**From:** [Brad Tooley](#)  
**To:** [FLStateParkPlanning](#)  
**Subject:** Additional public beach access is needed at Topsail Hill Preserve State Park  
**Date:** Friday, November 30, 2018 3:23:20 PM

---

Dear Park Planning Commission,

I am writing in support of the request to allow a beach access through Topsail Hill Preserve State Park near the Cypress Dunes area. Topsail has over three miles of beaches that are accessible by only one boardwalk through the park. By allowing this additional access, it would relieve some pressure off of the one beach access and allow more people to enjoy this beautiful Topsail park and beaches. It is my understanding that there are many Florida "Preserves" that allow multiple beach accesses and we would like you to consider one for Topsail. There is a large residential density in the area of Topsail and this would be the logical access for residents and visitors in this area to walk, bicycle and enjoy this phenomenal natural asset.

Thanks for your consideration,  
Brad Tooley

---

Please approve the Additional Public Beach Access at Topsail Hill Preserve State Park. The residents of Walton County need more beach access! Thank you.

Sue

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians and visitors to Florida should have equal access to Florida's state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

The protection of shorebirds and other wildlife, whose habitats are steadily encroached on and destroyed by human activity far outweighs the "convenience" of a local gated community.

Sincerely,  
Andrew Land

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Christine Hadley Enger

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

As a Floridian I strongly oppose the private access to Topsail Hill Preserve Park. The wildlife inhabitants need to be undisturbed, and all residents can just go to the existing access point. We need to protect the natural beauty of our park, and unmonitored "VIP access" runs counter to that.

Sincerely,  
Rebecca Weinberg

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Gail Roberts

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to respectfully express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks, and I urgently support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Indeed, as a local attorney, I strongly question the legality of such an accommodation for a private community, and while I am most compelled to speak up out of concern for vital shorebird habitat, I would also caution against going down a path that will--beyond a doubt--result in an extended and incredibly expensive legal battle. Put simply, the competing equities at play (i.e., the rights of all Floridians to enjoy equal access to state parks, and the interest of all shareholders in the protection of our wildlife and resources vs. the provision to a gated private community a measure of additional convenience in accessing the beach) are decidedly one-sided, and it makes no sense to open up this can of worms. I implore you to do the right thing.

Sincerely,  
Ryan Toogood

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Hyun Y Lee

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

In the past, a nearby gated community has requested an unstaffed neighborhood entrance through the park to access the beach, even though a public access is a 2-minute bike ride. Unmonitored access like this will negatively impact the sensitive habitat and disturb rare nesting birds. If this type of "VIP access" is granted in this state park, a dangerous precedent would be set for other private communities to access public lands through private access points.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a Walton County resident writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

The imperiled species of the snowy plover, least tern and the choctawhatchee beach mouse should be enough to stop this "private" walkover that would allow unchecked threats to these species.

A privileged few should not have special access to a State Park and a state preserve.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a resident of NW Florida and I am quite familiar with Topsail Hill State Park. I am writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. I find the "VIP Access" from a gated residential area a despicable idea on many levels. First, all Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park and protect the parks resources from unmonitored trampling by those who consider themselves entitled and likely will not give a damn about preservation! If the rich want special use of any public lands - let them purchase, own, and control them!

Please to the right thing to preserve and keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

We can do both!

Sincerely,  
Kaureen Duffy

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Jon Krueger

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Michael Grella

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Although I am not a Florida resident, concerns over human intrusions into vital shore bird habitat are valid all along the US coast. Humans have more than enough beach area to enjoy already. There is little to gain and much to lose by driving the birds from their nesting areas. It's time we learned to respect and appreciate the other creatures that we share this planet with. Encroachment into their habitat is preventable and unnecessary. A nesting colony of endangered Terns near Mobile, Alabama was destroyed by volleyball players who ignored signs to keep out. This kind of behavior is exactly why we need more protected areas for the birds to safely nest.

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

**To:** [FLStateParkPlanning](#)  
**Subject:** NO NEW ACCESS Through Topsail Hill State Park  
**Date:** Friday, November 30, 2018 4:01:33 PM

---

The purpose of this email is to urge you to reject yet another proposal to create an additional beach access through Topsail Hill State Park land. Unfortunately I cannot attend the December 5 meeting at NW FL State College, but I feel that it is imperative that you continue to protect the long-term health of this precious gulf-front ecosystem. The Walton County TDC already offers free park admission, vehicle parking, and beach access at Topsail during the peak tourist season. The only reason that this proposed access is repackaged and proposed over and over again is because adjacent property owners want to create a beach access for their own exclusive use. With no parking or rest room facilities for the general public, this is clearly a selfish proposal designed to benefit a few property owners in selected subdivisions. However, it would do irreparable harm to this one-of-a-kind undeveloped gulf-front parcel that should be preserved in it's current condition for all of the public and wildlife to enjoy in the future.

Thank you,

Kelly Anderson

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Thyra Talento Zeiher Zeiher

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

As a citizen it is disconcerting that so many choices, wrong choices are being made about our state, and national parks. At this time in our state we should be looking to be more preserving of our wildlife and wild places. Please make the right choice.

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a Florida citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

I also had the pleasure of conducting some of the early environmental survey work that led to the State purchasing this important coastal habitat which includes both very rare wildlife and rare plants.

I do not believe that additional access points to this park are wisel. Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

An unmonitored and second access to this park should not be allowed under any circumstances. It's a "public park" and these residents can use the "public access" like everyone else. There would be potential here for a second access to be miss-used and pose an increased threat to the wildlife living in the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a native Floridian writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. Everyone should have equal access to our state parks and I support the continuation of providing a single public access point, which will ensure monitored access to the park.

This park must provide adequate protection for the shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private (VIP) access to the park.

Please do not allow additional access points to the park.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

As the former TNC land conservation director I spent years working to acquire these Topsail Hill lands with strong local community, State NGO and Fla Gov and Cabinet support. Please don't lessen the protection we worked hard to produce for our State Parks program and the unique natural areas and species of this rare coastal park. Public good should always override benefits of private uses.

Sincerely,  
George Willson

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
David Sinn  
13158 Rivergate Ln Jacksonville, FL 32223-1754

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I'm writing to express my concerns regarding Topsail Hill State Park. Because it provides critical habitat to imperiled species, I support a single public access point to help ensure only monitored access into the park.

Please keep this incredible park accessible while also - and at least as importantly - protecting the shorebirds & other wildlife who depend on its unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Laurie Fahrner

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Karrie Thompson  
311 Magnolia St Niceville, FL 32578-8147

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Barbara James

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a Santa Rosa Beach resident writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks. Thus, I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park. While I see the appeal of a private access point for nearby neighbors, that could and likely would degrade the park's pristine condition and create unnecessary, additional work for park employees. Just say 'no.'

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

My husband and I have camped at Topsail several times. I am writing to express my concerns regarding the Park, which exemplifies a rare part of what is left of the Florida Panhandle we knew many years ago. Now that a state law exists that allows private owners to prevent beach access to the public, I see no reason to give a privileged few access to a private entrance to a state park.

All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

It is also the state parks' job to protect our shorebirds, imperiled wildlife, and unique ecosystems that would be more impacted by an unnecessary private access to the park. They knew where their beach access was when they built there.

Thank you for your consideration.

Sincerely,  
Patricia Harden

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Dee Nickerson

**Subject:** Add'l public beach access needed at Topsail Hill  
**Date:** Friday, November 30, 2018 5:28:33 PM

---

To Whom It May Concern:

By allowing a pedestrian walkway through Topsail Hill Preserve State Park, this will help both locals & visitors along the west end of 30A access to and use of the Park as it was intended and would help with the customary use issue. Please allow this access which the surrounding neighborhoods have agreed to pay for and which will bring extra revenue to the State Park... a win/win for all!

Thank you!!  
Paula Tucker

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Conni Leonessa

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Hello All. Private access to public lands where our wildlife is protected is not right. I am a citizen writing to express my concerns regarding Topsail Hill State Park. The park provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

To allow private access set a precedent and violates the rights of all Floridians.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Mary Wood

I'm sure there is a great deal of "we're so special get to walk right through" snob appeal. The very nerve and conceit of those asking for it is appalling. The care and support of the "natural " is of primary importance. Let the wild take precedence for a change. I lived on Crystal River for over 40 years and to see it being destroyed year by year Eugenie was heartbreaking. The wild needs our care. Eugeni

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Florida has some of the most beautiful places and creatures in the US. We tend to think of "The Attractions" with their thrill rides and elaborate programs as being our claim to fame, but the parks and beaches are essential. We must protect them, including the animals and plants that live there. I consider single access a great idea. Remembering parks I know, many do have single entrances. I hope that becomes a state wide policy.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park. We should have a single point of public access and no other private access should be available. We are all stewards of the wildlife and natural splendor all of us enjoy. It is of great importance that you support this single point public entrance. Allowing any other entrance to this park will undermine the endangered birds and small mammals that thrive in this park.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am an Audubon Florida member writing to ask you to preserve a single public access site to Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks. I am particularly worried that some very fragile bird species could be negatively affected by uncontrolled and unmonitored access to the park. One of Florida's primary attractions is its wildlife, and we need to do everything we can to preserve it in as natural a state as possible.

Private access to a state park also sets a dangerous precedent. It seems likely that residents of other private developments near state parks would want their own private entrances to those parks, too. Granting special privileges to a select few on precious public land does not seem like good public policy.

Thank you for your consideration.

Sincerely,  
Mona Gardner

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Elizabeth Jache

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Heidi Ludwick

I am in favor of more protections for wildlife, people should respect the lives of wild creatures and their habitats. People litter, create all kinds of disturbances, so adding another path to the beach puts all kinds of wildlife in danger.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Angela Wilcox

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

I would hope that you will not give in to the elitist and selfish request for a special path through the park to the beach. This is a recipe for harm to the park and the wildlife that it supports. We should think not only of this park but of the slippery slope that granting this request will provide. We are the stewards of this planet and, as such, should have more concern and regard for the good of the environment.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Diana Cowans

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park. I live in Okaloosa County and appreciate the protected public access to coastal dunes and beaches.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

With the limited amount of beach and dune habitat left in Walton County, we need to protect what we have for future generations,

Sincerely,  
Carol Porch

To whom it may concern,

By allowing a pedestrian walkway through Topsail Hill Preserve State Park, this will help both locals & visitors along the west end of 30A access to and use of the Park as it was intended and would help with the customary use issue. Please allow this access which the surrounding neighborhoods have agreed to pay for and which will bring extra revenue to the State Park... a win/win for all!

Thank you,  
Lauren Schafer

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I support a single public access point to Topsail Hill S.P.

Private access to park would be a threat. Keep the single access open to all public fairly. Unmonitored human encroachment into sensitive ecosystems and threatened species breeding habitat is not the answer.

It is hard enough for the park to protect the habitat of those precious dunes. Give people unmonitored access and it only takes a few to destroy way too much. Please don't allow this to happen.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park. This park is a pristine coastal park composed of upland old growth pine forest and scrublands as well as pristine dunes, wetlands and beaches. ALL of which provides habitat to a number of important and imperiled species. Unmonitored access will ultimately have a negative impact on the sensitive habitat and in turn disturb many of these rare nesting birds.

By allowing access that is NOT monitored or able to be controlled this "VIP access" can set a dangerous precedent for other private communities and their access to public lands through private access points.

While I believe All Floridians should have equal access to our state parks, I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

The planned "public" access would be nothing of the sort. It would serve as a private entrance for only a few citizens, through a PRESERVE. Please do not allow any accesses through our PRESERVE. There is one access already & that is all that's needed.

Please PRESERVE our PRESERVE. It is too important to our environment.

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Paul Phillips

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Karen Estel

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park. There is no good reason to grant beach goers access other than a single access point. This is a vulnerable area and human traffic throughout would be devastating to wildlife and the birds that call this area their homes. Please don't help destroy this amazing state park!!

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Amy Crew

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

This park is more like a wildlife refuge than a playground for humans. These residents can access the park the same as anyone else, by going to the one monitored entrance. Nesting birds are easily disturbed, and some of them are endangered species. That's more important than more convenient access for a privileged group.

Sincerely,  
Charlotte Kendall

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Additional entries should not be allowed to further infringe on this habitat. If it is only a two minute bike ride, walking is even a better exercise. And it is also time that VIP's need to accept they are not entitled to have any more rights than anyone else.

Sincerely,  
Linda Shirey

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

There is no reason why the "rich" should have special access to the park, to get to the beach. Outrageous!

Sincerely,  
Lajeanne Leveton

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen, Florida taxpayer, long time Annual Pass Holder, and voter, writing to express my concerns regarding Topsail Hill State Park, which I visited for the first time the Friday after Thanksgiving. As I live in Winter Park, it is not quite, "in the neighborhood".

I was very pleased to find such a beautiful Park. I hiked to two of the rare coastal dune lakes, and to the Gulf, where I strolled along the beach. Chatted to families enjoying the holiday weekend, in an area, that post hurricane Michael, needs visitors to come and spend money.

All the visitors to the Park parked in the same parking area, and walked, biked, or took the tram to the beach. No one complained, all enjoyed the shared experience. This shared and more importantly, the habitat would only be disrupted if another access to the lakes and Gulf is allowed. To allow a private path to the Park only adds to the insult to the environment and the millions of Floridians and even more visitors to our beautiful State. Let the rich neighbors get to Topsail the same way everyone else does.

Sincerely,  
David Cannon

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Kim Pritchett

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am concerned about proposals for Topsail Hill State Park, which provides habitat to important imperiled species.

As a long time Florida resident and current Florida landowner now living in a coastal California town, I strongly support all Floridians having equal access to state parks because I know first hand that beach access can be a flashpoint issue and I strongly believe that the coast belongs to the people.

I support a single public access point with very few exceptions for all beaches., and I support only monitored access into the park, which gives a public education portal and ensures protection for shorebirds, imperiled wildlife and unique ecosystems by informing beachgoers of any special rules or needs..

Opening the door to special unmonitored entrances here, there and there is not the right path for any coastal park system because private access is a quagmire that once started is not easily reversed when other private groups also want access.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Cece Delisi

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

As a concerned citizen, I am writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species.

While all Floridians should have equal access to our state parks, I support a SINGLE public access point to ensure there will be ONLY MONITORED access into the park.

The unique ecosystems would be threatened by an UNNECESSARY PRIVATE access. Please keep this incredible park accessible to all visitors while continuing to protect our shorebirds and any imperiled wildlife.

The protection of the unique wildlife is far more important and NECESSARY than providing special additional access to those who, for whatever reason, see themselves as especially privileged. Their access IS provided for like everyone else's and that should be sufficient.

Sincerely,  
Patricia Morris

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Karen Brooks

A private State Park entrance to any park in Florida is a mistake and defeats the purpose of setting aside and protecting public lands if you're just going to hand them over to private communities.

Do not allow this to happen for the convenience of a small group.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a Florida resident writing to express concerns about Topsail Hill State Park. This park provides habitat to important rare species. I support a single public access point to the park which will ensure only monitored access into the park. All Floridians should have equal access to our state parks, not "special" access for private residential developments. Monitored access will also help ensure that natural resources and species are protected.

Sincerely,  
Sonia Stephens  
2103 Taylor Ave Winter Park, FL 32792-3100

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Allowing an unstaffed second access to the park sets a dangerous precedent for the state park system. Please protect the wild life we have. As a state we have lost more wild life than any nature lover can bear.

Be the leaders we know you can be and decide on behalf of all Floridians, not just the VIP'S.

Sincerely,  
Elaine Lowry

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

There are plenty of parks available for recreational use and not enough for species and endangered birds to thrive and nest such as Least Terns and Sea Turtles. Thank you.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Steve Schildwachter

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am writing in opposition to opening private access at Topsail.

I live near Navy property. A section of their beach property has been opened to private access by nearby homeowners. These visitors regularly bring unleashed dogs onto the property. I fear the same will happen at Topsail where shorebirds are known to nest.

Additionally, human and pet activity may fragment the habitat.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Laurel Watson

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I write to express my concerns regarding Topsail Hill State Park, which provides critical habitat for many important imperiled species. All Floridians should have equal access to our state parks, and I support a single public access point which will ensure only monitored access into the park.

Topsail Hill State Park belongs to us all, and it is unacceptable to grant special uncontrolled access to our park for an elite segment of the population.

Please keep our wonderful park accessible to all, while protecting our very vulnerable shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unprecedented, unnecessary, private access to the park.

Sincerely,  
Susan J Llorca

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Florida State Parks are a treasure worth protection from the greed of development.

In this time when the wealthy are demanding more and more exemptions from the laws and rules of the public, it is particularly dangerous to allow them special exemptions to these regulations. The members of the gated community knew they were purchasing next to a state park. It is not too much to ask them to walk or ride to public accesses like others have to do. If they allow the public access through their gated community, perhaps that would be worth consideration.

Sincerely,  
Nancy Davis

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
John Varga

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Topsail Hill State Park is an important part of Florida heritage. Everyone must have equal access to state parks

Please support a single public access point, which means we'll have only monitored access to the park.

I've lived in Florida since a child in the 1950. I remember when wild birds were a thrilling part of our lives. Now I see just a few. We must protect our shorebirds and still keep all our parks accessible to everyone. Our children learn about God's world when they can see what is left of Florida's natural heritage. That learning won't be possible, if we have private access to the park.

Sincerely,  
Eileen Rowe

To Whom it May Concern at the Park Planning Department:

I am a Cypress Dunes property owner and I request your support and your vote to approve the proposed boardwalk access across the Topsail Hill Preserve State Park. This is very important to us and our community. This would make the beach and the park much more accessible to our family and our community. We would love to share the connection between our community and the natural preserve with our children and future generations to come. We greatly appreciate your efforts to understand the needs of our community and our families.

Thank you so much for your service and for your support of the proposed Beach Access.

Best Regards,

Brooke Forsyth

Cypress Dunes Owner

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Carolyn Warner

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Unmonitored access risks disturbing rare nesting birds, not to mention noise disturbances and littering, which damages the environment, the water and birds and other animals. With the fast-growing communities surrounding the park, this kind of VIP access would set a dangerous precedent.

Please keep this incredible park accessible to all while at the same time protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private and unmonitored access to the park.

Sincerely,

D S

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

I have spent 11 years working with endangered sea turtles for FWC, helped monitor endangered shorebirds for Florida Shorebird Alliance and am on call for a long list of injured or stranded wildlife including marine mammals. So I KNOW first hand how important PROTECTING the little bit of habitat left is. For God sake think before allowing anymore human destruction, disturbance or interference of habitat, if this where human habitat wow there'd be no question about protecting it so do the same as you would want for your family and home. Humans are not the only species of value though our arrogance assumes we are. NO more access for anyone anytime for any reason.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a Florida resident who has enjoyed this magnificent State Park in our travels. It is imperative we protect this vital habitat for future generations to enjoy Florida's biological diversity. I am writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park. This is important to preservation.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park. It is up to the wise leaders making the right decisions now for our future generations. Thank you for your time.

Sincerely,  
Nicole Tichy

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Hi. I am against a private entrance. You know there will be those people that venture further. We must be strict on the single public entrance so that the animals know what to expect.

Our parks are our anchors in life. Suicides are up, I think because we are losing our connection with nature. Please put nature first!  
TY

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

My husband and I are tent campers and we love FL State Parks. Topsail Hill is one of our favorites. Park admission doesn't cost much (affordable for everyone, really) and annual passes are also reasonably priced. We have seen buildings, including multi-story condominiums right up to the property line of some parks. It's not too much to ask that those residents enter the gate like everyone else.

Keeping FL parks preserved for their history, their unique ecosystems and their unblemished landscapes is paramount. People can learn and appreciate what they are seeing when they enter the property through the gate. It's at that time, rangers, visitors' centers, and volunteers performing re-enactments have the opportunity to open the minds of the visitors. Private access points do not offer education. Without education there is no appreciation and no understanding how valuable FL State Parks are to the public, not to the few.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Charles Beck

The wealthy do not deserve preference or special access. Concerned Florida residents respect the parks, the habit and all the wildlife, imperiled or prolific. I cannot say the same for the well to do, gated community types.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Elizabeth Gillespie

----I do not live there but such entitlement for such a short walk around is not pretty. Wildlife are already disturbed by human activity and suffering from it. The least they can be given is one less intrusion because people can not be bothered to walk or ride a few minutes. Instead of appreciating the jewel they have in Topsail Preserve they are trying to take ownership and assert their human rights with no thought as to the effects such access would have on birds and other wildlife. Please say no to those in their gated community-I am sure the exercise would be good for them-and the rights and well being of wildlife must be prioritized as it often is not.----

I am a citizen of Walton County Florida who doesn't live in the private gated community of Cypress Dunes. I'm writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species such as the Snowy Plover and Least Terns which live and nest on our beaches. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Not only is a private, unmonitored access reckless to such an important habitat for shorebirds and their nesting site, it will likely result in misuse and loss of funds that the park needs.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Please treat all Walton County citizens equal. Just because one group of folks who live near the beach but does not have 'bike, walk, or direct' access to it doesn't give them the right to have it because they complain about not having it. I personally drive to Topsail Preserve, pay, park, then like everyone else get to the beach. It's not difficult and it provides wonderful scenery and even exercise if anyone chooses not to take the tram.

I'm speaking in keeping Florida's wild spaces wild. I'm against giving a private community private access to the Gulf to increase their home sale value and tourism rent rates, which I feel that strongly is what this is about. Not public beach access.

Thank you for your time and consideration.

Jillian Southerland  
Walton County Citizen

**Date:** Saturday, December 1, 2018 10:47:46 AM

---

The protection of Park resources should have priority over the convenience of one subdivision. Unmanaged access to Topsail should not be acceptable. We have a jewel in the midst of development all around South Walton and we should protect it.

Please do not grant Cypress Dunes an entrance to Topsail Preserve.

Thank you,

Mary Sanders

A member of Friends of Topsail Preserve

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park. I don't believe that these select few would be able to control what their progeny and guests do when left unattended. All it takes is one to bring in a motorcycle or start a "bonfire " and all that beauty is gone. Also, how do you justify charging the visitor to the Park and restricting their access when you would allow these people in free with open access just because they are lucky enough to live next to the Park? I say no to this, as they already have public access to the beach.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Dean Onessimo

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen of Walton County who doesn't live in the private gated community of Cypress Dunes. I'm writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species such as the Snowy Plover and Least Terns which live and nest on our beaches. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Not only is a private, unmonitored access reckless to such an important habitat for shorebirds and their nesting site, it will likely result in misuse and loss of funds that the park needs.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Please treat all Walton County citizens equal. Just because one group of folks who live near the beach but does not have 'bike, walk, or direct' access to it doesn't give them the right to have it because they complain about it. I personally drive to Topsail Preserve, pay, park, then like everyone else get to the beach. It's not difficult and it provides wonderful scenery and even exercise if anyone chooses not to take the tram.

I'm speaking in keeping Florida's wild spaces wild. I'm against giving a private community private access to the Gulf to increase their home sale value and tourism rent rates, which I feel that strongly is what this is about. Not public beach access.

Thank you for your time and consideration.

Jillian Southerland  
Walton County Citizen

Sincerely,  
Jillian Southerland

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Carl Hillman

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park. We are concerned about our safety, as many people use these parks in early morning or evening. Plus, we need to be able to monitor cleanliness and provide facilities such as restrooms, meeting rooms or little museums as you often have in our state parks.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

**From:** [JAMES WALKER](#)  
**To:** [FLStateParkPlanning](#)  
**Subject:** Additional Beach Access  
**Date:** Saturday, December 1, 2018 1:54:59 PM

---

As a full-time resident of the west end of 30A, I would like to encourage you to support additional beach access through Topsail Hill State Park. Our community is built around our beaches. Visitors and residents in our county are here because of the beaches we have. The current customary use issues have pushed beach access to the forefront of the beach access need, but even if customary use is eventually granted through the court systems, we will continue to need additional access due to tourism and resident growth.

The state park system plans for Topsail call for more usage than current numbers indicate. As someone who spends a great deal of time in Topsail, it appears that there is very minimal usage of the park beaches with the current access limitations by local residents or tourists not staying in the Topsail campgrounds.

In conclusion, please support additional beach access through Topsail Hill State park. It is vital in the continued growth of our counties permanent resident and tourist populations.

Sincerely,  
JD Walker

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

DEAR SIRs:

I'm a resident of Panama City Beach who has enjoyed the many parks in our area for over 50 years. I participated heavily in urging the State of Florida to purchase the land now known as Camp Helen State Park . I personally know how sensitive these coastal State Parks are.

Topsail Hill State Park, just like all our Florida State Parks, needs to carefully protect its natural habitat. There exists a public entrance for use by all the public. Any attempt to grant private access to Topsail Hill State Park could be followed by numerous other attempts for private access, by precedent, at all sorts of places along its borders. That is nonsense.

There is no reasonable manner of protecting this important natural habitat (that supports many imperiled species) by allowing private access. Our State of Florida does not have the funds to manage an extra private access or the possible countless private accesses that could result from granting this one.

I stand among the many who support a single public access point, which will serve the intended purpose of protecting the natural habitat of the sensitive land in this park.

As stewards of our special Florida coastal State Parks, I request that you give every ounce of strength you have to protect Topsail Hill State Park.

Most sincerely,  
William McCandliss

Sincerely,  
WILLIAM MCCANDLISS  
22228 Lakeside Dr Panama City Beach, FL 32413-1198

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Gordon Cherr

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Hurricane Michael devastated many coastal miles in the FL panhandle. Therefore, please do not allow a 2nd entrance to Topsail State Park so our shorebirds can thrive at this beautiful FL state park.

Thank you,  
Louise Sommers

Many in the public are unaware of the incredible damage they can do just by walking in the wrong place at the wrong time. This is the case with nesting shorebirds such as Least Terns. Signage to alert the public of problems is helpful, but not everyone reads the signs. One public access point should allow public education and monitoring so they can enjoy what the park has to offer, but also protect what makes the park and our Gulf Coast so special

Thanks for your attention to this matter.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

State Parks are in place to protect nature. In order to do that it is necessary to limit human activities. Human access to parks should be monitored. Otherwise humans might randomly enter these natural areas and create disturbances for the plants and animals that exist there.

Topsail Hill State Park provides habitat for important species. Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Raymond Zahra

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

To Whom cares about our wildlife: I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

We are making a mistake -letting people access thru many points of entry, it will be abused. Please say no to this- we need to protect what little is left of our declining shorebirds and habitat.

Sincerely,  
Nanette Soistman

**Subject:** NO Additional Access for Topsail Preserve State Park  
**Date:** Saturday, December 1, 2018 4:30:52 PM

---

Attention: Florida State Park Planning

Subject: NO Additional Access for Topsail Preserve State Park

Please count my opposition to any additional access for Topsail Preserve State Park. In the past, I have served on a board for a Florida State Park (Eden) and attended a 10 year planning workshop. I appreciate the forward planning for Florida's State Parks. I also understand and appreciate the importance in maintaining the full integrity of a Preserve within the Florida State Park System. I am a native of Walton County Florida and have enjoyed the Topsail Preserve State Park and have used current parking and see no need at all for this intrusion into the preserve ecosystem. Please count this opposition response at Dec. 5, 2018 meeting in Walton County.

Thank You,

Brenda Rees, 323 Lakeview Drive, Santa Rosa Beach, FL 32459

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Please continue to protect nesting areas. Do not change the rules for Topsail Hill State Park; it could lead to loss of birds in that area and other areas. Use cat traps to keep the cats from eating the birds. Encourage all parks to do the same.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Michael Bertrams

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a local community member writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks, and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredibly beautiful park accessible to all while at the same time protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park. This is especially important given the recent devastation to our coastal areas caused by Hurricane Michael.

Sincerely,  
Lisa Sanders

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Sharon Peariso  
12800 Ledges Dr Louisville, KY 40243-2083

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Topsail is one of the most beautiful parks I have ever seen. It belongs to all Floridians. I am a voter writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

As a Florida resident, I am a frequent visitor at Florida state parks. I greatly admire the work our parks do in protecting important habitat and the wildlife that live there. I am also acutely aware of the continued pressure to add more human inhabitants and continually pressure what remains of natural Florida.

I am writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Kimberly Montgomery

**Subject:** Additional public beach access is needed at Topsail Hill State Park  
**Date:** Sunday, December 2, 2018 9:00:05 AM

---

First, thank you for being open to input on this subject.

My family and I have been coming to 30A for years and 4 years ago bought a home on the west end of 30A near Topsail Hill.

We ride our bikes to Stallworth beach access and drive to Fort Panic to visit the beach.

We are annual pass holders for Florida State Parks and also ride our bikes to Topsail Hill if we want a longer ride -- but we have NEVER used the tram there -- it is just too long and hot of a ride.

It would be wonderful if there could be another beach access through Topsail on the east side of the park.

The park has done a wonderful job of using the walkway inside the park to protect the dune, so concerns that having another access will compromise the environment seems alarmist and overblown to me.

We strongly support the development of another beach access.

Thank you.

Dr. Steve Emmons

**From:** [Mary Hamblin](#)  
**To:** [FLStateParkPlanning](#)  
**Subject:** Additional public beach access is needed at Topsail Hill Preserve State Park  
**Date:** Sunday, December 2, 2018 8:52:06 AM

---

More PUBLIC beach access is needed at Topsail State Park.

The Park is PUBLIC land purchased with PUBLIC funds, which came from PUBLIC tax dollars. The proposed access is PUBLIC access, and would actually restore a second PUBLIC beach access that had originally existed further toward the Destin side of the Park quite a few years ago, as one of the Park Employees recently told me himself.

Thorough environmental impact studies have been conducted by renowned environmentalists and botanists to confirm that the plan for the boardwalk access will have minimal environmental impact. The PUBLIC access will allow people to more easily enjoy the beauty of the area that their tax dollars have rightly given them access to. This is a very similar argument for customary use that finally reversed the plan for Privatizing the beach that had been passed and threatened the public beach access/use over the past year.

The planned access calls for very little vehicular parking areas, so as to minimize vehicular traffic and instead allows easy bicycle access to allow enjoyment by people within a bike-ride distance along 30A who may be looking for a quieter beach area on the West End of 30A.

Dozens of similar examples of Public Preserves and Parks with smaller acreage and still having multiple public access through them have been shared in a recent PUBLIC forum that resulted in initial approval of this PUBLIC beach access plan. This same PUBLIC forum revealed that Topsail State Park is currently hosting visitor numbers far below its original design, so any opposition to this PUBLIC beach access on the grounds of potential environmental impact are hysteria and fear-mongering with no basis in fact.

Normal people have sat quietly by while the environmental exaggerationists scream at and intimidate anyone who opposes them...those examples have been seen in the debate/discussion of this beach access...well, those days are over....normal people are no longer willing to sit quietly by...but we have jobs and cannot attend the meeting, so please accept this note as my strongest approval of the proposed PUBLIC beach access at Topsail Hill State Park.

You are public officials and you need to know that we will vote against anyone's reelection bid who lobbies or votes against this PUBLIC beach access.

PLEASE vote yes to move forward with this access thru Topsail!!

**Subject:** NO to additional access into Topsail Preserve State Park  
**Date:** Sunday, December 2, 2018 10:15:59 AM

---

I am writing to implore you to deny an additional access into Topsail Preserve State Park. As you are aware, Topsail is a pristine coastal park with diverse habitat, surrounded by the fast growing communities of South Walton county. I am very concerned about the potential pressure an unstaffed entrance will add to the sensitive habitat. Further, this can set a very dangerous precedent for other private communities to access private access points.

The growth in population in our area is occurring at break neck speed and includes clear cutting every where you look. Thus, even more need to guard the pristine habitat of the park and to monitor and control access. This is not to mention the detrimental effect of construction of the proposed access !

Some private beach front owners on the beaches of South Walton have denied access to many beaches, creating a greater demand for beach access at the same time that local and tourist populations are increasing. Topsail is much more than just "beach" and is not there to solely meet the demand for beach access!

Please protect the shorebirds, imperiled wildlife and unique ecosystems that would be threatened by additional unnecessary access!

Thank you  
Janet Foltz

**Subject:** No additional access for Topsail Hill Preserve State Park  
**Date:** Sunday, December 2, 2018 8:32:29 AM

---

Hello,

I am a frequent visitor and local tax payer in Bay county. I won't be able to attend the meeting on the seemingly perennial permission to develop an access boardwalk through the park for the adjacent private residence. I disapprove of adding another access as there is already an access point that is NOT overfilled through the park especially for this residence.

Not only that but unnecessarily developing a boardwalk through prime dune habitat will disrupt federally listed beach mice habitat and also disrupt potential shorebird nesting habitat for such imperiled and state designated threatened species like snowy plover and least tern.

I also think that using public funds to develop a "public access" in a private residence that is not already designed for appropriate public parking will create a greater problem for those owners of those houses.

I appreciate hearing my thoughts on this matter.

Sincerely,

Marvin Friel

I have been going to the beach somewhere all my life. I am for a second beach access through Topsail Hill Preserve. I bought my house in 1996 and used to walk straight to the beach through the park. I was the only house here at the time so it wasn't an issue. Once more development started the park became correctly concerned about increasing traffic. They built fences and attempted to enforce their boundaries. I stopped walking through the park because I knew it was against their rules. Other people are not like me and continue to use several old paths to the beach in violation of park rules. The west end of 30A has grown tremendously since those days and continues to grow today. We need more beach accesses the park could use the revenue. Cypress Dunes HOA has graciously agreed to pay for a board walk to the beach. I have worked with my neighbors in Beachview Woods to agree to allow the public to access this new boardwalk down our road. This is not a complicated decision although some people attempt to make it one.

A group of folks largely not from the west end of 30A oppose this beach access. I'm going to speak very plainly about their opposition. They have continually lied in print and public meetings that this is a private beach access for Cypress Dunes residents only. I give that statement 10 Pinnocchio's it is patently false. Second they say that it will destroy the habitat for endangered species. Also 10 Pinnochios. In fact elevated boardwalks are used in federal and state parks around the country and around the world to protect endangered species and have proven tremendously successful. Don't believe me look at the evidence just don't believe the nay sayers they are well organized and will flood you with emails when they are actually a small minority. However their objections don't stand up to scrutiny when analyzed by an objective mind. I urge you to approve this second beach access point it is a win for the park and the taxpayers of the state of Florida

**Importance:** High

---

SUPPORT POSITION: As a resident of Walton County, I strongly support the proposed TopSail Park Beach Access Boardwalk.

SUPPORTING LOGIC: The proposed TopSail Park Beach Access Boardwalk will help both Walton County and the State Park System with little to no environmental impact; this is a “Win-Win” solution to a shortage of: (1) beach access within Walton County; and (2) State Park funding. Also important is the fact that cost of Boardwalk construction will be privately funded.

Walton County is currently under great stress due to: (1) a significant increase in vacationers to the area; and (2) significant problems caused by private ownership claims (i.e. the lack of “Customary Use” rights for the people). Beach access thru the Park will help, to some degree, to alleviate the problem by providing people additional access.

The State Park System will benefit in that: (1) access will provide additional park access fees from individuals and annual pass purchases from the surrounding neighborhoods; and (2) more areas of the park can be accessed and viewed by the public. Park access via this Boardwalk will effect little to no environmental impact in that: (1) the boardwalk will be constructed from the “top down”; and (2) public access will be confined and channeled for viewing such that people are not actually in the vegetated areas or the dunes. Exemplary to this approach is the fact that there exist over 14 miles of boardwalks in the Yellow Stone National Park to help channel foot traffic. These are in place for: (1) ease of access; and (2) environmental protection; this is a pragmatic approach that really makes sense and works.

Additionally, along the lines of environmental impact, certain endangered species such as the Choctawhatchee Beach Mouse are known to thrive better in a more people friendly environment (i.e. there are fewer snakes).

Thanks,

Emory H. Gaultney

Dear Park Planners,

For too long, state parks and other public lands have been seen as easy place to run utilities, place public buildings, and use for private interests. The value of the land as unbroken green space is overlooked by the uninformed or the greedy. These lands belong to the public and should not be used for anything except habitat preservation and associated recreation. Please say NO! to the proposal to run a private access through the park for the benefit of a few privileged individuals.

Thank you,

Al Clare and Candis Harbison

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Jan Scott

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Susan Bell

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Please remember that too often people forget that we need to be considerate of all — this includes wildlife. But as we have seen on a national level, our beautiful and invaluable parks are being damaged, often deliberately, by those who are not monitored. So please keep a single access portal.

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park. My senator Marco Rubio believes in a god that created all these creatures to be shot by hunters, it is god's will they die, god created them to be killed by hunters. Jefferson easily invalidated claims in the Declaration was him self a hypocrite like Marco. A brutal slave owner that sexually abused his slaves. If you sum all knowledge to the last Iota the evidence of a god sums to zero. The evidence that gods are evil inventions of men overwhelming. No essence before existence therefore no creator courtesy Jean Paul Sartre. Perhaps Trump will make things great incinerating it all by loosing WWII and sacrificing a 150 million of his deplorable supporters for the good of the world, one can only hope like Lincoln an atheist too did not beleive in prayer.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Catherine Brock

**Date:** Monday, December 3, 2018 8:25:14 AM

---

Good morning!

Thank you for the opportunity to email you regarding my strong support for this proposed access.

I envision:

1. A lovely, ecologically sound boardwalk across our lovely Topsail Park.
2. A way for 600 or so nearby residents to walk or bike to the beach without getting in their cars and congesting the roadway and other public accesses.
3. A treasured destination for bikers up and down 30-A.
4. A public access with parking so that residents from other areas of Walton County, as well as visitors, can enjoy the beach without having to maneuver through customary use issues.
5. The opposition will see this boardwalk as a landmark public access that addresses their concerns and more; and they will use it often!
6. A hugely successful partnership between the Park and locals near the access to foster an environment that protects the flora and wildlife in the Park, including Park training, interpretive signage, etc., to teach beach goers to be good stewards of the beach and the Park.
7. An increase in local use of the Park, which is a continuing concern addressed by the Friends of Topsail Hill Preserve State Park.

THANK YOU for all the time and effort you put into our unique Florida State Parks!

To Whom It May Concern:

The existing plan states the policy of the Division of Recreation and Parks to “promote the state park system for the use, enjoyment, and benefit of the people of Florida and visitors, to acquire typical portions of the original domain of the state which will be accessible to all of the people, and of such character as to emblemize the state's natural values; conserve these natural values for all time; administer the development, use and maintenance of these lands and render such public service in so doing, in such a manner as to enable the people of Florida and visitors to enjoy these values without depleting them; to contribute materially to the development of a strong mental, moral, and physical fiber in the people; to provide for perpetual preservation of historic sites and memorials of statewide significance and interpretation of their history to the people; to contribute to the tourist appeal of Florida.”

As HB 631 continues to cause confusion and restricted beach access to an area of Florida that thrives on tourism as well as a booming influx of full-time residents I believe it is necessary to explore every possible option to keep beaches open to the public and protect the scenic areas and wildlife of Walton County.

