sample at each POE every three, six or nine years.
	Radium-226	2027	Sample at each POE every three, six or nine years.
	Radium-228	2027	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2024	Sample at each POE every three years.
Tetrachloroethylene (VOC)		2 nd Quarter 2022	Sample at each POE every year.*
Synthetic Organic Contaminants (SOCs)		2024	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July-Sept 2024	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		July-Sept 2024	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2022. Use Form 62-555.900(alternate 19), F.A.C.

Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-September 2024	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2021. Use Form 62-555.900(alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, re-tests, and/or corrections.
- Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.

Westwood Subdivision

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Monthly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Monthly	1 Distribution Samples per month. Disinfectant residuals must be reported.
Nitrate		Quarterly 2022	Sample at each POE every quarter. *
Nitrite		2022	Sample at each POE every year. *
Primary Inorganics		2024	Sample at each POE every three years.
Secondaries		2024	Sample at each POE every three years.
Radiologicals	Gross Alpha	2024	Sample at each POE every three, six or nine years.
	Uranium	2027	Sample at each POE every three, six or nine years.
	Radium-226	2027	Sample at each POE every three, six or nine years.
	Radium-228	2027	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2024	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2024	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Heptachlor (2065)		2022	Sample at POE every year. *
Heptachlor Epoxide (2067)		2022	Sample at POE every year. *
Chlordane (2959)		2022	Sample at POE every year. *
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July-September 2024	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-September 2024	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2021. Use Form 62-555.900(alternate 19), F.A.C.

	Radium-228	2026	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2023	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2023	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July-Sept 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept 2023	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2021. The CCR Certification of Delivery must be submitted to the Department by August 10, 2021. Use Form 62-555.900 (alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2022 Chemical Monitoring for Community Systems
PWS-ID No. 6512214

Seven Springs

MONITORING & REPORTS		DUE	COMMENTS
Microbiological ("Bacteriological")		Monthly	One Raw sample per well. 30 Distribution samples per month. Disinfectant residuals must be reported.
Nitrate and Nitrite		2022	Sample at each POE every year. *
Primary Inorganics		2023	Sample at each POE every three years.
Secondaries		2023	Sample at each POE every three years.
Radiologicals	Gross Alpha	2023	Sample at each POE every three, six or nine years.
	Uranium	2026	Sample at each POE every three, six or nine years.
	Radium-226	2023	Sample at each POE every three, six or nine years.
	Radium-228	2023	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2023	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2 Quarters in 2023	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		Quarterly 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2023	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Cross-Connection Control Annual Report		March 31, 2022	Complete and submit DEP form 62-555.900(13).
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2022. Use Form 62-555.900(alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, re-tests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2022 Chemical Monitoring for Community Systems
PWS-ID No. 6514545

System Name: Paradise Lakes

MONITORING & REPORTS		DUE	COMMENTS
Microbiological ("Bacteriological")		Monthly	Disinfectant residuals must be reported.
Nitrate and Nitrite		2022	Sample at each POE every year. *
Primary Inorganics		2023	Sample at each POE every three years.
Secondaries		2023	Sample at each POE every three years.
Radiologicals	Gross Alpha	2024	Sample at each POE every three, six or nine years.
	Uranium	2027	Sample at each POE every three, six or nine years.
	Radium-226	2024	Sample at each POE every three, six or nine years.
	Radium-228	2024	Sample at each POE every three, six or nine years.
Volatile Organic Contaminants (VOCs)		2023	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2 Quarters in 2023	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July-Sept 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2023	Sample from sites approved on the Lead and Copper Sampling Plan every three years.
Consumer Confidence Report (CCR) & CCR Certification of Delivery		July 1, 2022	CCR must be delivered by July 1, 2022. The CCR Certification of Delivery must be submitted to the Department by August 10, 2022. Use Form 62-555.900(alternate 19), F.A.C.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2022 Chemical Monitoring for NTNC

Water System: Happy Days RV Park

PWS-ID No. 6514844

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2022	Sample at each POE every year. *
Primary Inorganics		2022	Sample at each POE every three years.
Radiologicals	Gross Alpha	2025	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	2025	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	2022	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	2022	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July-Sept 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June-Sept 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July-Sept 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		June - Sept 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**

2022 Chemical Monitoring for NTNC

Oak Hill Mobile Home Park

PWS-ID No. 6515225

MONITORING & REPORTS		DUE	COMMENTS
Raw Water Microbiological ("Bacteriological")		Quarterly	1 Raw Water Sample per well.
Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2022	Sample at each POE every year.*
Primary Inorganics		2022	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July-Sept. 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2029	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		July-Sept. 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. Distribution Microbiological ("Bacteriological")		Quarterly	1 Distribution Sample per quarter. Disinfectant residuals must be reported.
Nitrate and Nitrite		2022	Sample at each POE every year.*
Primary Inorganics		2022	Sample at each POE every three years.
Radiologicals	Gross Alpha	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Uranium	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-226	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
	Radium-228	Waived	Sample at each POE every quarterly, six, nine years, or Waived use of Grandfather Data (date of sample)
Volatile Organic Contaminants (VOCs)		2022	Sample at each POE every three years.
Synthetic Organic Contaminants (SOCs)		2022	Sample at each POE every three years, or submit SOC reduced monitoring waiver, if applicable. Use Form 62-560.545(2), F.A.C.
Stage II Disinfection Byproducts (DBPs) <i>Total Trihalomethanes & Haloacetic Acids (5)</i>		July-Sept 2022	Sample according to approved Stage 2 D/DBPR Monitoring Plan.
Asbestos		2022	Certification or results due every nine years. Use Form 62-555.900(10), F.A.C.
Lead & Copper		July-Sept 2022	Sample from sites approved on the Lead and Copper Sampling Plan every three years.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2022 and may not include additional sampling required during the year due to special circumstances. If you have questions or disagree with the assessment, please contact the appropriate personnel at (813) 470-5700. Monitoring schedules are subject to change, at any time, based on results of analyses or other factors. This chart shall not relieve any person from any requirement of Florida law.

It is important for you to provide this information to your operator and/or sampler:

- **It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/2022 to provide time for revisions, retests, and/or corrections.**
- **Test results must be submitted to DEP within the first ten days following the end of the required monitoring period, or the first ten days following the month in which the sample results were received, whichever time is the shortest. Failure to comply may result in enforcement action.**
