Tallahassee, Florida 32399-1300

Dear Governor Scott, President Negron and Speaker Corcoran:

Pursuant to section 380.512, Florida Statutes, I am pleased to submit the Florida Communities Trust 2016-2017 Annual Report. Florida Communities Trust provides Florida Forever funding through grants awarded to assist local governments and eligible non-profit organizations in acquiring community-based parks, open space, greenways, and working waterfronts.

If you have questions regarding this report, please contact me or David Clark, Interim Deputy Secretary for Land and Recreation, at 850-245-2044 or [David.A.Clark@dep.state.fl.us](mailto:David.A.Clark@dep.state.fl.us).

Sincerely,

Florida Communities Trust Letter from the Chair

Dear Floridians,

Florida Communities Trust (FCT) and our local partners are celebrating 26 years of Parks and Open Space Program. For more than a quarter century, FCT has established a rich legacy of partnership and preservation marked by a diverse array of parks, greenways, urban green spaces, public beach access points and wildlife habitats. As perpetual stewards of over 600 project sites throughout Florida, FCT works to continually enhance local communities and recreational access for Floridians.

The Florida Legislature appropriated \$10 million in Florida Forever funding in Fiscal Year 2016-2017 to FCT. As a result, FCT conducted its first grant application cycle since 2011 and awarded funding to assist 12 communities with their acquisition efforts to conserve Florida's most precious natural resources while promoting access to outdoor recreation opportunities for persons with unique abilities. Florida Communities Trust also assisted in the acquisition of Bay Drive Park, a 12.94-acre parcel located in Flagler County, that will be developed into a beach access park to help protect the fragile ecosystems which exist on the site.

Florida Communities Trust complements many grant programs administered by the Florida Department of Environmental Protection, including the Florida Recreation Development Assistance Program, Land and Water Conservation Fund and Recreation Trails Program. These grant programs help local communities leverage their resources and build interconnected community parks and preserves to better serve our citizens. Please take a few moments to review this report and learn how FCT continues to strengthen our communities.

Sincerely,

A handwritten signature in blue ink, appearing to read "G. Clark".

Gary Clark  
Chair, Florida Communities Trust Governing Board  
Deputy Secretary, Land & Recreation

# FCT Parks and Open Space Program 1990-2017 Projects

# Florida Communities Trust

## What is Florida Communities Trust?

Florida Communities Trust (FCT) is a multi-faceted program housed within the Florida Department of Environmental Protection. Florida Communities Trust was first funded in 1991 under Preservation 2000 as a funding source for local communities to buy land for the protection of natural and cultural resources and grants for provision of recreational opportunities.

Today, FCT administers the Parks and Open Space and Stan Mayfield Working Waterfronts Programs, two competitive grant programs that provide funding to local governments and non-profit environmental organizations to assist them with their local land conservation efforts. The Parks and Open Space Program helps local communities meet the challenges of growth, supporting viable community development and protecting natural resources and open space.

Pond Apple Park  
Sanibel, FL

The Stan Mayfield Working Waterfronts Program acknowledges the importance of the traditional seafood harvesting and aquaculture industries in Florida.

Egan's Creek Greenway  
Sanibel, FL

Projects funded by FCT have fostered cultural and historical preservation, trail system development and public access to water. Florida Communities Trust also furthers the outdoor recreation, natural resource protection and working waterfront needs identified in local government comprehensive plans.

Florida Communities Trust is governed by a five-member board that includes the Secretary of the Department of Environmental Protection or designee and four members of the public appointed by the Governor. Appointees to the

Board include a former elected official of a metropolitan municipality, a former elected official of a county, a representative of an environmental non-profit organization and a representative of the development industry.

Fort Lauderdale, FL

# Mission and Accomplishments

## Meeting Community Challenges

Florida Communities Trust helps communities further the goals of their local government land use plans through land acquisition and innovative, non-regulatory solutions to the challenges inherent in the land-planning process. After a project has been acquired, FCT stewardship continues in perpetuity, providing guidance with park development and management oversight through annual stewardship reporting and site visits.