Since the eastern end of Topsail Hill Preserve State Park is mostly unused due to lack of access, creating a designated beach walkover and access point on the eastern end of Topsail Hill Preserve State Park would protect both visitors and residents from wildlife and keep wildlife safe from people as well. This would relieve some of the hostility and frustration around HB 631 by providing people an access point and preserving the beaches for everyone's use.

I am available via email or phone at any time to share additional thoughts and suggestions as well.

Respectfully,

Megan Clark

**Subject:** Additional public beach access is needed at Topsail Hill Preserve State Park  
**Date:** Sunday, December 2, 2018 8:32:49 PM

---

I am in favor of the proposed public beach access through Topsail Hill State Park for the following reasons:

1. This proposed beach access point will be PUBLIC. Therefore it will benefit the entire community. Residents as well as visitors will benefit.
2. Additional PUBLIC beach access points are needed as a result of the confusion and controversy surrounding the "Customary Usage" provision. The Topsail Hill proposed access point will be located in an un-populated area and therefore should be very attractive to beach goers who are concerned about violating property rites of owners near other public beach access points.
3. Overcrowding conditions at other public beach access points along 30A are frequently encountered during the peak tourist season. Additional public beach access points are definitely needed.
4. Currently, illegal access to the beach through the state park is almost a daily occurrence. Visitors to the area simply "hop" the fence and make their way through the park to the beach. (I have photographic evidence of these violations.) They routinely walk across the dunes without regard to the rules and have no regard for the "No Trespassing" signs. A well planned public walkway to the beach would all but eliminate this problem. The violators would now have a much easier path to the beach and would have no need to traverse the difficult terrain. The natural environment within the park would be better protected with a well managed board walk verses the current uncontrolled access situation.
5. And last but certainly not least, this proposed walkway would be paid for by a private entity. Walton county, Topsail Hill Preserve State Park, and the State of Florida would not be required to fund this project.

Your consideration regarding this proposed project is greatly appreciated.

Sincerely,

Mike and Becky Geihlsler  
279 Cypress Drive  
Santa Rosa Beach, Florida 32459

## Additional public beach access needed at Topsail Hill State Park!

To Whom It May Concern,

I am asking that a new Beach Boardwalk proposal be added to the Topsail Hill State Park plan for 2019. With the recent HB631 in affect, it is very difficult to find a place to take my family to the beach. Topsail Hill State Park is a wonderful facility, but it is difficult to access the beach from the main gate. As a local, it becomes problematic when you have to enter the park, pay to get in, park your vehicle, wait for the tram, load your beach belongings, be driven to the beach and then finally wait for the tram when you are ready to leave. With an additional beach access on the East end of the park, it would be so much easier just to be able to go the beach at ones leisure; Whether it was for an hour or a day.

As a local of Walton County, I ask that you please consider this plan so that generations can easily enjoy the beach year after year.

Thank You,

Bobby Surles

Hello

I'm writing in support of the additional beach access boardwalk in Topsail Hill Preserve State Park. The additional boardwalk is valuable for many reasons, but one that is most important to me is making the beach in the park handicap accessible. My sister is in a wheelchair and can't access the beach in the park because of the need to get on a tram. With the additional beach access, we will be able to drop her at the boardwalk and push her to where she can spend time looking at the water.

Thanks

To Whom It May Concern:

This email is to serve as a document of our support for public beach access though the above mentioned state park. My husband, son and me, have lived in the Santa Rosa Beach area for over 10 years and see the need for additional access to this area that we have so been blessed with. My son was 2 when we moved here and is now 14. He attended Butler Elementary and is now at Emerald Coast Middle School. As a Mother of a growing teenager, I can truly say that our students are limited to the beach and the surrounding. The beach and it's surrounding offers such a great place to learn and study for all ages.

Please except this email as a support for the public beach access.

Sincerely,

Michael, Tammy and Atticus Usseglio

Dear Park Planning Commission,

I am writing in support of the request to allow a beach access through Topsail Hill Preserve State Park near the Cypress Dunes area. We are frequent visitors to the area and have stayed at several places along 30A. Topsail has over three miles of beaches that are accessible by only one boardwalk through the park. By allowing this additional access, it would relieve some pressure off of the one beach access and allow more people to enjoy this beautiful Topsail park and beaches.

It is my understanding that there are a number of Florida "Preserves" that allow multiple beach accesses and we would like you to consider one for Topsail. There is a large residential density in the area of Topsail and this would be the logical access for residents and visitors in this area to walk, bicycle and enjoy this phenomenal natural asset.

Sincerely,

Shanna Jones

Good Morning,

I'm writing to convey my concerns about adjacent subdivisions attempts to increase the short term rental values of their properties by proposing a nearly exclusive beach access from their subdivision through the "Preserve". As many argued in a previous public meeting about this effort there is adequate parking and access through the main Preserve entrance not 1/4 mile from this proposed neighborhood access, which has no public parking dedicated for this proposed access. In my humble opinion this effort will violate the intentions of the original owner's who placed this property in the State's hands as a Preserve for Wildlife and ecosystems unique to this property.

Thanks,  
Frank Day

The acquisition of Topsail Hill Preserve was for the conservation of natural communities found in the Florida Panhandle. Recreation in the preserve must not diminish the resource.

Priority should be given to improving the existing facilities already developed within the park, redesign beach bike parking and enhance restroom facilities.

The trails within the preserve should remain bike and pedestrian only, motor vehicles should be restricted to the current use area.

No additional beach boardwalks should be added to the Topsail Hill Preserve!

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

As a citizen of Florida who's also a wildlife ecologist and former FPS employee\*, I am writing to express my adamant opposition to a request by private property owners in an adjacent gated community for their own entrance to Topsail Hill State Park so they can access the beach more easily. Are you kidding me?

Granting such a "VIP" entrance would be grossly unfair to everyone else who visits Topsail Hill or any other state park, and could set a precedent for other such requests involving parks all over the State of Florida. That could potentially even result in lawsuits by owners of private property adjacent to other state parks demanding equal treatment. This could open up a huge can of worms!

I'd like to have a direct entrance from my neighborhood in Apalachicola to the Chapman Botanical Garden on the grounds of Orman House State Park, which would make it easier for residents like me who live north of the historic house itself to access the garden or use it as a pleasant shortcut to walk to the river or downtown. All it would take is removal of a small section of fencing. But I wouldn't have the gall to request that! Who do these people think they are?!?!?

Even more importantly, Topsail Hill State Park provides key habitat for imperiled species like marine turtles, Choctawhatchee beach mice, and various species of shorebirds and seabirds. These include species protected under the federal Endangered Species Act and others which are state-listed species.

Allowing an additional, unstaffed access point at Topsail Hill could lead to the following, among other potential ecological/wildlife concerns:

- Unauthorized entry at times when the park is closed, and possibly the presence of domestic dogs or other housepets on the beach in violation of park rules;
- Trampling of vegetation critical to the natural process of building and stabilizing dunes, including state-protected sea oats which are a key food source for beach mice;
- Intrusion into shorebird and seabird nesting areas with potentially devastating results for eggs and chicks;
- Additional trash on the beach attracting predators like raccoons, coyotes, and gulls.

This is only what I can think of right off the top of my head, and it's bad enough. But I'm sure additional concerns will occur to me upon further reflection.

ALL Floridians should have equal access to our state parks and I support maintaining a single public access point at Topsail Hill, which will ensure that there continues to be ONLY monitored access into the park. Please keep this incredible park equally accessible to all while protecting its imperiled wildlife and unique ecosystems from the serious threats posed by unnecessary, unfair, and uncontrolled private access to the park for a select group of presumably rather wealthy Floridians.

Thank you for considering my views regarding this very important matter.

\*Former OPS employment with Florida Park Service includes 2 years as a Biological Scientist I for FPS Region I conducting shorebird/seabird-related research at St. George Island State Park and St. Joseph Peninsula State Park; and two years in a part-time Park Ranger position at the Orman House and John Gorrie Museum. I am also personally familiar with the wildlife and natural resources of Topsail Hill State Park having done shorebird/seabird

surveys there in a field technician position with Audubon.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
john sarkozy

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am writing to let you know my thoughts about Topsail Hill State Park, which provides a home to important endangered species.

There is no need for neighborhood residents to have a new entrance. They are welcome to use the existing entrance like everyone else. The current monitored single entrance provides oversight and allows park officials to protect the habitat of rare nesting birds.

All Floridians should have equal access to our state parks. Private communities should not have special privileges to access public lands through private or semi-private access points.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

We have camped at this park. It is a lovely park. The access to this park needs to be kept as a monitored access. To open it to an unstaffed entrance would be a huge mistake. Why? Take a look at the beaches that are public.

Sincerely,  
Susan Valiquette

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Nikki Bennett

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

I am aware that the State of Florida through the Division of Recreation and Parks provided a costly and well planned public access that provides access and helps to protect the natural area of this world class preserve from unnecessary disturbance.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Please stand firm on a single access point for all Floridians and visitors to our state and do not provide specialized, privileged access to benefit a particular group of residents.

Please recognize that this additional access point will add an additional disturbance to shorebirds which have increasing difficulty finding an undisturbed stretch of the Gulf beach

## Additional public beach access needed at Topsail Hill State Park!

The Park needs additional boardwalks to allow everyone to easily access the different areas, especially the beach. The 2007 Plan said boardwalks are allowed since they minimally impact natural resources in the Park. In fact, boardwalks are preferred to eliminate dune erosion from foot traffic by keeping visitors on a walkway. They have been used somewhat in the Park but there needs to be additional boardwalks for everyone to enjoy the Park. Boardwalks in the 2007 Plan proposed universally-accessible pathways for pedestrians, bicycles, wheelchairs and pull carts. The current way to access the beach through Topsail Hill is to go to the entrance, pay a fee, park your car, walk to tram pick up place, ride tram to beach and then must wait for the scheduled tram for pick up when you want to leave. This proposed new access would allow beach goers to park and walk down the boardwalk at their leisure to access the beach. Please construct a public beach access boardwalk on the eastern side of the Park.

It would be nice for local residents to be able to bike free of charge any time of the year, and maybe even be able to use the beaches for free.

I also support Walton County providing funds for tourists to use the beaches in the summer.

We may lose the fight to privatize our beaches and locals need to be able to go to the beach without cost.

Providing a driver's license with a local address should be required.

Thank you for the opportunity to comment.

To whom it may concern:

I have lived in Okaloosa and Walton counties for 44 years now. I never thought we would be in the position of fighting over beach accesses in our slice of paradise. As a realtor, the customary use issue is a large one. As we have already seen, the tourist will go somewhere else if they have to subject their families to obnoxious Gulf front homeowners kicking them off of "their beach". It has become a very daunting task of locating public beach accesses that do not lead to private land. I have seen a lot of changes in this area, but one is for sure, everyone loves our beaches and we LIVE and SURVIVE off or tourism that the beaches generate. We all know we need more access to the beaches and now we have an opportunity to open another one that will service over 700 homeowners within walking distance to Topsail Hill State Park. The park is beautiful and we feel a lot more people will use it if given a more user friendly means to get into the park. Today it is very cumbersome to get in and out of the state parks tram system to trails that only run every 2 hours.

I am the president of Beachview Woods, which is the neighborhood of Austinwood Lane. All of our homeowners have agreed to allow the public to travel down our private road to allow this project to be accessed by the surrounding neighbors. We do not have a beach access anywhere near the West end of 30A. More accesses are needed to relieve the congestion down the road near Stinky's restaurant. If we go to Stallworth's "public beach access" they yell at us to get off of their property. It has become a real problem that the county has "neighborhood beach accesses that go to private land". Years ago, when there wasn't that many tourist, it wasn't an issue and the beach front homeowners didn't care. Now they are angry and very mean to anyone that goes near their properties. It is an issue in many locations along 30A now. Very sad.

If Cypress Dunes is willing to pay for the boardwalk, and have all the homeowners purchase a yearly pass, I don't see how this isn't a win win for all of us. The second boardwalk in Topsail Hill State Park was already in the previous management plan, you already planned to do it. We are just asking that you reconsider building it and allowing Cypress Dunes to help fund the project and that will help all of us in the long run. I will purchase a yearly pass as well. I can promise you that no one that is for this boardwalk is out to hurt the wildlife or disturb the nature and beauty of Topsail Hill State Park. We just want to enjoy it and look at it!

Thank you for your time,

*Tracy Sweetland*

To whom it may concern:

This area of Walton County desperately needs more public beach access. The proposed beach access will benefit a large number of residents and visitors. ....not just one neighborhood.

Please vote YES on the on the beach access decision for the proposed boardwalk over the Topsail Hill Preserve State Park. We have enjoyed many vacations in 30A for well over 10 years now. When we stay in rental homes on the west end of 30A, unfortunately, we do not have direct access to the beach. Getting to the beach is a 20 minute walk or a 12 minute bicycle ride. Sounds easy right? Well, let me assure you, this isn't always an easy thing to do with small children or elderly parents and beach gear in tow, not to mention it's also weather dependent. So, almost everybody on the west end has to drive to the Dune Allen beach access. It is very difficult to find a parking spot for our vehicle from that beach access point as well as other access points nearby. It's frustrating to have to deal with all of these challenges just to get to the beach and has quite honestly swayed us, as well as numerous other tourists from staying in certain beach rental homes on the west end as a result. From what I understand, when this area is fully built out there will be many hundreds of homes. This, together with the other communities and rental properties on the west end of 30a will eventually add to a parking nightmare at the Beach access point along 30A.

The beach communities on the West end are absolutely gorgeous and extremely well maintained. The homeowners have taken pride in maintaining their properties and this level of care draws visitors such as myself to want to stay there as often as possible. We actually entertain the idea of buying a home in the area as a result. They have everything a resident as well as vacationer would need right there in their community, with the exception of being able to access the beach from within the community. For over a decade now I've oftentimes wondered why, when the beach is right there? You can literally see the beach from the homes and the amenity center in our favorite vacation community. It would be such an easier and safer way to travel to the beach on foot, without worry of weather or safety issues just getting there. There would be less hassle for visitors as well as the current residents with parking and traffic flow on 30A altogether and best part is that it would be more environmentally friendly.

This proposal would serve the residents and visitors, while making better and ecologically friendly use of our parks and beaches. We need to take advantage of this opportunity and pursue it.

Adding these access points along the west end of 30a will increase property value, which will also increase property taxes and sales taxes to Walton county.

Sincerely,

***Sherri Davis***

More PUBLIC beach access is needed at Topsail State Park.

The Park is PUBLIC land purchased with PUBLIC funds, which came from PUBLIC tax dollars. The proposed access is PUBLIC access, and would actually restore a second PUBLIC beach access that had originally existed further toward the Destin side of the Park quite a few years ago, as one of the Park Employees recently told me himself.

Thorough environmental impact studies have been conducted by renowned environmentalists and botanists to confirm that the plan for the boardwalk access will have minimal environmental impact. The PUBLIC access will allow people to more easily enjoy the beauty of the area that their tax dollars have rightly given them access to. This is a very similar argument for customary use that finally reversed the plan for Privatizing the beach that had been passed and threatened the public beach access/use over the past year.

The planned access calls for very little vehicular parking areas, so as to minimize vehicular traffic and instead allows easy bicycle access to allow enjoyment by people within a bike-ride distance along 30A who may be looking for a quieter beach area on the West End of 30A.

Dozens of similar examples of Public Preserves and Parks with smaller acreage and still having multiple public access through them have been shared in a recent PUBLIC forum that resulted in initial approval of this PUBLIC beach access plan. This same PUBLIC forum revealed that Topsail State Park is currently hosting visitor numbers far below its original design, so any opposition to this PUBLIC beach access on the grounds of potential environmental impact are hysteria and fear-mongering with no basis in fact.

Normal people have sat quietly by while the environmental exaggerationists scream at and intimidate anyone who opposes them...those examples have been seen in the debate/discussion of this beach access...well, those days are over....normal people are no longer willing to sit quietly by...but we have jobs and cannot attend the meeting, so please accept this note as my strongest approval of the proposed PUBLIC beach access at Topsail Hill State Park.

You are public officials and you need to know that we will vote against anyone's reelection bid who lobbies or votes against this PUBLIC beach access.

PLEASE vote yes to move forward with this access thru Topsail!!

To Whom It May Concern:

The existing plan states the policy of the Division of Recreation and Parks to “promote the state park system for the use, enjoyment, and benefit of the people of Florida and visitors, to acquire typical portions of the original domain of the state which will be accessible to all of the people, and of such character as to emblemize the state's natural values; conserve these natural values for all time; administer the development, use and maintenance of these lands and render such public service in so doing, in such a manner as to enable the people of Florida and visitors to enjoy these values without depleting them; to contribute materially to the development of a strong mental, moral, and physical fiber in the people; to provide for perpetual preservation of historic sites and memorials of statewide significance and interpretation of their history to the people; to contribute to the tourist appeal of Florida.”

As HB 631 continues to cause confusion and restricted beach access to an area of Florida that thrives on tourism as well as a booming influx of full-time residents I believe it is necessary to explore every possible option to keep beaches open to the public and protect the scenic areas and wildlife of Walton County.

Since the eastern end of Topsail Hill Preserve State Park is mostly unused due to lack of access, creating a designated beach walkover and access point on the eastern end of Topsail Hill Preserve State Park would protect both visitors and residents from wildlife and keep wildlife safe from people as well. This would relieve some of the hostility and frustration around HB 631 by providing people an access point and preserving the beaches for everyone's use.

I am available via email or phone at any time to share additional thoughts and suggestions as well.

To whom it may concern:

I have lived in Okaloosa and Walton counties for 44 years now. I never thought we would be in the position of fighting over beach accesses in our slice of paradise. As a realtor, the customary use issue is a large one. As we have already seen, the tourist will go somewhere else if they have to subject their families to obnoxious Gulf front homeowners kicking them off of "their beach". It has become a very daunting task of locating public beach accesses that do not lead to private land. I have seen a lot of changes in this area, but one is for sure, everyone loves our beaches and we LIVE and SURVIVE off of tourism that the beaches generate. We all know we need more access to the beaches and now we have an opportunity to open another one that will service over 700 homeowners within walking distance to Topsail Hill State Park. The park is beautiful and we feel a lot more people will use it if given a more user friendly means to get into the park. Today it is very cumbersome to get in and out of the state parks tram system to trails that only run every 2 hours.

I am the president of Beachview Woods, which is the neighborhood of Austinwood Lane. All of our homeowners have agreed to allow the public to travel down our private road to allow this project to be accessed by the surrounding neighbors. We do not have a beach access anywhere near the West end of 30A. More accesses are needed to relieve the congestion down the road near Stinky's restaurant. If we go to Stallworth's "public beach access" they yell at us to get off of their property. It has become a real problem that the county has "neighborhood beach accesses that go to private land". Years ago, when there wasn't that many tourist, it wasn't an issue and the beach front homeowners didn't care. Now they are angry and very mean to anyone that goes near their properties. It is an issue in many locations along 30A now. Very sad.

If Cypress Dunes is willing to pay for the boardwalk, and have all the homeowners purchase a yearly pass, I don't see how this isn't a win win for all of us. The second boardwalk in Topsail Hill State Park was already in the previous management plan, you already planned to do it. We are just asking that you reconsider building it and allowing Cypress Dunes to help fund the project and that will help all of us in the long run. I will purchase a yearly pass as well. I can promise you that no one that is for this boardwalk is out to hurt the wildlife or disturb the nature and beauty of Topsail Hill State Park. We just want to enjoy it

and look at it!

Thank you for your time,

Keep Topsail Hill State Park as a Preserve was purchased for conservation of natural communities in the Florida Panhandle. Recreation in the Preserve must not diminish this resource. Priority should be given to improving existing facilities already developed within the Park. The trails within the park should remain bike and pedestrian only. Vehicles should be restricted to current use only. No additional beach boardwalks should be added.

Thank You,  
Leland E. Davis Jr.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Rachel Marshall

**Date:** Monday, December 3, 2018 7:39:15 PM

---

I am strongly opposed to an additional access to Topsail Preserve State Park. Convenience of one subdivision cannot and should not override State Parks Dept management and drain park resources. The present beach access within the park is extremely convenient and easily accessible with tram service provided. Please prioritize environmental factors and the needs of the entire region over the wants of one subdivision.

**Subject:** Public beach access proposal for Topsail Hill Preserve State Park  
**Date:** Monday, December 3, 2018 6:08:06 PM

---

We favor the public beach access proposal for Topsail Hill Preserve. Residents since 2008, we have witnessed the rapidly increasing growth and congestion on the west end of 30A. This especially as it pertains to public beach access. With the threat of common usage taking precedent it is more urgent that we have more public beach access. Also the parking problems along 30A are horrendous and the no parking (walking) access for all the neighborhoods of the west end of 30A would alleviate a lot of this problem. Topsail Hill has a large beach and one public beach access that is environmentally and ecologically friendly. We love the beauty of dune lakes, the sand dunes and the beach! We believe that a second boardwalk can be constructed that provides public access while enhancing Park plant and wildlife protection.

We ask for your support for this proposal.

**Subject:** Topsail Hill Preserve State Park Beach Access  
**Date:** Monday, December 3, 2018 5:04:50 PM

---

To Whom It May Concern,

I am writing to you today to give my support for the proposed, additional, public beach access within Topsail Hill Preserve State Park.

My fiance and I moved to Santa Rosa Beach in October 2018 from Jacksonville, FL after our vacation in May 2018 in which we happened to stay at one of the cabins within Topsail. We currently live approximately 2 miles from the proposed additional access and are thrilled at the possibility of having another way to access the beach. As I am sure you are aware of, the current public beach accesses here along the west end of 30A are overcrowded during the peak season and what makes it even more difficult is that we are now dealing with Customary Use issues. Why not give another access point to the beautiful state park beaches...it makes perfect sense.

It really confuses me why anyone would have an issue with having an additional access point. From what I understand this public beach access will have a boardwalk and honor box system, similar to Deer Lake State Park which is right down the street. I also have heard that a group is stating that this unmonitored access will negatively impact the sensitive habitat and disturb rare nesting birds. How? This access point will be a raised boardwalk in which many, many parks use. Topsail already has one public beach access and miles of walking trails where people are actually walking on the ground and not on a raised platform. Are these same people petitioning that these walking trails not be allowed as well for surely these are impacting the sensitive habitat and disturbing the rare nesting birds way more than any raised platform would.

In my opinion, this is just propaganda by a few people that do not want to see the benefits of this additional access point because they see it as something it is not. This is not a private beach access....this is not being paid for with tax dollars but being funded by the communities close by...and this is not going to impact or disturb any rare nesting birds or any other wildlife for that matter...this is not going to negatively impact the park in any way.

In my opinion, as an environmentalist and one who has donated to and participated in solving real environmental issues that impact Florida (my birth state) such as the Sabal Trail Pipeline and Red Tide/Algae epidemic that is killing our marine life in the Gulf of Mexico, I find this faux environment issue with this proposed boardwalk not only trivial but mean-spirited in their intent.

Please consider the real facts that surround this issue and I am confident that you will find it not only benefits the residents closest to this access but the community as a whole. Thank you.

Cheers,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

As owners at Pinnacle Port, next to Camp Helen State Park, we ask that the State not set a precedence of allowing private access through any State park in Florida. Pristine lands are becoming extinct and we owe our descendants of many years in the future access to pristine areas where they can enjoy nature at its best. Also, as more and more birds become extinct, we need to continue to preserve their sanctuaries as they can't speak for themselves.

Please consider future generations when making your decision.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

I have beautiful memories of this park, highlighted by its purity, serenity, and true natural state. There is absolutely no reason to endanger these qualities simply so that a neighborhood can avoid a short walk, drive, or bike to the main entrance point. Greater numbers of entrance points mean greater threat to wildlife and the integrity of the preserve. Let's do what the name says and "preserve" a small, untouched piece of nature in the midst of the ever growing surrounding communities. There are so many other beach access points, don't compromise this one!

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Rhonda Carter

Do not do this. Our state parks are incredible resources. Everything should be done to keep them this way. While it will become more difficult to do with the ever increasing growth of our population it becomes even more imperative that you stand strong against this encroachment. Once gone we will never get them back. This group of people that want to put amusement parks and other junk in our fabulous and award winning lands will eventually be gone. In their place will be ones who understand the value we now have. Do not cave to the special interests. Their only interest is themselves. Do it for our future.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

There is absolutely NO NEED for a private property access to the park. I have spent time birding in this park and what we dont need is another access point with no monitoring. If they want access to the park then let them enter like everyone else.

Thank You  
jim Williams

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
John Hartgering  
914 Summit Greens Blvd Clermont, FL 34711-6734

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park. I am concerned that a privileged few being provided a separate access could lead to unforeseen consequences and set a disturbing precedent.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen living in Marion County who frequently visits State parks. I see no merit in providing privileged access to Topsail Hill Preserve State Park. Would such be granted for the Rainbow Springs and Silver Springs parks? All Floridians should have equal access to our state parks, and I support a single public access point, which will ensure only monitored access into Topsail which provides habitat to important imperiled species.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I've lived in Florida 40 years and have seen us continue to diminish the natural resources that were the reason most of us want to live here. I'm writing to express strong concern regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Florida's birds, wild creatures, fish and habitat are the essence of our culture and community. Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

No access should ever be considered own this habitat. These so called condos think they have the right to invade a protected imperiled area that will definitely negatively impact that sensitive habitat and definitely disturb the nesting grounds.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Charles Peck

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park. This constitutes exceptionalism for the wealthy. Exceptionalism has no place in our public parks system no matter what the governmental level. This is bias against all who are not wealthy. Unacceptable!!

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Lynne Snyder

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a resident writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks, and I support a single public access point, which will ensure only monitored access into the park.

No private accesses should be built, as that will have a huge destructive impact on this sensitive habitat and will lead to disturbances of nesting sites of rare birds, as well as other animals whose populations are plummeting due to excess and unbridled construction. The existing entrance is quite sufficient and already grants access to everyone.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Topsail Hill preserve State park is a special place. Let's keep Florida and Walton County pristine and natural!

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species.

Please, please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

We are Canadian, but come to Florida yearly because of beautiful parks like Topsail.

Ronald Ellingwood

Sincerely,  
Ronald Ellingwood

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

R Banks

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen and part year resident of Collier county writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks But an access point already exists and neighbors of the parks should be especially sensitive to preserving them, which in turn, makes their property more valuable.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by multiple privileged access points for private interests.

Sincerely,  
Ellen Hoffman

After traveling to and enjoying many of our state park and seeing first hand how hard the rangers work to keep the parks safe for the plant and animals who reside there as well as the many visitors it is extremely important that entrance restrictions remain in place so that our parks are protected for all to enjoy.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sadly, folk in a nearby community whose home values are increased by their property proximity to this natural land, now want to privatize this park to suit their supposed convenience, regardless of the detriment to wildlife, which will decrease park enjoyment for the vast majority of citizens. Please do not play favorites among citizens and play fair with wildlife.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Mike Jameson

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

As a long-time state park administrator who knows the importance of good neighbor relations, I can appreciate that neighbors would like convenient access from nearer their residence. Clearly, they see a very long walk or drive to the property next door seems excessive. However, the integrity of the state parks (or any national, state, or local public property) relies on controlled access. The precedent is important - if private access is awarded, it not only is a cost burden on park management, but it makes saying "no" more difficult everywhere else. The best decision is to say "no" in every circumstance. It reminds me of a simple management principal - it is easier to draw a line between 'zero' and 'one' than any other two numbers.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Susan Oswald

**Subject:** Topsail Park Beach Access  
**Date:** Tuesday, December 4, 2018 6:28:16 AM

---

We are in favor of an additional pedestrian access into the park because we don't have enough access areas to the beach along 30A.

This will also help keep vehicle traffic down during the spring and summer. There are several surrounding communities that could benefit from this access.

Thanks,  
Bill and Lois Livingston

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

There is absolutely NO NEED for a private property access to the park. I have spent time birding in this park and what we dont need is another access point with no monitoring. If they want access to the park then let them enter like everyone else.

Thank You  
jim Williams

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
John Thomas

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I've lived in Florida 40 years and have seen us continue to diminish the natural resources that were the reason most of us want to live here. I'm writing to express strong concern regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Florida's birds, wild creatures, fish and habitat are the essence of our culture and community. Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Douglass Swanson

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

As a Christian I believe God has given man stewardship over his creation. I support the single public access point because I believe that is the best stewardship option to care for the plants and animals that Topsail Hill State Park is home to.

Peace.

Sincerely,  
Marvin Reinhart

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

No access should ever be considered own this habitat. These so called condos think they have the right to invade a protested imperiled area that will definitely negatively impact that sensitive habitat and definitely disturb the nesting grounds.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a resident writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks, and I support a single public access point, which will ensure only monitored access into the park.

No private accesses should be built, as that will have a huge destructive impact on this sensitive habitat and will lead to disturbances of nesting sites of rare birds, as well as other animals whose populations are plummeting due to excess and unbridled construction. The existing entrance is quite sufficient and already grants access to everyone.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Topsail Hill preserve State park is a special place. Let's keep Florida and Walton County pristine and natural!

Sincerely,  
Stephanie Wooley

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a professional biologist who has some contracts in west Florida for ecosystem monitoring especially in longleaf pine. I am not personally familiar with Topsail State Park but it sounds like a wonderful place. I support the single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Tom Kozel

Ironic that a gated community that would keep others out wants no gate to protect this beautiful park.

Sincerely,  
Betty Duffy

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sadly, folk in a nearby community whose home values are increased by their property proximity to this natural land, now want to privatize this park to suit their supposed convenience, regardless of the detriment to wildlife, which will decrease park enjoyment for the vast majority of citizens. Please do not play favorites among citizens and play fair with wildlife.

Sincerely,  
Nancy Dean

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Wilhelm Strateff

Private access for this gated community is NOT needed. The public access is a 2 minute bike ride for most residents in the gated community. They are not paying to provide staffing at this additional gate.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

As a long-time state park administrator who knows the importance of good neighbor relations, I can appreciate that neighbors would like convenient access from nearer their residence. Clearly, they see a very long walk or drive to the property next door seems excessive. However, the integrity of the state parks (or any national, state, or local public property) relies on controlled access. The precedent is important - if private access is awarded, it not only is a cost burden on park management, but it makes saying "no" more difficult everywhere else. The best decision is to say "no" in every circumstance. It reminds me of a simple management principal - it is easier to draw a line between 'zero' and 'one' than any other two numbers.

Sincerely,  
Dana Bryan

**Cc:** [Mary Beth Wood](#)  
**Subject:** Support of additional beach access east end of Topsail Hill Preserve State Park  
**Date:** Tuesday, December 4, 2018 12:55:07 PM

---

As Trustee of that Certain Trust that owns property on Cypress Drive, I am writing regarding Topsail Hill Preserve State Park in support of east end beach access by foot/bike. This beautiful State park is meant to be offered to our state's residents and visitors to enjoy and appreciate. I'm so glad to offer my input as you, our state office, is reviewing the parks future plans.

Walton County has more visitors and residents than can fit in the few public access points to public beaches. Our coastline is a huge attraction to people all over the country and now world due to the airports. It provides tax dollars. Topsail has 3 miles of beach with very few people who go to the trouble of going to the main entrance, parking, waiting on the tram schedule and getting down to the beach. I'd like to walk or bike to the shoreline from the 30A bike path in to the park. This will reduce car traffic on 30A. It will provide better access by the public in a way that the park can continue to protect.

I support the plan to put an entrance on Austinwood Lane. This will provide a legal access point to the East End of the park and it's beach. Additional access points and pathways are needed to work toward the original goal of 9,000-10,000 people on this stretch of beach.

Thank you for your time and consideration.

If there are any further questions or requirements for additional information or suggestions, please feel free to contact me either by e-mail or by phone.

Thank You,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I'm a Floridian who is very concerned by the precedent that could be set by allowing a private access point to the Topsail Hill State Park. Topsail is one of my personal favorites among our state parks. I believe all Floridians should have equal access to our state parks and I support the establishment of only public access points that allow for public access and usage to be properly monitored.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park. Allowing unfettered access to this diverse habitat just for the "convenience" of a few sets a dangerous precedent and, I am afraid, will only lead to destruction of this unique park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Hellen Hoffman

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park. No small group of citizens should have their own PRIVATE access point. The PUBLIC access point to a PUBLIC State Park should be the only means of entry. Providing private access would set a terrible precedent for other private communities to access public lands through private or semi-private access points.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Scott Zucker

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Hello,

I am sending this note in support of the current status regarding the habitat and the wildlife it serves on Topsail Hill state Park. I understand nearby residents may desire easy access to the park but unbeknownst to them such unrestricted private access could potentially cause great harm to the plants and animals that are so necessary to preserve the current ecosystem. This access is unnecessary as the official entrance to the park is nearby. Please do not allow the convenience of nearby residents to over ride the need to protect this very special habitat.

Sincerely, Megan Olson

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Why, in 2019, are we still destroying things that must be left alone? Does every speck of Earth have to fall prey to human greed?

Topsail Hill State Park, provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

I'm a park and rec kid, career parks and recreation professional and truly understand the importance of habit preservation with access for the public. People will and accept and understand the preservation. Convenience is not an excuse for habitat destruction. These flora and fauna are depending on you to protect them...This diverse habitat is home to imperiled species including the Choctawhatchee beach mouse, Snowy Plover, and Least Tern.

As a state park supporter I'm asking access be monitored and okay with only using the one entrance on Highway 30. There should not be exclusive access to any adjoining community.

If this type of "VIP access" is granted in this state park, a dangerous precedent would be set for other private communities to access public lands through private or semi-private access points.

It Starts In Parks!

Sincerely,  
Vicki Robertson

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians and tourists visiting this beautiful area should have equal access to state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Sheila Desmond

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

As a voter who wants to preserve nature, Topsail Hill State Park, which provides habitat to important imperiled species should have one public access, not one for the rich people and one for the middle class. Making two access points will disturb the landscape and nesting birds and other creatures in the park.

Sincerely,  
Mary Burnett

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Allowing private access here will open the floodgates to other homeowner groups and associations that back up to state parks to request the same accommodations. It is not fair to other citizens of the state and to tourists to allow those with privilege to have unfettered access to fragile and important wildlife habitats while the rest of us wait our turn in line.

Please do not allow this.

Sincerely,

I am *\*adamantly\** opposed to any exclusive privileges --- e.g. special access to Topsail park --- for private citizens in a PUBLIC STATE park. Private citizens adjacent to Topsail park who wish to have a more convenient access to the beach can relocate to any one of the MANY sections of our coast that has already been developed and privatized.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Victor Carmichael

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks so this issue applies to every Floridian. Whether you own property on the coastline or not, the beaches are public property. Parklands are public property too and there should NOT be an access point for any private citizens inside our public property. Please do not even consider this outlandish proposal! Consideration shows that you value the rich and well connected over the rest of us, not to mention the wildlife that makes this their home too.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Thank you,  
Lisa Williams

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am writing about Topsail Hill State Park, one of Florida's most pristine state parks, which provides habitat to several imperiled species and other diverse wildlife.

I have learned that a nearby gated community is requesting an unstaffed neighborhood entrance through the park to access the beach.

I support a single public entry point, which will ensure only monitored access into the park. All Floridians should have equal access to our state parks, that are purchased and maintained through state funds. Unmonitored private entrance would further imperil species like the Snowy Plover and Least Tern.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park. Thanks very much.

it is a ridiculous idea!...no unmonitored entrance to the park...this will only invite unwanted individuals into the park in addition to the folks in the "gated" community ~ park entrances need to be the same for all; i am well acquainted with this area and there are many wealthy residents in south walton who seem to think they "deserve" this type of treatment and in addition you have many nuts who could care less about the environment, the park, park flora and fauna who would abuse the unmonitored entrance!...completely idiotic idea!!!!...

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Dorothy Radick

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am writing to you as the owner of Around the Bend Nature Tours, a provider of nature tours and environmental education programming in SW Florida. I am writing to express serious concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. This shoreline is a summer nesting ground and access should be limited, and certainly not private in our public lands!

All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park. As an environmental educator this is very personal to me.

**Subject:** Additional Public Beach Assess Is Needed At Topsail Hill Preserve State Park  
**Date:** Tuesday, December 4, 2018 3:10:54 PM

---

I am a resident of 30A West end, and I would love to see more beach accesses at our end. I particularly support the idea of a boardwalk going through the preserve. I personally use the park throughout the year for recreation, and I cannot even start to think how magnificent it would be to be able to enjoy the beauty of the park from an elevated boardwalk. I immensely enjoy the wildlife that exists in the park, and believe strongly any creature deserves to have their habitats left in peace. Boardwalks, all over the world, have proven to be non-intrusive methods for people to enjoy nature without disrupting wildlife. I believe a boardwalk would be an educational addition to our little community. Plaques with pictures and information about the animals living in the park could be enjoyed by all.

Boardwalk or not, more beach accesses are needed on 30A. Our community live of tourism, and with the customary use debacle still ongoing, we need to have places where tourists (and of course locals) can enjoy the beach without being yelled at and asked to leave by angry beach front homeowners.

--

Best regards,

Lina Sumpter

**Subject:** No Additional Beach Access for Topsail Hill Preserve State Park  
**Date:** Tuesday, December 4, 2018 3:26:01 PM

---

Dear Florida DEP, Parks and Recreation,

The existing access to the beach in Topsail Hill Preserve State Park is adequate. Additional unsupervised access points to the Park and beach could only have a negative effect on the fragile environment. The pristine coastal park is composed of upland old growth pine forest and scrublands leading to pristine dunes, wetlands, and beaches. This incredibly diverse habitat is home to many imperiled species in the middle of the booming South Walton community. It has one existing monitored public access point so that people can enjoy all the park has to offer without disturbing the wildlife that depend on it for refuge. Let's protect the Park environment and keep it that way! I am opposed to the proposed additional public beach access through Topsail Hill Preserve State Park.

Thank You,  
Darrell J Valenti

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I believe that conserving our natural resources is the single most important thing we can do for our children and grandchildren. Therefore, I am writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks, of course. However, a single public access point, which will ensure only monitored access into the park, will protect the wildlife as well as allowing reasonable access to citizens.

History has shown that there are always a few that will exploit resources to benefit themselves regardless of the cost to posterity. We must prevent any such exploitation, intentional or not, now that our population has grown so large. Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Hello,

I am writing in regards to this important bird habitat. Allowing a random access area for nearby residents is not a good idea. Such accesses are generally used without regard to needed restrictions or limitations that animals would need to flourish in this area. Unmonitored access by law enforcement or other agencies also invites people outside the neighborhood to use this entrance in an undesirable way. The damage to the sanctuary, wild areas, wildlife and perhaps the neighborhood itself would not be a positive impact on the area.

Please keep access limited in the environmentally important area.

