

Florida Department of Environmental Protection

Florida *Green Lodging* Program *Designation* Application

INSTRUCTIONS

This application is a comprehensive evaluation tool that details the Program's requirements and provides [Best Management Practices](#) and [Technical Assistance](#) to help you achieve Florida *Green Lodging* designation.

To complete the Designation Application, conduct a thorough environmental assessment of your property and implement practices in the five areas of sustainable operations:

- I. Communication and Education (Guests, Employees, Public)
- II. Waste Reduction, Reuse and Recycling
- III. Water Conservation
- IV. Energy Efficiency
- V. Indoor Air Quality

You may include environmental practices your facility has already implemented. To count a practice, it must be implemented in at least 50 percent of the facility, or at least 50 percent of the time. For example, high efficiency lighting, i.e., CFLs, must be used in at least 50 percent of the light fixtures at your facility or green cleaners must be used at least 50 percent of the time. Documentation will be required to verify certain practices.

To receive credit for an environmental practice you have implemented, please check the "Yes" box at the end of each line. Once you have selected the applicable initiatives in that section, you will then add the points for the selected initiatives and place the total point value in the last box of the point column. If you use an environmental practice that is not listed, it can be entered as an "Innovative Best Practice" in the space provided at the end of each category.

All requirements must be met and environmental practices implemented prior to submitting the application.

The application can be completed electronically. Input the required data into the fields and use the check boxes, where applicable. When completed, save a copy as a .pdf and submit it, along with the required documentation, to GreenLodging@floridadep.gov. The Florida *Green Lodging* Program will evaluate your application and documentation, and notify you of your designation status.

Thank you for your interest in the Florida *Green Lodging* Program. We look forward to working with you to protect Florida's environment and conserve our natural resources for generations to come.

TERMS & CONDITIONS

The [Terms and Conditions](#) apply to both the Florida *Green Lodging* website and participation in the Program. ***Please read carefully before proceeding with the application.***

Florida Department of Environmental Protection

Florida *Green Lodging* Program *Designation* Application

The Florida Department of Environmental Protection (DEP) applauds your decision to participate in the Florida *Green Lodging* Program by illustrating your commitment to protecting and conserving Florida's environment. For assistance completing this application, visit <https://floridadep.gov/OSI/Green-Lodging>.

BASELINE ENVIRONMENTAL PERFORMANCE DATA

To improve environmental performance, a facility must first measure its current impact. This information helps the facility set goals and measure improvements that can be shared with guests and employees. Additionally, it helps the Florida *Green Lodging* Program promote designated facilities.

Please report solid waste, water consumption and energy usage information from invoices for the previous 12 months. Enter reporting period from: to:

mm/yyyy mm/yyyy

If an item is not applicable, select N/A.

SOLID WASTE			
If solid waste information is not available, provide an estimate. An estimate can be calculated by weighing or measuring consumption/materials for one week. Average the weekly figure, making sure to correct for seasonal variations in your business. Multiply the weekly average by 52 to get an estimated total for the year.			
Measurements must be the ANNUAL totals in tons.			
Volume to Landfill	<input style="width: 90%; height: 20px;" type="text"/>	<input type="checkbox"/> Estimate	<input type="checkbox"/> N/A
Volume Being Reused, Recycled or Composted	<input style="width: 90%; height: 20px;" type="text"/>	<input type="checkbox"/> Estimate	<input type="checkbox"/> N/A
Total Cost ALL Waste Disposal		<input style="width: 90%; height: 20px;" type="text"/>	
WATER			
Measurements must be the ANNUAL totals in gallons.			
Volume used (for all operations, including irrigation and pool)	<input style="width: 95%; height: 20px;" type="text"/>		
Total Cost ALL Water		<input style="width: 90%; height: 20px;" type="text"/>	
ENERGY			
Measurements must be ANNUAL totals.			
	Consumption	Cost	N/A

Florida Department of Environmental Protection

Florida Green Lodging Program Designation Application

ENVIRONMENTAL REQUIREMENTS

Communication and Education

Check **ONLY** if the practice is implemented in at least 50 percent of the facility, or at least 50 percent of the time. Documentation will be required to verify practices noted in *italics*. For assistance, see [Best Management Practices](#) and [Technical Assistance](#).

