All GIS files and associated metadata must adhere to the Resilient Florida Program's GIS Data Standards, found on the Resilient Florida Program website: <https://floridadep.gov/rcp/resilient-florida-program/documents/resilient-florida-program-gis-data-standards>, and raw data sources shall be defined within the associated metadata.
10. Program Deliverable Acceptance and Disclaimer. The Department's acceptance of any specific project's task deliverables required by that project's Resilient Florida Program grant agreement, does not guarantee the Department's acceptance of the same or similar task deliverables, as required by a different Resilient Florida Program grant agreement, notwithstanding the Grantee(s) and/or project(s) at issue being the same or similar. The Department will review and accept all deliverables individually, pursuant to the terms and conditions of each grant agreement for which they are submitted, including Attachment 3, Grant Work Plan. The Department's acceptance of a specific deliverable does not constitute the Department's confirmation that the conclusions or statements made within said deliverable are truthful or accurate, including, but not limited to, claims of scientific validity and the certification of engineering practices. If a dispute arises between the Department and Grantee regarding the veracity of a specific deliverable's content, the Department may request that the Grantee provide additional documentation (e.g., a certification statement signed and sealed by a licensed Professional Engineer), verifying that the conclusions or statements at issue are true and correct to the best of the Grantee's knowledge, prior to the Department's acceptance of said deliverable.
11. Sunshine Law Compliance. As per Paragraph 23 to Attachment 1, Standard Terms and Conditions, the Grantee is solely responsible for ensuring that its actions (and those of its agents) under the Agreement are made in compliance with Section 286.011, Florida Statutes—Florida's Government in the Sunshine Law—where applicable.

If a state-funded construction project is located within an area where a Sea Level Impact Protection (SLIP) study is required pursuant to Section 380.0937, Florida Statutes, the Grantee is responsible for conducting such a SLIP study and submitting the resulting report to the Department. The SLIP study report must be received by the Department, approved by the Department, and published on the Department's website for at least thirty (30) days before construction can commence. Upon submission to the Department, SLIP study reports must meet all relevant statutory requirements, as well as the standards and criteria indicated in Chapter 62S-7, Florida Administrative Code.
13. Permits. The Grantee acknowledges that receipt of this grant does not imply nor guarantee that a federal, state, or local permit will be issued for a particular activity. The Grantee agrees to ensure that all necessary permits are obtained prior to implementation of any grant-funded activity that may fall under applicable federal, state, or local laws. Further, the Grantee shall abide by all terms and conditions of each applicable permit for any grant-funded activity. Upon request, the Grantee must provide a copy of all required, acquired, and approved permits for the project.

Grant funds may be utilized to support ongoing efforts to comply with permit-required conditions, as approved by the Resilient