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Lisa Smith

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

My family, friends and I enjoy visiting the State Parks in my home state of Florida, and in the other states as I travel. Part of what makes them so enjoyable and beautiful is the simple one way in and one way out that helps keep the area as undisturbed as possible.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely, Nancy Denton

AS A VOLUNTEER BIRD STEWARD ON PUBLIC BEACHES AND ON ONE OCCASION ON A PRIVATE GOLF COURSE, I HAVE WITNESSED THE UNWITTING DESTRUCTION CAUSED BY UNINFORMED VISITORS. NO MATTER THEIR INTENT, THE DAMAGE IS DONE WHEN THEY DISTURB BIRDS, TRAMPLE NESTS AND HATCHLINGS, ALLOW PREDATORS TO GAIN ADVANTAGE ON RESTING, FORAGING, AND NESTING BIRDS. SHOREBIRDS ARE UNDER EXTREME THREAT OF EXTINCTION IN LARGE PART DUE TO LOSS OF HABITAT. PLEASE CHOOSE TO ALLOW THEM TO CONTINUE TO ENJOY THE PEACE AND PROSPERITY THEY HAVE FOUND AT TOPSAIL HILL.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Jeff Loving

Where I reside in the state there is Boca Grand State Park with only one access, and it works out very well for all the bird and turtle nesting sites, as well as human visitors. This is also a very wealthy area, with some very VIP visitors. Further south there is Wiggins Pass State Park with one access as well, that also works out great, and has many visitors, as well as foreign visitors, also upscale area.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

This proposal by a few is what we historically have called a favor for the few. It is a 'no-brainer' behind the principal to maintain 'natural preserves' as just that - area's that should and must be 'preserved' from man's intrusions and overuse.

There is absolutely No Upside/Only Downside to allowing further open access to such a delicate and biologically important 'protected' area. Further open access begs for adults, children, and pets to take the park for granted and deny how much of an impact the area must endure once it becomes just a 'back yard' to some; an area that many already deem just another patch of scrub next door.

We all know that allowing further open access to any such pristine area leads to litter, stress on local creatures - during nesting season and otherwise, and the added incentive for a few of the ungoverned to simply escape the enclaves next door to have a smoke undisturbed, or perhaps 'just' roast a few marshmallows...

So tell us, how long would it take for this pristine vegetation to regenerate to it's current state of mature growth and natural capacity to support endemic wildlife if the inevitable were to happen here as well? Sadly, some of us know the answer empirically from the decades upon decades of local old growth area regeneration.

Is Topsail Hill Preserve State Park truly an important habitat for the indigenous flora and fauna, or is this up-to-this-point preserved land also destined to become another area impacted from use as just another neighbors backyard retreat?

The simple answer lies in the premise of any such proposal for change... does it not?

Sincerely,  
R Bert hold

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Thank you for taking the time to read my email. I am dismayed at the reckless abandon and loss of habitat through land-use changes occurring in the panhandle during the past decade. Old growth forests, dune lakes and the many changes occurring in marginal wetlands result in impairing the health of our ecosystems. The Topsail Hill Preserve State Park should be off limits to any landscape disturbances as it has been protected and offers a balanced habitat system to many resident and migrant species.

Yes, I am a 30 year panhandle citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a very concerned citizen now in Florida, writing to share my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species.

All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Having been an elected Plymouth County Conservation Board Member in Massachusetts, I know how important wildlife is to our State of FLorida and its residents. We come here for the wildlife, nature, climate, bird species, wildflowers and protecting these things endemic to our state is incredibly vital.

Please keep this Park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Thank you in advance,  
Linda J. Paquin

**Subject:** Additional public beach access is needed at Topsail Hill Preserve State Park  
**Date:** Tuesday, December 4, 2018 6:15:00 PM

---

Hello,

Please add my name to the list of those in favor of creating additional public beach access via Topsail Hill Preserve State Park.

I am a full-time resident of the west end of 30a, and we are in need of more direct access to the beach.

Topsail Hill Preserve State Park is a beautiful area that enables the public to interact with nature in a very unique setting, both woodlands and beachfront. An environmentally friendly boardwalk providing access to the beach through the park would be the perfect way to enable the public to enjoy the natural beauty of the woodland aspect of the park while providing the much needed access to the beach itself.

I sincerely thank you for considering this addition, not only for myself but for our future generations as well.

Thomas Pampinella

---

Good afternoon!

I wanted to send this email to show my acknowledgement of the desperate need for additional public beach access on the west end of 30A. As a primary resident on the west end, we have limited options as far as accessing the beach. I am the mother of two children (with A LOT of beach gear – surf boards, boogie boards, 4 chairs, two umbrellas, etc.). At this time – we need to pack up the car and drive to the nearest location with adequate parking. This location is Ed Waline as the other accesses to the west provide limited parking and are always full during peak season/ holidays. The Ed Waline parking lot is also always full, so we must park a few blocks away along the street, unpack the car, and walk from there. My whole family is tired before we even hit the sand. As a full-time resident – the need for additional beach access on the west end has to be NOW. Starting at Ed Waline and moving east – there are beach accesses almost every 50 – 100 feet – all which boardwalk over – protecting the dunes. **Residents on the west end of 30A need an environmentally sound boardwalk that provides public beach access while enhancing park plant and wildlife protection.** We all want to protect and nurture what moved us here in the first place – and as a resident – I feel like enjoying the beach has become a chore. This situation has only worsened with the recent customary use issues – as we lose more and more sand to property owners – we need more access to beach that we can use as a public. Please consider additional beach access at Topsail. I do not rent my home – it's my primary, forever home – and being able to access the beach more easily would unweigh a heavy burden on many local families. Thank you for your consideration and time.

Sincerely,  
Danelle Pampinella  
399 Cypress Drive  
Santa Rosa Beach, FL 32459

No Additional Access for Topsail Hill Preserve State Park

Topsail Preserve's current beach access is the only one needed. This protects the resource as well as the visitors to the park.

Regards

Mark Blanks

---

Good afternoon: I am writing today to express my wish to NOT ADD an additional access into Topsail Hill Preserve State Park. Topsail is a real treasure for our area and I we already have an access that has served us well. I don't think adding this additional access is necessary to use this beautiful park.

I have watched the history of the attempts by the Cypress Dunes community to secure essentially a "private" access for their subdivision to add it as a selling feature to sluggish sales. They've tried over and over again to get this for their own private benefit. That's not a good reason to add another access entrance into this gem.

They've claimed it would be open to the public but essentially that has not been true in past proposals. Having an access that is over a 1/4 mile long distance is not what many people will use while schlepping all of their beach gear to spend a day a couples hours at the beach. Then there will be a request for golf cart access or more trams which brings us back to the point that we already have this with bathroom facilities. We DO NOT need this.

Then there is the wildlife/habitat consideration. Is it really necessary to disturb this preserve for a sales feature? Then there are those who take their dogs to the beach. I love dogs, and don't have an issue with licensed dogs on leases at the beach. But within a preserve area we can not afford to allow that to happen so how would it be enforced? We are fortunate to have great diversity in flora & fauna. I ask you to please not allow Topsail Hill Preserve St Park to fall prey to a self-serving requests for a limited few. Many years ago a group of civic minded people fought hard to acquire the land that is now Topsail for the benefit of citizens and future generations to enjoy. Let's carry on that tradition and say NO.

Respectfully,

Jacquee Markel  
19 Sugar Beach Drive  
Santa Rosa Beach, FL 32459

Park Planning,

We own multiple properties in Walton county and have for over 15 years. We fully support public access into the park with preservation at the same time! Both can be done! This a very under used park that should be enjoyed by all. Not be stopped by people who do not live hear of have even been to Topsail.

Thank You for your consideration!

Feel free to contact me with any questions .

Please do not add any more public access points into Topsail Hill Preserve State Park. Keep the current single access point for trails, camping, and beach recreation.

Honor the mission of a Preserve, noting that of the three beachfront State Parks in Walton County, Topsail is the only preserve. It is to be protected from human degradation. Previously there was another fully developed access to the park and the beach from Hwy 98 that was wisely closed and remains closed.

If you are sympathetic to Walton County's current beach pressures, before yielding you must study and visit an example of an existing beach access that travels through Deer Lake State Park into the beach from Watersound West housing development. You will see dogs both on and off leash. Although owners are supposed to be educated that the entry is into the park most of those entering say they did not know. Of those that do know, some say it is OK for dogs to walk by the water. Or permitted are OK. Or Mother Nature says it is OK. I have heard an owner say "Sophie doesn't chase birds" at the very moment Sophie is doing it. There is also garbage, umbrellas, chairs, bottles, cigarettes, fireworks, plastic, just about anything harmful that could be left on the beach. And holes to fall into. Compare this treatment with what is found at the authorized park entry from the parking lot. The public is a lot better than the private access.

Consider the difficulty monitoring behavior, educating people and enforcing rules for the remote location. How can you finance double the workload and staff requirements?

Why are you asking this before the Unit Management Plan update? We met a year ago and it was promised to be finished by now. Since it is not, is it fair to assume that the UMP did not include any intrusions to park borders? Is it fair to assume that if you modify the plan to include uncontrolled beach access there might be more? Are you setting a precedent for the next 10 years? It is important that you continue present policy and don't weaken our future.

Just because they feel that they are so special or so imperiled that they need to have a gate to keep the public out, they don't get to have the right to get into the park, and maybe disturb the park's ecosystem, because they don't want to go outside their compound. This is a public park, not a sort-of private park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park!!!!!!

Sincerely,  
Phillip Crabill

\*\*\*\*The problem with letting exclusive communities private access through sensitive or endangered habitats is when does allowing one balloon into allowing more and more. If public monitored access is readily available than ALL residents and visitors should use that entrance.\*\*\*

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

I am completely against allowing any private landholder an egress to any state park. If these home owners wish to access the beach through a pre existing park that they purchased a home next to, they can easily use a bike to access the current entrance. No privileges beyond that of the rest of the public should be allowed any citizen, especially at Topsail Hill. It sets a dangerous precedent to allow private interests unfettered access to protected lands, especially those with endangered species and endangered habitat - those endangered things are why the land was protected. If these people are attracted to live near the protected lands, there is already sufficient access that does not cause disturbance to the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Leslie Edwards

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

I am a resident of Florida and county camping park employee in Orange County. I talk to people visiting Orlando everyday and espouse of the greatness of Florida's State Parks. I love the State Parks because I know they exist to protect the best of natural Florida while allowing visitors from all over the world to see true natural Florida. But that also comes with the responsibility to protect the plants and wildlife of those parks. As a park employee I know that sometimes people don't know the sensitivity of some parts of the parks. Allowing an unmonitored access to Topsail Hill State Park could open the beach up to people who would allow their dogs to run or to night time parties which would disturb nesting birds.

This is my input on this issue. I am urging you to keep the park having one informed access point for visitors.

Thank you,

Sincerely,  
Cynthia Meketa

I oppose the introduction of any new beach access points through Topsail Hill Preserve State Park, particularly at un-staffed locations. Topsail is home to a number of imperiled species due to its intact, pristine habitat. Allowing additional unnecessary access through this sensitive system will degrade the remaining natural habitat through additional human disturbance, increase the unpermitted entry of dogs into the park's sensitive habitats, and create corridors for predators to travel along. Even a single, new access point will create a precedent for future, unmonitored access points into the state park, impacting the management of natural resources. Please, protect Topsail Hill Preserve State Park. Thank you.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Years ago this came up and with public outcry never happened. This creates a precedent for destroying our precious FL parks for the private profiteers. If you want beachfront access buy beachfront. Don't expect for the FL taxpayers to support your endeavors. I lived and worked in Bay County FL from 1978 thru 2018; and was a sea turtle volunteer. Professionally as a biologist I worked USFWS I was part of the Park management review and we worked long and hard to ensure the Park kept and followed the Preserve Park designation. It is truly sad to see the consideration of such an idea. Vote no and conserve our Florida parks!

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

To Whom it may concern,

There is limited beach access on the west end of 30A. I support additional beach access on 30A between Topsail and Cypress Dunes.

Sincerely,

Holly Berke

**Subject:** The Need for Eastern Beach Access  
**Date:** Tuesday, December 4, 2018 8:39:30 PM  
**Attachments:** [GOOD NEIGHBOR PLAN.docx](#)

---

Dear Folks,

Please see the attached letter explaining why I feel Eastern access is in the public interest because it can strike a balance between preservation and conservation and outdoor recreation opportunities for Florida's citizens and visitors. A "Good Neighbor Plan" is especially relevant given the attack on "customary usage" of the beaches by private property owners and the tremendous recent development of West 30A. Our proposal adds an additional public access point to public beaches that is controlled and protective of the treasure that is our park.

Sincerely,

Thomas and Irene Cordi  
Santa Rosa Beach

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Marilyn Massey

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

I hope you will show compassion for the rare nesting birds. I'm urging you to maintain a single, public access at the Topsail Hill Preserve State Park, and not allow people to enter the park on their way to the beach without any monitoring. An unstaffed entrance will be devastating for the nesting birds. Thank you for your consideration.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Myles Robertson

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a retired wildlife biologist (30+ years with the U.S. Fish and Wildlife Service and am greatly concerned about the proposal to add an additional private access point to Topsail Hill State Park. Doing so is unnecessary and would jeopardize sensitive nesting shorebirds. Don't allow selfish interests to pressure you into making a decision that will forever ruin this magnificent park.

Sincerely yours,  
Tom Wilmers  
Lady Lake, FL

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

I hope you will show compassion for the rare nesting birds. I'm urging you to maintain a single, public access at the Topsail Hill Preserve State Park, and not allow people to enter the park on their way to the beach without any monitoring. An unstaffed entrance will be devastating for the nesting birds. Thank you for your consideration.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Sirs, I can see no good by opening an unmonitored access for a private group into TopSail, or any other State Park/Natural Area. This is ill-advised and should be denied.

Sincerely,  
Ricky Cash

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Jennifer Vaca

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

\*\*\*\*\*Continue to protect fragile nesting sites for our shorebirds. A single access point is necessary to protect our birds. I visited Topsail Park over Labor Day, beautiful, let's keep it that way.\*\*\*\*\*

Sincerely,  
Linda Headley

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Lenore Reeves

I am strongly opposed to an additional access to Topsail Preserve State Park. Convenience of one subdivision cannot and should not override State Parks Dept management and drain park resources. The present beach access within the park is extremely convenient and easily accessible with tram service provided. Please prioritize environmental factors and the needs of the entire region over the wants of one subdivision.

**Subject:** YES to Additional Beach Access through Topsail Preserve.  
**Date:** Wednesday, December 5, 2018 9:44:32 AM

---

Dear all,

Please vote **YES** for direct beach access by tourists, residents and guests of Walton County. This can be accomplished by providing a walk-in entrance to the Park at Austinwood. There are now many old and new neighborhoods near the park that need and desire additional beach access. West end of, crowded and growing, 30A need more public direct entrances to our public, not private, beaches in Topsail. The proposed direct path and boardwalk will provide environmental protection to plant and wildlife. We **must** and **can** both provide more access while protecting the environment. Thank you for your time. MB Wood

Topsail Hill Preserve State Park

---

My family has enjoyed the Santa Rosa area for many years and we now own a home in Cypress Dunes. We have watched this area explode over the past few years. With the growth has come heavy beach traffic, which is to be expected. While the population has grown, public access to the beach has not.

It has become a major safety issue when attempting to visit the beach during the summer months. We can rarely find parking at any of the public beach parking areas. This results in parking across the busy street and walking with grandchildren and beach supplies in tow. This is dangerous, unnecessary and frustrating! The addition of a new public beach access would eliviate this problem.

Please value the concerns of property owners and guests by approving additional beach access on the eastern end of Topsail Hill State Park.

Thank you for your time and service.

**COMMENT FORM**

**Topsail Hill Preserve State Park**

I will to be able to attend the Topsail Hill Preserve State Park Public Meeting on December 5, 2018. I would like to comment concerning additional Public Access. I use to own a home on 30A near the Cypress Dunes Subdivision and sold the home a few years back due to nominal access to the beach. It was such a hassle to pack everything up daily and take on the challenging journey down 30A to the beach with my family. Since selling my home I've tried to rent homes in the area and at Cypress Dunes. The pool is great at Cypress Dunes and have enjoyed it but there is nothing like the beach and once again always a challenge to get there. We have stopped going to the 30A beaches. We have visited other states which are more homeowner and renter friendly concerning beach access. If the Florida Department of Environmental Protection wish to get me back as a vacationer and potentially an owner, I'll speak for 100's in not 1,000's of others customers who feel the same way, I suggest you allow the Public Access through Topsail Hill Preserve State Park.

Thanks in advance for approving the Public Access and for **LISTENING** to someone who really loves the beaches on 30A. There is nothing like it.

**Topsail Hill Preserve State Park  
Public Meeting  
December 5, 2018**

**Purpose**

The purpose of this meeting and commenting period is to receive public input on beach access in Topsail Hill Preserve State Park.

**Background**

Topsail Hill Preserve State Park protects an outstanding assemblage of natural communities on the coast of the Florida Panhandle. The park is home to multiple dune lakes, the Choctawhatchee beach mouse, one of the largest campgrounds in the Florida State Park system, and 3 miles of white sand beach in a fast-growing region.

**Public Input**

Thank you for taking the time to share your comments with us.

Copies of this form are available on the park planning website:  
<https://floridadep.gov/parks/public-participation>.

Comments may also be provided by calling (850) 245-3051, or sending an email with the park name in the subject line to [FLStateParkPlanning@dep.state.fl.us](mailto:FLStateParkPlanning@dep.state.fl.us), or by standard mail at the address below.

Office of Park Planning  
Florida Department of Environmental Protection  
Division of Recreation & Parks  
3800 Commonwealth Boulevard, MS 525  
Tallahassee, Florida 32399-3000

Please provide all comments by no later than **December 19, 2018**.

**PLEASE COMPLETE COMMENT FORM ON REVERSE**

**Subject:** Topsail Hill Preserve Public Meeting Comment

Hi Daniel,

I am writing to express my opposition to the plan to build an unstaffed boardwalk access into Topsail Hill Preserve.

First, I agree with the board's original assessment that the use of Tourist Development funds in a manner that would benefit such a small number of residents is inappropriate. Further, the residents that stand to benefit belong to a gated community, with homes that routinely sell for over one million dollars. I strongly believe the project should not move forward as it serves to disproportionately benefit such a small number of high-income residents, despite the fact that there is a publicly-accessible entrance within 5 minutes of this community that rarely operates at capacity (and often waives fees during the busy season).

Further, this would set a dangerous precedent for diminishing a significant ecological and cultural resource for the benefit of just a few people (who still have access to the park). This stretch of beach has so far been resistant to the development that has plagued the surrounding areas, and it remains one of the few pristine stretches of beach to do so. Adding new, unmonitored public access will undoubtedly diminish this significant natural resource, endanger protected species and habitat including the important sand dunes that line the beach, and have the potential to cause secondary effects like the destruction of significant cultural resources due to increased and unmonitored foot traffic.

Thank you for the opportunity to provide my comment on this matter. Please feel free to reach out with any comments or questions.

Best,

Matthew Marino

**Subject:** RE: Topsail Hill Preserve Public Meeting Comment

I am writing to express my opposition to the boardwalk plan at Topsail Hill Preserve.

The board's original assessment is valuable and deserves to be upheld. The use of Tourist Development funds to benefit such a small number of residents is inappropriate.

Further, the residents who would benefit the most from the boardwalk are part of an exclusive, high-income community. It's worth noting that there is a publicly accessible entrance nearby that rarely operates at capacity (and often waives fees during the busy season). It's unreasonable to build a separate walkway essentially just for these residents when an perfectly acceptable alternative already exists.

I further believe this project would set a dangerous precedent for diminishing a significant ecological and cultural resource for the benefit of just a few people who, notably, still have access to the park. This particular stretch of beach has not yet been plagued by development, and it remains one of the few pristine stretches of beach to do so. Adding new, unmonitored public access will undoubtedly diminish this significant natural resource, endanger protected species and habitat (including the important sand dunes that line the beach), and have the potential to cause secondary effects like the destruction of significant cultural resources due to increased foot traffic.

I strongly believe this project should not move forward. Thank you for the opportunity to provide my comment on this matter.

Sincerely,

Jordan Engelke

**Subject:** Additional public beach access is needed at Topsail Hill State Park  
**Date:** Wednesday, December 5, 2018 11:43:53 AM

---

I am definitely in support of adding state park access for the beach. There is not nearly enough access along the 30A and additional access will be a welcome change as it will allow more people to use our beautiful beaches. Furthermore it will also encourage people to visit our state parks. I do not subscribe to the notion that you can only have beach access or preserve nature. The natural environment can be protected for future generations if a boardwalk is installed to prevent people from trampling the dunes.

Thank you,  
Joanne Cruz

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park. I have had the pleasure of camping at the park and do not believe that another access should be open as it will only impact more of the habitat.

Sincerely,

Hello; This is to inform the DEP and other parties that I do not want additional access to Topsail Hill Preserve. I want a single point of entry to the park at it's current location on 30 A.

This is the only area on the pan handle that has not been overrun with development. Additional entry points will only cause issues. The beach access is more than sufficient given beach trolley to the eastern point in santa rosa beach and the western access at San Destin Resorts, AS WELL AS, the fact that the parking lot at the main entrance has not been at capacity in 2016, 2017 and 2018. Even on July 4<sup>th</sup> weekend with FREE admission, the parking lot is only at 75-80% capacity.

Thank you

**Attachments:** [Topsail Pubic Access Resolution 2018-88 Walton County Commissioners.pdf](#)  
[Topsail Access Citizen Request Form Jim Sumpter.pdf](#)

---

Hello; I am a citizen of Walton County. I am opposed to additional entry points for the public and especially developers into Topsail Hill Preserve. There was a public meeting on this a year ago. Only significant update is that Walton County Commissioners voted in favor (3 to 1) to approve addition access. A resolution was introduced under Citizen Request Form to the board of commissioner (attached). A meeting was held on a Tuesday at 9AM and the board approved the resolution to support additional public access to Topsail Hill Preserve state part (approved resolution attached).

This meeting occurred with little notice to anyone on Oct 23<sup>rd</sup>. This was shortly after Hurricane Michael and the only occupants of Topsail Hill were FIRST RESPONDERS. The park was closed to other guests. The two outgoing commissioners (neither were running for reelection) voted YES to a resolution that was very premature to even be making. There is a great deal of pressure from Developers on the park as evidenced by the success of this effort.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Kathy Aub  
373 NE 30th St Boca Raton, FL 33431-6719

COMMENT FORM

Topsail Hill Preserve State Park

I am thankful for those that had the foresight to set aside land for our beautiful state parks.

I frequently walk on the beach in this area and on trails in the park. I believe that there should be additional beach access points in the park to enhance the experience for all. With approximately 3.1 miles of beach access another access point can be added in a manner that preserves the beauty and integrity of the area while improving ease of access to the public.

Thank you.

Jew Overstreet

**Topsail Hill Preserve State Park  
Public Meeting  
December 5, 2018**

**Purpose**

The purpose of this meeting and commenting period is to receive public input on beach access in Topsail Hill Preserve State Park.

**Background**

Topsail Hill Preserve State Park protects an outstanding assemblage of natural communities on the coast of the Florida Panhandle. The park is home to multiple dune lakes, the Choctawhatchee beach mouse, one of the largest campgrounds in the Florida State Park system, and 3 miles of white sand beach in a fast-growing region.

**Public Input**

Thank you for taking the time to share your comments with us.

Copies of this form are available on the park planning website:  
<https://floridadep.gov/parks/public-participation>.

Comments may also be provided by calling (850) 245-3051, or sending an email with the park name in the subject line to [FLStateParkPlanning@dep.state.fl.us](mailto:FLStateParkPlanning@dep.state.fl.us), or by standard mail at the address below.

Office of Park Planning  
Florida Department of Environmental Protection  
Division of Recreation & Parks  
3800 Commonwealth Boulevard, MS 525  
Tallahassee, Florida 32399-3000

Please provide all comments by no later than **December 19, 2018**.

**Subject:** Additional public beach access is needed at Topsail Hill Preserve State Park  
**Date:** Wednesday, December 5, 2018 10:32:22 PM

---

More PUBLIC beach access is needed at Topsail State Park.

The Park is PUBLIC land purchased with PUBLIC funds, which came from PUBLIC tax dollars. The proposed access is PUBLIC access, and would actually restore a second PUBLIC beach access that had originally existed further toward the Destin side of the Park quite a few years ago, as one of the Park Employees recently told me himself.

Thorough environmental impact studies have been conducted by renowned environmentalists and botanists to confirm that the plan for the boardwalk access will have minimal environmental impact. The PUBLIC access will allow people to more easily enjoy the beauty of the area that their tax dollars have rightly given them access to. This is a very similar argument for customary use that finally reversed the plan for Privatizing the beach that had been passed and threatened the public beach access/use over the past year.

The planned access calls for very little vehicular parking areas, so as to minimize vehicular traffic and instead allows easy bicycle access to allow enjoyment by people within a bike-ride distance along 30A who may be looking for a quieter beach area on the West End of 30A.

Dozens of similar examples of Public Preserves and Parks with smaller acreage and still having multiple public access through them have been shared in a recent PUBLIC forum that resulted in initial approval of this PUBLIC beach access plan. This same PUBLIC forum revealed that Topsail State Park is currently hosting visitor numbers far below its original design, so any opposition to this PUBLIC beach access on the grounds of potential environmental impact are hysteria and fear-mongering with no basis in fact.

Normal people have sat quietly by while the environmental exaggerationists scream at and intimidate anyone who opposes them...those examples have been seen in the debate/discussion of this beach access...well, those days are over....normal people are no longer willing to sit quietly by...but we have jobs and cannot attend the meeting, so please accept this note as my strongest approval of the proposed PUBLIC beach access at Topsail Hill State Park. You are public officials and you need to know that we will vote against anyone's reelection bid who lobbies or votes against this PUBLIC beach access.

PLEASE vote yes to move forward with this access thru Topsail!!

Hello state parks,

I am definitely in support of adding state park access for the beach. There is not nearly enough access along the 30A and additional access will be a welcome change as it will allow more people to use our beautiful beaches. Furthermore it will also encourage people to visit our state parks. I do not subscribe to the notion that you can only have beach access or preserve nature. The natural environment can be protected for future generations if a boardwalk is installed to prevent people from trampling the dunes.

Thank you,  
Ben Cruz

Submitted to:

Florida Department of Environmental Protection

Division of Recreation and Parks

Topsail Hill Preserve State Park

Re: Public Meeting, Wednesday, December 5, 2018

Topsail Preserve was not acquired for conservation and preservation to now be used to accommodate the bottlenecked overflow from poor planning by Walton County Commissioners and the South Walton Tourist Development Council.

Walton County has a long history of overdevelopment and unchecked greed. It has oversaturated its beaches and highways, ignored traffic concurrency, squandered beach access properties, and it appears incapable of slowing its insatiable march to ruin. It's no wonder residents and tourists alike are now turning to our beautiful conservation lands to try to force open public access points to park beaches.

However, that is no reason for the State to subject Topsail to the same overflow and oversaturation found elsewhere here. It would be a violation of the purpose for which this land was acquired. The State of Florida has promised to conserve these natural values for all time and administer the development, use and maintenance of these lands in such a manner as to enable the people of Florida and visitors to enjoy these values without depleting them.

Any additional access points means fragmentation of habitat, additional security issues, the possible inability to close the park when it overfills, and a spoliation of the solitude and natural experience park users expect at a State Park beach. And should Topsail set a precedent to sacrifice Topsail as a relief valve for Walton County's mismanagement, you will be right back in this room hearing more demands for more conversion of more public conservation lands to public beach accesses. Walton County can and will solve its beach access problems when it recognizes its over-development addiction and if it ever gains new leadership.

Please continue the admirable stewardship and protection of Topsail Preserve. Do not create additional access that will invite overcrowding, overuse, and depletion of its resources.

Thank you for the opportunity to comment and to express my support for the continued responsible management of the crown jewel of the State of Florida Park System.

Respectfully submitted,

I am writing to voice my opinion about providing beach access to the west end of 30-A. I travel from Tennessee with my family and friends several times a year to go to the beach. Because the Fort Panic access is overcrowded and has limited parking it is no longer a place my family and friends will chose to stay.

I appreciate your attention to this matter and ask that you vote to approve this project.

To whom it may concern-

I am writing to let you know that more beach access is needed for the Dune Allen area of 30A. We are interested in purchasing a home in that beautiful area, as we have been traveling and vacationing on 30A for many years. The Fort Panic/Dune Allen beach access and beach is very crowded and difficult to park around. Please consider, too, what the consequences for beach goers will be if the private property law that is currently on moratorium goes into affect. More overcrowding!!! Please increase access to the beaches on 30A! We hesitate to purchase or rent in that area until something is done.

Kind regards  
Cyndi Miller  
Tennessee resident, lover of 30A

il am writing to express my separate entrance for a specific subdivision...the controlled access we now have is one I believe best maintains the current status of this protected area. If we provide special separate entrances for specific subdivisions we are risking the park while adding profits to the developer...at the park's expense--

Protect our park please as it is now.

Further comments after the 12-5-2018 meeting. Disregard if you are just counting for single access, as I'm already counted.

Someone said "Beach largely makes Topsail what it is". This is a limited view, not realizing the beach is an inseparable part of the ecosystem of valuable forest, lakes, wetlands and all connected.

"Stakeholders are all locals". Disagree. The future of all life and the environment is at stake and the people of the planet are all potential stakeholders. Especially consider those who haven't been there and things that haven't yet been recognized.

"Private funding." How long will 350 investors pay the bills? Why aren't they purchasing \$45,000 in annual passes now? Looks like a risky contract to me.

"Shuttle goes every hour". It went every 30 minutes this summer and it is a beautiful ride. Not hard to plan around.

The first TDC chairman said the "Preserve" aspect was added after the original committee request for a park. Why?

Thank you for listening, evaluating, and conserving.

**Subject:** Topsail Hill Preserve State Park

Please do not add any more public access points into Topsail Hill Preserve State Park. Keep the current single access point for trails, camping, and beach recreation.

Honor the mission of a Preserve, noting that of the three beachfront State Parks in Walton County, Topsail is the only preserve. It is to be protected from human degradation. Previously there was another fully developed access to the park and the beach from Hwy 98 that was wisely closed and remains closed.

If you are sympathetic to Walton County's current beach pressures, before yielding you must study and visit an example of an existing beach access that travels through Deer Lake State Park into the beach from Watersound West housing development. You will see dogs both on and off leash. Although owners are supposed to be educated that the entry is into the park most of those entering say they did not know. Of those that do know, some say it is OK for dogs to walk by the water. Or permitted are OK. Or Mother Nature says it is OK. I have heard an owner say "Sophie doesn't chase birds" at the very moment Sophie is doing it. There is also garbage, umbrellas, chairs, bottles, cigarettes, fireworks, plastic, just about anything harmful that could be left on the beach. And holes to fall into. Compare this treatment with what is found at the authorized park entry from the parking lot. The public is a lot better than the private access.

Consider the difficulty monitoring behavior, educating people and enforcing rules for the remote location. How can you finance double the workload and staff requirements?

Why are you asking this before the Unit Management Plan update? We met a year ago and it was promised to be finished by now. Since it is not, is it fair to assume that the UMP did not include any intrusions to park borders? Is it fair to assume that if you modify the plan to include uncontrolled beach access there might be more? Are you setting a precedent for the next 10 years? It is important that you continue present policy and don't weaken our future.

**Date:** Wednesday, December 5, 2018 3:23:01 PM  
**Importance:** High

---

I am a property owner near Topsail Hill Preserve State Park and adamantly oppose any additional access points into the park. It is a pristine and natural area that is environmentally sensitive and should not be further disturbed . Any further human encroachment into the park or development in or near the park would have a drastic and certain negative impact on the park.

Despite the Walton County Board of Commissioners support of an additional access, the need for additional beach access to spur further development in Walton County in order to increase the tax base does not outweigh the need to preserve this unique natural resource for future generations. If we are not careful, we are going to destroy what makes the South Walton Beach area so incredible.

I request that a single point of entry at the current location be maintained.

Thank you for your consideration.

RE: Proposed additional walk in beach access in eastern Topsail Hill Preserve State Park

I would like to express my opposition to the proposed additional walk-in beach access at/near the Cypress Dunes subdivision. Such an access is simply favoring a singular subdivision (Cypress Dunes) over the interests of the general public.

More importantly are the environmental concerns that would certainly be compromised by this proposed walk-over access. We should not forget how this State Park came to be – including the fact that its very name includes the word “Preserve”. This proposal would compromise both the upland habitat with a walk-over, but would subject the coastal habitat to disruptive beach recreation. This would not be in the spirit of a Preserve.

The Beaches of South Walton has 25+ miles of beach that can be used for beach-going recreation. We should not sacrifice such a viable coastal ecosystem for the pleasure and benefit of just a few. The single park access off 30A is working very well and should not be changed.

Attached are my remarks from Dec. 5 public hearing on beach access at Topsail Hill Preserve State Park. Please enter for the record.

Thanks

David Kennedy

74 Cypress Drive

Santa Rosa Beach, FL 32459

**Remarks by David Kennedy, 74 Cypress Drive, SRB, FL at FDEP Dec. 5, 2018 public hearing on  
Topsail Hill Preserve and Park beach access**

My name is David Kennedy. My wife Sandy and I own a home in **Cypress Dunes** and spend about **6 months** here each year. We also **rent our home to visitors** during the peak summer months, **adding to the local economy** by paying bed tax and bringing tourists into the community.

Make no mistake about it! **People pay top dollar** to vacation here in South Walton County, **to enjoy the beach**. They also enjoy our many restaurants, shops and other businesses that **support people and jobs** here in Walton County.

**This county, like no other in Florida, is threatened with a loss of beach access** because of legislation that eliminated our **Customary Use Ordinance**. While the **County plans to pursue Customary Use** of beaches in the Courts, it may take **years to litigate**. In the meantime, the **economy, jobs and home values will suffer** unless we find ways to **get people to the beach**.

**We must pursue Public Access to Public Beaches!**

Topsail Hill Preserve and Park has **3 miles of little used beach**. The **beach is used** primarily by **people camping** at the Park. **For others**, you must go through the **inconvenient process** of **checking into the gate house** at the Park entrance on 30A, **park your vehicle** and **take a tram** to the beach. **It is easier to skip Topsail Park** and go down the road to the crowded public beaches at **Dune Allen and Ed Waline Park** at Gulf Place. The proof of this is evident in the low number of people using this beach access.

The **solution we advocate** is a **walk-in access** to the Park **with a trail and boardwalk** to the beach **that can be used by the several neighborhoods** on the west end of 30A. This **will benefit residents and guests** and **alleviate crowds on other public beaches**.

**Opponents argue** that a **boardwalk will cause harm to the environment**. That is not accurate. **Boardwalks** are used throughout the nation to **protect sand dunes**.

**Some opponents simply don't like people using Topsail Preserve and Park, forgetting that the park is also for people.**

Our view is different; **imagine a path and boardwalk** that allows **families to take their children to the beach while taking in the beauty, plant and wildlife** of Topsail Park. This can be **done without causing harm** to the Park and Preserve.

In closing, I want to **encourage the State of Florida** to do what they can to make our **public beaches accessible to people, starting with Topsail Park and Preserve**.

**Public Access to Public Beaches!**

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Pam Meharg

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

With global warming, our wildlife must be protected especially all shore birds.

As our beaches shrink due to many causes and increased people visit them, our shore birds have decreasing populations due to nesting habitat loss and people invading thier space.

Please protect and preserve this important state park for future populatins of humans, wildlife and birds.

Thanks for your permitting my imput.

Sincerely,  
Vinny And Sandy Vanacore

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

**Date:** Wednesday, December 5, 2018 9:53:07 PM

---

My family and I are frequent visitors to the 30-A near the west end. The Fort Panic area is grossly overcrowded and parking is limited. We have experienced a growing frustration with this area. As we look to plan our spring and summer visits we have a growing concern. After the hurricane we feel this area is going to be even more crowded than usual when it comes to the beach and beach access. PLEASE DO SOMETHING TO INCREASE BEACH ACCESS IN THIS AREA, for instance, ADD MORE PATHWAYS. It's clear from the various places we have stayed that there are options for additional trails in the different communities. Please let me know if there is something that is going to be done or we may need to start spending out time and money in Pensacola.

Thank you for your consideration and feedback.

Sent from my iPhone

I am blessed to be a frequent visitor to the West End of 30A with many friends that have chosen to be on that beautiful part of the beach. However, because getting to the beach is such an enormous effort without beach access, you are ignoring the needs of those who live at the West End of 30A and the guests who for years have had a very difficult time getting TO THE BEACH! Access should be available to all those people and their "tourists" guests!! You are ignoring an issue that needs to be fixed and YOU have the power to do just that!! Fix it!!! It is time to act , not just pay lip service to this long standing issue. Thank you for your time and attention to this!

Respectfully,

**Subject:** Comment from Topsail Preserve State Park Meeting

Daniel,

Here is the text of my comments from the December 5 meeting. I had omitted a couple of lines in the interest of time.

Since 1992 when the State of Florida acquired the first parcel at Topsail Preserve Walton County and developers have attempted to use or take conservation lands within the South Walton County ecosystem for profit. These latest attempts for additional access into Topsail Preserve by both developers and Walton County are just more of the same.

The Division of Recreation and Parks must adhere to the mission set forth in Florida statute 253.034 for managing State Parks. The primary purpose of the UMP is to assure that Topsail Preserve State Park is managed for the purpose for which it was acquired. Topsail Preserve was acquired for "the preservation of the significant assemblages of natural communities, physical features, and rare plant and animal species", passive recreation is secondary and only when it does not adversely impact the natural resources.

Further the designation of the Topsail State Park as a Preserve mandates that in the management of the preserve the protection of the natural resources is given priority over recreation uses.

The Division of Recreation and Parks must continue the current entrance as the *only* entrance into Topsail Hill Preserve State Park. The existing tram system works and offers visitors an opportunity to enjoy the natural environment of the Preserve.

The mission of developers and local government is not the same as DRP. Cypress Lakes, Cypress Dunes and Walton County Tourist Development Council's mission is increased profits. "Heads in Beds, Bodies on Beaches." at all cost. The community, neighborhoods and the environment are often of no concern.

Whether it's a tram road connection through LaPlaya estates, Cypress Dunes long boardwalk that is designed to exclude the public and would only serve their subdivision, or the Stallworth Bridging; all these attempts at additional unmanned entrance into the Preserve will create a level of management difficulty for the park staff that is an unnecessary burden. Day use visitors and campers would be vulnerable to all the negative issues that many neighborhoods are increasingly experiencing due to the explosive development and unbridled promotion of our area. In fact, just last week cars were broken into in an adjacent neighborhood. The RV and tent campers will be particularly vulnerable to theft and vandalism that is on the rise in South Walton.

