## 2020 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is *subject to change*. Monitoring requirements can be found under [Rule 62-550 of the Florida Administrative Code](#) (Fla. Admin. Code). We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

*It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors below do not exempt your system from state or federal monitoring requirements.* Please review the monitoring information below and contact our office with any questions.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2020	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2021	
		Secondary Contaminants	Triennially	2021	
		Volatile Organics (VOCs)	Triennially	2021	
		Radionuclides	9 years	2027	
		Asbestos	Every 9 years	2021	Sample within distribution or certification if no asbestos pipes within the system, use <a href="#">Form 62-555.900(10)</a> for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2021	Sample at <u>each</u> Point of Entry to the distribution (Population >3,300 must take 2 quarterly samples, can request to waive 2 <sup>nd</sup> set of samples using <a href="#">Form 62-560.545(2)*</a> ; Population under 3,300 <b><i>wavers are not available during 2021 and 2022</i></b> )
		Stage 2 Disinfection Byproducts (S2 DBPs)	Annually		July 2020 at BLDG 2300 for TTHMs and HAA5s**
		Lead and Copper (tap samples)	Annually	Jun-Sept 2020	Sample at pre-approved sample plan sites; <b>Number of sites required: 10</b>

\*Submit *Asbestos Free Certification* and *SOC Waiver Requests (waivers only available for 2<sup>nd</sup> set for systems with population over 3,300)* by **October 31<sup>st</sup>** to allow time for Department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

**\*\*Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations and timeframes above are based on the current approved sampling plan. Plans must specify the month of sampling for annual or triennial monitoring and the week of sampling for quarter monitoring (i.e. 1<sup>st</sup> week of 2<sup>nd</sup> month). An updated plan will be required if monitoring frequency is adjusted. Any plan changes must be submitted and approved by the Department *prior* to sampling.

Bacteriological requirements per Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

<b>Bacteriological Monitoring</b>	
<b>Current Population on Record</b>	900
<b>Monitoring Frequency</b>	Monthly
<b>Raw Sampling</b>	1 Raw (pretreatment) per well
<b>Distribution Sampling</b>	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

***Important Reminders:***

- Failure to sample in accordance with rule requirements may result in enforcement action.
- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance. Samples for DBPs and Lead and Copper Tap Sampling must be taken in accordance with the approved plans to be accepted for compliance.
- **Chemical Reports must follow the required format** to be accepted for compliance, which includes:
  - lab certification page from the lab,
  - sampler's certification page that the sampler must complete,
  - chains of custody, and
  - results page.
 A template that includes all of these forms is available at: <https://floridadep.gov/water/source-drinking-water/forms/62-550730-format-be-used-reporting-all-drinking-water-chemical>.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. **Do not rely on the laboratory to submit monitoring results to the Department.** Reports can be submitted to [DEP\\_NED@dep.state.fl.us](mailto:DEP_NED@dep.state.fl.us).

		Nitrate & Nitrite	Annually	2020	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2021	
		Secondary Contaminants	Triennially	2021	
		Volatile Organics (VOCs)	Triennially	2021	
		Radionuclides	9 years	2027	
		Asbestos	Every 9 years	2021	Sample within distribution or certification if no asbestos pipes within the system, use <a href="#">Form 62-555.900(10)</a> for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2021	Sample at <u>each</u> Point of Entry to the distribution (Population >3,300 must take 2 quarterly samples, can request to waive 2 <sup>nd</sup> set of samples using <a href="#">Form 62-560.545(2)*</a> ; Population under 3,300 <b>waivers are not available during 2021 and 2022</b> )
		Stage 2 Disinfection Byproducts (S2 DBPs)	Annually	July 2020 at 301 HAVEN AVE for TTHMs and HAA5s**	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2020	Sample at pre-approved sample plan sites; Number of sites required: 10

\*Submit *Asbestos Free Certification* and *SOC Waiver Requests (waivers only available for 2<sup>nd</sup> set for systems with population over 3,300)* by **October 31<sup>st</sup>** to allow time for Department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

\*\**Note on DBPs*: TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations and timeframes above are based on the current approved sampling plan. Plans must specify the month of sampling for annual or triennial monitoring and the week of sampling for quarter monitoring (i.e. 1<sup>st</sup> week of 2<sup>nd</sup> month). An updated plan will be required if monitoring frequency is adjusted. Any plan changes must be submitted and approved by the Department *prior* to sampling.

