Webinar: [Contaminated Media Forum \(https://meet.lync.com/floridadep/brian.dougherty/19zspcmp\)](https://meet.lync.com/floridadep/brian.dougherty/19zspcmp)

(Note: Webinar uses “Skype for Business” software. Webinar participants are encouraged to test the ability to connect in advance of the workshop by clicking the link above. Please note the link text is case sensitive. DEP technical support for connection issues will not be available during the webinar itself. Webinar audio will not be supported via the Skype link.)

Materials will be available on the CMF web page at:

<https://floridadep.gov/waste/district-business-support/content/contaminated-media-forum>

(Handouts will not be available at the meeting.)

The Contaminated Media Forum provides a shared venue for interested parties to discuss a variety of topics. Areas of discussion include evolving policy, scientific, and rule application issues associated with contaminated site cleanup and re-use, using risk-based management principles. Topics and presentations are intended to generate discussion and promote consideration of ideas and options, and do not represent policy or operational positions. The CMF discussions supplement the collaborative decision-making process and foster improved regulatory practices that provide responsible environmental protection while facilitating compliance and minimizing regulatory burden.