An additional access and/or boardwalk would bisect habitat for the state and federally endangered Choctawhatchee beach mouse, would fragment and negatively impact important habitat for imperiled shore birds, including least terns and snowy plovers. Additional beach access will require facilities on the beach such as trash receptacles that lure predators to the beach mouse and shore bird nesting areas, increased unmanned access will invite dog owners to bring pets onto remote

beaches resulting in disrupted habitat and harassment of wildlife.

One more thing. Loss of revenue. Honor boxes are not always honored.

The Stallworth Property is currently accessed at Beachhighlands #44, this allows use of the beach area without harming the interior of the parcel. The U. S Fish and Wildlife Service grant E-18 entitled "Beach Mouse HCP Land Acquisition" grant stipulates that the purpose of the purchase was for conservation, specifically beach mouse habitat but also includes several species of sea turtles, piping plover and snowy plover. Quote from grant" "in the event that the terms and conditions for long-term conservation set forth in this Agreement are not fully complied with, the property acquired with an Endangered Species Act's Section 6 grant from FWS, and the property used as a match for the grant dollars will be subject to transfer, replacement or repayment to the United States in accordance with the language below:"(see grant for more details)

Construction of a bridge across the lake and within the Coastal Dune Lake Outfall area will have ongoing negative impacts to the lake, outfall environment and habitat and is prohibited within the Grant from the U.S Fish and Wildlife Service.

The DRP has no business allowing access through Topsail Preserve that would violate terms of this grant

The Florida statutes are clear as to the mandate of the DRP. Protection of the natural resources is paramount. Increasing property values for developers or developing regional beach access for the tourist development council is not the mission of DRP. The County has ignored the problems of customary use and beach access since prior to 2008. Now they want to turn neighborhoods and environmentally sensitive conservation lands into areas for overcrowded resorts and beach vendors to exploit.

One entrance serves the Preserve, the community and visitors' best interest. Topsail Hill State Park Preserve is not a commodity for Developers and Walton County to increase profits.

All

I attended the meeting last night. It was great that you listen to people. I spoke but was not feeling all that well and could barely think straight. Thought I'd sent this along....

Inside Cypress Dunes there is a 'cypress pond'. It is an amazing natural resource that is well preserved. We have foot bridges and a vehicle bridge that allow people to see it and appreciate what we have. It is not at risk, even though people live all around it. This is a great example of how people and nature can exist in harmony.

The park is not set up for people to see and marvel at the amazing sand dunes. You have to stay off and away, and it is a shame that they are there, but you can't see them. If you had a boardwalk, people would come to see the dunes, watch sunset, take pictures, etc. There is nothing not to like about a boardwalk! It protects, and would be an amazing asset to the park.

The park is really set up for campers. The shuttle is ideal for them. It is not ideal for residents because they have more convenient options. I prefer to park at Stallworth and walk to Topsail. The problem is that there are only 6 spots.

I am a runner and running in the park is great. There seems to be no issue with people in the park using the trails, yet it sounds like there is a problem with a path over the sand dunes to the beach. Not sure I understand that.

I heard no evidence that the existing boardwalk has adversely affected the mice or birds. I never heard how many mice we are talking about. I have never seen one. And why are they endangered? Never heard why. I doubt people are endangering them.

It is important to keep things in perspective. If the beach is 3.2 miles long, that is about 17,000 feet of sand dunes. If a boardwalk is 10 feet wide, that is .000588 of the sand dunes, or .0588%, or 1/20 of 1%. I would say this will have a tiny impact.

I think the section of Topsail behind Cypress Dunes, and behind the neighborhood just west of Cypress Dunes (what is this called?), and just east of Loon Lake is a great place to put a boardwalk over the dunes. If there is a path to the boardwalk, people will follow the path. My house is 1200 feet from the beach, which is really close. Naturally, I would rather walk to the beach than drive a mile in the other direction, park and take a shuttle.

I personally think the number one issue here is having a second entrance to the park. I'd be happy with a pedestrian gate entrance in Cypress Dunes. It could be monitored but unmanned. Maybe someone opens the gate remotely once your identity is established. Could be a video camera recording with a SunPass technology that pays the park for each entry. You would get lots of Cypress Dunes people using the park. If you did the same for the neighborhood just west of Cypress Dunes, and did the same for Loon Lake, then you would have helped probably 100 residences, and also avoided a parking lot. I don't think a rest room is required, or a drinking fountain, because it is a short walk home.

I'd also be happy if you had a shuttle pick up from Cypress Dunes, and from any other neighborhoods, and go to the existing boardwalk. That removes the objection to having to drive to the shuttle. But you would have to put in a road....

I am also happy with the proposal Jim showed, and probably any others...

The beach access between Campbell and Morris lakes has no boardwalk. I don't understand that at all. In fact, I am not sure why you put a beach access where no one will use it.

I think the number two issue with the park is financing. You simply don't have the funding to invest in infrastructure like boardwalks, bathrooms, etc. You don't have the funding to fix the fencing, or run the shuttle to Campbell Lake. You don't have the funding to do all the burns and mechanical clearing. I think the use of the park by local residents would generate funding, and the park would no longer be used mostly by campers.

I am a park user (I run in the park, and walk on the beach) who has no beach access. When you listen to others, I suggest you figure out if they actually use the park or not, or already have beach access or not. If I had beach access, I might not want the park to make one because I won't use it. If I never used the park, I might not want the park to make an access because I won't use it. Hal said that the people objecting because of danger to birds and mice are not the people to volunteer to help at the park. They act like they are all interested in the park, but they aren't interested enough to help. It seems to me that these people are the most extreme conservationists, and there are just a handful of them. They would support closing the park to campers, because they are disrupting the wildlife. Same argument they use for discouraging residents....

Andy

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Paul Dunn

**Please vote YES on the on the beach access decision for the proposed boardwalk over the Topsail Hill Preserve State Park.**

We are property owners on the west end of 30A. Getting to the beach is not easy, either a long walk or a 10 minute bike ride. This forces many of us to drive which only adds to congestion in the area. The area continues to grow which will make access even more difficult and parking impossible in the future.

Over the past years we have seen the influx of traffic and usage of our beaches increase dramatically. So much so that there are many times we are not able to get to our beach from the first 4 accesses closest to the west end of 30A. Adding these access points along the west end of 30A will increase property value, which will also increase property taxes and sales taxes for Walton county.

Thank you for your consideration.  
Sincerely,

Heather Marcich

**Cc:** moranob@gmail.com  
**Subject:** Topsail Hill Public meeting

Good afternoon Mr. Alsentzer,

I spoke last night against establishing approximately a 5,000 ft. boardwalk access in Topsail Hill Preserve State Park. I did not have time to present facts gathered from the Walton County Property Appraiser's website on the neighborhoods that are listed as the communities supporting this proposal and I am asking you to submit this e-mail as public input.

The facts below speak for themselves. The unmanned additional access that is approximately a mile and a half from the water with no restrooms is not needed. The main one entrance is the only one that can be sufficiently managed, controlled and maintained for a safe and orderly usage of the Park.

#### **Walton County Property Appraiser 12/4/2018**

**Note:** In the state of Florida, a permanent residence can be applied for based on six months and a day for homestead exemption. Therefore, it is possible that the number of permanent residents may not reside in Walton County full time. Also, a permanent resident can rent their home for no more than 30 days in two consecutive years.

**Topsail Village:** 5 permanent owners /60 units

**Cypress Dunes:** 21 permanent owners /170 homes and lot parcels

**Cypress Dunes Phase II:** 5 permanent owners /40 homes

**Austinwood Lane:** 3 permanent owners /10 homes

**Flaming Village (Emerald Walk):** 42 permanent owners /93homes

**In summation, out of 373 parcels that surround Topsail and the proposed second access point, 76 owners out of 373 parcels have established permanent residence.** One can assume then that the remaining are second home owners who may rent and as well as vacant lot owners.

The facts speak for themselves. The unmanned additional access that is approximately a mile and a half from the water with no restrooms is not needed. The main one entrance is the only one that can be sufficiently managed, controlled and maintained for a safe and orderly usage of the Park.

Thank you.

**Subject:** Additional Public Beach Access in Topsail Hill Preserve  
**Date:** Monday, December 10, 2018 4:49:37 PM

---

To Whom it May Concern,

Topsail Hill Preserve State Park area in Walton County needs more public beach access. It is becoming clear that building and development have increased rapidly nearby on highway 98 so the argument from some neighbors about keeping the community small is nonsense. This is a growing area and we have accepted change.

As a resident of Cypress Dunes we would appreciate beach access from our neighborhood. This would help to alleviate travel and parking to the main beach access point just down 30A. This would be a much needed improvement in the area.

Thank you for your consideration

Derek Jacobs

**Subject:** Beach Access at Tops"l State Park  
**Date:** Monday, December 10, 2018 3:44:54 PM

---

To Whom it May Concern,

I am a homeowner in Cypress Dunes and we rent our home as much as possible. The biggest complaint we have with getting renters to return is the fact that our n'hood, although has beautiful views of the water, does NOT have beach access. We have very FEW repeat renters for that very reason. Granting Cypress Dunes beach access through Tops'l State Park would help our struggling neighborhood get built out and in addition would take some burden off of the other beach access points nearby as far as parking and crowded use.

We hope that you will grant this access as soon as possible.

Sue McCormick

Cypress Dunes Homeowner

Sent from my iPhone I spend a couple of weeks a year at Santa Rosa beach and love the area. I can see the gulf waters from the clubhouse yet I've got to drive 7 miles to get to the water. I can't see what would make it so difficult to have a path a few hundred feet to get to the water. The environmental concerns can be addressed by erecting a boardwalk. That would allow visitors to conveniently get to the beach while making minimum impact on the ecosystem. Please consider this solution and open the area to a lot more tourism!

Hi Brie,

Great talking with you today!

Here is the link that I mentioned for the SCORP participation study, which contains information about recreation trends in FL:

<https://floridadep.gov/parks/parks-office-park-planning/documents/2016-2017-scorp-participation-study>

Below is a link to the Florida Outdoor Recreation Inventory, which is both a database and a mapping tool.

<https://floridadep.gov/parks/florida-outdoor-recreation-inventory>

Most of the data points in FORI (those on conservation lands) are represented in the [Outdoor Florida](#) app, which is available as a web version and as apps for Apple and Android devices.

I will send you the links to the draft SCORP in a separate email.

Thanks for your interest in SCORP, and let me know if you have any additional questions.

Best,

Mark

Good afternoon,

Sarasota County's Parks, Recreation and Natural Resources department recently obtained accreditation from the Commission for Accreditation of Park and Recreation Agencies (CAPRA), and we are now in the midst of updating our recreation trends data and comparing it to that of other local and regional recreation service providers. DEP was identified as an agency that provides recreational opportunities on public lands. I was hoping DEP might capture and track recreational trend data based on the services and amenities provided by the agency. Is this something that your agency collects and could provide? If so, could you please connect me with the right person or send me the data if it is readily available.

Much thanks,

**Subject:** Support of Beach Access at the end of Austin Wood Lane - Santa Rosa Beach  
**Date:** Tuesday, December 11, 2018 8:16:08 AM

---

To State Park Planning,

I am writing in support of the proposed beach access through Topsail Hill State Park from Austinwood Lane in Santa Rosa Beach. I have been vacationing on 30a over the last 10 years, and in early 2018 I purchased a home and became a resident in Cypress Dunes phase II. To get to the beach from my location with a family (small kids in tow), a car or a golf cart are a must. Once you arrive at the nearest beach access, parking issues are always a problem, and in the case of Stallworth Lake, there are just a handful of spots. Walking to the beach is just a better thing for everyone.

The Austinwood Lane access would be open to all, and I believe it would provide a great service to those on the west end of 30a where beach access points are very limited.

Please vote in favor of this beach access for all.

Thank you for your consideration.

Hello

The mission of the park is to 'provide resource-based recreation, while preserving resources'.

The park can do a lot better at this. Beach recreation is used by campers mostly. I am close to the beach, but have to drive a mile in the wrong direction in order to catch a shuttle that takes me back behind my house. I go to Stallworth instead. Or I can join the Vue (Santa Rosa Beach Club).

Sand dunes in Topsail (and South Walton county in general) are awesome. But to see and appreciate them, you need a boardwalk that goes over them. A boardwalk will attract residents at sunset. Great for photos. It would be great. Right now, there are 3.2 miles of dunes that cannot be appreciated. They block access to the beach. The park may as well not be on the beach.

Pointe Washington state park has open accesses in many locations. Why not have open access only in the eastern most end of the park? If there is no parking lot, then use will be limited to those within walking distance.

Andy

Office of Park Planning:

The view expressed by some at the recent meeting that the area humans are only violent, destructive and devoid of love saddened me. But I also recognized that hopefully it was primarily tactical hype. Their portrayal is totally false and offensive. As is their view that only they truly care about the inhabitants of Topsail. The local communities have a deep love of nature and the park. That is why we live here and encourage others to experience it.

**Access to nature fosters a love of nature.** That was the philosophy of environmentalist John Muir, the founder of the **Seirra Club**. He wrote: Access to nature is "Not something that should be discouraged. We should encourage communion with nature."

Additional beach access is much needed for Topsail. This is a great opportunity for the park to grow and to encourage access for all, so that everyone can appreciate and enjoy this area. New generations will fall in love with the area and it will create wonderful memories for them. Additional beach access can be easily accomplished in an environmentally friendly way.

You can recognize the reasons some individuals do not want to share the beach with others. John Muir would have welcomed everyone. Additional beach access is for all of the people of Florida and for all of those families that want to visit this area and "communion with nature."

Thank you for the opportunity.

---

While I think the Beach Access Near Cypress Whatever Subdivision is primarily targeted for that subdivision and their promise of 300 whatever annual passes is bogus. **THE NEED FOR ACCESS TO THE STATE PARK** for people with annual passes for times before 0800 in the morning **IS REQUIRED**.

I have a pass number 1031228 but **WILL NOT** get one next year because I (and my wife) have been accosted by the Topsail Menopausal Rangers (TMRs) multiple time and told we will be apprehended if we continue to enter the park before 0800.

Now my wife and I are 64 years old and during the summer particularly like to take our walk through the park (the reason we bought the annual pass no. 1031228) before 0800AM (to avoid the extreme heat for health reasons).

It appears Topsail's and the State's policy is to **ANTAGONIZE** their local patrons by threats and intimidation so I can truly sympathize with the desire for alternative access.

It seems to me the **BETTER POLICY** would be to allow park access before 0800 (like at first light) and require an annual pass. This whole thing has gone down the wrong path but seeing how the TMRs operate towards honest people, I can understand why.

The Menopausal Rangers (I think you can figure out which Rangers I mean) need to be fired for their rude behavior in regards to older patrons and a first light entrance policy to Topsail enacted.

William Reese

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Stephen Dickstein

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

Topsail Hill State Park is an incredible place offering protection to shorebirds, imperiled wildlife and unique ecosystems. Please don't ruin it by allowing unfettered private access to the park. It is accessible to everyone as is, without the negative impact private access points would bring: disturbances of the nests of rare birds and damage to sensitive habitats.

All of Florida's citizens should have equal access to state parks. Unrestricted private access by "VIPs" can only upset the delicate balance of this important habitat. I support a single public access point, allowing only monitored access to the park, and I urge you to do the same.

**Subject:** Support of additional beach access east end of Topsail Hill Preserve State Park  
**Date:** Friday, November 30, 2018 12:59:16 PM

---

Dear Mr. Alsentzer,

Thank you for the opportunity to offer in writing my support of the addition of a public beach access point through our public state park, Topsail Hill Preserve State Park.

I support the plan to put a public entrance on Austinwood Lane. This will provide a direct legal neighborhood access point to the inaccessible east end of the park with environmental protection in mind. Additional public access/pathways are absolutely needed now. It will ease the strain on other current access points nearby and help reduce car traffic along 30A. Parking at current public access points is often impossible without using the shoulder for parking on 30A.

Just like the customary use battle for access to our beaches, our state parks/beaches are meant for the use and enjoyment of all. It is common knowledge that Walton County is on the hunt to buy millions of dollars worth of additional land to provide beach access to our valued coastline. Walton County has more visitors and residents than can fit in the few public access points to public beaches particularly on the west end 30A. Our coastline is a huge attraction to locals, people all over the country and world. It provides tax dollars. Topsail Hill Preserve State Park has 3 miles of beach with very few people who go to the trouble of going to the main entrance, parking, waiting on the tram schedule and getting down to the beach. It is surprising to me that there's only one boardwalk to the beach in a park the size of Topsail Hill Preserve.

The current plan proposed includes detailed work with State biologists and leading environmental experts, that can withstand any level of scrutiny. This particular park deserves this love and care devoted to it with the goal to share it with all but in a way that preserves it's ecosystem. It deserves to be shared, showcased and admired.

You probably know that South Walton County has been listed in National Geographic Traveler as one of 7 premier 2019 destinations in the world for nature lovers. What an honor to be included in a list with the Amazon and Tahiti. Our beautiful State park is a recognized gem on Florida's South Walton coast and is meant to be offered to our state's residents and visitors to enjoy and appreciate. People are going to continue to flock to our area likely in larger numbers. Change is coming and lots of people with it and lots of tax dollars! Let's prepare and preserve. The current plan proposed gives an opportunity to move productively forward with change and not reactively against it.

Thank you so much for your attention.

Catherine Smith

**Subject:** YES to Additional Beach Access through Topsail Preserve.  
**Date:** Wednesday, December 5, 2018 9:44:31 AM

---

Dear all,

Please vote **YES** for direct beach access by tourists, residents and guests of Walton County. This can be accomplished by providing a walk-in entrance to the Park at Austinwood. There are now many old and new neighborhoods near the park that need and desire additional beach access. West end of, crowded and growing, 30A need more public direct entrances to our public, not private, beaches in Topsail. The proposed direct path and boardwalk will provide environmental protection to plant and wildlife. We **must** and **can** both provide more access while protecting the environment. Thank you for your time. MB Wood

---

Gentleman,

Thank you again for organizing last night's public hearing. I am very grateful for your efforts.

The opportunity for all parties and stakeholders to debate the inclusion of additional beach access in Topsail Hill Preserve State Park is valued and appreciated by all. I found the engagement to be compelling and at times emotional. However, it was also managed in a fair and professional format. Credit to you and the entire team.

Please allow me to use this opportunity to provide copies of several key documents:

1. Updated Proposal – new slide pack for the graphic presentation of our proposal to include the new public parking lot
2. My presentation – written format detailing the facts and figures I presented last night
3. Ecological Assessment – report generated by Ecological Resource Consultants and Dr. John Tobe concerning the Cypress Dunes natural resources

The attached report from Dr. Tobe and team is relevant for a very important reason – Cypress Dunes is a responsible and caring steward of the many natural resources in our community. This report details the ecological assessment of the approximately 400 year old cypress head that spans our community and continues into the state park. The findings confirm the pristine health of this treasured natural resource, and proves our community's commitment to protect, preserve and maintain. Our proposal for additional beach access in Topsail represents this same spirit and commitment of responsible stewardship for all natural resources. We are seeking responsible beach access solutions to maintain and preserve, not trample and degrade.

In the short time since our June meeting in Tallahassee, we have accomplished much. We secured a public parking lot directly off Hwy 30A, thus meeting the requirements to create a public regional beach access. We secured the written public support of the Walton County Board of County Commissioners for additional beach access in Topsail. And we secured over 260 signed petitions from home owners across the four immediately adjacent communities. You are now in possession of all supporting documentation on these accomplishments. And of course we successfully navigated the second public hearing on Topsail, during which I believe we represented our beach access proposal as the majority and with respectful, fact-based and professional dialogue.

I will follow up next week to answer any questions on these or any other items. I look forward to collaborating and partnering with you and your team.

And I am grateful for you all.

Respectfully,

Jim

Jim Sumpter, CIMA

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,  
Nancy Stamm

# Cypress Dunes Ecological Assessment

## I. Introduction

### A. Purpose

Ecological Resource Consultants, Inc. (ERC) conducted an assessment for the Cypress Dunes subdivision on April 22, 2015. The purpose of the assessment was to evaluate nuisance and invasive species, the water quality, the ecological integrity, vegetation, and potential habitat changes of the of the cypress dome habitat. The site inspection was performed to assess the current conditions of the cypress lake and offer insights into the continued maintenance of the system in good ecological condition.

### B. Site Location

The Cypress Dunes subdivision is located adjacent to West Highway 30A in Santa Rosa Beach, Walton County, Florida.

### C. Site Description

The site is located in an area of extensive beach dunes and contains a coastal dune lake (FNAI, 2010). Currently the immediate surrounding land use is high density housing. There are many environmentally beneficial features of this developed community. For example, there are well placed, functioning stormwater ponds, native, drought tolerant vegetation use in the landscape, lawn elimination and use of swales to capture runoff, and the use of the existing coastal dune lake as an amenity, with boardwalks for community access. The aesthetic character of all parts of the lake is high quality. Existing old growth pond cypress, a variety of wetland wildflowers combined with dark tannic water, add to the appropriate ecological value.

## II. Methodology

A field inspection of the development surrounding the coastal dune lake, the ecotone, and the cypress lake was performed. The lake was divided into three sections, (See Figure 1). During the inspection, notes and photographs were recorded for each evaluation area (1-3) and the natural resources were assessed using a modified qualitative survey developed from the concepts from the Florida Department of Environmental Protection Lake Habitat Assessment. The vegetation health and resource management challenges were assessed and an outline of guidance for future management of the dune lake was created.

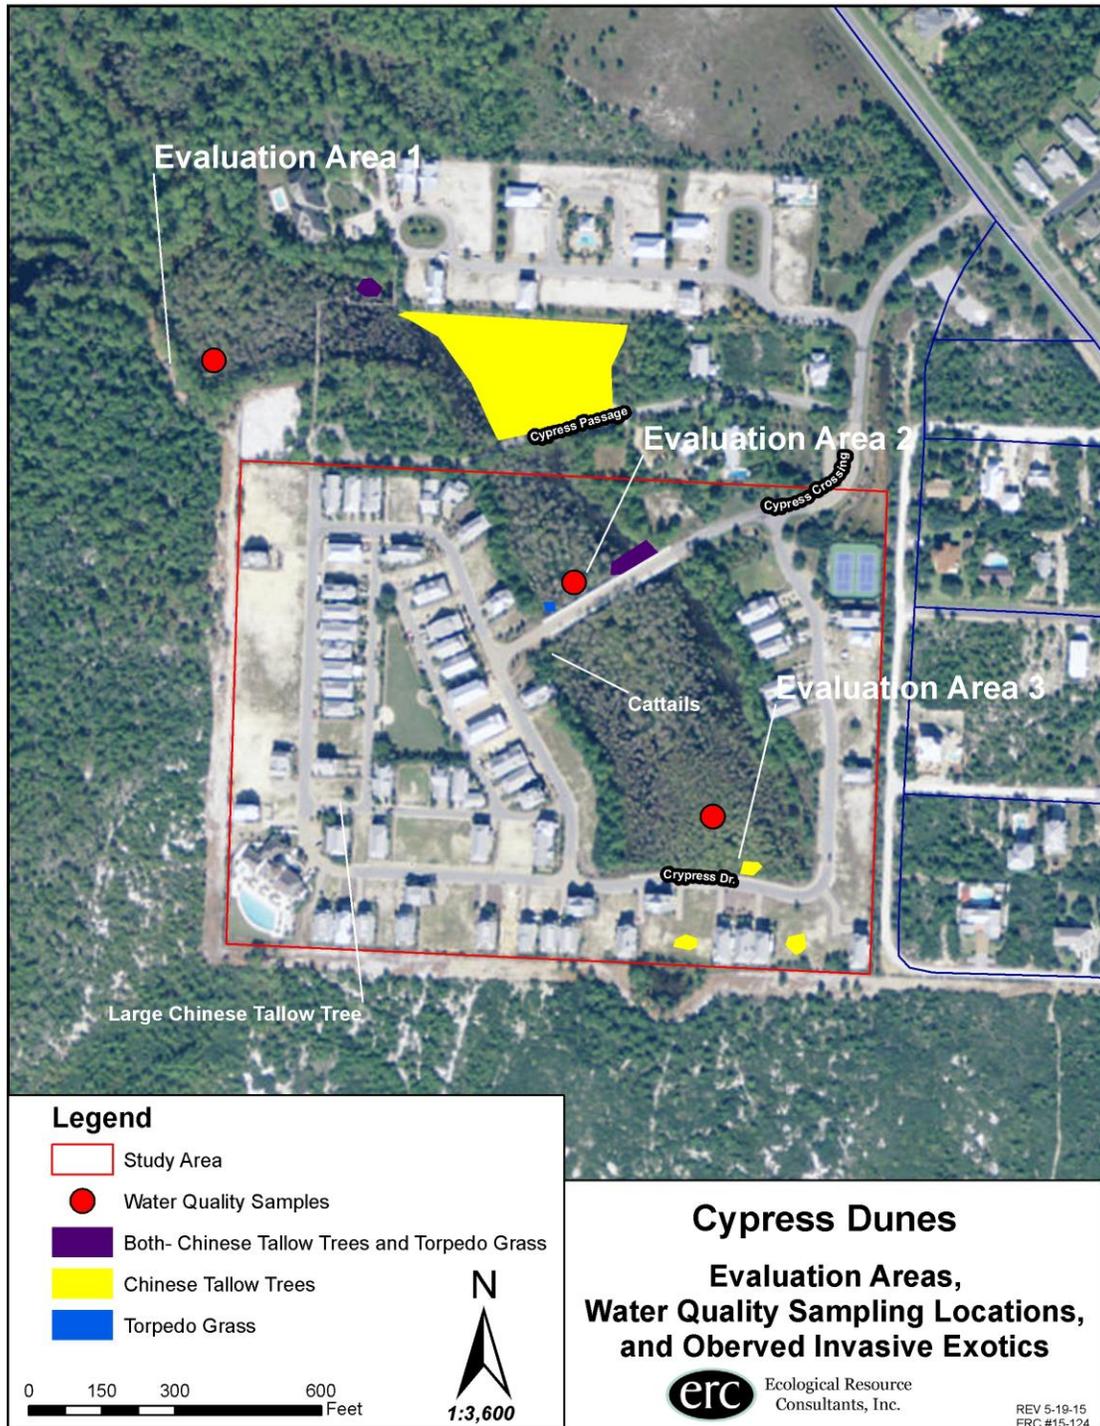

Figure 1. Evaluation Areas, Water Quality Sampling Locations, and Observed Invasive Exotics

### III. Results

The system of classifying natural communities described in this report was developed by the Florida Natural Areas Inventory (FNAI, 2010). The premise of this system is that physical factors such as climate, geology, soil, hydrology and fire frequency generally determine the species composition of an area, and those areas that are similar with respect to those factors will tend to create landscapes with similar plant species compositions.

Site observations indicate that this site was historically an isolated, forested, Coastal Dune Lake occurring within the surrounding fire maintained coastal scrub and coastal dune. Larger trees growing in the interior would include mature pond cypress with smaller amounts of myrtle leaf holly and if fire suppressed, slash pine. Smaller wetland hardwoods and shrubs such as cyrilla, Virginia willow (*Itea*), large sweet gallberry (*Ilex coriacea*) and fetterbush (*Lyonia*) occur within the ecotone and on hummocks. Other sub-canopy species can include red maple, dahoon holly, swamp bay (*Persea palustris*) and sweetbay. The herbaceous component would include ferns, waterlilies, pickerelweed, duck potato and other water tolerant sedges and grasses. Historically the lake at this site would have been exposed to fire on the same frequency as the adjacent fire type community, allowing fires to naturally burn across ecotones.

Currently the site is best described as a cultural landscape of high density residential development. Ecotones along the lake edge are no longer maintained by fire due to the catastrophic fire hazard. Excessive woody vegetation includes slash pine, titi, and fetterbush. The excessive woody vegetation can be maintained by mimicking fire through mowing and other means of mechanical reduction.

#### A. Evaluation Area 1 (Section 1)

Area 1 is the portion of the lake that is located north of Cypress Passage. The site inspection included observations from the existing boardwalk and along the boundary between the uplands and the surface water of the lake (the ecotone).

**Vegetation:** The tree canopy is dominated by pond cypress (*Taxodium ascendens*), slash pine (*Pinus elliottii*) with a subcanopy of pond cypress (*Taxodium ascendens*), and myrtle leaf holly (*Ilex myrtifolia*). Shrubs dominating the lake edge included titi (*Cyrilla racemiflora*), fetterbush (*Lyonia lucida*) and myrtle leaf holly (*Ilex myrtifolia*). The groundcover coverage was moderate because most of the inspection area within the ordinary high water line was flooded. Aquatic plants such as bladderwort (*Utricularia* species) and emergent plants with floating leaves such as fragrant waterlily (*Nymphaeae odorata*) were common. Some of the emergent plants were confined to hummocks and tussocks, such as caric sedge (*Carex glaucescens*). The trees were healthy with a density of approximately 100-200 trees/acre. Some of the larger trees contained snags that were actively being used for nest sites by woodpeckers.

**Fauna:** Fish observed in the lake included gambusia, sunfish and topminnows. Little blue herons were observed actively feeding at the base of pond cypress. Red bellied woodpeckers were nesting in snags of pond cypress. Numerous dragonflies and damselflies were also present. Pig frogs and leopard frogs were heard calling. A northern water snake was seen on the lake edge.

**Hydrology and Hydrologic indicators:** The site was flooded during the site inspection. The water level was located just below the ordinary high water line. The hydrologic indicators included: aquatic vascular plants, elevated lichen lines, aquatic fauna (fish), tussocks and hummocks, water stained vegetation, and morphological plant adaptations such as buttressing of stems. The water was clear and the color was best described as tannic. Water samples were taken during the site inspection (See Table 1 and Appendix A for results).

**Table 1. Evaluation Area 1 Water Quality Results**

Analyses	Results	Detection Limits	Reporting Limits	Qualifier	Unit
Fecal coliforms*	130	1.8	1.8		MPN/100mL
Total coliforms*	540	1.8	1.8		MPN/100mL
Nitrate/Nitrite as N	0.01	0.01	0.05	U	mg/L
Nitrogen, Total	0.81	0.1	0.5		mg/L
Phosphorus, Total	0.009	0.003	0.015	I	mg/L
Total Kjeldahl Nitrogen	0.81	0.2	1	I	mg/L as N
Turbidity	1.5	0.01	0.01		NTU

Notes:

I = The reported value is between the laboratory MDL and PQL.

U = Compound was analyzed for but not detected.

\* Fecal coliform and total coliform readings were above normal; however, this is likely caused by abundant birds in the area.

**Exotic Species:** No exotic animals were observed. It is doubtful that there are any large aquatic animal exotics present on this site. The vegetation within the wettest parts of the landscape is dominated by native plant species. The disturbed areas around the lake edge contained the following exotic plants: seedling Chinese tallow tree (*Sapium sebiferum*) and torpedo grass (*Panicum repens*). The tallow trees have been dispersed on the site from offsite sources. The tallow trees are no larger than tree sapling size, with none of the trees greater than 1 meter tall. The torpedo grass was most likely brought to the site from fill placed on the eastern side of this section of the lake. The fill was examined and is infested with torpedo grass vegetative shoots. The torpedo grass has grown down to the lake edge although it has not begun to grow as an emergent aquatic in this part of the lake.

**General Aspect and Lake Assessment.** Surface water inflow from sheet flow and stormwater pond outflow is possible. While the quantity of input to the lake is unknown, good stormwater management is built into the community, with functioning

stormwater ponds. The ecotone and lake margin vegetation has been eliminated by fill on east side of lake. Based on hydrologic indicators and the presence of aquatic animals, it appears that there is a long water residence time in the lake. The vegetation quality is high and there is a diverse assemblage of appropriate native vegetation. Less than 1% of the lake and lake margin is dominated by nuisance and non-native plant taxa. The potential for adverse lakeside human alteration is moderate to high due to a vegetative upland buffer around the lake that is less than 100 feet wide, significant adjacent fill with no upland buffer, and the presence of invasive exotic, torpedo grass.

Photo 1. Evaluation Area 1 in Section 1. Note the tannic water, buttressed trees, and fragrant waterlilies.

## **B. Evaluation Area 2 (Section 2)**

Area 2 is the portion of the lake located south of Cypress Passage and north of Cypress Crossing. The site inspection included observations from the existing road/bridge across the lake and along the lake edge.

**Vegetation:** The tree canopy is dominated by pond cypress (*Taxodium ascendens*) and slash pine (*Pinus elliottii*) with a subcanopy of pond cypress (*Taxodium ascendens*). Shrubs dominating the lake edge included titi (*Cyrilla racemiflora*), saltbush (*Baccharis* sp.), black willow (*Salix nigra*), fetterbush (*Lyonia lucida*). The groundcover coverage was moderate because most of the inspection area within the ordinary high water line was flooded. Aquatic plants such as bladderwort (*Utricularia* species) and emergent plants with floating leaves such as fragrant waterlily

(*Nymphaea odorata*) were common. Emergent plants included: cattails (*Typha latifolia*), caric sedge (*Carex glaucescens*), beak sedge (*Rhynchospora* spp.), cutgrass (*Leersia* sp.), sedges (*Cyperus* sp.), spikesedge (*Eleocharis* sp.). The trees had a healthy density of approximately 100-200 trees/acre.

**Fauna:** Fish observed in the lake included gambusia, sunfish and topminnows. Pig frogs were heard calling.

**Hydrology and Hydrologic indicators:** The site was flooded during site inspection. The water level was located just below the ordinary high water line. The hydrologic indicators included: aquatic vascular plants, elevated lichen lines, aquatic fauna (fish), tussocks and hummocks, water stained vegetation, and morphological plant adaptations such as buttressing of stems. The water was clear and the color is best described as tannic. Water samples were taken during the site inspection (See Table 2 for results).

**Table 2. Evaluation Area 2 Water Quality Results**

Analyses	Results	Detection Limits	Reporting Limits	Qualifier	Unit
Fecal coliforms	240	1.8	1.8		MPN/100mL
Total coliforms*	1600	1.8	1.8		MPN/100mL
Nitrate/Nitrite as N	0.01	0.01	0.05	U	mg/L
Nitrogen, Total	0.69	0.1	0.5		mg/L
Phosphorus, Total	0.019	0.003	0.015		mg/L
Total Kjeldahl Nitrogen	0.69	0.2	1	I	mg/L as N
Turbidity**	0.47	0.01	0.01		NTU

Notes:

I = The reported value is between the laboratory MDL and PQL.

U = Compound was analyzed for but not detected.

\* The elevated total coliform is likely caused by abundant birds feeding in the vicinity of the water sampling location.

\*\* The high water clarity is indicated by low turbidity.

**Exotic Species:** No exotic animals were seen. It is doubtful that there are any large aquatic animal exotics present on this site. The vegetation within the wettest parts of the landscape is dominated by native plant species. The disturbed areas around the lake edge contained the following exotic plants: seedling Chinese tallow tree (*Sapium sebiferum*). The tallow trees are no larger than tree sapling size, with none of the trees greater than 1 meter tall.

**General Aspect and Lake Assessment.** Surface water inflow from sheet flow is possible and the potential stormwater runoff into the lake is moderate to high with direct inputs from Cypress Crossing Road. While the quantity of input to the lake is unknown, good stormwater management is built into the community, with functioning stormwater ponds. The ecotone and lake margin vegetation has been eliminated by

fill on east side of lake in this section. Based on hydrologic indicators and the presence of aquatic animals, it appears that there is a long water residence time in the lake. The vegetation quality is high and there is a diverse assemblage of appropriate native vegetation. Less than 10% of the lake and lake margin in this section is dominated by nuisance and non-native plant taxa. This section of the lake has nutrient inputs entering near the base of the bridge associated with Cypress Crossing Road. The potential for adverse lakeside human alteration is moderate due to a vegetative upland buffer around the lake that is less than 100 feet wide. The presence of cattails might be considered as a nuisance species but they are providing a function in removing nutrients from surface waters entering near the bridge. The cattails can be eliminated by using an appropriate aquatic herbicide.

Photo 2. Evaluation Area 2 in Section 2. Note the tannic water, buttressed trees, fragrant waterlilies, and emergent stems of spikesedge (*Eleocharis* sp.).

### C. Evaluation Area 3 (Section 3)

Area 3 is the portion of the lake located north of Cypress Drive and south of Cypress Passage. The site inspection included observations from the existing boardwalk and along the lake edge.

**Vegetation:** The tree canopy is dominated by pond cypress (*Taxodium ascendens*) with a subcanopy of pond cypress (*Taxodium ascendens*). Shrubs dominating the lake edge included wax myrtle (*Myrica cerifera*), buttonbush (*Cephalanthus occidentalis*), and water toothleaf (*Stillingia aquatica*). The groundcover coverage was moderate because most of the inspection area within the ordinary high water line was flooded. Aquatic plants such as bladderwort (*Utricularia* species) and

emergent plants with floating leaves such as fragrant waterlily (*Nymphaeae odorata*) were common. Emergent aquatic plants such as pickeralweed (*Pontederia cordata*) were found in large drifts beneath the pond cypress. The trees had a healthy density of approximately 100-200 trees/acre. Some of the larger trees contained snags that were actively being used for nest sites by woodpeckers.

**Fauna:** Fish observed in the lake included gambusia. Numerous dragonflies and damselflies were also present. Red winged blackbirds were observed along the lake edge.

**Hydrology and Hydrologic indicators:** The site was flooded during the site inspection. The water level was located just below the ordinary high water line. The hydrologic indicators included: aquatic vascular plants, elevated lichen lines, aquatic fauna (fish), tussocks and hummocks, water stained vegetation, and morphological plant adaptations such as buttressing of stems. The water was clear and the color is best described as tannic. Water samples were taken on the same day as the site inspection (See Table 3 for results).

**Table 3. Evaluation Area 3 Water Quality Results**

Analyses	Results	Detection Limits	Reporting Limits	Qualifier	Unit
Fecal coliforms	4.5	1.8	1.8		MPN/100mL
Total coliforms	120	1.8	1.8		MPN/100mL
Nitrate/Nitrite as N	0.01	0.01	0.05	U	mg/L
Nitrogen, Total*	0.67	0.1	0.5		mg/L
Phosphorus, Total	0.019	0.003	0.015		mg/L
Total Kjeldahl Nitrogen	0.67	0.2	1	I	mg/L as N
Turbidity	0.51	0.01	0.01		NTU

Notes:

I = The reported value is between the laboratory MDL and PQL.

U = Compound was analyzed for but not detected.

\* The slightly elevated nitrogen level is probably due to stormwater input.

**Exotic Species:** No exotic animals were observed. It is doubtful that there are any large aquatic animal exotics present on this site. The vegetation within the wettest parts of the landscape is dominated by native plant species. The disturbed areas around the lake edge contained the following exotic plants: seedling Chinese tallow tree (*Sapium sebiferum*) and torpedo grass (*Panicum repens*). The tallow trees have been dispersed on the site from offsite sources. The tallow trees are no larger than tree sapling size, with none of the trees greater than 1 meter tall. The torpedo grass was most likely brought to the site from fill. The torpedo grass has grown down to the lake edge and is beginning to grow out over the lake edge.