Bacteriological requirements per Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

<b>Bacteriological Monitoring</b>	
<b>Current Population on Record</b>	1172
<b>Monitoring Frequency</b>	Monthly
<b>Raw Sampling</b>	1 Raw (pretreatment) per well
<b>Distribution Sampling</b>	2

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

***Important Reminders:***

- Failure to sample in accordance with rule requirements may result in enforcement action.
- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance. Samples for DBPs and Lead and Copper Tap Sampling must be taken in accordance with the approved plans to be accepted for compliance.
- **Chemical Reports must follow the required format** to be accepted for compliance, which includes:
  - lab certification page from the lab,
  - sampler's certification page that the sampler must complete,
  - chains of custody, and
  - results page.
 A template that includes all of these forms is available at: <https://floridadep.gov/water/source-drinking-water/forms/62-550730-format-be-used-reporting-all-drinking-water-chemical>.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. **Do not rely on the laboratory to submit monitoring results to the Department.** Reports can be submitted to [DEP\\_NED@dep.state.fl.us](mailto:DEP_NED@dep.state.fl.us).

## 2020 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is *subject to change*. Monitoring requirements can be found under [Rule 62-550 of the Florida Administrative Code](#) (Fla. Admin. Code). We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

*It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors below do not exempt your system from state or federal monitoring requirements.* Please review the monitoring information below and contact our office with any questions.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2020	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2020	
		Secondary Contaminants	Triennially	2020	
		Volatile Organics (VOCs)	Triennially	2020	
		Radionuclides	9 years	2026	
		Asbestos	Every 9 years	2020	Sample within distribution or certification if no asbestos pipes within the system, use <a href="#">Form 62-555.900(10)</a> for Asbestos Free Certification or Asbestos Sampling Plan*

		Radionuclides	9 years	2026	
		Asbestos	Every 9 years	2020	Sample within distribution or certification if no asbestos pipes within the system, use <a href="#">Form 62-555.900(10)</a> for Asbestos Free Certification or Asbestos Sampling Plan*
Quarter A	Quarter B	Synthetic Organics (SOCs)	Triennially	2020	Sample at <u>each</u> Point of Entry to the distribution (Population >3,300 must take 2 quarterly samples, can request to waive 2 <sup>nd</sup> set of samples using <a href="#">Form 62-560.545(2)</a> *; Population under 3,300 <b>waivers are not available during 2021 and 2022</b> )
Quarter A	Quarter B				
		Stage 2 Disinfection Byproducts (S2 DBPs)	Annually	August 2020 at 2762 BLANDING BLVD for HAA5s only** at 1976 CORNELL RD for TTHMs only**	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2020	Sample at pre-approved sample plan sites; Number of sites required: 20

\*Submit *Asbestos Free Certification* and *SOC Waiver Requests* (**waivers only available for 2<sup>nd</sup> set** for systems with population over 3,300) by **October 31<sup>st</sup>** to allow time for Department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

**\*\*Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations and timeframes above are based on the current approved sampling plan. Plans must specify the month of sampling for annual or triennial monitoring and the week of sampling for quarter monitoring (i.e. 1<sup>st</sup> week of 2<sup>nd</sup> month). An updated plan will be required if monitoring frequency is adjusted. Any plan changes must be submitted and approved by the Department *prior* to sampling.

Bacteriological requirements per Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

<b>Bacteriological Monitoring</b>	
<b>Current Population on Record</b>	3353
<b>Monitoring Frequency</b>	Monthly
<b>Raw Sampling</b>	4-log: Raw not required, recommend quarterly
<b>Distribution Sampling</b>	4

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

***Important Reminders:***

- Failure to sample in accordance with rule requirements may result in enforcement action.
- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance. Samples for DBPs and Lead and Copper Tap Sampling must be taken in accordance with the approved plans to be accepted for compliance.
- **Chemical Reports must follow the required format** to be accepted for compliance, which includes:
  - lab certification page from the lab,
  - sampler's certification page that the sampler must complete,
  - chains of custody, and
  - results page.
 A template that includes all of these forms is available at: <https://floridadep.gov/water/source-drinking-water/forms/62-550730-format-be-used-reporting-all-drinking-water-chemical>.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. **Do not rely on the laboratory to submit monitoring results to the Department.** Reports can be submitted to [DEP\\_NED@dep.state.fl.us](mailto:DEP_NED@dep.state.fl.us).