How you communicate your goals, aspiration and accomplishments to your owners, employees and the public lies at the core of your environmental program. Your role as accommodation professionals allows you a great opportunity to educate. With that opportunity also comes a responsibility. The effective communication of your environmental efforts to your constituents has the potential to affect great environmental benefits, not only at your facility but also where your constituents live, work and play. The creation of a formal environmental policy is a critical step in communicating your facility's environmental vision. It is the road map of your environmental efforts, communicating where you are and where you hope to be in the future. This document is essential because it is a living document that transcends personnel change, providing a steady compass for your environmental direction.

A minimum of **44** points must be obtained from this section for it to be considered complete and satisfied.

1. Communicate your facility's environmental initiatives to guests and staff. • <i>Submit samples of communication. Submissions can be pictures or digital files.</i>	5	<input type="checkbox"/> Yes
Guest Outreach: Sharing your environmental efforts with your guests		
2. Use of environmentally specific in-room collateral.	3	<input type="checkbox"/> Yes
3. Use of facility's in-house channel to communicate your environmental messages.	4	<input type="checkbox"/> Yes
4. Use of in-room directory to communicate environmental efforts.	3	<input type="checkbox"/> Yes
5. Direct communication by facility staff. • <i>Provide example:</i> <input style="width: 400px;" type="text"/>	5	<input type="checkbox"/> Yes
6. Encourage and solicit the local community in your environmental efforts. • <i>Describe community interaction:</i> <input style="width: 300px;" type="text"/> <input style="width: 600px;" type="text"/>	4	<input type="checkbox"/> Yes
7. Share your environmental successes with the community.	3	<input type="checkbox"/> Yes
8. Encourage and solicit guest cooperation and participation in environmental initiatives. • <i>Describe environmental initiatives:</i> <input style="width: 300px;" type="text"/> <input style="width: 600px;" type="text"/>	4	<input type="checkbox"/> Yes
9. Provide tours of your facility to guests and the public that highlight environmental improvement projects.	4	<input type="checkbox"/> Yes
10. Provide a survey, suggestion box or online evaluation for guests to allow feedback on your facility's environmental practices • <i>Submit a survey sample, picture of suggestion box or link to online evaluation</i> Link: <input style="width: 400px;" type="text"/>	4	<input type="checkbox"/> Yes

Florida Department of Environmental Protection

Florida Green Lodging Program Designation Application

Waste Reduction, Reuse and Recycling

Check **ONLY** if the practice is implemented in at least 50 percent of the facility, or at least 50 percent of the time. Documentation will be required to verify practices noted in *italics*. For assistance, see [Best Management Practices](#) and [Technical Assistance](#).

Florida's tourism industry serves an estimated 40 million visitors annually. More than 50 percent of these visitors are hotel guests during some portion of their stay. The waste generated by these guests constitutes a large portion of the state's commercial waste stream. If a hotel's waste stream is not reduced or recycled, it can contribute to the state's overall environmental problems. Reducing materials at their source, coupled with recovery, reuse and recycling prevents pollution and reduces or eliminates treatment and disposal costs. The preferred method for reducing waste is to prevent it in the first place through pollution prevention and source reduction, followed by material reuse and recycling.

A minimum of **54** points must be obtained from this section for it to be considered complete and satisfied.

1. Recycle ALL the following materials, if generated and if services are available in your area. Indicate materials this facility currently recycles:		
• Plastic	4	<input type="checkbox"/> Yes
• Aluminum Cans	4	<input type="checkbox"/> Yes
• Steel Cans	4	<input type="checkbox"/> Yes
• Glass	4	<input type="checkbox"/> Yes
• Cardboard	4	<input type="checkbox"/> Yes
• Office Paper	4	<input type="checkbox"/> Yes
• Newspaper	4	<input type="checkbox"/> Yes
• Magazines	4	<input type="checkbox"/> Yes
• Batteries	4	<input type="checkbox"/> Yes
• <i>Name of Battery Recycler:</i> <input style="width: 300px;" type="text"/>		
• Ink Cartridges	3	<input type="checkbox"/> Yes
• Waste Cooking Oil	4	<input type="checkbox"/> Yes

Water Conservation

Check ONLY if the practice is implemented in at least 50 percent of the facility, or at least 50 percent of the time. Documentation will be required to verify practices noted in *italics*. For assistance, see [Best Management Practices](#) and [Technical Assistance](#).

