OGC No. 20-0719

FEDERAL REGULATION (All within 40 CFR)	PROGRAM or CATEGORY*	DESCRIPTION	FEDERAL REGISTER PUBLICATION DATE
Part 51, Subpart F	SIP	Adds cis-1,1,1,4,4,4-hexafluorobut-2-ene (HFO-1336mzz-Z) to the list of compounds excluded from the regulatory definition of VOC on the basis that this compound makes a negligible contribution to tropospheric ozone (O <sub>3</sub> ) formation.	November 28, 2018
Part 51, Subpart I	SIP	Finalizes nonattainment area and ozone transport region (OTR) implementation requirements for the 2015 ozone national ambient air quality standards (2015 ozone NAAQS) published 10/26/2015.	December 6, 2018
Part 52, Subpart K Part 81, Section 81.310	SIP NAAQS	EPA takes final action to determine that the Hillsborough County Area attained the 2010 1-hour Sulfur Dioxide (SO <sub>2</sub> ) National Ambient Air Quality Standard (NAAQS) by its applicable attainment date of October 4, 2018; to approve the SIP revision containing Florida's plan for maintaining attainment of the 2010 1-hour SO <sub>2</sub> standard and to incorporate the maintenance plan into the SIP; and to redesignate the Nassau County Area to attainment for the 2010 1-hour SO <sub>2</sub> NAAQS.	November 12, 2019
Part 52, Subpart K Part 81, Section 81.310	SIP NAAQS	Final action to approve state implementation plan (SIP) revisions	February 20, 2020

\*Programs or Categories: NAAQS=National Ambient Air Quality Standards, SIP=State Implementation Plan, NSPS=New Source Performance Standards, NESHAP=National Emission Standards for Hazardous Air Pollutants.

		and two redesignation requests provided by the FDEP, related to the 2010 1-hour sulfur dioxide (SO <sub>2</sub> ) primary national ambient air quality standard (NAAQS or standard). Specifically, EPA approves a December 1, 2017, SIP revision (as supplemented through an October 9, 2019, SIP revision discussed below) that includes SO <sub>2</sub> multi-unit permit limits and associated compliance and monitoring parameters for Mosaic Fertilizer LLC's New Wales facility (Mosaic New Wales) and Bartow facility (Mosaic Bartow), both located in Polk County, Florida.	
Part 58	NAAQS	EPA delays the start date for the revised Photochemical Assessment Monitoring Stations (PAMS) monitoring site network established in EPA regulations. This final action extends the start date from June 1, 2019, to June 1, 2021. The revision gives states two additional years to acquire the necessary equipment and expertise needed to successfully make the required PAMS measurements by the start of the 2021 PAMS season.	January 8, 2020
Part 60, Subparts Cf, WWW, and XXX Part 63, Subparts A and AAAA	NSPS NESHAP	EPA finalizes the residual risk and technology review (RTR) conducted for the Municipal Solid Waste (MSW) Landfills source category regulated under national emission standards for	March 26, 2020

\*Programs or Categories: NAAQS=National Ambient Air Quality Standards, SIP=State Implementation Plan, NSPS=New Source Performance Standards, NESHAP=National Emission Standards for Hazardous Air Pollutants.

		<p>hazardous air pollutants (NESHAP). In addition, EPA is taking final action to correct and clarify regulatory provisions related to emissions during periods of startup, shutdown, and malfunction (SSM); revise wellhead operational standards and corrective action to improve effectiveness and provide compliance flexibility; reorganize rule text to incorporate provisions from the new source performance standards (NSPS) within this subpart; and add requirements for electronic reporting of performance test results. The EPA is also finalizing minor changes to the MSW Landfills NSPS and Emission Guidelines (EG) and Compliance Times for MSW Landfills. Specifically, the EPA is finalizing provisions to the most recent MSW Landfills NSPS and EG that would allow affected sources to demonstrate compliance with landfill gas control, operating, monitoring, recordkeeping, and reporting requirements by following the corresponding requirements in the MSW Landfills NESHAP.</p>	
<p style="text-align: center;">Part 60, Subparts A and Ja Part 63, Subparts CC and UUU</p>	<p style="text-align: center;">NSPS NESHAP</p>	<p>Finalizes amendments to the petroleum refinery NESHAP and NSPS to clarify requirements of the rules and to make technical corrections and minor revisions to requirements</p>	<p style="text-align: center;">November 26, 2018</p>