**General Aspect and Lake Assessment.** Surface water inflow from sheet flow is possible and the potential stormwater runoff into the lake is high with direct inputs

from Cypress Drive. While the quantity of input to the lake is unknown, good stormwater management is built into the community, with functioning stormwater ponds. The vegetation along the lake margin has been reduced along Cypress Drive. Based on hydrologic indicators and the presence of aquatic animals, it appears that there is a long water residence time in the lake. The vegetation quality is high with a diverse assemblage of appropriate native vegetation. Less than 10% of the lake and lake margin is dominated by nuisance and non-native plant taxa. The potential for adverse lakeside human alteration is moderate to high due to a vegetative upland buffer around the lake that is less than 100 feet wide and the significant fill adjacent to the lake along Cypress Drive. It is possible that the fill used to build Cypress Drive contained the invasive exotic, torpedo grass. There are small patches of torpedo grass growing into the lake along Cypress Drive. These are not vigorous because the water environment is currently low nutrient and the native vegetation left as a buffer around the lake is creating too much shade for torpedo grass to thrive.

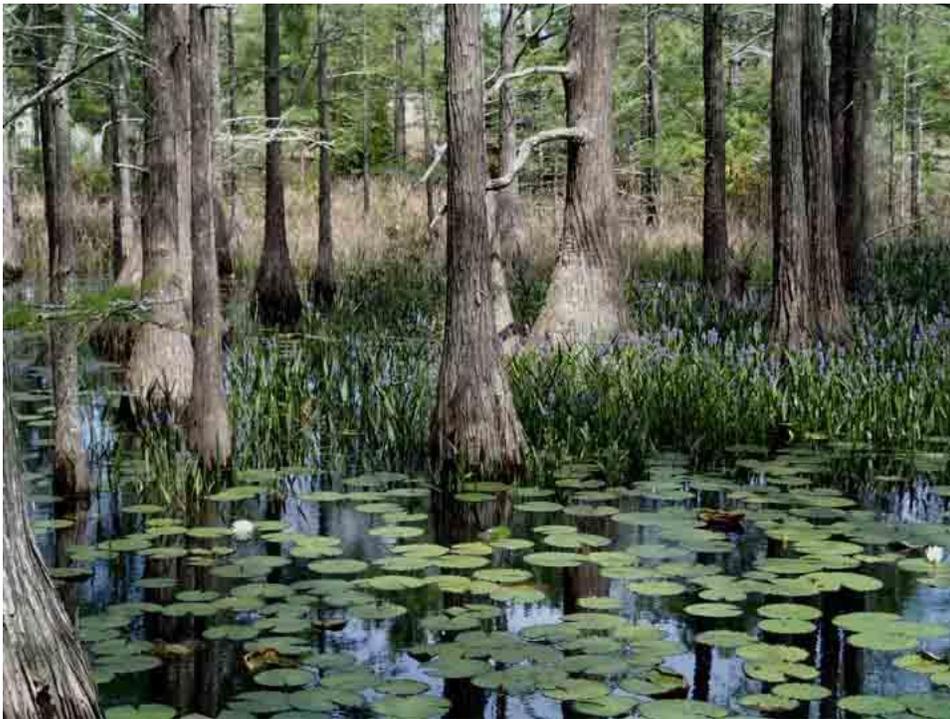

Photo 3. Evaluation Area 3 in Section 3. Note tannic water, buttressed trees, and fragrant waterlilies and large drifts of pickerelweed (*Pontederia* sp.).

#### IV. Recommendations

To offset the potential alteration to the lake, this report includes community goals to buffer and protect the system from effects of the adjacent development. This section identifies the general management measures that will be required to maintain the lake in a desirable future condition. The intent of this assessment is to provide a starting point from which to track changes in this lake. These observations can provide the

information needed to determine changes and to monitor trends in physical condition and ecological health of the lake.

### **General Management Measures**

Initial investigations reveal that natural hydrology is largely unaltered within and around this lake. Monitoring and removal of exotic species dispersal onto the site will need to be part of the overall management for the future. The general areas to focus on exotic removal are illustrated in Figure 1. This is an aerial photograph illustrating representative distribution of exotic plants. Water quality measurements and implementing best management practices for all future land use around the lake will be critical to maintain low nutrient levels within the lake. Specific management objectives and actions for natural community management, exotic species management, native species management and restoration are discussed below.

**Goal: Maintain the low nutrient load in waters of onsite Coastal Dune Lake.** Make sure stormwater systems continue to operate properly. Reduce or manage any lawns that require supplemental irrigation or fertilizer and use only native plants in the landscape.

**Objective: Annually collect several samples of lake water and have these analyzed for nutrients.**

Record quantitative water quality observations and use these to map out future adaptive management. Annually inspect the site, take samples from at least three sections of the lake. Limit use of fertilizers and pesticides in the community.

**Goal: Maintain the biodiversity of native plant community in Coastal Dune Lake and surrounding uplands.**

Make sure native plants are healthy and reproducing in lake and in uplands surrounding the lake.

**Objective: Annually inspect the lake.**

Record qualitative observations regarding the natural history and health of vegetation and animals within lake and ecotone, and use these to map out future adaptive management. Annually inspect the site, make observations in three sections of the lake. Only use native plants for revegetation of landside buffers. Only use drought and salt tolerant native plants in all future landscaping around buildings and along roads.

**Goal: Prevent introduction of exotic and invasive plants and animals to the site conduct needed maintenance control.**

Inspect all fill used on this site, make sure the fill does not contain viable plant parts such as roots, stems and seeds of invasive exotic plants. Also inspect all nursery stock brought to the site since invasive exotics can be found mixed with landscape plants.

**Objective: Annually implement control measures on all exotic plants.**

Routinely inspect the fill and any new planted landscapes for exotic plant species on an annual basis, with focus on areas of past occurrence. Implement control measures promptly. It is estimated that the average area of invasive exotic plants to be treated

annually will be less than one acre.

**Goal: Remove exotic and invasive plants and animals from the site and conduct maintenance.**

Annually inspect lake edge and all stormwater ponds for invasive exotic species. After identification of non-native species, map the infestation or treat the found exotics as they are located. See Figure 1 for locations of observed invasive exotic plants. This map includes invasive exotics observed during inspection of the three evaluation areas. ERC can provide additional services to conduct a survey for the entire property and or treat the located invasive exotics. Removal techniques may include mechanical treatment, herbicides or biocontrol agents.

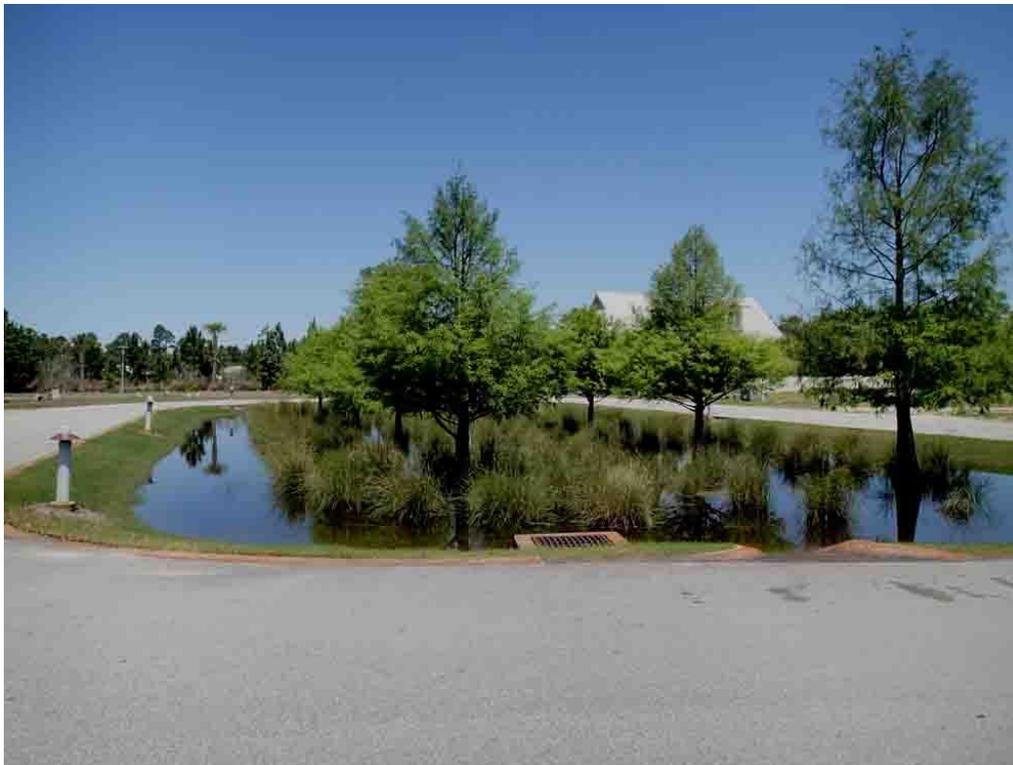

***Objective: Annually implement control measures on all exotic plants.***

Routinely inspect the lake for exotic plant species on an annual basis, with focus on areas of past occurrence. Implement control measures promptly. It is estimated that the average number of acres of invasive exotic plants to be treated annually will be less than one acre.

**Additional Suggestions**

Coastal Dune Lakes can fill in from erosion and be degraded from the nutrients washed into them from homes and roads. Harmful materials, which are deposited into gutters and storm drain systems, can eventually find their way to lakes, causing algae blooms and fish kills. This causes the water quality and the natural beauty of this lake to be negatively impacted. To help prevent these negative impacts to the lake, follow these simple suggestions:

- **Always Use Native Vegetation.** Native plants provide appropriate food and shelter to native fauna. They require no additional irrigation or fertilizer. The repeated use of native plants will create a sense of place. If chosen appropriately, native vegetation can be attractive, produce flowers, and provide shade. A native plant palette for well drained, sandy soils near the coast is provided in Appendix B.
- **Reduce or eliminate lawns.** Use native groundcover plants since they require no additional irrigation or fertilizer. There are many attractive native species that can be chosen. Educate residents to appreciate the natural look from native plants. When the entire neighborhood uses native plants this will create a sense of place.
- **Conserve water.** All of northwest Florida's water resources are interconnected. Using less water in homes, yards, businesses and agriculture can help conserve water, especially if shallow water wells are used. Observe watering guidelines. Always plant native, drought-tolerant landscaping. Once established native drought tolerant vegetation will not need supplemental watering.

**Photo of stormwater pond onsite.** Native pond cypress and native cordgrass were planted in a seasonally flooded stormwater pond.

**Photo of landscaping using native plants and mulch instead of lawn.** Native sabal palm, saw palmetto, and native bunch grasses were planted. The non- native roses and Chinese windmill palm shown are not adapted to the site conditions and will require fertilizer and irrigation.

**Photo of landscaping using native plants and mulch instead of lawn.** Native sabal palm, and native bunch grasses were planted. The spreading juniper used to cover the mulch in non-native, but is a good choice since it will not reproduce in our climate.

- **Use fertilizer and spray sparingly or not at all.** These substances can be very detrimental when they are carried to the lake by stormwater runoff. When fertilizers and pesticides are applied to a lawn, keep them away from the driveway and street so they don't run into the storm drain. Never apply fertilizer or pesticides within a 100 foot buffer between the fertilized area and the lake.

- **Use lake friendly surface cover when possible and where needed plant native trees to shade heat sinks such as roads, parking, concrete and driveways.** Surfaces such as pavers, porous stone, gravel and mulch are much better for walkways and driveways than asphalt or concrete. If you do have a paved area, divert the runoff into a separate area, such as a vegetated swale or stormwater pond that allows the water to soak into the ground rather than discharging directly into the lake. Plant sand live oak to shade hot surfaces.

- **Dispose of grass, leaves, trash, and pet waste properly.** Grass and leaves can add nitrates and phosphates to the lake. Collect and bag grass and leaves or start a compost pile. Trash, food wrappers, litter, and pet waste can pollute the lake and cause harm to fish and wildlife. Place trash receptacles in strategic places to encourage the community to dispose of trash and waste properly.

**Photo of landscaping with water diverted into a vegetated swale.** In this example pond cypress are planted within the swale. The trees provide beneficial shade and stabilize the soil in the swale. Tree roots will absorb nitrogen and phosphorus from the wet soils.

**Photo of landscaping using native trees to shade sidewalk.** Use native drought tolerant and sandy, nutrient poor soil tolerant trees. In this example a sand live oak is shading the sidewalk.

- **Properly maintain vehicles** — Automobiles and other vehicles that leak oil, gas and other fluids pollute the lake when these materials are washed down the storm drain. Washing vehicles on paved surfaces also causes detergents to be washed into storm drains, adding nutrient input to the lake, which aid the growth of algae and invasive plants. Keep driveways and parking areas pollutant free and properly dispose of oil, gasoline, and other petroleum products.
- **Protect against erosion** — Exposed soil on construction sites and earthen stockpiles can wash into the storm drains, which flow into the stormwater ponds making the ponds less effective or flow directly into the lake. Make sure barriers, such as silt fencing or turbidity screens are erected to prevent the soil from discharging into the lake.
- **Maintain lake edges** — Aquatic plants provide habitat, food and shelter for fish and wildlife. Plants also reduce erosion and filter the stormwater runoff, which will help to protect the water quality in the lake.

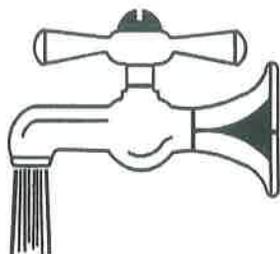

**Photo of vegetated lake edge with emergent and aquatic plants.** In this example pond cypress and a diversity of wetland plants are allowed to grow in the area between the uplands and the lake. All plants in the buffer (both upland and wetland) will absorb nitrogen and phosphorus from runoff and help buffer the water quality of the lake.

- **Create a firewise community.** Historically the landscape of Cypress Dunes naturally experienced periodic catastrophic fires (even the coastal dune lake edges and sometimes the interior of the lake would burn when dry enough for vegetation to carry fire). Fire reduction can be accomplished by careful selection of vegetation that does not contribute to wildfires, maintaining a buffer of selectively cleared vegetation, and using non-flammable materials during the construction process,

especially on the exterior of structures. Depending on how the homeowners association would like the lake edge to appear, selective mowing and pruning of upland vegetation is appropriate. This will create light penetration into the lake edge and create air circulation across the landscape. The increased light will facilitate growth of herbaceous species. Periodic reduction of saw palmetto and woody shrubs to coppice (less than 0.5 meter) is ecologically appropriate.

## Certificate of Analysis

**Client Report For:** Ecological Resource Consultants, Inc.  
**Attention:** Joe Schuster  
**Client Address:** 100 Amar Place  
Panama City Beach, FL 32413

**Report Date:** May 11, 2015  
**LAB ID:** WS15APR22-017

**Comment:**

These test results meet all NELAC requirements for those parameters which require accreditation. Any exceptions or deviations from NELAC protocol are noted in this report. Any samples collected by Water Spigot personnel are done according to the latest revision of SOP-001/01. Any questions concerning this report should be directed to the person signing this report at (850) 871-1900, The Water Spigot, Inc., 5806 East Highway 22, Panama City, FL 32404. The test results in this report relate only to those specific samples listed.

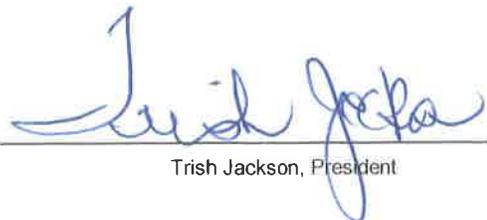

A statement of estimated uncertainty of test results is available on request. Analyses performed in the field are not regulated by the NELAC standards.

Results for solid sample are calculated and reported on a dry weight basis unless otherwise noted.

Results contained within this report relate only to the samples referenced in this report.

This report may not be reproduced except in full with written approval from the laboratory.

Data Qualifier	Qualifier Definition
A	Value reported is the mean (average) of two or more determinations.
B	Results based upon colony counts outside the acceptable range. Applies to microbiological tests and specifically to membrane filter colony counts. It is to be used if the colony count is generated from a plate in which the total number of colonies is outside the method indicated ideal range.
D	Measurement was made in the field.
E	Extra samples were taken at composite stations
G	Analyte was detected in both the sample and the associated field, equipment, or trip blank.
H	Value based on field kit determination; results may not be accurate.
I	The reported value is between the laboratory MDL and the laboratory PQL.
J	Estimated value; value not accurate. All results with a "J" qualifier require comment.
K	Off-scale low. Actual value is known to be less than the value given.
L	Off-scale high. Actual value is known to be greater than value given.
M	Chemical Analysis: Presence of material is verified but not quantified; the actual value is less than the value given. The reported value shall be the laboratory practical quantitation limit. Species: Male sex
N	Presumptive evidence of presence of material
O	Sampled, but analysis lost or not performed
Q	Sample held beyond the accepted holding time
R	Significant rain in the past 48 hours.
S	Secchi disk visible to bottom of waterbody. The value reported is the depth of the waterbody at the location of the Secchi disk measurement.
T	Value reported is less than the laboratory method detection limit. The value is reported for informational purposes, only and shall not be used in statistical analysis.
U	Compound was analyzed for but not detected.
V	Analyte was detected in both the sample and the associated method blank.
Y	Laboratory analysis was from an unpreserved or improperly preserved sample. The data may not be accurate.
Z	Too many colonies were present for accurate counting (TNTC), the numeric value shall be estimated from the highest dilution factor (smallest sample volume) used for the test and reported with the qualifier code.
?	Data is rejected and should not be used. Some or all of the quality control data for the analyte were outside criteria, and the presence or absence of the analyte cannot be determined from the data.
*	Not analyzed due to interference.
!	Data deviates from historically established concentration ranges.

## **FDEP Public Hearing – Topsail Hill Preserve State Park Public Beach Access**

**05 December 2018**

**Presentation by: Jim Sumpter**

The objective tonight is not to reach a common agreement on all points that will be debated. Rather, I believe our shared opportunity is open, honest and constructive dialogue across many people who ironically share numerous common objectives.

One commonality I suggest may be a strong majority in this room tonight is our shared mourning and respectful celebration of the life of President George H.W. Bush. During some reading this weekend, I came across a quote from our 41<sup>st</sup> President capturing his comments reflecting on negotiations with the Soviet Union on the fall of the Berlin wall: “To the end, we knew we could never agree on everything, and we agreed that was okay. Honest debate strengthens democracy.”

So thank you for this opportunity for open debate, and thank you to the FDEP in facilitating this democratic process.

I respectfully offer for consideration a critical common starting point – these dunes are currently being used and trampled on. All solutions debated tonight must start with that irrefutable fact. This is not pristine, virgin park dunes. Public access is currently and has historically been occurring for years along this section of the State Park – this is an incontrovertible fact supported by:

- Current existence of foot paths
- Report by the FDEP staff and State biologist following their in-person inspection of this area citing the existence of thousands of footprints all along the dunes.
- Reports from residents living along the Park’s borders report the presence of hikers, mountain bikers and beach goers.
- Confirmation of all these facts by the State obtaining data from satellite technology that tracks people carrying cell phones. The resulting heat map confirmed these facts and further defined the path off Sandstone as the most used by satellite tracking of cell phone usage

Starting with this foundational challenge, we understand there are three options:

- Do nothing – see the continued degradation of these special and rare resources
- Bar entry – erect a large security/bear fence around the entire perimeter of the state park, thus violating the fundamental values of the State’s park system, and at an astronomical cost for installation and upkeep
- Protect the resource by consolidating use on to one resource – a common trail or boardwalk. We believe we must regulate and channel the use to protect the environment

What are we offering? **We are offering an option for a consolidated access, but in a manner in partnership with the Park and in collaboration with the State's botanists, biologists and park planners to protect the resource and on a resource solution (boardwalks) that exists in every park in Florida**

- ***At no cost to the County or State***
- And installed ***only in an existing significant north-south fire break that is currently bush-hogged and clear cut***

To argue there is not a clear and present need – that other options exist is to refute the facts – if people wanted to drive to the main entrance, use the tram and drive down the park's asphalt road they wouldn't be walking on the dunes and the day-user rates for locals in the park would be significantly higher. People are instead using the natural and legacy trails.

This also comes at a time of great turmoil regarding beach access in Walton County due to **Customary Use**. We face years of legal proceedings ahead, and that restricted access will force the public to find new/additional routes to have public access to public beaches. We cannot be naive that people will not seek access to 3 miles of public beach with no private homes.

The keys to our offer:

- We pay through private donations – 356 home owners have committed to date
- We support with annual park passes – 356 home owners have committed to date
- We offer a Federally permitted and environmentally responsible solution to get the public to publicly owned beaches

Cypress Dunes residents have been accused of seeking a private beach/state park amenity – there is no precedence in the State's history of such. That is not what we are seeking. But we recognize that our property values will decline if the world-class natural asset that surrounds two boundaries are degraded. And to contend that we have not cared for and preserved the nature within our community is false. We have been world-class stewards of the natural resources within our community – the 400 year old cypress head has been evaluated by ERC Consultants and found to be as pristine within the boundaries of our community as within the State Park's boundaries. Please reference the attached report.

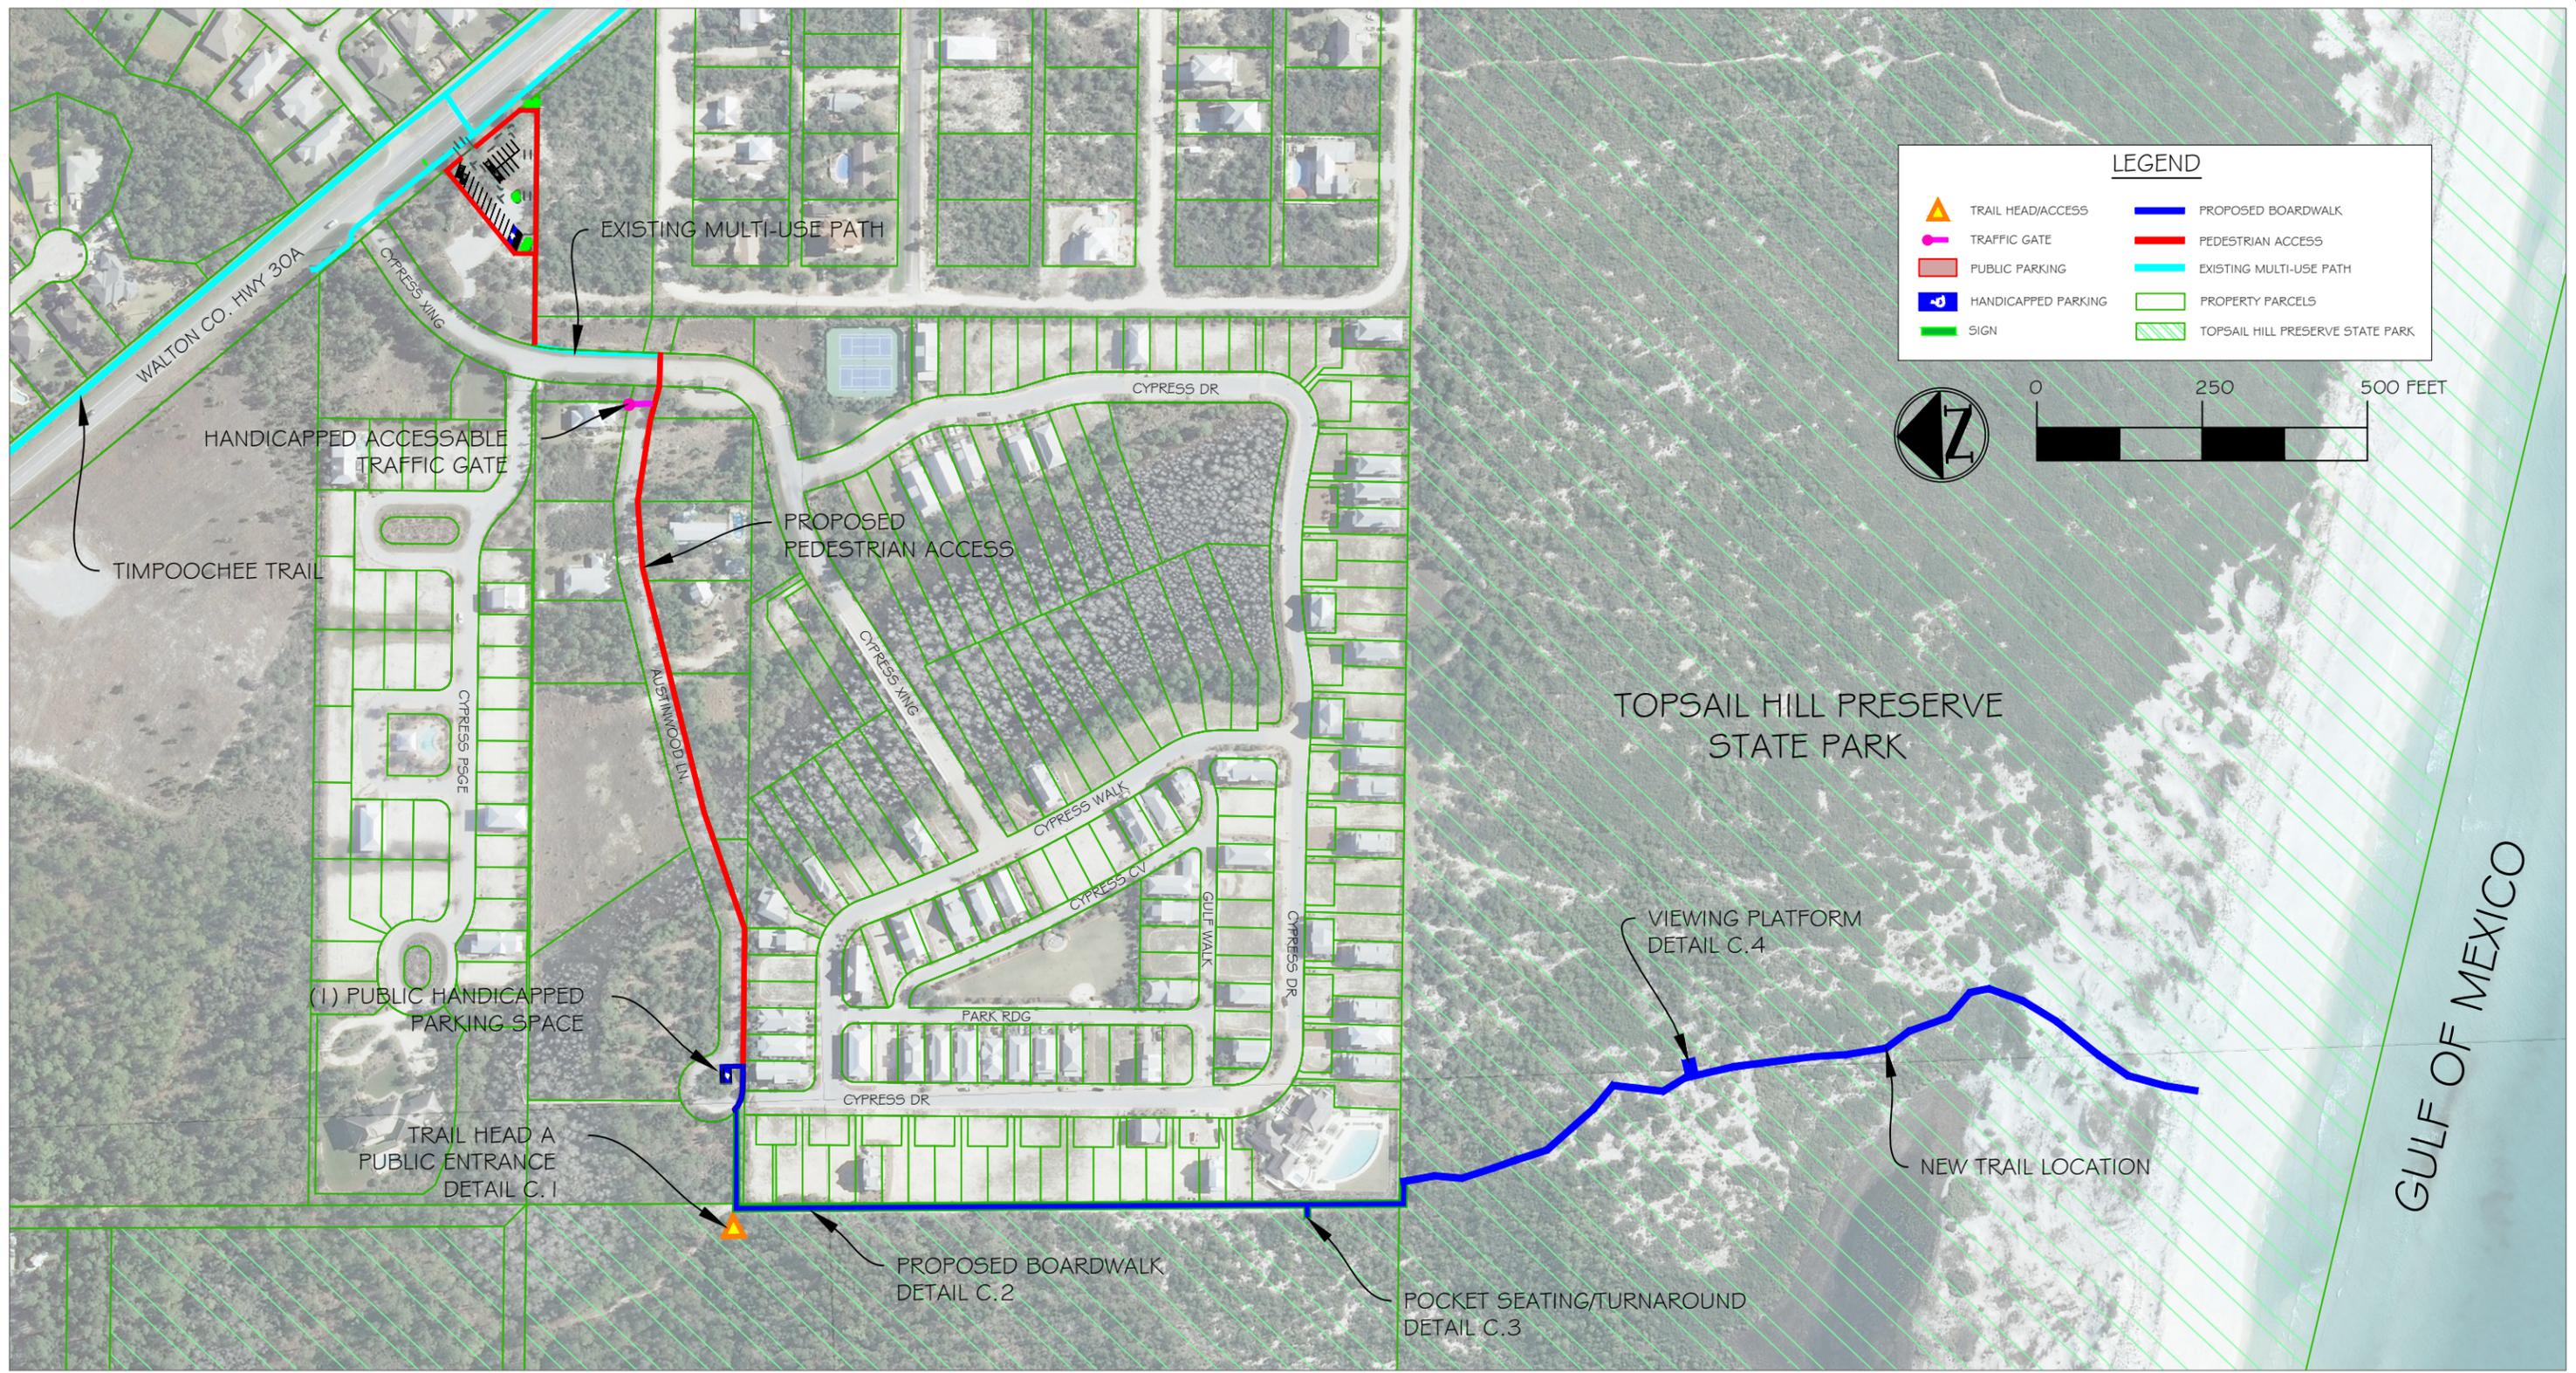

Please allow me to address some common items I hear regarding the public's perception of the optics of this plan – essentially the following three issues:

- *This proposed resource is exclusive to Cypress Dunes' residents and guests* - We conclusively prove that this perception is untrue by the inclusion of a public parking lot for 20-25 cars directly off 30A and available to all of the regions owners and guests.
  - Parking lot can be incorporated into planned stops by the 30A Trolley
  - No part of this path crosses Cypress Dunes property

- No private or exclusive access is provided to Cypress Dunes owners or guests – all must enter the State Park’s designed entrance
  
- *This project has been/is supported only by Cypress Dunes owners – to disprove that point, I am proud to present the following petitions that represent the support of 262 owners all living in neighborhoods within 1 mile of the proposed parking lot:*
  - Contain emails, phone numbers and signatures
  - Only 64 reside within Cypress Dunes
  - The immediately adjacent communities of Emerald Walk, Topsail Village and Beachview Heights represent over 180 signatures
  
- The term “Preserve” in the name of Topsail implies that this section of the park cannot be used by the public. We have researched and catalogued on YouTube videos showing boardwalks and trails across the state in parks with the term “preserve” in the name. This list includes at least 25 Florida State Park Preserves, with flora and fauna similar to Topsail that currently offer the public activities, amenities, boardwalks and trails identical to what we are proposing

We recognize this is the first step – that with approval we still must secure Federal permitting to ensure the trail and boardwalk is environmentally and biologically sound to protect the resource. Our proposal will not fully eliminate all ingress and egress at non-controlled points, but we believe this is an effective and greatly needed new amenity. We are excited to partner with all of the experts and dedicated members of the FDEP and related agencies.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species.

The world has been up and down in terms of protecting animals. Some great things have been done recently for them, but plenty of threats still remain.

So many of our waters, public lands, forests, and open spaces have already been ruined by development, drilling, encroachment, and other man-made harm! The animals are running out of places to live and be safe. Our wildlife are under threat from so many angles. They desperately need to be protected, mainly from humans.

Life is hard enough for people, let alone the animals.

Can't we please offer them some much needed help?!

All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

Jake Hodie

Sorry I somehow hit the send button before finishing the email below. My recommendation is that Topsail adopt a resolution that states no additional entry points will be considered on the eastern or western boundary or along the 98 boundary for a period of 15 years! This will be a relentless push every year if the DEP does not take some drastic position. Dave Schofield 678 481 3015

Greetings; I was a little shell shocked by the anger in the room. I talked for 3 minutes and shared my written comments with you and was booed and called a liar by Cypress Dunes speaker that followed. I listened to the Cypress Dunes owners arguments for the Cypress Dunes board walk through the park, namely;

1. The board walk will help the dune mouse and other shore birds and will be good for the environment as people are breaking the law and going through the dunes anyway. I have walked the beach and seen beer cans, etc. left on the beach. I went to see why there was this trash area, and notice no foot prints coming from the beach. The foot prints came to and from the dunes and they lead to Cypress Dunes. Cypress Dunes is breaking the law and asking for a boardwalk to help them stay off the dunes. If they break the law now, why would a boardwalk stop them? This made no sense to me.
2. The other argument is that this board walk will take pressure off other access points. This makes no sense either, as the only people that can or will use this board walk are Cypress Dunes residents or Austinwood lane residents. Austinwood is the street that separates Phase I and Phase II of Cypress Dunes.
3. The Cypress Dunes speakers all said it had nothing to do with the money they will make. I shared that I am a Cypress Dunes owner and knew that there was not beach access when I bought the lot and that I believe I will have a windfall profit if the boardwalk happens. Their denial that this is not about the money does not pass the smell test. If this were a public access, why would the Cypress Dunes homeowners association pay \$500,000 to \$600,000 for a board walk and likely in excess of \$1,000,000 for the parking spots, not to mention the \$500,000 in lobbyist and attorney fees already spent? If it is public access, the public should pay for it!!

All of the speakers in favor of the Cypress Dunes boardwalk were Cypress Dunes property owners with two exceptions; Bill Muldowney and George (Spanish speaking person). I do not know George, but feel fairly certain he is tied to Cypress Dunes in some way. I do know Bill Muldowney. He is the person that opened with "I do not live in Cypress Dunes." He explained that this is simply a boardwalk for the public and it is not a private boardwalk. He called everyone that disagreed with him Pinocchios (liars).

To give you some background, I owned property on Austinwood lane as well. Cypress Dunes negotiated easement agreements with each homeowner on Austinwood Lane. Austinwood is a private road where owners own title to the middle of the road and give each other easements

defined in the declarations. NO ONE on Austinwood was willing to give Cypress Dunes a controlling easement if there were going to be “public” cars driving down Austinwood Lane. To meet this requirement, Cypress Dunes agreed to pay for a gate to be installed at the beginning of Austinwood Lane to PREVENT PUBLIC ACCESS to the entrance to Topsail that is being proposed. In Addition, Cypress Dunes agreed to let all Austinwood owners, like Muldowney, have full access to the tennis courts, club house, pool and gym at Cypress Dunes for about ¼ of the dues that Cypress Dunes owners pay. In some cases, Tracy Sweetland, there are life time zero dues! I personally saw and have copies of these easements if it is of any interest.

The truth about the access labeled as “public”: the Cypress Dunes community does not want the public coming through their gate for access to the board walk and the Austinwood lane owners do not want the public coming through their road either!. They have gated off the access to make it nearly impossible for anyone to use, except them.

As an aside, Jim Sumptner said that Cypress Dunes would buy 240 passes (one for each lot). That means that someone renting their unit to tourists gets an annual pass that can be used by all the weekly renters. No other homeowner gets that deal. I have a house I rent and I have an annual pass. I do not get to give my pass to renters and tell them they can enter Topsail for free all year.

Lastly, everyone says “single” access that is opposed to the boardwalk. This too is not accurate. On the west (San Destin), thousands enter the beach directly from the beach. To the east, thousands enter the beach at the Bishop Street public walk over (that has shower facilities). There is a 30 A trolley that picks people up and drops them to and from the Bishop access all summer long! There are currently 3 entrances to Topsail Hill Preserve and no one mentioned the direct beach access – they should count an access points into topsail.

---

Dear Mr. Alsentzer,

Thank you for the opportunity to offer in writing my support of the addition of a public beach access point through our public state park, Topsail Hill Preserve State Park.

I support the plan to put a public entrance on Austinwood Lane. This will provide a direct legal neighborhood access point to the inaccessible east end of the park with environmental protection in mind. Additional public access/pathways are absolutely needed now. It will ease the strain on other current access points nearby and help reduce car traffic along 30A. Parking at current public access points is often impossible without using the shoulder for parking on 30A.

