2017 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is subject to change. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors in the table below does not exempt your system from state or federal monitoring requirements. If you are unsure or believe the information below is incorrect, please contact your inspector immediately. **It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department.** We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

Chemical monitoring requirements can be found under Rule 62-550 of the Florida Administrative Code (Fla. Admin. Code), available at www.flrules.org.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2017	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2019	
		Secondary Contaminants	N/A	N/A	
		Volatile Organics (VOCs)	Triennially	2019	
		Radionuclides	Waived	N/A	
		Asbestos	Every 9 years	2022	Sample within distribution or certification if no asbestos pipes within the system, use Form 62-555.900(10) for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2019	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Annually	Jul-Sep 2017 at Navy Support Building for TTHMs and HAA5s Oct-Dec 2017 at Navy Support Building for TTHMs and HAA5s	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2017	Sample at pre-approved sample plan sites

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	1000
Monitoring Frequency	Quarterly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- Reports must include system cover page, lab cover page, chains of custody, results page, and lab certification pages.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. Do not rely on the laboratory to submit monitoring results to the Department.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance.
- Failure to sample in accordance with rule requirements may result in enforcement action.

		Primary Inorganics	Triennially	2019	
		Volatile Organics (VOCs)	Triennially	2019	
		Asbestos	Every 9 years	2022	Sample within distribution or certification if no asbestos pipes within the system, use Form 62-555.900(10) for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2019	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Triennially	Jul-Sep 2019 at MEN'S ROOM ILL SERVICES for TTHMs and HAA5s**	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2018	Sample at pre-approved sample plan sites

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	300
Monitoring Frequency	Quarterly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- Reports must include system cover page, lab cover page, chains of custody, results page, and lab certification pages.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. Do not rely on the laboratory to submit monitoring results to the Department.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance.
- Failure to sample in accordance with rule requirements may result in enforcement action.

2017 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is subject to change. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors in the table below does not exempt your system from state or federal monitoring requirements. If you are unsure or believe the information below is incorrect, please contact your inspector immediately. **It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department.** We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

Chemical monitoring requirements can be found under Rule 62-550 of the Florida Administrative Code (Fla. Admin. Code), available at www.flrules.org.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2017	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2018	
		Secondary Contaminants	Triennially	2018	
		Volatile Organics (VOCs)	Triennially	2018	
		Radionuclides	9 years	2018	
		Asbestos	Every 9 years	2021	Sample within distribution or certification if no asbestos pipes within the system, use Form 62-555.900(10) for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2018	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Annually	Jul-Sep 2017 at Lot 168 for TTHMs only** Jul-Sep 2017 at Lot 127 for HAA5s only**	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2018	Sample at pre-approved sample plan sites

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	704
Monitoring Frequency	Monthly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

		Synthetic Organics (SOCs)	Triennially	2018	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Annually	Jul-Sep 2017 at 4200 Ocean Street for TTHMs and HAA5s Jul-Sep 2017 at 4870 Ocean Street for TTHMs and HAA5s	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2017	Sample at pre-approved sample plan sites

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	251
Monitoring Frequency	Monthly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- Reports must include system cover page, lab cover page, chains of custody, results page, and lab certification pages.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. Do not rely on the laboratory to submit monitoring results to the Department.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance.
- Failure to sample in accordance with rule requirements may result in enforcement action.

2017 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is subject to change. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors in the table below does not exempt your system from state or federal monitoring requirements. If you are unsure or believe the information below is incorrect, please contact your inspector immediately. **It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department.** We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

Chemical monitoring requirements can be found under Rule 62-550 of the Florida Administrative Code (Fla. Admin. Code), available at www.flrules.org.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2017	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2018	
		Secondary Contaminants	Triennially	2018	
		Volatile Organics (VOCs)	Triennially	2018	
		Radionuclides	9 years	2018	
		Asbestos	Every 9 years	2021	Sample within distribution or certification if no asbestos pipes within the system, use Form 62-555.900(10) for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2018	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Annually	Jul-Sep 2017 at 8091 Lourdes Drive South for TTHMs and HAA5s**	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2018	Sample at pre-approved sample plan sites

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	3200
Monitoring Frequency	Monthly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	3

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- Reports must include system cover page, lab cover page, chains of custody, results page, and lab certification pages.

		Synthetic Organics (SOCs)	Community Hall, Royal Lakes, River Oaks Booster Station WTPs Annual for DEHP, Full set Triennially	Community Hall – Q4 for Di(2-ethylhexyl)phthalate; Royal Lakes – Q1 for Di(2-ethylhexyl)phthalate; River Oaks Booster Station – Q3 for Di(2-ethylhexyl)phthalate Full Sets due in 2017	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Quarterly	Apr-Jun 2017 at 4728 Roanoke Blvd for TTHMs and HAA5s Apr-Jun 2017 at 238 S. Shamrock Ave for TTHMs and HAA5s Apr-Jun 2017 at 6505 Greenfern Lane for TTHMs and HAA5s Apr-Jun 2017 at 707 Mill Creek Rd for TTHMs and HAA5s Apr-Jun 2017 at 2624 Seneca Drive for TTHMs and HAA5s Apr-Jun 2017 at 1908 Lyndhurst Drive for TTHMs and HAA5s Apr-Jun 2017 at 9170 Milton Drive for TTHMs and HAA5s Apr-Jun 2017 at 172 Wandering Woods Way for TTHMs and HAA5s	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2017	Sample at pre-approved sample plan sites