OGC No. 20-0719

		for work practice standards, recordkeeping and reporting. Also finalizes the compliance date of requirements for existing maintenance vents from August 1, 2017 to December 26, 2018.	
Part 60, Subparts A and CCCC	NSPS	Following requests for clarification of its June 2016 final action, the EPA published proposed amendments to several provisions of the 2016 New Source Performance Standards (NSPS) and Emission Guidelines (EG) for Commercial and Industrial Solid Waste Incineration (CISWI). This action finalizes the proposed amendments, which provide clarity and address implementation issues in the final CISWI NSPS and EG, as well as correcting inconsistencies and errors in these provisions.	April 16, 2019
Part 63, Subparts A, KKKK, and SSSS	NESHAP	EPA's final action on the residual risk and technology review (RTR). Final action on amendments for the source category to address emissions during periods of startup, shutdown, and malfunction (SSM); electronic reporting of performance test results and compliance reports; the addition of EPA Method 18; and the addition of requirements for periodic performance testing. Additionally, several miscellaneous technical amendments are being made to improve the clarity	February 25, 2020

		of the rule requirements. EPA makes no revisions to the numerical emission limits based on the RTR.	
Part 63, Subparts A and OOO	NESHAP	Final amendments in response to petitions for reconsideration regarding the Amino/Phenolic Resins (APR) NESHAP rule revisions that were promulgated on October 8, 2014. In this action, EPA revises the maximum achievable control technology (MACT) standard for continuous process vents (CPVs) at existing affected sources. In addition, EPA extends the compliance date for CPVs at existing sources. EPA also revises the requirements for storage vessels at new and existing sources during periods when an emission control system used to control vents on fixed roof storage vessels is undergoing planned routine maintenance. To improve the clarity of the APR NESHAP, EPA also finalizes five minor technical rule corrections. In this action, EPA has not reopened any other aspects of the October 2014 final amendments to the NESHAP for the Manufacture of APR, including other issues raised in petitions for reconsideration of the October 2014 rule.	October 15, 2018
Part 63 Subparts A and KKKKK	NESHAP	EPA issues final amendments in response to a petition for	November 1, 2019

OGC No. 20-0719

		<p>reconsideration filed by an affected industry (Kohler Company) on the final rule promulgated on 10/26/2015, as well as EPA review of the 2015 rule with respect to certain other issues raised by Kohler. This action revises the temperature monitoring methodology used to demonstrate continuous compliance with the dioxin/furan (D/F) emissions limit of the final rule. In addition, EPA addresses concerns raised by Kohler regarding visible emissions (VE) monitoring of tunnel kiln stacks for continuous compliance with particulate matter (PM) and mercury (Hg) emission limitations. This action also amends the requirements for weekly visual inspections of system ductwork and control device equipment for water curtain spray booths. Lastly, this action amends the NESHAP to include provisions for emissions averaging, makes technical corrections, and adds certain definitions.</p>	
<p>Part 63, Subparts A and LLLL</p>	<p>NESHAP</p>	<p>EPA's final action on the residual risk and technology review (RTR). Final action to: Correct and clarify regulatory provisions related to emissions during periods of startup, shutdown, and malfunction (SSM); revise monitoring requirements for a</p>	<p>March 12, 2020</p>

		<p>control device used to comply with the particulate matter (PM) standards; add requirements for periodic performance testing; add electronic reporting of performance test results and reports, performance evaluation reports, compliance reports, and Notification of Compliance Status (NOCS) reports; and include other technical corrections to improve consistency and clarity. Makes no revisions to the numerical emission limits based on the residual risk analysis or technology review. Although these amendments are not anticipated to result in reductions in emissions of hazardous air pollutants (HAP), they will improve compliance and implementation of the rule.</p>	
<p>Part 63, Subpart QQQQQ</p>	<p>NESHAP</p>	<p>Finalizes the residual risk and technology review (RTR). Also, final action addressing periods of startup, shutdown, and malfunction (SSM). EPA finalizes proposed determination that the risks from the category are acceptable and that the current NESHAP provides an ample margin of safety to protect public health. No new cost-effective controls identified under the technology review to achieve further emissions reductions. These final amendments include amendments to revise reporting requirements for deviations.</p>	<p>February 8, 2019</p>

Part 63, Subpart GGGG	NESHAP	Finalizes the residual risk and technology review (RTR). EPA finalizes no revisions to the numerical emission limits based on the risk and technology reviews. EPA takes final action to correct and clarify regulatory provisions related to emissions during periods of startup, shutdown, and malfunction (SSM), including removing general exemptions for periods of SSM, adding alternative work practice standards for periods of initial startup for new or significantly modified sources, and making other minor clarifications or corrections. Also adds provisions for electronic reporting of certain notifications and reports and performance test results; and makes other minor clarifications and corrections.	March 18, 2020
Part 63, Subparts A and QQQQ, Appendix A	NESHAP	Finalizes the residual risk and technology reviews (RTR) for the Surface Coating of Wood Building Products source category regulated under national emission standards for hazardous air pollutants (NESHAP). In addition, EPA is taking final action addressing periods of startup, shutdown, and malfunction (SSM). These final amendments include provisions regarding electronic reporting, adding an alternative compliance equation under the current	March 4, 2019