## The Spirit of Partnership

Florida Communities Trust is dedicated to working with communities across the state to acquire lands for recreation, open spaces, and working waterfronts. FCT

Legacy Park  
Venice, FL

Cypress Creek Nature Preserve  
Hillsborough County, FL

works with community partners to foster responsible stewardship of those lands once they have been acquired. Land acquisition grant projects involve partnerships between FCT and local governments and/or nonprofit environmental organizations. These projects encourage local governments to work together during the acquisition process, and thereafter, for management of the properties as well. These cooperative efforts enable communities to stretch state and local dollars further than they could on their own, distribute project management responsibilities and preserve locally significant lands.

Funding for FCT is currently provided through the *Florida Forever* program. It is the only state land acquisition program available exclusively for locally selected projects. Once a project has been purchased, the grant recipient, not the State, holds title to the lands. Each recipient is then responsible for land stewardship and implementing a formal management plan that must be approved by FCT. All FCT properties include a Board of Trustees 'reverter' or 'spring' clause to protect the State's interests in perpetuity.

## Promoting Economic Revitalization

Projects funded by FCT encourage ecotourism and often help spur economic revitalization in communities. The grant application gives consideration to projects located in areas with special economic needs, including Florida Main Street Districts, designated low-income communities, Rural Areas of Critical Economic Concern or designated urban infill areas.

### **Griffis Landing at Blue Crab Cove – Brevard County**

Griffis Landing includes two working waterfront businesses – Doc's Bait Shop and Ms. Apples Crab Shack. Before being acquired with Stan Mayfield Working Waterfront funding, this site was advertised for sale for the development of private condominiums, with development rights for 66 residential units and 5,000 square feet of commercial space in an 8-story structure. This Working Waterfront grant project allowed for the protection and continuation of this important economic driver. The site provides waterfront access to licensed commercial fishermen for the commercial harvest of blue crab and mullet. This Working Waterfront protects the economic vitality of these valued commercial fisheries and ensures the protection of this valued economic resource to the Brevard County community and the State.

## **Preserving Florida's Cultural Gems**

The majority of FCT's projects protect precious natural resources but many of them also have historical and cultural value. Special emphasis is placed on preserving historical resources and has helped Florida communities save dozens of sites with significance at the local, state and national levels.

### **MacKay Gardens and Lakeside Preserve**

The MacKay Gardens and Lakeside Preserve (the Preserve) is a 123-acre property containing the Alexander MacKay family home, landscaped grounds and garden features. The Preserve holds approximately 115 acres of relatively undisturbed natural communities. Alexander MacKay was a Scottish entrepreneur and investor who purchased property on Lake Rochelle in central Florida. He hired botanist John Morley of England to relocate to Florida and begin construction of the MacKay family estate, called "La Rochelle". Morley also planted citrus groves, beginning what would become the MacKay Estates Limited, the family citrus and cattle holdings in Florida.

The historic Mackay home has exceeded expectations for private wedding rentals and pavilion rentals for birthday parties and such. It also serves as a location for Astronomy Nights, Master Gardner classes, Volunteer Appreciation cookouts, a fieldtrip destination for local schools on Earth day and Eagle Watch Training.

# Promoting Education

Education is an important part of conserving resources. With that in mind, FCT places a priority on projects with educational aspects, awarding points during competitive selection to those projects providing for onsite interpretative signs, educational classes and even environmental education centers.

**Big Bend Maritime Center**

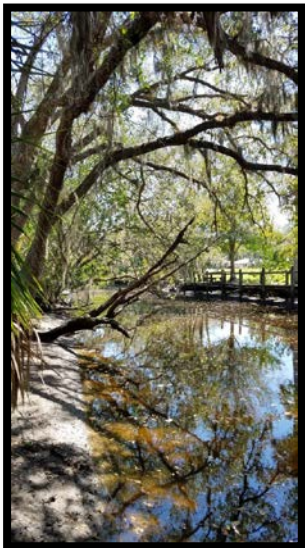

The Big Bend Maritime Center is dedicated to expanding public interest, understanding, and appreciation of the maritime heritage and culture of the Big Bend region of Florida. This is done through education, exhibition, collection, documentation, research and publication. The goals of the center are:

- to encourage people of all ages, abilities and economic levels to participate in activities on or near the water;
- provide a meaningful maritime cultural experience through educational programs and demonstrations of traditional and contemporary marine skills;
- showcase the significance of marine activities in the region's economy in both the past and the present;
- provide an example of sustainable economic development;
- promote nature and heritage-based tourism of the area;
- awaken a sense of wonder about Florida's Big Bend;
- encourage understanding and stewardship of this region's outstanding resources;
- serve as a community center for public dialogue on coastal issues, as well as a venue for instruction and training related to maritime enterprise;
- work supportively with other maritime initiatives on the proposed Big Bend Scenic Byway and elsewhere in the region; and
- demonstrate best management practices in construction in coastal high hazard areas.