Just like the customary use battle for access to our beaches, our state parks/beaches are meant for the use and enjoyment of all. It is common knowledge that Walton County is on the hunt to buy millions of dollars worth of additional land to provide beach access to our valued coastline. Walton County has more visitors and residents than can fit in the few public access points to public beaches particularly on the west end 30A. Our coastline is a huge attraction to locals, people all over the country and world. It provides tax dollars. Topsail Hill Preserve State Park has 3 miles of beach with very few people who go to the trouble of going to the main entrance, parking, waiting on the tram schedule and getting down to the beach. It is surprising to me that there's only one boardwalk to the beach in a park the size of Topsail Hill Preserve.

The current plan proposed includes detailed work with state biologists and leading environmental experts, that can withstand any level of scrutiny. This particular park deserves this love and care devoted to it with the goal to share it with all but in a way that preserves it's ecosystem. It deserves to be shared, showcased and admired.

You probably know that South Walton County has been listed in National Geographic Traveler as one of 7 premier 2019 destinations in the world for nature lovers. What an honor to be included in a list with the Amazon and Tahiti. Our beautiful State park is a recognized gem on Florida's South Walton coast and is meant to be offered to our state's residents and visitors to enjoy and appreciate. People are going to continue to flock to our area likely in larger numbers. Change is coming and lots of people with it and lots of tax dollars! Let's prepare and preserve. The current plan proposed gives an opportunity to move productively forward with change and not reactively against it.

Thank you so much for your time,

Elizabeth Wood

Hi Daniel-

Here are my comments pertaining a second beach access through Topsail Hill Preserve State Park:

This same issue came up a couple years ago and I provided comments in opposition then as well. I can't remember if it was written or verbal comments. This area is a Preserve, which from my understanding has a smaller allowable development footprint than other state parks. Former park staff have told me that only 5% of Topsail is allowed to be developed and they have already hit that mark. I am curious to know if this still applies. Since this park was purchased for preservation at the request of Floridians, it should stay that way. It was the intent of Floridians to protect the natural resources this park provided while the surrounding area succumbed to intense development over the years. This park contains Federally protected species such as the Choctawhatchee Beach Mouse (CBM), nesting sea turtles, and wintering shorebirds. Additionally we work closely with FWC to ensure the needs for state protected nesting shorebirds are considered as well. The proposed boardwalk is projected to go through critical habitat for CBM and empty out onto the flat beach used by birds and sea turtles. Ordinarily a boardwalk or walkover from a private house or commercial structure to get over the dunes and out to the beach is considered a conservation measures. This boardwalk falls into a different category because this part of the park is currently contiguous and not bisected by any kind of structure, nor is it private property that triggers property rights issues. This is not a conservation measures because the alternative is to have it natural and intact is better. CBM is likely the most endangered species found in Topsail SP and the management plan dictates that CBM habitat and usage be considered when park projects are planned on or nears the beach or dunes. Not only would this boardwalk bisect the contiguous habitat, it would direct more people onto the beach at higher densities than currently experiencing. Currently, if you want to experience this portion of the beach, you are required to put some effort in and walk. Not many people choose to do this, so there is less pressure on the habitat and the species. There is a halo effect for habitat disturbance from a boardwalk and people exiting the boardwalk, this halo of disturbance increases fragmentation at those points. Fire management of the habitat will also become more difficult as you will have to take precaution not to burn the boardwalk. So either more habitat would be impacted by making a firebreak or the habitat would become more overgrown due to lack of management.

For CBM, this park is the largest tract of intact coastal dune habitat in the western portion of this range. It is imperative that CBM are able to traverse the entire habitat limits within the park. The struggle happens when the mice try to expand within their native range to other parks; such as Henderson, Deer Lake, Grayton, and St. Andrews. The habitat off park lands are so fragmented and altered that it is impossible for CBM to naturally traverse their historic range without human management assistance. Currently, the Topsail CBM population appears relatively stable, however a couple years ago there was a concerning dip as noticed by our monitoring efforts. Of more concern at the moment is the possible extirpation (or near extirpation) of CBM at all or portions of Deer Lake and Grayton SPs. Agency and land managers will be discussing this issue soon. At the core of the discussion will be

impacts related to human use. CBM can not afford any more impacts to the core conservation lands without putting us on a direct path towards localized or range-wide extinction. CBM were extremely impacted in the eastern portion of their range by Hurricane Michael, this area was previously the stronghold for CBM.

Other concerns with this access are the increased amount of trash that comes with an increase in human use, an increase in predators that follow human use, and the precedent it could set by opening up a separate access through a State Park at the request of a few people.

A lot of support for the new access was from the public claiming that both additional public use and conservation can be had; that their needed to be a compromise. Coastal wildlife has already had to compromise more than humans, which is why they are left with postage stamp sized habitat alcoves among a vast coastline of development. Wildlife can not continue to give up their habitat in favor of human use, there simply isn't enough of it left. However, if the State Parks or Walton County want to discuss better places for additional public access and conservation opportunities, I would be more than happy to help. I am supportive of the idea of a passive, walking/biking beach access for the public located in an appropriate spot.

At the root of this issue is poor long term planning by the local government for public beach access. The State Parks can not be the back up plan to alleviate the lack of public beaches and accesses. State Parks are available for the public to experience a different sort of beach experience that is not always the easiest to access or has every amenity at arms reach. These parks offer a natural experience with limited human comforts. Specifically, Topsail offers a bike ride or tram experience as opposed to a beachfront parking experience with a short walk to claim your spot. That is how it should be at a State Park. This management philosophy affords endangered species the ability to coexist with human development.

I am also concerned with the illegal access that was mentioned as causing the need for this project. I strongly urge Topsail State Park to look into dealing with this another way. I would be more than willing to sit down with park staff to participate in these discussions if this access is causing impacts to CBM habitat.

There was also another potential option mentioned at the public meeting. That option appears to direct people onto lands the County purchased for CBM conservation with Federal dollars. I believe this option has also been explored in the past and that option is inconsistent with the purchase of that parcel. No photos were provided as to this other option, so I can not be certain the Federal grant parcel is the one mentioned.

I look forward to discussions related to Topsail State Park and Federally protected species.

Thank you for the opportunity to comment on this project.

Hi,

The Florida Park Service will be holding a public meeting on **Wednesday, December 5** to hear public comments and recommendations regarding beach access in Topsail Hill Preserve State Park. Everyone is welcome to attend. The format of the meeting will allow participants to speak for three minutes. For individuals wishing to deliver a formal presentation, please contact the Office of Park Planning in advance.

Rather than the DRP presenting proposals, the intention of the meeting is to hear and consider comments from the public. No decisions about public beach access will be rendered by DRP at this meeting. Written comments will also be accepted after the meeting until December 19. After all public comments have been considered, the DRP will proceed with drafting the unit management plan for the park. Following completion of a draft unit management plan and internal review, we will be returning to the public to receive further input on all land use and resource management proposals.

Please see attached for meeting details.

We thank you in advance for your interest in Topsail Hill Preserve State Park.

Dear Office of Park Planning, Florida Dept. of Environmental Protection,

I am a citizen writing to express my concerns regarding Topsail Hill State Park, which provides habitat to important imperiled species. All Floridians should have equal access to our state parks and I support a single public access point, which will ensure only monitored access into the park.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park.

Sincerely,

**Subject:** Vote for beach access on 30a Topsail Hill State Park  
**Date:** Monday, December 10, 2018 2:14:11 PM

---

I own two homes on 30a and it has come to my attention that the east end of 30a is in desperate need of Myra beach access and parking. Summers on 30a are insanely business and it's hard to find a place to park if you don't get there early. If you have same children forget about getting your parking place back after a midday nap.

30a is a treasure that we were thrilled to find and we want to preserve our area by having designated beach access and parking places. Tourism is huge for our area but we need to make sure that we keep things looking classy, safe and provide places for all of our beaches to be used.

Thank you.

Lisa Wightman  
38W090 Heritage Oaks dr  
St. Charles Il 60175

I currently live in Illinois but I own two homes, with my husband, on the east end of 30a near Topsail.

If you have questions feel free to contact me. Thank you for listening.

**Subject:** support of beach access at east end of Topsail Hill Preserve State Park  
**Date:** Friday, December 7, 2018 12:03:58 PM

---

Dear Mr. Alsentzer,

Thank you for the opportunity to offer in writing my support of the addition of a public beach access point through our public state park, Topsail Hill Preserve State Park.

I support the plan to put a public entrance on Austinwood Lane. This will provide a direct legal neighborhood access point to the inaccessible east end of the park with environmental protection in mind. Additional public access/pathways are absolutely needed now. It will ease the strain on other current access points nearby and help reduce car traffic along 30A. Parking at current public access points is often impossible without using the shoulder for parking on 30A.

Just like the customary use battle for access to our beaches, our state parks/beaches are meant for the use and enjoyment of all. It is common knowledge that Walton County is on the hunt to buy millions of dollars worth of additional land to provide beach access to our valued coastline. Walton County has more visitors and residents than can fit in the few public access points to public beaches particularly on the west end 30A. Our coastline is a huge attraction to locals, people all over the country and world. It provides tax dollars. Topsail Hill Preserve State Park has 3 miles of beach with very few people who go to the trouble of going to the main entrance, parking, waiting on the tram schedule and getting down to the beach. It is surprising to me that there's only one boardwalk to the beach in a park the size of Topsail Hill Preserve.

The current plan proposed includes detailed work with state biologists and leading environmental experts, that can withstand any level of scrutiny. This particular park deserves this love and care devoted to it with the goal to share it with all but in a way that preserves it's ecosystem. It deserves to be shared, showcased and admired.

You probably know that South Walton County has been listed in National Geographic Traveler as one of 7 premier 2019 destinations in the world for nature lovers. What an honor to be included in a list with the Amazon and Tahiti. Our beautiful State park is a recognized gem on Florida's South Walton coast and is meant to be offered to our state's residents and visitors to enjoy and appreciate. People are going to continue to flock to our area likely in larger numbers. Change is coming and lots of people with it and lots of tax dollars! Let's prepare and preserve. The current plan proposed gives an opportunity to move productively forward with change and not reactively against it.

Thank you so much for your time,

Elizabeth Wood

Dear planning board for Florida state park planning.

I recently stayed in a beautiful Home in gulf beach dunes. We loved being there but access to the local state park would have made our stay even more enjoyable. Having beach access would have helped our daughter, who is in a wheelchair, have more access to a closer beach. Walking with her and having the home close by would have made her day more enjoyable. Parking at the other beaches is difficult and usually full. Parking is far from the beach and made it more difficult for her and less enjoyable. Your state parks are so wonderfully accessible, except for parking.

I would hope that you would vote yes to making the top sail beach accessible by boardwalk. It would be lovely to walk through the park area on a boardwalk and see the dunes in their natural state. The local houses are well kept and I'm sure the dunes would be kept that way too in their clean and natural state.

Please vote yes to make this park easily accessible to the disabled.

I appreciate you're listening to a mom that would like her daughter to be comfortable doing just what the rest of her family is doing.

Thanks  
Maggie daPonte  
Georgia resident  
Hopefully a home owner in your area soon.

Dear Florida State Park Planning,

There are lots of homeowners on the east side of Topsail Hill Preserve State Park. Some have no beach access, yet the State Park has 3 miles of beach. The mission of the Park is to provide 'resource-based recreation' which clearly refers to the beach, in addition to lakes, etc.

I live within walking distance of the beach. In order for me to use the beach at Topsail, I am asked to drive 1 mile in the opposite direction, park and take a shuttle. The shuttle takes me to the beach that I could have walked to, if there were only a walking path. This is frustrating for those who are within walking distance. That includes a lot of homes.

A walkway over the dunes is an attraction in itself. You can go there for sunset, have your picture taken, but most importantly, see the beautiful dunes...among the most beautiful on the planet. What a shame that they cannot be seen and appreciated, due to the lack of a boardwalk.

The park has trails, but if a trail goes to the beach, somehow this is portrayed as a bad trail. This makes no sense. A boardwalk over the dunes protects the dunes. People make walk over the dunes with no boardwalk, but not if there is one. Protecting the dunes is something we all want, and you should do something about.

You actually have a second beach access that has no boardwalk. You walk through the dunes, not over them. If that is ok, then why not a boardwalk? And why is it located so far from anywhere that no one uses it?

The one boardwalk beach access is perfect for campers because the shuttle leaves from the campground. If you look at who is on the beach, it is campers. Topsail is a campground beach. It is not providing recreation for residents.

If is really hard for you to secure the park so that the only access is via the entrance. The fences are low and falling down in places. You can walk in from the north, east, south and west sides without jumping the fence. I think you should focus on the homes that are closest to the park, and allow at least pedestrians to walk into the park.

Point Washington Park had entrances all over the place, yet Topsail wants to be fenced off?

My wife and I just joined the Santa Rosa Beach and Golf Club. We are willing to pay for a parking space next to the beach, and access to the beach. A lot of residents are probably willing to help pay for access to the Topsail Beach, but it has to be more convenient than driving to the entrance and taking the shuttle. For us, being able to walk to the beach would be the best.

A boardwalk over the dunes is going to benefit those who live closest more than it benefits those who live farther away. Is that a reason not to put in a boardwalk? That logic is faulty. If this is not put it because it will favor people living closer, then you made a bad decision.

I love nature. I don't want to do anything to disrupt birds and mice and turtles. But to go to the extreme wanting to keep people to a minimum is bad logic. This is a state park with a mission of recreation for people. You already have campers. Why do you favor campers over residents, who paid handsomely for their homes, while campers did not. To me that sounds like you are discriminating against residents.

One beach access is 10 feet wide, out of 17,000 feet of beach. This will have insignificant impact, just as the existing one has had no negative impact on birds, mice and turtles.

If the park needs money and people to get improvements made, why not created a funding mechanism for specific projects. I would help with that!

Andy

**Subject:** Additional Beach Access is need on the Eastern side of Topsail Park  
**Date:** Monday, December 17, 2018 9:11:35 AM

---

Good morning!

First, I want to say we can have both; we can have an access and we can have protection for Park plants and wildlife; it does not have to be one or the other. The Park's existing Unit Management Plan addresses the need to balance recreation with protecting animals and plants. It was never meant to shut out people. The opposition seems to think a Preserve Park is about animals and plants only. That is just not the case; there are preserve parks all over Florida that have boardwalks, many to the beach. In fact, boardwalks are embraced across this nation as the most ecologically sound way to transport people so that they can enjoy what Parks offer, I.e., Yellowstone and Yosemite.

I have been working on a possible beach access for seven plus years, and I want to share what I envision for this boardwalk.

I envision:

1. A stunning, ecologically sound, handicap accessible boardwalk across our treasured Park.
2. A way for nearby residents of 600 plus households to walk or bike to the beach without getting into their cars and congesting the roadway and other accesses.
3. A cherished destination for bikers up and down 30-A.
4. A public access with public parking so that residents from other areas of Walton County, as well as visitors, can enjoy the beach without having to maneuver customary use issues.
5. The opposition will see this boardwalk as a landmark public access that addresses their concerns and more; and I envision they will become regular users.
6. A hugely successful partnership between the Park and locals near the access to foster an environment that protects flora and wildlife in the Park. This will include training by the Park and interpretive signage to teach beach goers to be good stewards of the beach and of the Park.
7. An increase in local use of the Park, which is an ongoing concern for the Park.

THANK YOU!

## Additional public beach access needed at Topsail Hill State Park!

To Whom It May Concern,

I am strongly in favor of additional beach access on the east side of Topsail Hill State Park. My wife and I walk on the beach often, from Stallworth Beach Access to Topsail Hill State Park beach access. It is such a beautiful walk but with no additional way to access it, that part of the Park seems to be a waste. The State Park's motto is for people to enjoy nature and the beach. It would be nice to have an additional access to do this. Topsail Hill State Park is a wonderful facility, but it is difficult to access the beach from the main gate. As a local, it becomes problematic when you must enter the park, pay to get in, park your vehicle, wait for the tram, load your beach belongings, be driven to the beach and then finally wait for the tram when you are ready to leave. An additional access would be wonderful to learn about nature, trees, birds, and to sit and reflect on how lucky we are to have this State Park near us to enjoy. With the recent HB631 in affect, it is very difficult to find a place to take my family to the beach. With an additional beach access on the East end of the park, it would be so much easier just to be able to go the beach at one's leisure; Whether it was for an hour or a day.

As a local of Walton County, I ask that you please consider this plan so that generations can easily enjoy the beach year after year.

Thank You,

Bobby Surles

## **Additional public beach access needed at Topsail Hill State Park!**

My husband and I attended the customary use public meeting in November. We listened to Ann Tucker, chairwoman of the Muskogee Nation of Florida. She said how her people had walked the beach of Walton County long before Europeans enter Florida. She described how life was for her ancestors with regards to the beach. Ms. Tucker said that her ancestors MADE TRAILS in order to get to the beach. She told of how her people would fish for food and canoe along the water's edge; how they used salts from the water and the sand for healing purposes. Ms. Tucker said that Native American families enjoyed swimming at the beach for recreation. And how they would bring back shells to their families for crafts and their burial ceremonies.

We are NO different NOW.... ALL we are asking for is a TRAIL to the beach. It is still true today, we want to be able to fish, go to the beach for its healing purposes, canoe to get from one place to another, and swim for recreation with our families.

This boardwalk would not only provide a LEGAL TRAIL, but it would serve as a shelter to the beach mice and other wildlife.

So, in closing, PLEASE put this boardwalk or TRAIL on the state's agenda so that we may continue to enjoy the beach just as the Native Americans did before us.

Thanks for your consideration!

Pennye Surles

Hi there,

I am writing you today to voice my avid support of the proposed beach access near Cypress Dunes on the west end of 30-A in Santa Rosa Beach, Florida. As a Florida resident and co-home owner with my parents, we absolutely love coming to the area at least every other month. We have a lovely community, with wonderful people leading it, all that is missing is a beach access allowing us to take our awe/appreciation of the area to the beach!

I was stationed at Hurlburt Field for two years and lived on 30-A while there. For six months of my time on station, I was deployed to Iraq and can promise you I thought of our community and the beautiful beaches there the entire time I was deployed.

I do not truly understand the basis for such adamant and sometimes disrespectful opposition, but ask that you evaluate this decision based on what is best for the community, economy, and stewardship of what I consider the most beautiful place in our country.

Best,  
**Emma**

To whom it may concern,

My family and I have a residence in the Sandestin area and also have owned a townhouse on 30a. I love the area and I have watched it blossom into the greatest vacation/living area in all of the south. As we all know when areas like this become popular, access to the beach becomes a major issue. We have actually thought about selling and moving to the Carolina's for the lake life but cannot leave the beautiful area of Santa Rosa Beach. With that said I support the endeavor to add the new board walk to western end of 30a giving families the chance to see and use the wonderful beaches. I did note that it will have wheel chair and handicap access. This will be a blessing for my and all elderly folks to seek and cherish great memories with their families.

Thanks

Hello,

I am emailing you today with my support of building the beach access pier in "Hidden Dunes" we have had a family friend living there since the beginning and as I have just turned twenty, I can tell a difference with the sizes of the dunes overtime from people walking them and slowly destroying them. Those dunes are a major asset to the protection of the wildlife and people living on the Florida coastline. I think the beach access would not only help protect those dunes for the future, but also bring the market value up for the homes surrounding which is another positive factor for the homes/neighborhoods around. Please take me and others consideration for this beach access seriously and think about the future of the area for generations to come. Thank you for your time.

Best,  
Noah Custer

Hi! My name is Chris Harrelson and I live in Destin, FL. I am writing to encourage the approval of an additional beach access at Topsail State Park. I visit the beach on the western end of 30A often and often find that the existing accesses are very crowded. As our area grows, so does the need for people to be able to enjoy our beautiful beaches. The State of Florida does a great job in creating and maintaining its' parks. This addition would be another fine example of the good work the State does to keep up with growth. Thank you very much.

I attended the recent meeting on a second beach access through the park. I believe the proposal made by local citizens is a great idea for the park to make money and the neighbors in the area to get a more convenient access to the park and the beach. I heard the familiar cries from some citizens about fragmentation and destroying vegetation etc. These are the normal tactics of this group whether it the park or some local development. They would like things to be the way they were 20 years ago and they attempt to stop progress in any way they can dream up. Most of their statements about doom and gloom for the park simply are not true. I believe you all are smart enough to figure that out. I also believe that a boardwalk can be built which will protect both the environment and any endangered wild life in the park. This is not an all or nothing decision a boardwalk can be constructed at no expense to the state I might add and in an environmentally sound manner to protect the natural habitat in the park. This is an amazing opportunity for both the neighbors and the park. Please give it favorable consideration. Do not be fooled by the naysayers who will mount a campaign of people emailing you who have no standing in this matter whatsoever.

Hello:

I own an interiors support business in Destin and also have owned property on Hwy 30-A and Panama City Beach. I understand that you are considering a new board walk beach access in the Cypress Dunes area. I think it is a great idea! There has become less and less public access in the area as beach front owners are enforcing their ownership and trespassing rights on beach visitors and as a result the current accesses are over crowded. An additional beach access that not only allows more flow to enjoy the beach but also provides a regulated and painted boardwalk access that protects the landscape.

Again, I think beach access in this area is a great idea. For further input please don't hesitate to contact me.

Best,

---

Dear Florida State Park Planning,

As a frequent visitor to the west end of 30A I have noticed that it would be so nice to have more access to the beaches in that area. I have heard about the beach access that is being discussed to go through the Topsail State Park and just think that is a wonderful idea and location. My husband and I hope that you will be able to implement the proposed plan. It would be wonderful to be able to walk on a boardwalk through the park and see all the amazing nature on our way to the beach. What a great way for man and nature to blend in together in a way that is not harmful. We hope that this is something that can be accomplished soon.

December 18, 2018

To whom it may concern:

My family and I have been vacationing in Destin, FL- HWY-30A areas for years. We even had a condo there one time. My grandparents live there now. Every time we go lately it gets harder and harder to access the beach. There is one access down from my grandparent's home that we used to go to but all the neighbors started complaining about parking so they took all the parking away. If we want to use it we have to walk there which is a really long way. We went to one beach access last time we were there but we could only stay on this very slim strip of the beach because the owners on either side said that the beach in front of their homes were private so we couldn't walk the beach.

I hear that you are now considering adding a beach access in the Cypress Dunes area. I am all for it. We need more places for people to go and really enjoy the beach. That's why we go there. Also, I think it's important to have accesses that people can use safely and not harm the beach environment. I really like seeing the deer and small animals in the natural habitat and getting to observe that while I walk to the beach sounds like a really good plan.

I hope you approve the beach access at Cypress Dunes. Thank you for your consideration.

After careful review of proposed plans and evaluation of comments made at the 05 Dec 2018 public meeting, South Walton Community Council (SWCC) has decided to oppose construction of a beach access through the state park, based on the following considerations:

1. The proposed beach access benefits Cypress Dunes and neighboring developments but does not serve the interests of the general public. We do not believe the public is going to park at the lot adjacent to 30A and then walk over one mile to a beach that has no facilities.
2. The existing beach access at the state park is more than adequate to serve the needs of local neighborhoods as well as the general public.
3. We support comments made at the meeting regarding protection of natural habitat. This must remain a top priority.
4. Unmanaged access to the park would be detrimental to the park and would create operation challenges; controlled access would be prohibitively expensive.

South Walton Community Council remains committed to protecting Topsail Hill Preserve State Park from unwanted and unnecessary development, and we are willing to help any way we can.

Thank you.

**Date:** Wednesday, December 12, 2018 10:08:07 AM

---

Dear FL Parks Planning Committee,

Thank you for what you do.

When has beach access ever been a bad thing?

Beach access is good economically, is good for those who want to preserve flora and fauna and it's safer.

**Financial Plus:** Beach access will make a higher percentage of rental properties more desirable which increases sales tax revenue.

**Environmental Plus:** Beach access funnels people onto one path so that there is less free range traffic.

**Safety Benefit:** Beach access is safer for the public because it limits haphazard paths of pedestrian traffic.

This should be a no-brainer vote for another beach access near Topsail Park.

Thank you,

Kathy Danner - frequent vacationer.

**Date:** Friday, December 14, 2018 6:03:14 PM

---

To Whom It May Concern:

My parents, Mike and Becky Geihlsler live in Cypress Dunes and have kept me informed of the proposal to add public beach access through Topsail Hill State Park. As a regular visitor to Cypress Dunes and future co-owner of the Geihlsler property, I am in favor of adding public beach access through the state park for these reasons:

1. Public access will benefit the entire community and visitors to the community.
2. People are already crossing to the beach illegally and ruining the protected dunes and natural environment. Let's put an end to this by creating an environmentally-friendly path to the beach. My kids love the natural beauty of the park and I would hate for it to be continue to be ruined by illegal trespassing.
3. New public access through the park will provide relief to other over-crowded beaches in the area.
4. The funds for the project are already committed by a private entity.

Please consider this project and approve it as it will be a win for the park and the community.

Thanks,  
Brian Geihlsler

My name is Becky Geihlsler, a permanent resident of Cypress Dunes subdivision located near Topsail State Park. I am writing in FAVOR of additional beach access through the park, particularly near the west end of 30A. Contrary to what the opposition has stated, my reasons for support are not because I want to increase my property value or gain closer beach access for me personally. Instead it is to offer better protection of the sand dunes and wildlife in our particular area of the park, as well as give additional public beach access to all Walton County residents:

1. Our house backs up to Topsail State Park, with a chain link fence as a boundary between us and the park. On countless occasions we have witnessed walkers in the fire break on the park side of the fence walking to the beach on a visible but unauthorized “worn” footpath that can be seen from our house. This means the users of the footpath are repeatedly walking over protected dunes as well as disturbing wildlife and vegetation on this footpath. My husband and I have reported these “trespassers” several times to the park staff, but the usage of this footpath continues. In my opinion, a raised boardwalk would offer much better protection of the dunes and endangered wildlife in this area of the park.
2. We use the park entrance frequently to get to the beach. The distance from the main parking lot to the beach is quite lengthy. We often utilize the tram service, and are thankful for the numerous volunteers that drive the tram shuttle. However, with increased public usage of the park, we are noticing the trams are getting more crowded, especially in the summer, and waiting times to return to our vehicles can be extended up to an hour. And unfortunately, that wait time is not able to be spent on the beach, because we’ve already packed up and carried our beach gear to the tram stop. Another raised boardwalk would allow the public to independently walk on a protected path to and from the beach without dependence on the tram service.
3. We love Topsail State Park and want the public to enjoy it for many years to come. I agree with protecting endangered plants and wildlife, but I also think we need to have more access points for the public to be able to enjoy the beautiful beach within the park - it’s about balance. I believe the proposed boardwalk would help to achieve this balance.

Thank you for your consideration,

Becky Geihlsler

**Date:** Monday, December 17, 2018 10:36:51 PM

---

Please do not grant Cypress Dunes' request for a second access to Topsail Hill Preserve State Park. Essentially, they are asking for a private access for themselves. At the public hearing on Dec. 5, they presented some 200 petitions from people outside of Cypress Dunes who said they would use the access. But Cypress Dunes is a gated community, so no one from outside the development will be able to come through and use the beach access.

The supporters of this additional access say that residents will buy an annual pass to the park. But with no one to monitor who goes onto the beach from Cypress Dunes, there is no guarantee that they will not allow family or friends access to the beach without paying the entrance fee. This could cause the park to revenue that it needs to maintain park facilities.

To whom it may concern:

My parents, Mike and Becky Geihlsler live in Cypress Dunes, and I am aware of the proposal to add public beach access through Topsail Hill State Park. As a regular visitor to Cypress Dunes, I fully support adding public beach access through the state park for the following reasons:

- This proposed beach access point will be **public**. Cypress Dunes residents as well as the general public will benefit from the increased access.
- Other public beach access points on 30A are extremely crowded during the summer season. Additional access would help alleviate the strain on these areas of the beach.
- I have personally witnessed regular occurrences of illegal access to the beach when visitors ignore signage, hop the fence, and cross the dunes to get to the beach. Additional, legal beach access would prevent many of these illegal crossings and help protect the dunes.
- Lastly, the funds for the project are already committed by a private entity. Walton county, Topsail Hill Preserve State Park, and the State of Florida would not be required to fund this project.

Please approve this project because it will benefit the community as a whole by both increasing access to and protecting the park's natural beauty.

To whom it may concern,

We love to come to the beach, and especially enjoy Topsail Park as well as the surrounding area.

However, there is a serious lack of parking space at Dune Allen. I don't know about you, but it is quite a bummer to spend a great deal of effort to travel and pay the expenses of a nice family vacation and not be able to directly access the beach. What a luxury and draw this would add to the area. Who wants to have to get in their car and load all the "stuff" and drive? We surely don't. An access would also encourage foot traffic and a scenic, relaxing way to spend time going on a walk with the kids or on a romantic stroll.

Please do seriously consider adding this valuable access to such a beautiful destination.

Thank you for your time,

Angela Raynaud

advocating for another beach access near Topsail Park. It need not be more than 3 sentences, mentioning such things as: lack of parking space at Dune Allen, the desire to be able to walk to the beach without having to drive, using a boardwalk as an opportunity to view wildlife, plant life up close, place to stroll with grandchildren, etc.

Many Blessings,

Angela

**Subject:** Please approve a Topsail Hill Preserve State Park public beach boardwalk  
**Date:** Tuesday, December 18, 2018 8:02:09 AM

---

Hello,

I understand you are considering the local community's request for a public boardwalk providing beach access through the park.

My parents are full-time residents of the local community, and when my family comes to visit them, we frequent not only your park, but the surrounding beaches several times per year. I see this boardwalk as a win-win to address several concerns voiced by both the park and locals:

1. On a daily basis, we already see people illegally jumping the existing fence, ignoring signage and walking to the beach across the dunes. Not only is this extremely dangerous for several reasons, but it's detrimental to the dunes as they are being trampled. A public boardwalk would address both the safety and environmental concerns.
2. The boardwalk is going to be funded 100% by private donations from the local community, so there will be no public funding required.
3. This will address the problem of beach overcrowding at other nearby beach access points.
4. By providing a bike/wheelchair friendly beach access option for many households who would otherwise take a car or golf cart on 30A to get to the beach, traffic on 30A would be reduced. Of course this also reduces the carbon footprint of the local area.

Having a public beach access so close to my parents home would be a phenomenal improvement to the local area. We've all longed to walk to the beach as a family, and as of today it's just not feasible. I can imagine there are several other local families who have the same wish as evident by the daily occurrence of walking across the dunes.

Thank you for allowing me to share my thoughts and for your consideration of the privately funded, public boardwalk that would be of huge value to the environment, the local residents, and the state park! I ask that you please approve this motion!

Greg Geihlsler

Hi,

I am a weekly visitor to Topsail Hill Preserve. I was using the preserve even back when the other entrance (unmanned) on Hwy 98 was still accessible. This access point is now closed and I have had zero issues using the single point of entry into the Preserve which is monitored/manned.

There is NO need for additional access into Topsail Hill Preserve. Even during the busy summer months, there is no congestion, no need for additional access into the park.

Please preserve this crown jewel of the Florida Panhandle. Keep it single access.

Thanks so much for all of the work you all do to keep our unique and beautiful state the wonder that it is.

To whom it may concern, my name is Judy Jurgenson and I have been coming to Santa Rosa Beach from upstate New York for the past four years. I stay in the community of Cypress Dunes off of 30a. It would certainly be very advantageous to have public beach access from within Cypress Dunes. I have found during my visits that there is very limited parking at Dune Allen beach, sometimes no parking is available at all. Depending on the time of year the trolley service is no longer running. I believe that last year the trolley service was not even in operation. Since tourism is the major attraction in Santa Rosa Beach, it seems only fitting that additional beach access be approved and I hope that you will see fit to do this. I am certainly in favor of this proposal. Thank you in advance for your time in this matter sincerely, Judy Jurgenson

Re: Walton County/Topsail Preserve State Park Beach Access Issue/Comments

To Whom It May Concern,

I want to speak to the request by private parties and potentially Walton County to construct a beach access that originates outside of the Topsail boundaries, and goes through the Preserve and to the beach.

Topsail has been described by DRP as protecting “perhaps the most outstanding assemblage of natural communities on the coast of the Florida Panhandle.” Those 16 natural communities collectively compose a biologically diverse, fragile and complex ecosystem that supports life for plants, mammals, birds, including migrating birds, amphibians, and numerous other species. As development continues to destroy surrounding habitat, the sanctity of the preserve becomes even more critical for the vibrant survival of keystone species such as the gopher tortoise and critically endangered Choctawhatchee beach mouse and all the other species which are a vital part of the environmental diversity and alluring beauty that makes Topsail priceless.

Topsail was purchased and designated as a Preserve. The RV section was purchased after the acquisition. As stated in the current UMP, in the management of Topsail Hill preserve State Park “preservation and enhancement of natural conditions is all important. Resource considerations are given priority over user considerations and development is restricted to the minimum necessary for ensuring its protection and maintenance, limited access, user safety and convenience, and appropriate interpretation.” (PG 5 2007 UMP)

Topsail already has two beach accesses which can be accessed by walking or biking from the public parking area. Additionally, there is a tram which takes people to and from the larger beach access. Both accesses have a covered picnic area. The tram access has restroom facilities. Being enclosed within the park, the two accesses and the behavior of users can be supervised by park personnel as needed to ensure Preserve habitat, upland and dune areas, remains protected and users have a safe visit.

There has been an effort for a number of years to get the state to approve another beach access from a privately owned parcel in a neighborhood adjacent to Topsail or from another parcel currently privately owned and allegedly to be purchased. The requests are for another beach access to originate outside of the Topsail boundaries in order to access the county-owned parcel directly to the east of Topsail, (the “Stallworth parcel”). All of the requests have proposed an access that requires the destruction of habitat in preserve areas including areas designated as critical habitat for the Choctawhatchee Beach mouse by USF&W and a Strategic Habitat Conservation Area by FFWCC.

I feel that all of these proposals are inconsistent with the primary purpose for which Topsail preserve as well as the Walton county parcel were purchased. Regarding Topsail, the DRB biologists’ impact analysis prepared pursuant to a 2014 request for a new access by Cypress Dunes subdivision describes the biological sensitivity of the area through which various parties want to put a long boardwalk and the construction and user impacts on the ecosystem including beach dune impacts.

The county Stallworth parcel was purchased with grant funding, including substantial funding by USF&W. The documents indicate a purpose of the grant is to “foster endangered species protection

through the acquisition of suitable habitats and management in a manner consistent with species protection.” The Management Plan for the parcel is very specific as to the minimal disturbances allowed for human use. Among other things, it prohibits any trail that will lead into the dune system as “that would impact not only the Choctawhatchee Beach mouse but also other endangered or threatened species.” I do not feel that any of these proposals would fit within the purpose and criteria expressed in the grant documents and management plan. Obviously, USF&W must be involved in the proposal reviews.

Additionally, documents for the county parcel discuss access to that parcel and state “(t)he primary access is identified as the Beach Highlands or Stallworth, public beach access (approximately 300 feet west of the property) has 7 parking spaces, a bike rack, dune walkover and shower.” It should also be noted that in the Beach highlands area there are two other county accesses on Highland Avenue (TDC 43A and 44) and a fourth access being developed across from Woodward Drive on 30A. (approximately .4 mi from the Stallworth parcel) The Stallworth parcel is also accessible from the Topsail accesses as well.

Essentially what is being asked of the DRP and the State is an access from a parcel outside of the park boundaries, using a long boardwalk that parallels the two existing accesses in the park, a boardwalk which, by its very nature, requires the destruction of and fragmentation of protected habitat. It also subjects species in a preserve area to perpetual encroachments by users of the boardwalk, including getting off the boardwalk, noise, litter, domestic animals, etc., the edge effect. (N.B. At the recent public meeting one speaker indicated the round-trip boardwalk distance was approximately 3,000 feet)

I feel that the argument by proponents that the boardwalk is needed due to the county public beach customary use issue is unsupportable. Customary use is the issue of public use of dry sand beach areas claimed to be private by the upland owners. This is a request for a new access to existing public beach areas which are already accessible by five public beach accesses.

Additionally, this request comes at a time when the county is publicly acknowledging the need to develop a more comprehensive beach shuttle network to get the public to the county beach accesses. Additionally, the County’s Comprehensive Plan mandates that “the county shall continue the acquisition of beach and shoreline access through fee simple purchase...” The county must solve any shortcomings in access to the beach and not rely, as Walton County often does, on persistent attempts to use state lands purchased with conservation grants for county planning shortcomings.

This is an instance when I suggest, as the Topsail UMP provides: “Resource considerations should be given priority over user considerations”. With two accesses, facilities, including parking within Topsail I feel the park has amply provided for and has done its fair share in providing public access to and use of public beach areas by the general public. People have options on where they live and those who do not live gulf-front have availability of accesses to all of the public beach areas. The species who live in the preserve have only one option—a habitat that we zealously protect to ensure their survival in the fragile web of life.

Thank you for your consideration.

Anita Page  
Walton County resident

. which located so as to minimize impacts on pristine areas. were able to be located using areas that were degraded at acquisition. THE \_\_\_\_\_ park service does a good job in locating the minimal development allowed utilizing existing degraded areas.

Another access

People who do not live on gulf front parcels, which are overwhelmingly most of the people here, have to get to the beach

Animals and other non-human species are limited in where they can live. They must have a healthy habitat to survive. As development continues exploding, the survival of animals and other non-human species do not have , including vegetative as well as animals, invertebrates, etc. however,

Consideration of an additional beach access requested by one or more members of the public must be weighed in terms of the purpose for which Topsail Preserve was acquired, the known and potential impacts of another beach access on the fragile and diverse habitat of multiple species and

necessary for ensuring its protection and maintenance, limited access, user saw

necessary for ennnnnn necccccneccsnecessary for ensuring its protection and maintenance, limited access, user safety and

I am in opposition to any additional beach accesses to Topsail Hill Preserve State Park. Currently there are two beach access areas within Topsail which are accessible from the park parking lot off CR 30A. There are 3? Walton County beach access es within \_\_\_\_\_ of the County beach parcel which abuts Topsail beach on its east border.

A significant portion of Topsail is categorized as a "Preserve". Previously the state categorized state lands regulated by FDEP as Preserves, Parks and Recreation Areas with. Topsail was originally designatd ad a Presrve.....The "Park" designation was added with the purchase of the RV campground. There are distinctions between the management goals and objectives of a Preserve versus a Park.

In purchasing the RV park as part of Topsail Preserve and in allowing more park-like impacts in areas close to areas of preservation my concern is that the preserve areas may be ultimately assimilated into the park development standards which allow much higher human impact activities.