## 2020 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is *subject to change*. Monitoring requirements can be found under [Rule 62-550 of the Florida Administrative Code](#) (Fla. Admin. Code). We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

*It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors below do not exempt your system from state or federal monitoring requirements.* Please review the monitoring information below and contact our office with any questions.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2020	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2022	
		Volatile Organics (VOCs)	Triennially	2022	
		Radionuclides (Ra-226/228 only)	9 years	2025	
		Asbestos	Every 9 years	2022	Sample within distribution or certification if no asbestos pipes within the system, use <a href="#">Form 62-555.900(10)</a> for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2022	Sample at <u>each</u> Point of Entry to the distribution (Population >3,300 must take 2 quarterly samples, can request to waive 2 <sup>nd</sup> set of samples using <a href="#">Form 62-560.545(2)*</a> ; Population under 3,300 <b><i>wavers are not available during 2021 and 2022</i></b> )
		Stage 2 Disinfection Byproducts (S2 DBPs)	Annually	August 2020 at WW PLANT for TTHMs and HAA5s**	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2021	Sample at pre-approved sample plan sites; Number of sites required: 5

\*Submit *Asbestos Free Certification* and *SOC Waiver Requests (waivers only available for 2<sup>nd</sup> set for systems with population over 3,300)* by **October 31<sup>st</sup>** to allow time for Department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

		Lead and Copper (tap samples)	Triennially	Jun-Sept 2022	Sample at pre-approved sample plan sites; Number of sites required: 30

\*Submit *Asbestos Free Certification* and *SOC Waiver Requests* (**waivers only available for 2<sup>nd</sup> set** for systems with population over 3,300) by **October 31<sup>st</sup>** to allow time for Department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

**\*\*Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations and timeframes above are based on the current approved sampling plan. Plans must specify the month of sampling for annual or triennial monitoring and the week of sampling for quarter monitoring (i.e. 1<sup>st</sup> week of 2<sup>nd</sup> month). An updated plan will be required if monitoring frequency is adjusted. Any plan changes must be submitted and approved by the Department *prior* to sampling.

Bacteriological requirements per Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

<b>Bacteriological Monitoring</b>	
<b>Current Population on Record</b>	38507
<b>Monitoring Frequency</b>	Monthly
<b>Raw Sampling</b>	4-log: Raw not required, recommend quarterly
<b>Distribution Sampling</b>	40

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

***Important Reminders:***

- Failure to sample in accordance with rule requirements may result in enforcement action.
- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance. Samples for DBPs and Lead and Copper Tap Sampling must be taken in accordance with the approved plans to be accepted for compliance.
- **Chemical Reports must follow the required format** to be accepted for compliance, which includes:
  - lab certification page from the lab,
  - sampler's certification page that the sampler must complete,
  - chains of custody, and
  - results page.
 A template that includes all of these forms is available at: <https://floridadep.gov/water/source-drinking-water/forms/62-550730-format-be-used-reporting-all-drinking-water-chemical>.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. **Do not rely on the laboratory to submit monitoring results to the Department.** Reports can be submitted to [DEP\\_NED@dep.state.fl.us](mailto:DEP_NED@dep.state.fl.us).