**Waterfront Park – Pasco County, FL**

## Land Management and Stewardship

Curry Creek Preserve  
Sarasota County, FL

Florida Communities Trust continues to place a priority on land management and park development which complements DEP's Division of State Lands' role as Florida's lead agency for environmental management and stewardship. Over the last 26 years, FCT has helped acquire well over 600 local and regional parcels in various stages of development. While title is held by the local communities that receive funding, the deeds contain restrictions giving management oversight to FCT. As part of the acquisition process, FCT grant recipients follow management plans and park development timelines, approved by the FCT.

In this ongoing effort to confirm proper stewardship and management at FCT parks, staff conduct site visits throughout the year. These visits reinforce awareness of the land management and park development requirements. Grant recipients who have fully developed their parks and who have demonstrated a commitment to accomplishing successful outcomes are rewarded by a relaxed stewardship reporting requirement (from annual reporting to a five-year interval). With fewer acquisition projects, staff have focused on assisting local communities achieve full development of parks.

## 2017 Florida Forever “Unique Abilities” Grant Application Cycle

Florida Communities Trust received a direct appropriation in Fiscal Year 2016-2017 for projects that met FCT criteria and promoted access to outdoor recreation opportunities for persons with unique abilities. This appropriation of \$10 million funded 12 projects throughout Florida. Staff with FCT also began work on two new projects in Brevard and Flagler Counties to encumber the remaining Florida Forever funds from Fiscal Year 2010-2011.

Myers-Stickel Property  
St. Lucie County, FL  
(Unique Abilities Project)

## Conclusion

Florida Communities Trust will continue working with Florida communities to strengthen relationships, encourage wise land management practices and assure all community responsibilities are met at each FCT funded park, helping to preserve more land for Florida's future parks, open spaces and working waterfronts.

# Park Happenings

## Groundbreaking Ceremony – West Lake Park (Victory Pointe) City of Clermont FCT # 16-005-UA17 June 14, 2017

- Acres: 2.0
- Total Project Cost = \$275,000
- Grant Award = \$165,000
- Local Match = \$110,000

**Official Groundbreaking for Victory Pointe Park, Clermont FL**

Left to Right: Darren Gray, Clermont City Manager; Keith Mullins, Clermont City Council; Dr. Ann Shortelle, Executive Director, St. Johns River Water Management District; Mayor Gail Ash, City of Clermont; Ray Goodgame, Clermont City Council; Diane Travis, Clermont City Council; and Timothy Parks, Clermont City Council.

The City of Clermont describes this project as “a natural filtration storm water system and soon-to-be community recreational park.” This project is an important part of the Master Plan to revitalize Clermont’s downtown. Victory Pointe is a 10-acre regional storm water project along the southwestern shore of Lake Minneola that, when complete, will serve as an environmentally focused, family-friendly recreational park and purpose-built location for major community, cultural and sporting events.”

## **Grand Opening – Veterans Memorial Park Expansion Brevard County FCT # 11-031-FF11 November 11, 2016**

- Acres: 44.54
- Total Project Cost = \$2,002,250
- Grant Award = \$800,000
- Local Match = \$1,202,250

This project site is located in central Merritt Island. Prior to acquisition, this was one of the few remaining undeveloped properties in the area. The previous property owner planned and permitted the property to construct condominiums and a shopping center. The County and Merritt Island Redevelopment Agency purchased the property to preserve the open space for outdoor recreation, conservation of the environmental resources and for storm water management.

Site development includes a trailhead, parking area, walking trail, wildlife observation shelter overlooking a storm water pond, accessible trail, picnic pavilion, trash cans, play structures, benches, water fountain, non-motorized boat launching area and fishing pier. A pier/bridge was constructed across the horseshoe-shaped inlet entrance to Newfound Harbor to prohibit motorized boats from prop dredging into this shallow waterbody.

