ERP Quarterly Workshop Series:
NAVIGATING THE DOCK PERMITTING PROCESS

Many waterfront property owners desire to construct a dock to have access to the water and the installation of these structures may require an ERP authorization. This training looks at various ERP and state-owned submerged land authorizations that dock construction would fall under. Additionally, this training will review a self-certification process, which is more convenient and faster than submitting a traditional application for verification of an exemption.

Topic and Speaker	Start Time
Welcome and Introductions Katie Craver, External Affairs Director	10:00 a.m.
Dock Permitting in Florida (Regulatory and Proprietary Authorizations) Khristian Mangahas, Environmental Permitting Manager	10:15 a.m.
