2023 - 2025 Monitored Annual Design Values

Fine Particulate Matter - PM_{2.5}

National Ambient Air Quality Standard:

35 $\mu\text{g}/\text{m}^3$ 24-Hour Average Concentration[^]

9 $\mu\text{g}/\text{m}^3$ Annual Average Concentration[^]

- All Florida Monitors in Compliance -

[^]Design value is based on the annual mean concentration averaged over 3 years.

*Insufficient data to produce a valid design value.