## **Grand Opening – Indian Hills Park St. Lucie County FCT # 04-045-FF4 February 23, 2017**

- 63.68 Acres
- Project Cost = \$4,419,901.50
- Grant Award = \$3,314,926.13
- Local Match = \$1,104,975.38

# Closings and Reimbursements 2016-2017

## Bay Drive Park Phase II Flagler County FCT # 11-026-FF11

- 12.94 Acres
- Project Cost = \$5,855,825
- Grant Award = \$2,342,330
- Local Match = \$3,513,495

The Bay Drive Park Phase II project is a 12.94-acre oceanfront site located in the northern region of Flagler County along the Atlantic Ocean. Located east of Bay Drive, which connects to SR A1A roughly ½ mile to the east, it is bordered on the north by the Rollins Dunes subdivision, on the west by vacant lots, and to the south by a four-acre parcel owned by Flagler County. The acquisition of this project site has protected it from development and provided the opportunity for Flagler County to create a 17-acre park with 550 feet of ocean frontage for the County's citizens.

This property had been a high priority of the County for public acquisition since 2002. The property was originally acquired with Flagler County Environmentally Sensitive Lands funds. Reimbursement with Florida Communities Trust grant funding will allow the County to develop a beach access park conscious of the fragile ecosystems that exist throughout the site. This acquisition creates an opportunity to educate the public about these sensitive natural resources that are rapidly disappearing throughout Florida.

Flagler County will develop the park to include nature trails, boardwalks, picnic areas, a parking area, restrooms, horseshoes and bocce ball courts, as well as an observation deck and a raised dune walkover for pedestrian beach access. Educational signage will be placed throughout the trails to educate the park user of the natural communities on site, animals that inhabit these communities and beach conditions. This nature oriented park will educate visitors about threatened or endangered species such as gopher tortoises, scrub jays, sea turtles, as well as rare natural communities like beach dune, coastal strand,

and maritime hammock. Gopher tortoises and type-1 scrub jay habitat have been documented on the site.

Bay Drive Park, Phase II  
Flagler County

<b>6/30/2017 YEAR END BALANCE</b>	<b>\$</b>	<b>18,425,644.39</b>

# Florida Communities Trust Board Members

## Gary Clark

*Gary Clark*

Gary Clark is the Deputy Secretary for Land and Recreation with the Florida Department of Environmental Protection. In this role, he is responsible for the management and day-to-day operations of the Florida Park Service, the Division of State Lands and the Office of Operations. These areas of operation oversee the management of Florida's award-winning system of 174 parks, greenways and trails, in addition to the millions of acres of state-owned lands. More importantly, Gary oversees the comfort, satisfaction and safety of Florida's 32 million annual park visitors.

Before joining DEP in 2015, Gary served as the Vice President of West Florida Electric Cooperative. In his 27 years of employment with the company, Clark oversaw the company's marketing, communications, economic development and energy management divisions.

Clark has been a civic leader for nearly 25 years having served in numerous capacities such as:

- Washington County School Board
- Chipola College Board of Trustees
- Washington County Chamber of Commerce Board Member
- Washington County Economic Development Council Chairman
- Opportunity Florida Regional Partnership
- Northwest Florida Water Management District Governing Board Member

A fifth-generation Floridian, Clark and his wife Staci have been married for 25 years and live on the family farm just a few miles from where he grew up in Chipley, Florida. They have a daughter, Emily, 22, a senior at the University of Florida and a son, James, 18, a freshman at Chipola College. Gary holds a BS in Business Administration from the University of Phoenix.

He is an avid hunter and fisherman.

## Gregory Jones

*Greg Jones*

Gregory Jones has over 18 years of experience in resort development and management in the State of Florida. He is currently the Senior Project Manager for WCI Communities Inc., a Lennar Company. During the last decade, he has been actively involved in developing a balance between sustainable growth in his community while establishing a healthy environment to ensure a long-term habitat plan for the endangered Perdido Key Beach Mouse. In addition, Gregory has been an active participant of local community efforts by currently residing on the Tourism Development Council and West End Advisory Boards for Escambia County in addition to serving as a current board member on six community residential boards.

Gregory serves on the FCT Board as Representative of the Development Industry.

