Florida Circumnavigational Saltwater Paddling Trail Data Book

To be used in conjunction with written guides and maps on Florida Office of Greenways and Trails (OGT) website and Google Earth maps and detailed campsite information on Florida Paddling Trails Association (FPTA) website. Relevant pages of the Florida Atlas will come in handy for town stops. Note: Mileage will likely be longer in certain sections due to the need to paddle farther offshore at low tide. Estimated total mileage for the trail, including paddling to Key West and back, is around 1,515 miles. This total can be more or less depending on how many points of interest are visited or if a paddler skips campsites.

CT paddlers and FPTA volunteers contributed to this document. Feedback is welcome and paddler's comments help update this guide and maps. Send comments to the Florida Paddling Trails Association or the Florida Office of Greenways and Trails.

PC = Primitive campsite
O = Outfitters
LA = Laundromat
L = Lodging
PO = Post Office
S = Shower
g = convenience/camp stores
G = medium/lg supermarkets

C = Campground
POI = Point of Interest
W = Water
I = Internet computer
R = Restaurant
B = Bathroom
PI = Put-In
