Depth Sensor Verification Log - DEP Regional Operation Centers

SOP - Status and Trend Networks Sampling Manual and ROC Training Manual.

Report two decimal places for electronic devices. Report one decimal place for manual devices. Numbers ≤ 4, are rounded down; numbers ≥ 5 are rounded up.

Acceptance criteria for electronic device verification ± 5%. Acceptance criteria for analog device incremental markings check ± 10%. Acceptance criteria for analog device total length of line verification ± 5%.

Time Zone (circle one): **ETZ / CTZ**