		Water Quality Parameters (WQPs)	Every 2 weeks	Sample at <u>each</u> Point of Entry to the distribution (pH only)
--	--	---------------------------------	---------------	--

****Note on Asbestos Free Certification and SOC Waiver:*** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

*****Note on DBPs:*** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	739834
Monitoring Frequency	Monthly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	240

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- Reports must include system cover page, lab cover page, chains of custody, results page, and lab certification pages.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. **Do not rely on the laboratory to submit monitoring results to the Department.**
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance.
- Failure to sample in accordance with rule requirements may result in enforcement action.

2017 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is subject to change. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors in the table below does not exempt your system from state or federal monitoring requirements. If you are unsure or believe the information below is incorrect, please contact your inspector immediately. **It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department.** We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

Chemical monitoring requirements can be found under Rule 62-550 of the Florida Administrative Code (Fla. Admin. Code), available at www.flrules.org.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2017	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2018	
		Secondary Contaminants	Triennially	2018	
		Volatile Organics (VOCs)	Triennially	2018	
		Radionuclides	9 years	2024	
		Asbestos	Every 9 years	2021	Sample within distribution or certification if no asbestos pipes within the system, use Form 62-555.900(10) for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2018	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Triennially	Jul-Sep 2018 at 1553 Blair Road for TTHMs and HAA5s**	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2017	Sample at pre-approved sample plan sites

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	60
Monitoring Frequency	Monthly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	270
Monitoring Frequency	Quarterly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- Reports must include system cover page, lab cover page, chains of custody, results page, and lab certification pages.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. Do not rely on the laboratory to submit monitoring results to the Department.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance.
- Failure to sample in accordance with rule requirements may result in enforcement action.

2017 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is subject to change. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors in the table below does not exempt your system from state or federal monitoring requirements. If you are unsure or believe the information below is incorrect, please contact your inspector immediately. **It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department.** We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

Chemical monitoring requirements can be found under Rule 62-550 of the Florida Administrative Code (Fla. Admin. Code), available at www.flrules.org.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2017	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2019	
		Volatile Organics (VOCs)	Triennially	2019	
		Asbestos	Every 9 years	2022	Sample within distribution or certification if no asbestos pipes within the system, use Form 62-555.900(10) for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2019	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Triennially	Jul-Sep 2019 at Lounge Sink for TTHMs and HAA5s**	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2019	Sample at pre-approved sample plan sites

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	115
Monitoring Frequency	Quarterly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors in the table below does not exempt your system from state or federal monitoring requirements. If you are unsure or believe the information below is incorrect, please contact your inspector immediately. **It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department.** We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

Chemical monitoring requirements can be found under Rule 62-550 of the Florida Administrative Code (Fla. Admin. Code), available at www.flrules.org.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2017	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2018	
		Secondary Contaminants	Triennially	2018	
		Volatile Organics (VOCs)	Triennially	2018	
		Radionuclides	6 years	2021	
		Asbestos	Every 9 years	2021	Sample within distribution or certification if no asbestos pipes within the system, use Form 62-555.900(10) for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2018	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Triennially	Jul-Sep 2018 at Lot 3 Spigot for TTHMs and HAA5s**	
		Lead and Copper (tap samples)	Biannually	Jan-Jun 2017	Sample at pre-approved sample plan sites
		Water Quality Parameters (WQPs)	Every 2 weeks		Sample at <u>each</u> Point of Entry to the distribution

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	75
Monitoring Frequency	Monthly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- Reports must include system cover page, lab cover page, chains of custody, results page, and lab certification pages.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. Do not rely on the laboratory to submit monitoring results to the Department.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance.
- Failure to sample in accordance with rule requirements may result in enforcement action.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	40
Monitoring Frequency	Quarterly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- Reports must include system cover page, lab cover page, chains of custody, results page, and lab certification pages.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. Do not rely on the laboratory to submit monitoring results to the Department.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance.
- Failure to sample in accordance with rule requirements may result in enforcement action.

2017 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is subject to change. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors in the table below does not exempt your system from state or federal monitoring requirements. If you are unsure or believe the information below is incorrect, please contact your inspector immediately. **It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department.** We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

Chemical monitoring requirements can be found under Rule 62-550 of the Florida Administrative Code (Fla. Admin. Code), available at www.flrules.org.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2017	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2019	
		Volatile Organics (VOCs)	Triennially	2019	
		Asbestos	Every 9 years	2022	Sample within distribution or certification if no asbestos pipes within the system, use Form 62-555.900(10) for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2019	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Triennially	Jul-Sep 2019 at Office Kitchen Sink for TTHMs and HAA5s**	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2019	Sample at pre-approved sample plan sites

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	25
Monitoring Frequency	Quarterly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.