## Lynda Bell

*Lynda Bell*

Lynda Bell served on the Miami-Dade County Commission from 2010-2014 where she was the Vice Chair from 2012-2014. She has chaired the Finance Committee, the Value Adjustment Board, the Sports Commission and the Port of Miami Committee. Lynda was also active on both Florida Association of Counties and National Association of Counties.

Prior to serving on the County Commission, Lynda served as a Councilwoman, Vice Mayor and the first and only female Mayor of the city of Homestead. She has been recognized for her many accomplishments, including the “In the Company of Women” award in the governmental category. She received the “I am Blessed” award, was recognized by the Association of Public Administrators with the “Woman of Distinction” award, won the Chamber of Commerce “Athena” award, and was given the Miami- Dade Farm Bureau Advocacy award.

Serving FCT as the Former Elected Official of a County Government, Lynda has a Bachelor’s of Science in Supervision and Management from Miami-Dade College School of Business and has been married to Mark Bell for 33 years. They have three daughters and 12 grandchildren and have resided in Homestead, Fla., for 38 years.

## Erick Lindblad

*Erick Lindblad*

Erick Lindblad has served as the Executive Director of the Sanibel-Captiva Conservation Foundation (SCCF) since 1986. He has been instrumental in SCCF's acquisition of over 2,000 acres of Wildlife Preserve areas on and around Sanibel and Captiva. In 2002, he oversaw the establishment of SCCF's Marine Laboratory.

Erick has coordinated and actively participated in land management activities including invasive non-native plant control, prescribed burning (Division of Forestry Burn Manager Certification), gopher tortoise management and surface water management projects. Land acquisition has been accomplished by a variety of means, including fee simple, bargain sale, development agreement and donation.

As part of his commitment to the sustainable development of Southwest Florida, Erick served on Conservation 20/20, Lee County’s Conservation Land Acquisition and Stewardship Advisory Council and the Land Management Subcommittee. He also was appointed by the Lee County Board of County Commissioners to serve as the county’s representative on the first Babcock Ranch Inc. Board, which worked to develop the initial management plan for the state’s 71,000-acre Babcock Ranch Preserve in Lee and Charlotte Counties.

He served on the Board of the International Osprey Foundation, the Caloosahatchee River Citizens Association and the Charlotte Harbor National Estuary Program Technical Advisory Committee.

Erick has served on various City of Sanibel committees over the years including the Budget Review Committee, Wildlife Committee, Interior Wetlands Study Committee, and the Algae Task force. He was awarded the Walter Klie Lifetime Achievement Award from the Sanibel-Captiva

Islands Chamber of Commerce and Citizen of the year by The Committee of the Islands. In 2014 SCCF was awarded Florida Conservation Organization of the Year by the Florida Wildlife Federation.

Prior to his tenure at SCCF, he served as Director of Newfound Harbor Marine Institute at Seacamp on Big Pine Key, FL from 1979 to 1986. He graduated in 1974 from Millikin University in Illinois with a B.A. in Biology.

He and his wife Ellen have two children and 5 grandsons.

## **VACANT**

Former Elected Official of a Metropolitan Municipal Government

**FLORIDA DEPARTMENT OF ENVIRONMENTAL  
PROTECTION  
FLORIDA COMMUNITIES TRUST  
FISCAL YEAR 2016-2017 ANNUAL REPORT**

**Rick Scott, Governor  
Noah Valenstein, Secretary**

**3900 Commonwealth Boulevard  
Tallahassee, Florida 32399-3000  
(850) 245-2555**

**SEPTEMBER 2017**

Section 380.512, Florida Statutes, requires the Florida Communities Trust to submit to the Governor, the Speaker of the House of Representatives, the President of the Senate and the minority leaders of the House of Representatives and the Senate, within three months after the end of its fiscal year, a complete and detailed report setting forth:

- (1) Its operations and accomplishments.
- (2) Its receipts and expenditures during the fiscal year, in accordance with the categories or classifications the trust establishes for its operating and capital outlay purposes.
- (3) Its assets and liabilities at the end of its fiscal year and the status of reserve, special or other funds.
- (4) An evaluation of the effectiveness of the projects undertaken in carrying out this part.
- (5) Identification of additional funding, legislation, or other resources required to carry out the objectives of this part more effectively.
- (6) An account of any other trust or department duties established by this part.