As development continues to explode in this area, the state preserve lands are fast becoming the last options for the survival of many native habitats and species. Multiple use of our conservation lands should not include improvements that further degrade or destroy the ecosystem. At some point, the development of

future human impacts in new areas of the park or the preserve must be curtailed to allow non-human species and their ecosystems room and distance from human impacts to live. Impacts for human convenience or to simply further enhance recreational use, e.g., vending on the beach, or to satisfy those who want a closer access from their property must be denied. Changes in day use area should be designed to work within footprint of existing disturbed areas. No additional access into the park, including boardwalks, should be considered.

**Subject:** Topsail Hills State Park - Audubon FL comments on park access

Hello Daniel –

Audubon Florida's comments on a proposed additional park access point through the Cypress Dunes residential area are stated in the attached letter. Thank you for the opportunity to comment on this important issue.

Marianne

RE: Beach access through Topsail Hill Preserve SP

Dear Mr. Alsentzer,

Thank you for the opportunity to comment on the access to the public beaches through Topsail Hill State Park Preserve (Topsail). It is Audubon Florida's position that having a single, staffed access point to the park, as currently implemented, is necessary for visitor oversight and best possible management of the park's sensitive resources.

In Walton County, imperiled shorebird species are almost exclusively found nesting along State Park beaches. Topsail currently supports the nesting of state-threatened Snowy Plovers and Least Terns. These species are sensitive to disturbance from humans, native predators, and pets due to the birds' behavior of nesting directly on the sandy beach. Multiple beach accesses to the park will fragment the currently intact habitat and provide more opportunities for beachgoers to disturb currently isolated nesting sites. Additionally, it will facilitate the likelihood of beachgoers bringing pets to the park's beach unnoticed, setting up foreseeable impacts to nesting birds.

The park's current single access point allows all park visitors to be greeted by park personnel and provided with pertinent information regarding site management, outreach opportunities, or events for that day. Additional unstaffed access points will prevent park personnel from adequately overseeing park visitors by speaking to individual visitors as they enter the park with regard to park rules, particularly, bringing pets on the beach.

The current Cypress Dunes proposal claims to be a public access, however, it does not address access, restrooms or parking facilities for non-residents to use, setting up a situation for additional degradation of habitat and unsanitary conditions. Finally, a new access point for a single residential community will create a precedent for future access points for other stakeholders, degrading sensitive natural habitats through primary and secondary impacts in numerous areas throughout the park.

Sincerely,

Marianne Korosy, Ph.D.

Hi,

I appreciate if you can consider an additional beach access through Topsail Hill State Park for people living along 30A past Butler Elementary School.

Thanks for your consideration and attention to this message,

Hello

I'm writing to voice my enthusiastic support of additional beach access via Topsail Preserve. I have been to the meetings and heard the opposition. I would like to state firsthand that despite what one woman said, I have never made it from my house to the tram access in 3 minutes and 27 seconds. In fact, it's far more often that I will wait upwards of 5 minutes just to make it past the check-in point. Over the summer there were several times that we got held up behind several cars and took over 15 minutes just to get through and park, thereby missing the tram. My father is handicapped and when this happens, we either have to wait an extended period of time for the next shuttle or just go home. If we had more public access, we could still bike ride to the beach long before the tram could get there. On days like what I have described, it's just not feasible to go home, load up the bikes, drive back/park and then ride to the beach. It's way too much effort and far too exhausting for people like my father.

I am an avid nature supporter. I used to lead Alternative Spring Break trips down from the University of GA annually to perform community service in the early to mid 2000s in the state parks (Grayton Beach, Deer Lake, Camp Helen). While I certainly wish to protect the environment and threatened species, I believe that we can co-exist and share the park in an environmentally responsible manner. I believe the first step is building a handicap accessible, environmentally conscious access that will provide access across the dunes to protect the species living below so that they are not continually trampled.

---

I have been lucky enough to be spending almost every weekend in South Walton since 1981. Two years ago my wife and I looked all over the US to see where we wanted to settle down and raise our small kids. Luckily we both agreed that there is no better place than 30A to call home. The quality of life is unmatched. One of the things that makes 30A special and unique is the preservation and careful attention to development. Thanks to 40% of South Walton being set aside for preservation plus the County having strict building height limitations, paying close attention to storm water run off calculations, and enforcing density limitations, 30A maintains an exceptional balance that you do not have in any of our surrounding areas. This balance helps preserve the natural beauty of the area.

With time and word of mouth, the number of people wanting access to the natural beauty has exponentially grown. Tourism is the back bone of our local economy. Without tourism, this area will suffer and 30A loses the quality of life that attracts so many people here. If it were not for the passing of House Bill 631 and resulting controversy and unknown fate of Customary Use Beach Access, I would not be writing this letter asking for any and every safe option of beach access be analyzed for feasibility of preservation and enjoyment of the beach.

We choose to live on the west end of 30A to be close to Butler Elementary. Most of my almost 40 years of 30A beach access has geographically been spent all along the areas between Seaside and Inlet Beach. Never did I realize how bad West End 30A beach access was until I moved here full time.

I beg you guys to look at a map of public beach access points - both regional and neighborhood access points. Visit South Walton has a map on their website at <https://www.visitsouthwalton.com/beach-and-bay-access-locations>. Please take the time to look at these locations on the tax assessor's website as well to see just how much access the public has on these access points.

My focus in this email is the west end of 30A between Highway 98 and 393. Lets start on the west side of this and work our way east.

1) Topsail beach access doesn't even show up on Visit South Walton map even though the TDC has agreements in place for at least the last two years to encourage people to use Topsail with the TDC paying admission. I love Topsail, but this option for beach access doesn't work for my

family with kids (which is the largest tourist profile). I have two toddlers and a third on the way in the coming weeks. It does not work for our family for two simple reasons that are all kid related - restrooms and the tram. My three year old doesn't give us much notice when he needs a bathroom. If a tram just left, I don't have the flexibility of waiting up to 55 minutes to get him to a bathroom. I'm carrying him on my shoulder and running at this point. As far as the tram goes, I don't feel comfortable with my toddlers riding in anything without a secure car seat. I will admit that I am very protective of my kids, but they are not allowed to ride in a tram nor golf cart until they are big enough.

2) Stallworth Preserve - this is the county owned parcel that is only accessed from Stallworth Lake or through the gates of the Stallworth neighborhood. It would be a great beach access but there is no public access to it without a boat or paddle board that you somehow get into Stallworth Lake.

3) Beach Highlands - this is the option I use most frequently. There is little parking but luckily it is an easy bike ride (with the kids being in a safe bike trailer). Please take the time to look at the tax assessor's website to see the beach access point. The county's land stops at the last step of the boardwalk. The parcel to the east of the boardwalk owns all the sand from the last step to the mean water line. With house bill 631 passed, this parcel could stop the public from having any access to get below the mean water line for public wet sand beach access. This access point could disappear any day that the surrounding owners choose to cut it off.

4) Bullard - same story as Beach Highlands: county has no ownership to get the public to wet sand. A grumpy neighbor could shut this public access point down over night.

5) Dune Allen/Fort Panic - we are blessed to have this access point. Parking fills up quickly during season but fortunately it is feasible for us to get here on a long bike ride. Excellent restrooms near the beach and a lot of beach frontage.

6) Palms of Dune Allen - unfortunately since housebill 631 this is unusable. Vizcaya is in the middle of these access points and they own all the beach except the two small sliver of bookends that the county owns. The neighborhood of Vizcaya is one of the biggest supporters of privatizing the beach - they even have a paid employee on the beach to remind you not to enter their private land.

7) Ed Walline - This is another beach access point that we are blessed to have. Great bathrooms and lifeguards. However due to density and popularity, this fills up quickly.

So to recap this exercise, over the first 3.5 miles of Scenic Highway 30A there are only two beach access points that fit the largest beach going demographic- families with young kids. Please we need more useable beach access.

I believe that we can have both the boardwalk and nature preservation. Every day I look into my backyard that overlooks Topsail and smile as I see the magnificent sand dunes, golden eagles and bald eagles flying above, and a family of deer running along the fence line. I could dream of nothing more than a safe boardwalk that is educational, preservation, and public access to beach. I would love the opportunity to have educational stations along a boardwalk to help show my kids visual lessons on sea oats for dune preservation, beach mouse and their safety, coastal dune lakes and how lucky we are to have them, tree species, bird species, turtle preservation, history of Topsail as you see the namesake sand dune, beach safety/stewardship (rip tides, filling in holes, knocking down sand castles, staying off sand dunes, and leaving no trace) and highlighting how they can learn to best live within the natural beauty of environment that we are all lucky to call home in South Walton.

Please look into any and every opportunity we have to help preserve the nature, tourism, and quality of life that we are lucky to have on 30A. I am in full support of both the Austinwood Lane boardwalk down a fire break and the TDC partnership to run down the far eastern fire break over Stallworth Lake and onto the currently inaccessible county parcel of beach. I know any option that Topsail chooses would be fully vetted to preserve all of the environmental habitats that make up Topsail and South Walton and have full faith that we can have both.

**Subject:** Topsail Hill Preserve State Park - No second entrance  
**Date:** Monday, December 17, 2018 6:40:37 PM

---

Office of Park Planning -

We live in Beachview Heights overlooking the beautiful Topsail Hill Preserve State Park. Daily we watch the deer, birds and other wildlife enjoy their habitat. We would hate for the park's wildlife habitat be disturbed in any way and oppose building a second entrance to the park.

Those that want the second entrance are overwhelmingly the residents of Cypress Dunes, and of course they would love to have that additional amenity for their short term rental guests and themselves. It would be convenient for them and boost their property values and rental rates. But they claim that everyone on the west end is in favor of the additional entry and that is not true. Based on an informal survey of my neighbors in Beachview Heights, we don't want it and wouldn't use it if it is built. The Stallworth beach access is actually closer to us and when we want to get to the more secluded beaches within Topsail we ride our bikes to the main entrance of Topsail and use the great paths there. The proposed path requires that anyone outside of Cypress Dunes walk a very long distance to get to the beach. I'm sure Cypress Dunes will also request an opening to the path at the beach club area, which will be very convenient for them, but not for anyone else, myself included.

Our concern with the proposed additional walkover is that all the short term guests in Cypress Dunes will not respect the park for what it is, a preserve. Once they have an access through the park that is not monitored, they won't think anything of straying off the boardwalk to explore where they shouldn't. Visitors won't have the respect and ownership of the park that residents have. We already see people with kids walking in the park in front of our house, far from any legal entrance or path. The amount of trash, noise, and disturbance to the wild life will be significant. Where will people go to use a restroom? We highly doubt that Cypress Dunes will grant the public access to their beach club, which will be the closest restroom.

We think the beaches at Topsail as the prettiest available in the area and frankly we don't mind putting in a little extra effort when we want a less crowded beach and to see the dunes and wildlife instead of houses to the north of us. We would like to see the beaches there continue to be something special.

Thanks,  
Cathy Potter

**Date:** Sunday, December 16, 2018 10:13:03 PM

---

We live at 178 Sandstone Street in Santa Rosa Beach in the Beachview Heights subdivision backing onto the Topsail Hill Preserve State Park and adjacent to Cypress Dunes. We are for a beach access through Topsail Hill Preserve State Park if it is easily accessible to the public. We are against any beach access through Cypress Dunes as it will not be reasonably accessible to the public. As year-round residents with a young family, the current Topsail beach access is not practical or functional due to the distance from the parking lot to the beach entrance. Utilizing a golf cart/trolley to get to and from the beach with young children and beach gear in a timely fashion is not a reality and is avoided by most local families as a result. A more family friendly beach entrance through Topsail Hill Preserve State Park is definitely needed in this area, but the proposed Cypress Dunes location will not solve the problem or meet this need in our opinion. It is our belief that the entrance will only be accessed by those in Cypress Dunes and will be too difficult for non-Cypress Dunes residents to use. We frequent the Stallworth beach entrance and with the customary use in question and the Stallworth Preserve neighborhood unfortunately being generally unwelcoming; if that access were restricted in the future it would seriously impact our neighborhood and the entire area's ability to access the beach. We truly enjoy the beauty and untouched nature of Topsail Hill Preserve State Park but are very concerned about accessibility to the beaches for locals and average families. As much as we agree there is a desperate need for additional beach accesses in the Topsail area, the proposed Cypress Dunes location is not the solution. We sincerely hope that DEP will consider additional beach accesses through Topsail Hill Preserve State Park that are walkable/not requiring a trolley and that are not through a gated community.

In regard to the proposed beach access:

I have been vacationing in Cypress Dunes for several years and appreciate the beauty of the park and the area in general. This year, I bought a lot in phase 2 and intend to build there in the next 1-2 years. It looks to me that the proposed walkway has been well thought out so that nature is disturbed as little as possible. For that reason, I am in favor of the granting of beach access.

Re: Walton County/Topsail Preserve State Park Beach Access Issue/Comments

To Whom It May Concern,

I want to speak to the request by private parties and potentially Walton County to construct a beach access that originates outside of the Topsail boundaries, and goes through the Preserve and to the beach.

Topsail has been described by DRP as protecting “perhaps the most outstanding assemblage of natural communities on the coast of the Florida Panhandle.” Those 16 natural communities collectively compose a biologically diverse, fragile and complex ecosystem that supports life for plants, mammals, birds, including migrating birds, amphibians, and numerous other species. As development continues to destroy surrounding habitat, the sanctity of the preserve becomes even more critical for the vibrant survival of keystone species such as the gopher tortoise and critically endangered Choctawhatchee beach mouse and all the other species which are a vital part of the environmental diversity and alluring beauty that makes Topsail priceless.

Topsail was purchased and designated as a Preserve. The RV section was purchased after the acquisition. As stated in the current UMP, in the management of Topsail Hill preserve State Park “preservation and enhancement of natural conditions is all important. Resource considerations are given priority over user considerations and development is restricted to the minimum necessary for ensuring its protection and maintenance, limited access, user safety and convenience, and appropriate interpretation.” (PG 5 2007 UMP)

Topsail already has two beach accesses which can be accessed by walking or biking from the public parking area. Additionally, there is a tram which takes people to and from the larger beach access. Both accesses have a covered picnic area. The tram access has restroom facilities. Being enclosed within the park, the two accesses and the behavior of users can be supervised by park personnel as needed to ensure Preserve habitat, upland and dune areas, remains protected and users have a safe visit.

There has been an effort for a number of years to get the state to approve another beach access from a privately owned parcel in a neighborhood adjacent to Topsail or from another parcel currently privately owned and allegedly to be purchased. The requests are for another beach access to originate outside of the Topsail boundaries in order to access the county-owned parcel directly to the east of Topsail, (the “Stallworth parcel”). All of the requests have proposed an access that requires the destruction of habitat in preserve areas including areas designated as critical habitat for the Choctawhatchee Beach mouse by USF&W and a Strategic

Habitat Conservation Area by FFWCC.

I feel that all of these proposals are inconsistent with the primary purpose for which Topsail preserve as well as the Walton county parcel were purchased. Regarding Topsail, the DRB biologists' impact analysis prepared pursuant to a 2014 request for a new access by Cypress Dunes subdivision describes the biological sensitivity of the area through which various parties want to put a long boardwalk and the construction and user impacts on the ecosystem including beach dune impacts.

The county Stallworth parcel was purchased with grant funding, including substantial funding by USF&W. The documents indicate a purpose of the grant is to "foster endangered species protection through the acquisition of suitable habitats and management in a manner consistent with species protection." The Management Plan for the parcel is very specific as to the minimal disturbances allowed for human use. Among other things, it prohibits any trail that will lead into the dune system as "that would impact not only the Choctawhatchee Beach mouse but also other endangered or threatened species." I do not feel that any of these proposals would fit within the purpose and criteria expressed in the grant documents and management plan. Obviously, USF&W must be involved in the proposal reviews.

Additionally, documents for the county parcel discuss access to that parcel and state "(t)he primary access is identified as the Beach Highlands or Stallworth, public beach access (approximately 300 feet west of the property) has 7 parking spaces, a bike rack, dune walkover and shower." It should also be noted that in the Beach highlands area there are two other county accesses on Highland Avenue (TDC 43A and 44) and a fourth access being developed across from Woodward Drive on 30A. (approximately .4 mi from the Stallworth parcel) The Stallworth parcel is also accessible from the Topsail accesses as well.

Essentially what is being asked of the DRP and the State is an access from a parcel outside of the park boundaries, using a long boardwalk that parallels the two existing accesses in the park, a boardwalk which, by its very nature, requires the destruction of and fragmentation of protected habitat. It also subjects species in a preserve area to perpetual encroachments by users of the boardwalk, including getting off the boardwalk, noise, litter, domestic animals, etc., the edge effect. (N.B. At the recent public meeting one speaker indicated the round-trip boardwalk distance was approximately 3,000 feet)

I feel that the argument by proponents that the boardwalk is needed due to the county public beach customary use issue is unsupportable. Customary use is the issue of public use of dry sand beach areas claimed to be private by the upland owners. This is a request for a new access to existing public beach areas which are already accessible by five public beach accesses.

Additionally, this request comes at a time when the county is publicly acknowledging the need to develop a more comprehensive beach shuttle network to get the public to the county beach accesses. Additionally, the County's Comprehensive Plan mandates that "the county shall continue the acquisition of beach and shoreline access through fee simple purchase..." The county must solve any shortcomings in access to the beach and not rely, as Walton County often does, on persistent attempts to use state lands purchased with conservation grants for county planning shortcomings.

This is an instance when I suggest, as the Topsail UMP provides: "Resource considerations

should be given priority over user considerations”. With two accesses, facilities, including parking within Topsail I feel the park has amply provided for and has done its fair share in providing public access to and use of public beach areas by the general public. People have options on where they live and those who do not live gulf-front have availability of accesses to all of the public beach areas. The species who live in the preserve have only one option—a habitat that we zealously protect to ensure their survival in the fragile web of life.

Thank you for your consideration.

Anita Page  
Walton County resident

. which located so as to minimize impacts on pristine areas. were able to be located using areas that were degraded at acquisition. THE\_\_\_\_\_ park service does a good job in locating the minimal development allowed utilizing existing degraded areas.

Another access

People who do not live on gulf front parcels, which are overwhelmingly most of the people here, have to get to the beach

Animals and other non-human species are limited in where they can live. They must have a healthy habitat to survive. As development continues exploding, the survival of animals and other non-human species do not have , including vegetative as well as animals, invertebrates, etc. however,

Consideration of an additional beach access requested by one or more members of the public

must be weighed in terms of the purpose for which Topsail Preserve was acquired, the known and potential impacts of another beach access on the fragile and diverse habitat of multiple species and

necessary for ensuring its protection and maintenance, limited access, user safety and necessary for ensuring its protection and maintenance, limited access, user safety and

I am in opposition to any additional beach accesses to Topsail Hill Preserve State Park. Currently there are two beach access areas within Topsail which are accessible from the park parking lot off CR 30A. There are 3? Walton County beach access es within \_\_\_\_\_ of the County beach parcel which abuts Topsail beach on its east border.

A significant portion of Topsail is categorized as a "Preserve". Previously the state categorized state lands regulated by FDEP as Preserves, Parks and Recreation Areas with. Topsail was originally designatd ad a Presrve.....The "Park" designation was added with the purchase of the RV campground. There are distinctions between the management goals and objectives of a Preserve versus a Park.

In purchasing the RV park as part of Topsail Preserve and in allowing more park-like impacts in areas close to areas of preservation my concern is that the preserve areas may be ultimately assimilated into the park development standards which allow much higher human impact activities.

As development continues to explode in this area, the state preserve lands are fast becoming the last options for the survival of many native habitats and species. Multiple use of our conservation lands should not include improvements that further degrade or destroy the ecosystem. At some point, the development of future human impacts in new areas of the park or the preserve must be curtailed to allow non-human species and their ecosystems room and distance from human impacts to live. Impacts for human convenience or to simply further enhance recreational use, e.g., vending on the beach, or to satisfy those who want a closer access from their property must be denied. Changes in day use area should be designed to work within footprint of existing disturbed areas. No additional access into the park, including boardwalks, should be considered.

Re: Topsail Hill Preserve State Park Access

Dear Division of Recreation and Parks:

We are writing this letter on behalf of the 300+ members of Bay County Audubon Society (BCAS). Like the organization Audubon Florida, BCAS would like to see the current access to the park remain as a single point of entry. The justification for our support in maintaining a single monitored access point to the state park with equal access for all visitors includes the following:

- The state parks support the vast majority of the imperiled species nesting and foraging in Walton County, particularly the Choctawhatchee Beach Mouse, Least Tern, and Snowy Plover. Unmonitored access to the State Park will create more opportunities for pets to disturb nesting, resting, and foraging of these imperiled species. This is already occurring at the east and west on-beach boundaries of the park when park staff or volunteers are unavailable to inform pet owners of the park rules before they enter the park with their pets.
- In addition to incursions by people and their pets, additional beach access points lead to disturbance of the natural habitat and invasion by exotic plants that replace the native plants that wildlife depend on for their existence.
- The current single access point allows all park visitors to be greeted by park personnel and provided with any pertinent information regarding site management, outreach opportunities or events for that day. Multiple accesses, particularly private accesses, will prevent park personnel from speaking to individual visitors and answering their questions about park rules.
- Allowing a private access point will create a precedent for future multiple access points at Topsail Hill and other parks, degrading sensitive natural habitats through primary and secondary impacts.
- The current access provides all Florida visitors with the same opportunity to the state park without creating preferential treatment towards one group of citizens.

Topsail Hill Preserve State Park is a coastal park composed of upland old growth pine forest and scrublands leading to pristine dunes, wetlands and beaches. This remnant of coastal habitat is surrounded by the fast growing communities along South Walton's beach. Visitors enter the park via a single entrance along Hwy 30A in Walton County.

The statutory goal of all Florida State Parks is to preserve the resources first, while also providing recreational opportunities for the public (all the public) if that can be done without undue disturbance of the native plants and wildlife. The entire Topsail Hill Park is designated as a Preserve. The endangered Choctawhatchee beach mouse, first identified on this property, still occurs in the primary and secondary dunes. The Snowy Plover and the Least Terns nest at Topsail while other threatened and endangered birds forage there in their preferred habitats.

In the past, a nearby gated community has requested an unstaffed neighborhood entrance through the park to access the beach. Such unmonitored and privileged access will negatively impact the sensitive habitat and disturb rare nesting birds. In addition, it will disrupt an important wildlife corridor for the Choctawhatchee Beach Mouse. Furthermore, with the devastation by hurricane Michael to miles of Bay County Beaches which support many of these species, it is particularly important that we preserve the few remaining areas of unfragmented habitat for these animals to survive.

If private access is granted to a select few in this state park, it will establish a dangerous precedent for other private communities to access public lands through private or semi-private access points. Therefore, we strongly support a single public access point, which will ensure secure monitored access into the park and not add additional responsibilities to Park staff.

As a further point, we strongly discourage the inclusion of any proposed boardwalk, especially with handrails, when developing the new Unit Management Plan for Topsail Hill. While boardwalks might sound like a good idea, they create threats to the nesting shorebirds, including giving predators such as raptors a perch on boardwalk handrails to hunt close to the ground, and attracting raccoons, coyotes, and feral cats that would come to feed on leftover food trash thrown into the dunes by the additional beachgoers.

Please keep this incredible park accessible to all while protecting our shorebirds, imperiled wildlife, and unique ecosystems that would be threatened by unnecessary private access to the park. We need your thoughtful and creative solutions that will serve all the public AND preserve wildlife.

Kind regards,

Ann Benton Ruple  
Conservation Chair

To the Office of Park Planning, FL Department of Environmental Protection, Division of Recreation & Parks:

As citizens of Florida, my wife and I are concerned about the current request to permit private access to the Topsail Hill Preserve State Park in Walton County. We are sure that such requests would provide private communities with an additional amenity that would be a convenience to the respective owners and would serve as a positive marketing tool. However, it would also become a detriment to the wildlife and beauty of a park that was created for all Floridians. In the years we have owned and lived in Florida, we have noticed that our natural environment is being destroyed and reduced in size. There seems to be constant stream of requests to build more homes and businesses at the expense of our environment. We understand that growth is vital to our state, but there should be some limits imposed. This is especially true when a request has no positive impact on Floridians as a whole.

Unfortunately, my wife and I were unable to attend the December 5th meeting on private access to Topsail Hill State Park. Therefore, we are requesting your support of the Audubon's current position as follows prior to the December 19, 2018 deadline for comments:

#### **Background on Topsail Hill State Park Access**

Topsail Hill Preserve State Park is a coastal park composed of upland old growth pine forest and scrublands leading to pristine dunes, wetlands and beaches. These habitats are home to imperiled species including the Choctawhatchee beach mouse, Snowy Plovers and Least Terns. This pristine coastal habitat is surrounded by the fast growing communities along South Walton's beach. Visitors enter the park via a single entrance along Hwy 30A in Walton County. The Cypress Dunes development, a private gated community along the eastern edge of the park has in the past requested a private entrance through the park to access the beach.

#### **Position Justification**

Audubon supports maintaining a single monitored access point to the state park with equal access for all visitors for the following:

- The state parks support the vast majority of the imperiled bird species nesting in Walton County. Unmonitored access to the State Park will create more opportunities for pets to disturb nesting, resting, and foraging of imperiled bird species. This is already occurring at the east and west on-beach boundaries of the park when park staff or volunteers are unavailable to inform pet owners of the park rules before they enter the park with their pets.
- The current single access point allows all park visitors to be greeted by park personnel and provided with any pertinent information regarding site management, outreach opportunities or events for that day. Multiple accesses, particularly private accesses, will prevent park personnel from speaking to individual visitors and answering their questions about park rules.

- A single private access point will create a precedent for future multiple access points, degrading sensitive natural habitats through primary and secondary impacts.
- The current access provides all Florida visitors with the same opportunity to the state park without creating preferential treatment towards one group of citizens.

Thank you in advance for consideration of our comments. We look forward to a decision that will help protect the beauty of our natural environment while allowing equal access to our state parks for all Floridians.

Sincerely,

Robert and Marian Reid

Hello Daniel –

Audubon Florida's comments on a proposed additional park access point through the Cypress Dunes residential area are stated in the attached letter. Thank you for the opportunity to comment on this important issue.

Marianne

RE: Beach access through Topsail Hill Preserve SP

Dear Mr. Alsentzer,

Thank you for the opportunity to comment on the access to the public beaches through Topsail Hill State Park Preserve (Topsail). It is Audubon Florida's position that having a single, staffed access point to the park, as currently implemented, is necessary for visitor oversight and best possible management of the park's sensitive resources.

In Walton County, imperiled shorebird species are almost exclusively found nesting along State Park beaches. Topsail currently supports the nesting of state-threatened Snowy Plovers and Least Terns. These species are sensitive to disturbance from humans, native predators, and pets due to the birds' behavior of nesting directly on the sandy beach. Multiple beach accesses to the park will fragment the currently intact habitat and provide more opportunities for beachgoers to disturb currently isolated nesting sites. Additionally, it will facilitate the likelihood of beachgoers bringing pets to the park's beach unnoticed, setting up foreseeable impacts to nesting birds.

The park's current single access point allows all park visitors to be greeted by park personnel and provided with pertinent information regarding site management, outreach opportunities, or events for that day. Additional unstaffed access points will prevent park personnel from adequately overseeing park visitors by speaking to individual visitors as they enter the park with regard to park rules, particularly, bringing pets on the beach.

The current Cypress Dunes proposal claims to be a public access, however, it does not address access, restrooms or parking facilities for non-residents to use, setting up a situation for additional degradation of habitat and unsanitary conditions. Finally, a new access point for a single residential community will create a precedent for future access points for other stakeholders, degrading sensitive natural habitats through primary and secondary impacts in numerous areas throughout the park.

Sincerely,

Marianne Korosy, Ph.D.

To whom it may concern;

The west end of 30A are neighbors to Topsail Park. Topsail has over 3 miles of beautiful beach and dunes.

It would be great if the residents on the west end could have a better way to get to the beach. Driving (away from the beach) to the entrance in order to load onto a shuttle that goes back to the beach...is just not being used by residents. It is set up for campers, and what you find at the beach access are campers. So Topsail is basically a park for campers. I think you should try to get more residents to use the park.

A path over the dunes does a lot of good things. It protects the dunes from being trampled, and keeps people from disrupting wildlife. It is an asset to the park, in that people will come just to walk the path, and be able to see the dunes. Right now, there are 3+ miles of dunes, and no way to see them. That is a real shame for everyone. A path over the dunes is a post card photo place where families will pose for lasting memories. The park can boast about its boardwalk on the website. Residents will use the park! Isn't that your objective?

There are lots of homes that back to the park, and lots more that a stones throw from the park fence. These homes do not have beach access and would love to walk to the beach. I would suggest starting with a few pedestrian entrances and see how that goes. They don't need to be manned and only need a trash can. A park pass would be required, which would raise money for the park. This avoids a big parking lot and second entrance, which would raise lots of objections.

I hope you make a good decision to put another beach access on the east end of the park, for residents on the east end of 30A.

Thanks for listening!

I was in attendance at the last public meeting. I didn't speak but listen to all sides & comments. It seemed to me those opposing are basically saying only one access thru the park is sufficient to supply access to the westend neighborhoods of 30A. This is not true. I move here in 2007 & just like now, hardly anyone except those camping in Topsail use that access. No one wants to wait on a tram, load up & still have to walk out a long boardwalk. As a parent, when you have kids that get tired or too much sun, you need to get them home pronto when it's time to go. Topsail doesn't offer that. Like it was stated at the meeting, depending on season, if you missed the tram by a minute you could be waiting 30min to an hr for pu back to your car. Then load the car & drive home. Then there's the issue of cutting down car traffic & parking on 30A. Even going to Topsail parking you are still getting in a car. It seems so much more logical to give the neighboring neighborhoods a way to walk or bike up in a more direct way. Less fossil fuel emissions & traffic. When I moved here we didn't have the massive mess around the pitiful few west end beach accesses. We want & need the visitors to come to run the many business & jobs for our local families. But if us locals can't access the beach we chose to live near why the heck are we here? I know so many issues have faced our county & beach accesses over the past years. I know those that oppose the new access say they are worried about the environment. I think for them it's more about no change for the sake of no change. But the people are coming no matter if they want no change. So it's better to get a game plan that allows a safe & less invasive walk in the park so to speak. Because I know that people traverse thru the park. My backyard faces the park & I see it often. And may I say, it's NOT Cypress Dunes people because we are trying to protect our beautiful backyard! It's people coming from other neighborhoods or 30A! Let's get control of this & route people safely thru the park to the water. It's there & people want o get to it & they're finding all types of ways to do it. Please let's build our 2nd access thru Topsail. It seems a no brained when the neighboring communities are putting up funding as well!

Tk you,

Members of the Planning Committee,

First and foremost, thank you for serving and your dedication to advance our community.

I have owned a home on west 30A for the last 5 years. We actually built our second home, 270 Cypress Drive, completed December, 2017. My daughter calls it her happy place. We love everything about the community! I was recently elected to the board of the Cypress Dunes HOA...truly an honor!

I ask for your favorable approval to grant beach access on the west side of 30A. I completely understand environmental concerns and agree for the most part. The exception is that we as responsible humans can coexist with the environment. Our coast line is a precious asset that cannot be abused. We get that!

Also for your consideration is an observation that I feel is rapidly becoming a dangerous situation. Parking at the current beach access points is well beyond the original design. Cars now park on 30A, traffic has increased and pedestrians are at a greater risk. Granting another access will relieve that pressure at the other locations. Let's not wait for a fatality to act.

Thanks for your consideration and look forward to working with you to advance our community.

*I WANT TO SAY WE CAN HAVE BOTH; WE CAN HAVE AN ACCESS AND WE CAN HAVE PROTECTION FOR PARK PLANTS AND WILDLIFE; IT DOES NOT HAVE TO BE ONE OR THE OTHER. THE PARK'S EXISTING UNIT MANAGEMENT PLAN ADDRESSES THE NEED TO BALANCE RECREATION WITH PROTECTING ANIMALS AND PLANTS. IT WAS NEVER MEANT TO SHUT OUT PEOPLE. THE OPPOSITION SEEMS TO THINK A PRESERVE PARK IS ABOUT ANIMALS AND PLANTS ONLY. THAT IS JUST NOT THE CASE; THERE ARE PRESERVE PARKS ALL OVER FLORIDA THAT HAVE BOARDWALKS AND MANY TO THE BEACH.*

1. A STUNNING, ECOLOGICALLY SOUND, HANDICAP ACCESSIBLE BOARDWALK ACROSS OUR TREASURED PARK.
2. A WAY FOR NEARBY RESIDENTS OF 600+ HOUSEHOLDS TO WALK OR BIKE TO THE BEACH WITHOUT GETTING INTO THEIR CARS AND CONGESTING THE ROADWAY AND OTHER ACCESSES.

Dear Florida State Park Planners,

I am writing this letter in opposition to the proposed new beach access at Topsail Hill Preserve State Park from the Cypress Dunes community. I reviewed the letters and comments that were submitted to State Park planners when this issue arose in 2017 (<https://floridadep.gov/sites/default/files/1%20-Topsail%20Hill%20-%20Public%20Communications%20and%20Comment%20Forms.pdf>). Almost all the letters in support of this proposed new access came from owners and vacation renters in Cypress Dunes, the subdivision that wants the access. Other letters in support were from local realtors, and there were a just few from other people that do reside in this subdivision. Based on these letters, it appears that the proposed access is not supported by the general public, and only real estate agents and residents or vacation renters of Cypress Dunes are strongly in favor. I checked a couple of sources to verify that Cypress Dunes is a gated community not open to the public, and that Cypress Dunes does not itself own any land on the Gulf or have direct access to it. Thus, it's easy to understand why people in Cypress Dunes so strongly support this; besides allowing them quick, private access to the beach, it will likely increase the value of their properties and make their houses more desirable to vacation renters. I also looked at what homes in Cypress Dunes are selling for, and they are mostly in the \$800,000 to \$1,000,000 range. As a resident of Walton County and the state of Florida, I am dismayed that an expensive gated community would lobby for an exclusive, private entry to a state park that would likely benefit them financially. This entry is of no value to the general public and will do little or nothing to ease crowding at other public beaches in Walton County. As one person opposed to the access noted in one of the letters, the current public parking lot at Topsail Hill

State Park is never full. Let the people in Cypress Dunes use the nearby public parking at Topsail State Park like everyone else in Walton County does!

Personally, I am glad that Topsail Hill has only one public access point. Walton County has 26 miles of beaches, and about 21 miles of this shoreline is now intensively developed. Only the three state parks of Deer Lake, Grayton Beach, and Topsail Hill are not developed, and Topsail Hill is by far the most pristine of these. Topsail Hill provides important habitat for at least three vulnerable species in Florida: snowy plover, least tern, and Choctawhatchee Beach mouse. It is a special place for animals, plants, and nature lovers, and it is not right for rich property owners to have their own exclusive access to it.

Sincerely,  
David Clausen

thank you so much for listening to us over the years, we have been living in Beachview Heights for thirty five years. we have not trespassed through the park as some people seem to keep saying. i didnt hear anyone at the meeting bring up the fact that Cypress Dunes are trying to get a new development with over two hundred houses to rent. They come over to our neighborhood and ask me where is the beach access is and i tell them its on Bishop Rd. or its through the park. I just wanted to say its not that hard for my family to get to the beach and i hope you keep the park the the way it is now so we can enjoy how beautiful it is and will always be there so we can remember how it was when we first moved here.

Thank you again,

Theresa Froeschner

Dear Mr. Alsentzwer,

I am attaching the Topsail.pdf for your record.

A quote from the article: "He (Mr. Sumpter) was of the opinion that the access would raise property values 'in the whole community'."

I am personally against the free Austinwood access for the sole use of one community to increase property values.

Thank you.

Barbara Morano

# Public input taken about potential new boardwalk/beach access through Topsail Hill Preserve State Park

[December 12, 2018 Quinton Uncategorized](#)

APPROXIMATELY 135 people attended a public meeting at which a potential new entrance and beach access boardwalk at Topsail Hill Preserve State Park were discussed. The Florida Division of Recreation and Parks hosted the meeting at the Northwest Florida State College South Walton Center. (Photo by Dotty Nist)

By DOTTY NIST

A crowd of about 135 people turned out for a Dec. 5 meeting held by the state in Walton County to take public input on a potential new boardwalk and beach access through Topsail Hill Preserve State Park.

Hosted by the state Department of Environmental Protection (DEP) Division of Recreation and Parks (DRP), the meeting was held at the Northwest Florida State College South Walton Center.

Daniel Alsentzer, planning manager for the DRP, thanked everyone for attending and clarified that the meeting was focused on hearing comments from the public and stakeholders on access to the gulf beach at Topsail Hill Preserve State Park and related matters. He said DEP staff had “heard conversations” on the topic. Alsentzer said he had spoken with many of the people who were present.

"We are here to listen tonight, not to tell you our proposals," he said.