## 2020 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is *subject to change*. Monitoring requirements can be found under [Rule 62-550 of the Florida Administrative Code](#) (Fla. Admin. Code). We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

*It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors below do not exempt your system from state or federal monitoring requirements.* Please review the monitoring information below and contact our office with any questions.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2020	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2022	
		Volatile Organics (VOCs)	Triennially	2022	
		Asbestos	Every 9 years	2022	Sample within distribution or certification if no asbestos pipes within the system, use <a href="#">Form 62-555.900(10)</a> for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2022	Sample at <u>each</u> Point of Entry to the distribution (Population >3,300 must take 2 quarterly samples, can request to waive 2 <sup>nd</sup> set of samples using <a href="#">Form 62-560.545(2)*</a> ; Population under 3,300 <b><i>wavers are not available during 2021 and 2022</i></b> )
		Stage 2 Disinfection Byproducts (S2 DBPs)	Triennially	August 2022	at CLASSROOM SMALL SINK for TTHMs and HAA5s**
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2020	Sample at pre-approved sample plan sites; Number of sites required: 5

\*Submit *Asbestos Free Certification* and *SOC Waiver Requests (waivers only available for 2<sup>nd</sup> set for systems with population over 3,300)* by **October 31<sup>st</sup>** to allow time for Department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

\*\**Note on DBPs*: TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations and timeframes above are based on the current approved sampling plan. - Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance. Samples for DBPs and Lead and Copper Tap Sampling must be taken in accordance with the approved plans to be accepted for compliance.

- **Chemical Reports must follow the required format** to be accepted for compliance, which includes:

- lab certification page from the lab,
- sampler's certification page that the sampler must complete,
- chains of custody, and
- results page.

A template that includes all of these forms is available at: <https://floridadep.gov/water/source-drinking-water/forms/62-550730-format-be-used-reporting-all-drinking-water-chemical>.

- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. **Do not rely on the laboratory to submit monitoring results to the Department.** Reports can be submitted to [DEP\\_NED@dep.state.fl.us](mailto:DEP_NED@dep.state.fl.us).

# FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION

Northeast District, 8800 Baymeadows Way West, Suite 100, Jacksonville, FL 32256

## 2020 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is *subject to change*. Monitoring requirements can be found under [Rule 62-550 of the Florida Administrative Code](#) (Fla. Admin. Code). We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

*It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors below do not exempt your system from state or federal monitoring requirements.* Please review the monitoring information below and contact our office with any questions.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2020	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2022	
		Volatile Organics (VOCs)	Triennially	2022	
		Asbestos	Every 9 years	2022	Sample within distribution or certification if no asbestos pipes within the system, use <a href="#">Form 62-555.900(10)</a> for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2022	Sample at <u>each</u> Point of Entry to the distribution (Population >3,300 must take 2 quarterly samples, can request to waive 2 <sup>nd</sup> set of samples using <a href="#">Form 62-560.545(2)*</a> ; Population under 3,300 <b><i>wavers are not available during 2021 and 2022</i></b> )
		Stage 2 Disinfection Byproducts (S2 DBPs)	Triennially	July 2022 at SAMPLE SITE C ADMIN BLDG for TTHMs and HAA5s**	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2022	Sample at pre-approved sample plan sites; Number of sites required: 5

\*Submit *Asbestos Free Certification* and *SOC Waiver Requests (waivers only available for 2<sup>nd</sup> set for systems with population over 3,300)* by **October 31<sup>st</sup>** to allow time for Department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

\*\**Note on DBPs:* TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations and timeframes above are based on the current approved sampling plan. Plans must specify the month of sampling for annual or triennial monitoring and the week of sampling for quarter monitoring (i.e. 1<sup>st</sup> week of 2<sup>nd</sup> month). An updated plan will be required if monitoring frequency is adjusted. Any plan changes must be submitted and approved by the Department *prior* to sampling.

Bacteriological requirements per Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

<b>Bacteriological Monitoring</b>	
<b>Current Population on Record</b>	35
<b>Monitoring Frequency</b>	Quarterly
<b>Raw Sampling</b>	1 Raw (pretreatment) per well
<b>Distribution Sampling</b>	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

***Important Reminders:***

- Failure to sample in accordance with rule requirements may result in enforcement action.
- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance. Samples for DBPs and Lead and Copper Tap Sampling must be taken in accordance with the approved plans to be accepted for compliance.
- **Chemical Reports must follow the required format** to be accepted for compliance, which includes:
  - lab certification page from the lab,
  - sampler's certification page that the sampler must complete,
  - chains of custody, and
  - results page.