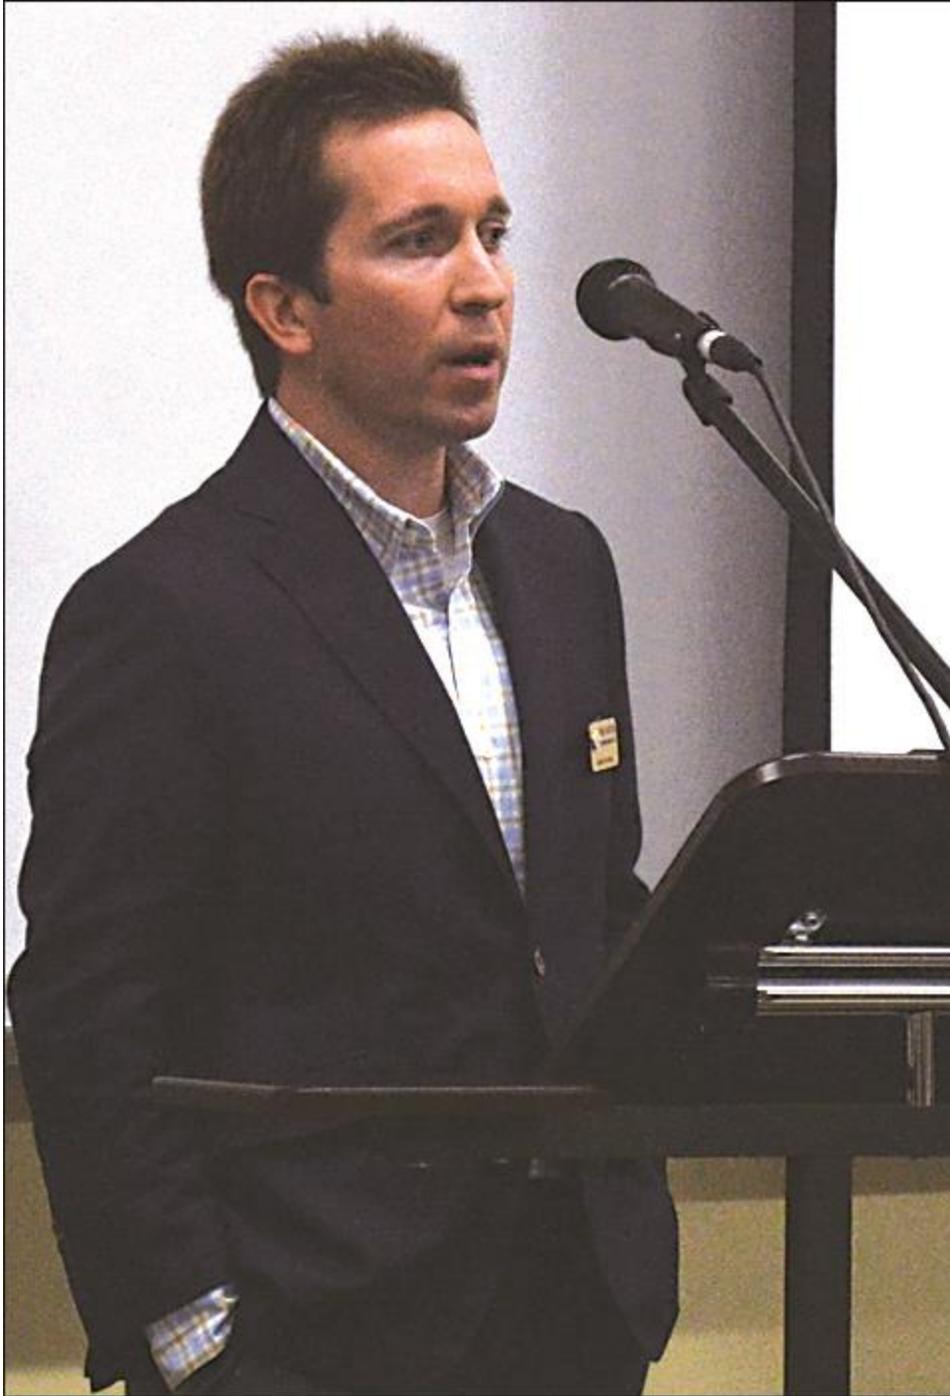

Alsentzer said the meeting would be recorded and that staff would also be taking notes of the comments.

He also told attendees that a new Unit Management Plan for the park was in the works and would be presented to the public in early 2019.

Introduced first to address the gathering were six speakers who had contacted DEP in advance to request that they be allowed to make formal presentations. These people were allowed to speak slightly longer than those who followed, who were limited to three minutes.

Speaking first and talking briefly about the concept that seemed to be the crux of the matter was Cypress Dunes homeowner Jim Sumpter.

This was for a potential second entrance to Topsail Hill Preserve State Park at Austinwood Lane on CR-30A that would be available for the use of residents on the west end of CR-30A, with either a boardwalk or crushed shell path that would follow an existing fire break in the park and lead to the park's beach.

ADDRESSING THE Dec.

5 public meeting on behalf of the Florida Division of Recreation and Parks (DRP) was Daniel Alsentzer, DRP planning manager. (Photo by Dotty Nist)

Currently there is only one entrance to the 1,643-acre beachfront state preserve in south Walton County, and park patrons get to the beach by a tram road starting at the parking lot, either riding on a tram, walking or on a bicycle. The entrance is on CR-30A, about one-half mile south of the western CR-30A/U.S. 98 intersection.

Sumpter made the case that the section of the park in question, the eastern section, had been used by the public for many years and was being accessed by “existing foot paths,” or “legacy trails.”

“The dunes are currently being used, and the dunes are currently being trampled on,” he said.

Sumpter discussed three options, the first being doing nothing, which he said would threaten the resource. The second, a large fence around the park perimeter, he said he and other citizens believed would not be in line with the purpose of the park. The third, which he favored, was consolidating the footpath access to one boardwalk or path in order to protect the resource.

Sumpter said the boardwalk or path was being proposed at no cost to the public and that the support of 350 homesites had been secured toward funding the project. As part of the partnership, he said the subdivisions containing those homes would sign up to buy annual park passes for homeowners.

He was of the opinion that the access would raise property values “in the whole community.”

Sumpter said he had accumulated 262 signed petitions in favor of the new access, 64 of which were signed by Cypress Dunes residents.

He also explained that the plan would include 25 parking spaces off CR-30A for those using the proposed entrance.

CR-30A west end resident Celeste Cobena spoke against the plan and another variation for a boardwalk on the east side of the fire break that she described as including a bridge over Stallworth Lake.

She urged for DRP to adhere to the statutory objectives for preserving the park property and only allowing recreational uses that do not negatively impact the resource.

Cobena was critical of the “unbridled promotion of our area,” which she said had resulted in widespread theft and vandalism.

Topsail Hill Preserve State Park is home to more than a dozen imperiled species. Cobena warned that the boardwalk would bisect the park’s habitat and negatively impact shorebirds.

She stated that a bridge over Stallworth Lake would be prohibited and that terms associated with the grant by which the county acquired the Stallworth property must be followed with regard to any access.

Walton County resident Anita Page countered previous sentiments voiced that people trespassing into the eastern section of the park was a “rationale” for a second entrance. She said her understanding was

that “to restore” had always been a priority with regard to Topsail Hill Preserve State Park. Page said it sounded like “a little fencing” was needed to guard against trespassing.

While it has only one entrance, the park already has three beach accesses, she noted, where supervision by personnel is possible.

Page’s opinion was that all proposals that had been discussed would be inconsistent with the purpose for which the property was acquired—and that a boardwalk across any portion of the park would destroy and fragment habitat.

Norman Capra, president of the Bay County Audubon Society, commented that the first priority of a state park is to preserve. “The entire park is designated as a preserve,” he said of Topsail Hill Preserve State Park. He warned that the boardwalk would set a “dangerous precedent,” and would impact the park’s many imperiled species and disrupt corridors for the Choctawhatchee Beach Mouse population. Park staff, Capra commented, is already overworked and does not need the added responsibility of monitoring an additional entrance. “We strongly support... continuation of a single access point,” he concluded.

An additional three dozen attendees, in all, came forward to speak, with those speaking in opposition outnumbering by a few those speaking in favor of the new entrance/boardwalk or some variation to increase access to the park.

Jeff Talbert, formerly a member of the park staff, was pleased that attendees had stepped up to “give a voice” to birds, beach mice, and other wildlife who could not speak for themselves. He was of the opinion that an additional access would “trample on” the park’s legacy.

Beachview Heights resident Theresa Froeschner, a 30-plus-year resident, said that she never trespassed into the park but always went in at the existing entrance. “That should be the only one,” she said.

Buz Livingston, a south Walton County resident since 1999, recalled that at one time there had been another entrance to the park (from U.S. 98) that had subsequently been closed. He said he had thought at the time that closing it was a “dumb idea.” “I was wrong,” he said, speaking in support of keeping just one entrance. Livingston added that it was “a fact” that developers had tried to enhance property values by getting an entrance added to the park for beach access for the benefit of properties that did not have beach access.

Cypress Dunes resident Dr. Marvin Cuchens countered that he had read the existing Unit Management Plan for the park and had gleaned that the state policy was to promote the use of the property by visitors, “and that includes us in Walton County.” He spoke of overcrowding at many of the county’s

beach accesses and emphasized, “We clearly need more beach access.” Cuchens asserted that the boardwalk would improve rather than negatively impact the beach mice’s habitat.

Beachview Woods homeowner Bill Muldowney echoed that, saying that the boardwalk could be done in an environmentally-safe manner. He also emphasized, regarding the potential boardwalk, “It’s not private...and it’s not just for Cypress Dunes.” Muldowney was also of the opinion that the boardwalk and new beach access would take pressure off other beach accesses in the area.

Cypress Dunes property owner Dave Schofield spoke in opposition, saying that he had bought his property knowing that there was no beach access associated with it. He questioned whether there was any citizen “ready to pay” for the boardwalk who is not a Cypress Dunes resident.

Also speaking in opposition was south Walton County resident Caroling Geary. She asked if another fire break would not be needed if the existing one was used for a boardwalk—and questioned whether park staff would be able to maintain control over park use with greater access granted, when they were already seemingly unable to resolve the trespassing issue that had been referenced. Geary also asked why local residents should be able to determine what happens to the park, when it belongs to all the people of the state.

Other attendees spoke of an opportunity for partnership with the park and for neighboring residents to assist with good stewardship of the property.

However, Cynthia Alexander, a resident, owner of property adjoining the park, and a founding member of the local nonprofit Beach to Bay Connection, countered that Topsail Hill Preserve State Park was not acquired to make up for “poor planning” by the county. Should the state set a precedent of using this property as a “relief valve,” DEP would soon be hearing many similar demands, Alexander warned. “Please continue the admirable stewardship,” she urged.

Beachview Heights homeowner Norman Froeschner commented that he was against the boardwalk, even though it would increase his property value. All the west end residents have to do is go to the existing park entrance on CR-30A and they have access to “every inch” of Topsail Hill Preserve State Park, he pointed out. Froeschner voiced concern about the possibility of the new access, if added, being “unmanned.” “Bad things happen,” he warned.

Jay Tusa, Walton County Tourist Development Council (TDC) executive director, discussed an alternate plan for a new beach access that would involve a boardwalk running down the eastern boundary of the park and connecting with county-owned beach property adjacent to the state park. He voiced willingness to work with the state to explore this possibility.

Calling the beach at Topsail “a wonderful beach,” south Walton County resident Amanda Schuette said that one reason it is so wonderful is that visitors are monitored and amenities such as the bathrooms and the tram are available.

“No one is preventing them from accessing this beach,” she said of the west end CR-30A residents, commenting that it took her three minutes and 27 seconds to drive from Cypress Dunes to the entrance at Topsail Hill Preserve State Park.

Beachview Heights resident Stacy Froeschner later commented that she rides her bike along CR-30A to the park “all the time.” (A multi-use path is available all along CR-30A.) “It’s fantastic,” she said, stating that she does not support an additional access.

“What is the true motivation? south Walton County resident Barbara Morano asked about the boardwalk proposal. She observed that the distance to get to the beach from the parking area would be over a mile. The plans also include, she noted, a gate to stop cars from getting to the entry point for the boardwalk.

Malcolm Patterson, the grandson of original Grayton Beach settlers and the first executive director for the TDC, spoke in favor of a balance between preservation and public use for the park.

“It’s a preserve,” south Walton County resident Liz Good said of the park. “It’s our privilege and duty to protect it...once it’s gone, it’s gone.”

Grayton Beach resident Bob Murphy said that in 1977 he had camped in a primitive campground that is now part of Topsail Hill Preserve State Park. “What you have in Topsail Hill Preserve State Park is unique,” he told the state officials, describing the property as still similar to what it was in 1977.

He voiced concern about setting a precedent with a second entrance and questioned how the state would manage the boardwalk. He urged the officials to “resist that temptation” to open a second entrance.

Alsentzer concluded with the information that the public comment period on the topic would remain open until Dec. 19. Comments may be emailed to [FLStateParkPlanning@floridadep.gov](mailto:FLStateParkPlanning@floridadep.gov).

In response to a Dec. 5 inquiry by the Herald/Breeze, Brandy Smith, DEP external affairs manager for the Northwest District, said that DEP had not yet received a formal proposal or draft of the information presented by Sumpter at the meeting.

Re: Proposed beach access through Topsail Hill Preserve State Park

After careful review of proposed plans and evaluation of comments made at the 05 Dec 2018 public meeting, South Walton Community Council (SWCC) has decided to oppose construction of a beach accesses through the state park, based on the following considerations:

1. The proposed beach access benefits Cypress Dunes and neighboring developments but does not serve the interests of the general public. We do not believe the public is going to park at the lot adjacent to 30A and then walk 1-1/2 miles to a beach that has no facilities.
2. The existing beach access at the state park is more than adequate to serve the needs of local neighborhoods as well as the general public.
3. We support comments made at the meeting regarding protection of natural habitat. This must remain a top priority.
4. Unmanaged access to the park would be detrimental to the park and would create an operations nightmare; controlled access would be prohibitively expensive.

SWCC remains committed to protecting Topsail Hill Preserve State Park from unwanted and unnecessary development and are willing to help any way we can.

Re: Walton County/Topsail Preserve State Park Beach Access Issue/Comments

To Whom It May Concern,

I want to speak to the request by private parties and potentially Walton County to construct a beach access that originates outside of the Topsail boundaries, and goes through the Preserve and to the beach.

Topsail has been described by DRP as protecting "perhaps the most outstanding assemblage of natural communities on the coast of the Florida Panhandle." Those 16 natural communities collectively compose a biologically diverse, fragile and complex ecosystem that supports life for plants, mammals, birds, including migrating birds, amphibians, and numerous other species. As development continues to destroy surrounding habitat, the sanctity of the preserve becomes even more critical for the vibrant survival of keystone species such as the gopher tortoise and critically endangered Choctawhatchee beach mouse and all the other species which are a vital part of the environmental diversity and alluring beauty that makes Topsail priceless.

Topsail was purchased and designated as a Preserve. The RV section was purchased after the acquisition. As stated in the current UMP, in the management of Topsail Hill preserve State Park "preservation and enhancement of natural conditions is all important. Resource considerations are given priority over user considerations and development is restricted to the minimum necessary for ensuring its protection and maintenance, limited access, user safety and convenience, and appropriate interpretation." (PG 5 2007 UMP)

Topsail already has two beach accesses which can be accessed by walking or biking from the public parking area. Additionally, there is a tram which takes people to and from the larger beach access. Both accesses have a covered picnic area. The tram access has restroom facilities. Being enclosed within the park, the two accesses and the behavior of users can be supervised by park personnel as needed to ensure Preserve habitat, upland and dune areas, remains protected and users have a safe visit.

There has been an effort for a number of years to get the state to approve another beach access from a privately owned parcel in a neighborhood adjacent to Topsail or from another parcel currently privately owned and allegedly to be purchased. The requests are for another beach access to originate outside of the Topsail boundaries in order to access the county-owned parcel directly to the east of Topsail, (the "Stallworth parcel"). All of the requests have proposed an access that requires the destruction of habitat in preserve areas including areas designated as critical habitat for the Choctawhatchee Beach mouse by USF&W and a Strategic Habitat Conservation Area by FFWCC.

I feel that all of these proposals are inconsistent with the primary purpose for which Topsail preserve as well as the Walton county parcel were purchased. Regarding Topsail, the DRB biologists' impact analysis prepared pursuant to a 2014 request for a new access by Cypress Dunes subdivision describes the biological sensitivity of the area through which various parties want to put a long boardwalk and the construction and user impacts on the ecosystem including beach dune impacts.

The county Stallworth parcel was purchased with grant funding, including substantial funding by USF&W. The documents indicate a purpose of the grant is to "foster endangered species protection through the acquisition of suitable habitats and management in a manner consistent with species protection." The Management Plan for the parcel is very specific as to the minimal disturbances allowed for human use. Among other things, it prohibits any trail that will lead into the dune system as "that would impact not only the Choctawhatchee Beach mouse but also other endangered or threatened species." I do not feel that any of these proposals would fit within the purpose and criteria expressed in the grant documents and management plan. Obviously, USF&W must be involved in the proposal reviews.

Additionally, documents for the county parcel discuss access to that parcel and state "(t)he primary access is identified as the Beach Highlands or Stallworth, public beach access (approximately 300 feet west of the property) has 7 parking spaces, a bike rack, dune walkover and shower." It should also be noted that in the Beach highlands area there are two other county accesses on Highland Avenue (TDC 43A and 44) and a fourth access being developed across from Woodward Drive on 30A. (approximately .4 mi from the Stallworth parcel) The Stallworth parcel is also accessible from the Topsail accesses as well.

Essentially what is being asked of the DRP and the State is an access from a parcel outside of the park boundaries, using a long boardwalk that parallels the two existing accesses in the park, a boardwalk which, by its very nature, requires the destruction of and fragmentation of protected habitat. It also subjects species in a preserve area to perpetual encroachments by users of the boardwalk, including getting off the boardwalk, noise, litter, domestic animals, etc., the edge effect. (N.B. At the recent public meeting one speaker indicated the round-trip boardwalk distance was approximately 3,000 feet)

I feel that the argument by proponents that the boardwalk is needed due to the county public beach customary use issue is unsupported. Customary use is the issue of public use of dry sand beach areas claimed to be private by the upland owners. This is a request for a new access to existing public beach areas which are already accessible by five public beach accesses.

Additionally, this request comes at a time when the county is publicly acknowledging the need to develop a more comprehensive beach shuttle network to get the public to the county beach accesses. Additionally, the County's Comprehensive Plan mandates that "the county shall continue the acquisition of beach and shoreline access through fee simple purchase..." The county must solve any shortcomings in access to the beach and not rely, as Walton County often does, on persistent attempts to use state lands purchased with conservation grants for county planning shortcomings.

This is an instance when I suggest, as the Topsail UMP provides: "Resource considerations should be given priority over user considerations". With two accesses, facilities, including parking within Topsail I feel the park has amply provided for and has done its fair share in providing public access to and use of public beach areas by the general public. People have options on where they live and those who do not live gulf-front have availability of accesses to all of the public beach areas. The species who live in the preserve have only one option-a habitat that we zealously protect to ensure their survival in the fragile web of life.

Thank you for your consideration.

Anita Page  
Walton County resident

**Subject:** Re: [EXTERNAL] Topsail Hill Preserve State Park - public meeting, Dec. 5, 2018

Hi Daniel-

Here are my comments pertaining a second beach access through Topsail Hill Preserve State Park:

This same issue came up a couple years ago and I provided comments in opposition then as well. I can't remember if it was written or verbal comments. This area is a Preserve, which from my understanding has a smaller allowable development footprint than other state parks. Former park staff have told me that only 5% of Topsail is allowed to be developed and they have already hit that mark. I am curious to know if this still applies. Since this park was purchased for preservation at the request of Floridians, it should stay that way. It was the intent of Floridians to protect the natural resources this park provided while the surrounding area succumbed to intense development over the years. This park contains Federally protected species such as the Choctawhatchee Beach Mouse (CBM), nesting sea turtles, and wintering shorebirds. Additionally we work closely with FWC to ensure the needs for state protected nesting shorebirds are considered as well. The proposed boardwalk is projected to go through critical habitat for CBM and empty out onto the flat beach used by birds and sea turtles. Ordinarily a boardwalk or walkover from a private house or commercial structure to get over the dunes and out to the beach is considered a conservation measures. This boardwalk falls into a different category because this part of the park is currently contiguous and not bisected by any kind of structure, nor is it private property that triggers property rights issues. This is not a conservation measures because the alternative is to have it natural and intact is better. CBM is likely the most endangered species found in Topsail SP and the management plan dictates that CBM habitat and usage be considered when park projects are planned on or nears the beach or dunes. Not only would this boardwalk bisect the contiguous habitat, it would direct more people onto the beach at higher densities than currently experiencing. Currently, if you want to experience this portion of the beach, you are required to put some effort in and walk. Not many people choose to do this, so there is less pressure on the habitat and the species. There is a halo effect for habitat disturbance from a boardwalk and people exiting the boardwalk, this halo of disturbance increases fragmentation at those points. Fire management of the habitat will also become more difficult as you will have to take precaution not to burn the boardwalk. So either more habitat would be impacted by making a firebreak or the habitat would become more overgrown due to lack of management.

For CBM, this park is the largest tract of intact coastal dune habitat in the western portion of this range. It is imperative that CBM are able to traverse the entire habitat limits within the park. The struggle happens when the mice try to expand within their native range to other parks; such as Henderson, Deer Lake, Grayton, and St. Andrews. The habitat off park lands are so fragmented and altered that it is impossible for CBM to naturally traverse their historic range without human management assistance. Currently, the Topsail CBM population appears relatively stable, however a couple years ago there was a concerning dip as noticed by our monitoring efforts. Of more concern at the moment is the possible extirpation (or near extirpation) of CBM at all or portions of Deer Lake and Grayton SPs. Agency and land managers will be discussing this issue soon. At the core of the discussion will be impacts related to human use. CBM can not afford any more impacts to the core conservation lands without putting us on a direct path towards localized or range-wide extinction. CBM were extremely impacted in the eastern portion of their range by Hurricane Michael, this area was previously the stronghold for CBM.

Other concerns with this access are the increased amount of trash that comes with an increase in human use, an increase in predators that follow human use, and the precedent it could set by opening up a separate access through a State Park at the request of a few people.

A lot of support for the new access was from the public claiming that both additional public use and conservation can be had; that their needed to be a compromise. Coastal wildlife has already had to compromise more than humans, which is why they are left with postage stamp sized habitat alcoves among a vast coastline of development. Wildlife can not continue to give up their habitat in favor of human use, there simply isn't enough of it left. However, if the State Parks or Walton County want to discuss better places for additional public access and conservation opportunities, I would be more than happy to help. I am supportive of the idea of a passive, walking/biking beach access for the public located in an appropriate spot.

At the root of this issue is poor long term planning by the local government for public beach access. The State Parks can not be the back up plan to alleviate the lack of public beaches and accesses. State Parks are available for the public to experience a different sort of beach experience that is not always the easiest to access or has every amenity at arms reach. These parks offer a natural experience with limited human comforts. Specifically, Topsail offers a bike ride or tram experience as opposed to a beachfront parking experience with a short walk to claim your spot. That is how it should be at a State Park. This management philosophy affords endangered species the ability to coexist with human development.

I am also concerned with the illegal access that was mentioned as causing the need for this project. I strongly urge Topsail State Park to look into dealing with this another way. I would be more than willing to sit down with park staff to participate in these discussions is needed, especially if this access is causing impacts to CBM habitat.

There was also another potential option mentioned at the public meeting. That option appears to direct people onto lands the County purchased for CBM conservation with Federal dollars. I believe this option has also been explored in the past and that option is inconsistent with the purchase of that parcel. No photos were provided as to this other option, so I can not be certain the Federal grant parcel is the one mentioned.

I look forward to discussions related to Topsail State Park and Federally protected species.

Thank you for the opportunity to comment on this project.

Hi,

The Florida Park Service will be holding a public meeting on **Wednesday, December 5** to hear public comments and recommendations regarding beach access in Topsail Hill Preserve State Park. Everyone is welcome to attend. The format of the meeting will allow participants to speak for three minutes. For individuals wishing to deliver a formal presentation, please contact the Office of Park Planning in advance.

Rather than the DRP presenting proposals, the intention of the meeting is to hear and consider comments from the public. No decisions about public beach access will be rendered by DRP at this meeting. Written comments will also be accepted after the meeting until December 19. After all public comments have been considered, the DRP will proceed with drafting the unit management plan for the park. Following completion of a draft unit management plan and internal review, we will be returning to the public to receive further input on all land use and resource management proposals.

Please see attached for meeting details.

We thank you in advance for your interest in Topsail Hill Preserve State Park.

To Whom it May Concern,

I am writing this letter today in support of additional beach access being granted through Topsail State Park. My wife and I purchased a home along 30A in Santa Rosa Beach roughly 5 and a half years ago and have seen tremendous growth in the 30A economy since that time. I do understand that there are some that do not encourage growth and want to keep this hidden secret of 30A to themselves and I do get that as well. We have entirely enjoyed the white sandy beach that you don't just find anywhere. We do cherish this time on the beach with our 3 teenage sons.

Over the past 5 years, I will say that going to the beach has gotten much more difficult. For us as a family to go with all of our gear, we must drive to a local access point and walk. No problem with that other than more often than not, we are faced with not being able to park because all of the spots are taken. Then we are forced with driving up and down 30A in hopes to hit the lottery and find parking. Even parking within Topsail and taking a shuttle is not easy for quick a walk on the beach just to catch a sunset. It gets to be more trouble than it's worth and that's coming from the heart. As much as we absolutely love going to the beach, sometimes it's just not worth the hassle. We are from Indiana and this is our second home so it seems that the times (holidays) that we are able to come down, we are down with the masses.

We as a family respect the parks and private homes situated along the coast and do not trample or go off of given beach access locations but we are seeing where this isn't the case for several as they tend to sneak in wherever and whenever they can.

We are in total support of a planned access within Topsail State Park and Cypress Dunes to partnership with the Park, to collaborate with the State's botanists, biologists and park planners to protect the resource and on a resource solution such as a boardwalk that would run north-south in an existing fire break that is currently bush-hogged and clear cut.

As growth is eminent, I would ask that action be taken sooner than later to put this action in motion. To do nothing or to continue to make this a lengthy process would in my opinion only make matters worse.

Many Thanks for your time and efforts.

Rob Rippy

Dear Florida State Park Planning,

I would like to write in my support of a an additional beach access in the upcoming 2019 Topsail Hill Preserve State Park's Unit Management Plan. It would be nice while visiting my mothers home to see people using a dedicated access to the beach instead of seeing people crush the dunes. Now more than ever we have to preserve our precious wild lands and I think that creating a universal access that everyone can use is part of the solution.

Thank you.

To Whom It May Concern,

My family and I are fairly new residents but patrons for over 30 years to Santa Rosa Beach. We visit and support the Topsail Hill Preserve State Park and truly appreciate the natural elements and pristine environment the park provides.

This is our notification that we support a beach access on the west side of 30-A and therefore request your support of proposals to provide such access.

We hope that it would not only provide beach access but could also be used to educate users of both the indigenous plant and animal life that call the area home.

Our family's support is not solely driven by our generation but the desire to call Santa Rosa Beach home for our children's children and the generations to follow.

We became residents because we feel this area contains some of the states most incredible natural resources.

Our hope is that additional access will allow manageable human traffic while providing points of interest along the way to educate the public of the plant, animal and natural element that make Topsail Park a thing of wonder.

This is an opportunity for residents, park services and government agencies to create a precedent. One that becomes the guide for the rest of the state and our country on how to develop and institute well thought out planning of long term public use of our state parks and beaches, Florida's most valuable assets.

With respect and admiration for the job you all do, I remain respectfully,

R. H. Davis

All, I am in favor of the proposed beach access or another on the east side. We have purchased property in the area. We enjoy walking the beach, but are unable to walk over 2 miles at a time. I believe a board walk would provide a shelter for the concerned said wildlife, as well keep pedestrians on a guided path. We have visited many nearby 30A communities that have board walks and I have never seen anyone off the boardwalk path or trash on either side of the path. Therefore I believe in such a project.

Sincerely

Kevin J Simpson

Coffeen Land Trust

December 7<sup>th</sup> 2018

Office of Park Planning  
Florida Department of Environmental Protection  
3800 Commonwealth Blvd, MS 525  
Tallahassee, FL 32399-3000

To whom it may concern,

Topsail Hill Preserve State Park and its neighbor to the west, Four Mile Village, was initially saved when the Village founder, Dorothy Coffeen, instigated a letter writing campaign with environmental agencies to defeat an attempt by FL. Dept. of Transportation to continue Co. Hwy 30 westward across these lands in the mid 1960's.

Her subsequent community residents were responsible for the ability by the Nature Conservancy to bid, on behalf of the State, for the acquisition of Topsail Hill as a Preserve State Park.

Lake Fuller, in the Coffeen Nature Preserve, has water quality monitoring data from before 2003. It is owned by the Coffeen Land Trust and managed as a 501(c) 3, not for profit entity. This

organization is the inheritor of the Sierra Club Foundation legacy, gifted by Ms. Dorothy.

As a requirement of the recent Settlement Agreement with 1000 Friends of Florida, (who CLT joined and supported,) Lake Fuller has recently been assessed as the third most pristine lake in Walton County, behind Campbell and Morris in Topsail. Fuller is connected

to Morris by marsh and is impacted by the outfall.

Coffeen and Four Mile Village is the site of the beginning of the American Strategic Missile Program, with preserved original WWII launch tracks and protective concrete bunkers. This missile testing was also conducted on Topsail property and evidence is still visible in the sands to the west. This makes both sites historical treasures, as well as environment ones.

CLT has worked hard over the years to protect this wonderful gift of land and also the designated Globally Rare and Imperiled Coastal Dune Lakes.

It has prevented Walton County officials from removing the Coastal Dune Lake Advisory Board and lake protection policies from the Comprehensive plan on more than one occasion.

Part of our management plan mandate is to partner with Topsail and we continue to foster this relationship with prescribed burning, educational programming, volunteer efforts and species monitoring, too numerous to mention at this time. We are also a stronghold for the endangered Choctawhatchee beach mouse.

At night, after Topsail closes, we provide the darkest stretch of beach and partner with South

Walton Turtle Watch on hatchling releases from nests impacted by lighting disorientation. We are the site of the first recorded release of an endangered Leatherback

I am respectfully requesting that you not approve an uncontrolled access into any part of Topsail. Please consider our rich joint history and legacy and protect Topsail from further species fragmentation in the revision of the Management Plan.

Sincerely,

Susan Burch Paladini

**Subject:**

Mr. Daniel Alsentzer  
Florida Department of Environmental Protection  
Tallahassee, FL

Mr. Alsentzer, one only has to go to the Florida State Parks website, to get a sense of the incredible beauty and facilities of Topsail Hill Preserve State Park. "Topsail Hill is named for its dunes, which rise like ships' sails over soft sand beaches and the emerald waters of the Gulf of Mexico. Those same white quartz dunes are responsible for a rare coastal ecosystem – freshwater dune lakes – which teem with aquatic wildlife. Walkers will pass through old-growth pine forests, sandy scrubland, dunes and wetlands, where they may see some of the 13 imperiled species that find refuge here, like the Choctawhatchee beach mouse and otherworldly-looking pitcher plants."

"Lakes, three miles of pristine beaches, old-growth long leaf pines, sand pine scrub and a variety of wetlands offer a bird-watching and hiking paradise."

Florida Department of Environmental Protection (DEP), has identified Topsail Hill Preserve State Park, among a couple of others in the Panhandle as a "restoration project". "Plants collected from these areas are kept segregated at the DEP nursery, which allows us to return plants collected from one area back to the same area in an effort to maintain the genetic integrity of restoration sites." "Propagation of material collected from the restoration site allows us to multiply our plant numbers and do restoration plantings with plants collected from the restoration area even when collection material is limited. This is especially important in the case of our coastal dune systems where recent hurricanes have limited the amount of plant material present."

Clearly, Topsail Hill Preserve State Park is recognized by the State of Florida as a "jewel" in its park system and extraordinary measures have been taken to protect it.

The reasons I am concerned about, and not in favor of, an additional public access/crossover through Topsail Hill Preserve State Park are:

## 1. **Ecological**

- Stallworth Lake is one of the coastal dune lakes in Walton County which are unique in Florida and rare in the world. Indeed, these lakes are a unique geographical feature and are only found in Madagascar, Australia, New Zealand, Oregon and here in Walton County. An access along the eastern boundary of the park would require a bridge over Stallworth Lake to reach the beach. While the construction of the bridge (at a potential cost of \$1 million or more dollars depending on its design) would be invasive to the lake's habitat, and could provide lasting damaging effects, the likely daily dumping of trash, plastic bags, cans and other foreign items from public use of the bridge will be harmful to the future health of the lake.
- The sand dunes perform an important role in stabilizing the beaches in front of them and, the land and structures behind them. The dunes are created by wind, but held in place by vegetation and grasses that trap sand grains as they are being moved across the beach. Although not permitted, often foot traffic in the dunes tramples vegetation and causes erosion over time. This effect, coupled with a strong tidal surge from tropical storms, can result in the creation of blowouts in the dune system. This is the concern that DEP is addressing with its "restoration project".
- Additional public access/crossovers will disturb, and possibly damage, the exiting habitat – some of which is threatened.

## 2. **Under-usage of Existing Experiences and Amenities at Topsail Hill Preserve State Park**

- The current facilities are so extensive and offer something to satisfy most anyone's desire. From what I have been told, these lovely facilities are not even close to being used to their capacity. For beach goers, "A tram running every 2 hours starting at 9 AM will take you to the beach or if you choose you can walk or bike a half-mile along the path to the beach". And, ample parking is available.
- After the capital cost of installing any new public access/crossover and related facilities, it must be maintained by the park rangers. This seems to me to be an unnecessary and redundant ongoing operating expense when the existing pathway to the beach is not used more.

## 3. **Fire Control & Safety**

- It is reasonable to assume that more public access/crossovers will increase the

chances of fire. And, it becomes an additional area that must be policed, on a daily basis, by the park rangers.

#### **4. Privacy of Existing Homeowners around Topsail Hill Preserve State Park**

- A primary reason my family (our home is on Loon Lake Dr. and abuts the eastern boundary of the park), and others I know, selected their home sites was to enjoy the natural beauty of the park.

Sincerely yours,

Larry Blumberg

COMMENT FORM

Topsail Hill Preserve State Park

I strongly support the proposed plan. I'm offended by the personal attacks - We can do both - it is about a public jewel paid for by tax public dollars. Customary use has made this issue even more important, I for one do not enjoy being told by beachfront property owners to move my chair. I rarely am able to find parking at the Stallworth access. Control will not be lost at the park by this new boardwalk - it's already lost - a marked define boardwalk access will be more easily controlled.

Florida Department of Environmental Protection  
Division of Recreation and Parks

COMMENT FORM

Topsail Hill Preserve State Park

I am opposed to the proposed private entrance to this park  
for the following reasons:

- 1) Unmaintained access that could present problems with  
unpaid access and allowing people to bring in dogs.
- 2) Fragmentation of habitat. One public entrance is adequate  
and is not far from the private development.
- 3) Possible negative impacts to threatened/endangered  
animals and plants such as plovers, terns and gulf cupine
- 4) Establishing a bad precedent for others to follow in other

COMMENT FORM

Topsail Hill Preserve State Park

- I WAS APPALLED TO HEAR HOW PEOPLE ARE CURRENTLY TRESPASSING INTO THE PARK AND CAUSING DAMAGE TO THE DUNES. INSTEAD OF MAKING IT EASIER FOR THEM TO ENTER THE PARK UNMONITORED, WE SHOULD INCREASE ENFORCEMENT AND DEAL WITH THE TRESPASSERS!

- NO ADDITIONAL ACCESS!

**Florida Department of Environmental Protection  
Division of Recreation and Parks**

**Topsail Hill Preserve State Park 5  
Public Meeting  
December 5, 2018**

*Walking  
along the  
beach &  
encroaching  
on natural*

**Purpose**

The purpose of this meeting and commenting period is to receive public input on beach access in Topsail Hill Preserve State Park.

**Background**

Topsail Hill Preserve State Park protects an outstanding assemblage of natural communities on the coast of the Florida Panhandle. The park is home to multiple dune lakes, the Choctawhatchee beach mouse, one of the largest campgrounds in the Florida State Park system, and 3 miles of white sand beach in a fast-growing region.

*I support a single public access point*

**Agenda**

- 5:30 p.m.
- 5:30 – 7:30 p.m.
- 7:30 p.m.

*I vote for the preservation of Topsail Hill Preserve. there is not much area left there.*

- Welcome
- Public Commenting/Presentations
- Adjournment

*Do not add another access that*

**To ensure that all members of the audience can hear and share, please note the following:**

*will encroach upon this area.*

- Speakers are asked to fill out speaker cards (available at the sign-in table)
- Cards will be randomly shuffled to ensure equal opportunities for speaking.
- General public comments will be limited to three minutes
- Please withhold all comments/questions until your allotted speaking time
- Speaking times cannot be deferred to others

*some things are more important than profit & convenience.*

**Ways to Provide Public Input**

Thank you for taking the time to share your comments with us.

Copies of the comment form

are available on the park planning website: <https://floridadep.gov/parks/public-participation>.

*Preservation of this land*

Comments may also be provided by calling (850) 245-3051, or sending an email with the park name in the subject line to [FLStateParkPlanning@dep.state.fl.us](mailto:FLStateParkPlanning@dep.state.fl.us), or by standard mail at the address below.

Office of Park Planning

Please provide all comments by no later than **December 19, 2018**.

I agree with <sup>said your Cypress</sup> the you have to commit Florida is a gated community. <sup>I support</sup> For  
Florida Department of Environmental Protection  
Division of Recreation and Parks

I support a COMMENT FORM <sup>over convenience &</sup> ~~single public~~ <sup>access</sup> ~~profit~~.  
Topsail Hill Preserve State Park

I vote not to add any more  
public accesses to Topsail Hill Preserve State Park.  
For - Topsail Hill Preserve State Park purpose  
is just that - a Preserve  
the only preserve of the 3  
parks that we have in this area.  
the word preserve  
means to maintain and/or protect  
something in its original or  
existing state.

It is our privilege & duty to  
protect ~~the~~ one of the few  
areas ~~to~~ still left in its natural  
state <sup>in this area</sup> & to protect both the endangered  
animals, birds, & plant species  
found in this ~~area~~ unique area.  
Once its gone, it gone.

there is plenty of  
other accesses  
in addition - & this is only to benefit  
Cypress ~~is~~ gated communities  
unfair to public

Topsail Hill Preserve State Park

THIS ABSOLUTELY MUST BE APPROVED. TO PROHIBIT BEACH ACCESS TO A PUBLIC PARK THAT IS AT NO COST TO THE DIVISION OF RECREATION & PARKS WOULD DENY THE CITIZENS OF WALTON COUNTY USE OF A "PUBLIC PARK". THE ISSUES THAT ARE OFFERED THAT OPPOSE THIS PROJECT ARE "SMOKE & MIRRORS" TO PROHIBIT ANY CHANGES. THERE IS A LOCAL GROUP OF CITIZENS THAT FIGHT ANY & EVERYTHING THAT WOULD IMPROVE WALTON COUNTY. THEY CRY FOR BEACH ACCESS THEN ARGUE AGAINST ACCESS. THIS IS NUTS - APPROVE THIS WONDERFUL OPPORTUNITY.

Florida State Park Planning,

This letter is in objection to any additional accesses within the boundaries of Topsail Hill Preserve State Park.

Topsail is a preserve and should remain as such. The land was purchased with CARL (Conservation and Recreation Land) and Preservation 2000 funding with the intent it would be preserved. At the time of purchase, the primary management objective of the park was “the preservation of natural communities, significant physical features, and rare plant and animal species.”

Any additional walkways will forever alter the delicate ecosystems within the preserve; creating a detrimental impact on endangered and threatened species of fauna that currently thrive at Topsail.

Sincerely,

A handwritten signature in black ink, appearing to read 'Lori Ceier', with a long, sweeping horizontal flourish extending to the right.

Topsail Hill Preserve State Park

I Support beach access proposed.  
Giving access will offer safe  
beach house to the public.

Topsail Hill Preserve State Park

Without tourism, our county would not have an operating budget. With house bill 631 tourists are spending their dollars elsewhere. Beach access is becoming private. Please look at the public access point at Stallworth. The county easement stops at the steps. It does not get the public to the wet sand area. This is just one example of many that will haunt us and our tax dollars.

We must find a FAIR balance between preservation and tourism to keep the lights on in Walton County. I support more public beach access in any and every opportunity we have to maintain our environment and economy. Tourism pays the bills that allows us to live in one of the best places in America with South Walton.