Aside from the depletion of a precious natural resource, excess water use leads to side effects from water treatment chemicals, energy for pumping and heating and from the release of wastewater back to the environment. In addition to being large-volume users of water, hotels often use large amounts of detergents, cleaners and other chemicals that can be detrimental to our environment. Protecting the environment by lessening the impact a lodging facility has on the environment also assists in protecting the very reason its guests come to Florida; the beautiful beaches, rivers, springs and lakes. Increasing water efficiency is one of the most significant opportunities for realizing cost savings. Many of the water-saving solutions detailed below are easy and affordable to implement. Aside from the obvious decrease in water bills, savings are also realized through decreases in electricity, sewage and chemical costs.

A minimum of **39** points must be obtained from this section for it to be considered complete and satisfied.

Management Practices		
1. Use a preventative maintenance schedule to find and repair leaky faucets, toilets and pipes. <ul style="list-style-type: none"> • <i>Submit current schedule.</i> 	4	<input type="checkbox"/> Yes
2. Track water and wastewater usage. <ul style="list-style-type: none"> • <i>Documentation must be entered in Baseline Performance of Application.</i> 	4	<input type="checkbox"/> Yes
3. Have a water assessment conducted by local utility company, local water management district or other appropriate organization. <ul style="list-style-type: none"> • <i>Assessment date:</i> <input style="width: 150px;" type="text"/> • <i>Conducted by:</i> <input style="width: 150px;" type="text"/> OR proceed to #4 	4	<input type="checkbox"/> Yes
4. Conduct a self-audit using the South Florida Water Management District's Water Efficiency Self-Assessment Guide . <ul style="list-style-type: none"> • <i>Submit completed worksheets.</i> 	5	<input type="checkbox"/> Yes
5. Offer a towel reuse program in guest rooms. <ul style="list-style-type: none"> • <i>Submit a copy of guest room signage.</i> 	3	<input type="checkbox"/> Yes
6. Offer a linen reuse program in guest rooms. <ul style="list-style-type: none"> • <i>Submit a copy of guest room signage.</i> 	3	<input type="checkbox"/> Yes
7. Conduct regular water pressure monitoring.	3	<input type="checkbox"/> Yes
8. Sweep sidewalks and other impervious surfaces rather than with the use of water.	3	<input type="checkbox"/> Yes
9. Participate in the Water CHAMP Program, where available.	4	<input type="checkbox"/> Yes

Florida Department of Environmental Protection

Energy Efficiency

Check **ONLY** if the practice is implemented in at least 50 percent of the facility, or at least 50 percent of the time. Documentation will be required to verify practices noted in *italics*. For assistance, see [Best Management Practices](#) and [Technical Assistance](#).

Reducing energy use provides your accommodation facility with significant cost savings. It also decreases your contribution of harmful air emissions such as smog, greenhouse gases, sulfur dioxide, hydrocarbons and particulate matter. Lodging facilities have extensive opportunities to reduce energy use and the associated costs through choosing efficient equipment, limiting the amount of energy used at any one time, making routine energy saving choices and keeping equipment in optimum condition.

The Energy Efficiency section assesses the energy impact of equipment and current practices at your facility. Key elements include:

- Energy efficient choices for lighting, appliances, office equipment and heating and cooling/
- Energy efficiency efforts such as controlling periodic and sporadic energy needs and optimizing thermostat settings.
- Preventative equipment maintenance such as planned repairs and equipment overhauls; and
- Building upkeep incorporating routine energy saving activities.

A minimum of **54** points must be obtained from this section for it to be considered complete and satisfied.

1. Have your local utility or other provider conduct an energy assessment. <ul style="list-style-type: none"> • <i>Date Completed:</i> <input style="width: 50%; border: 1px solid black;" type="text"/> • <i>Conducted by:</i> <input style="width: 50%; border: 1px solid black;" type="text"/> 	4	<input type="checkbox"/> Yes
2. Have a preventative maintenance schedule to clean and maximize efficiency in appliances. <ul style="list-style-type: none"> • <i>Submit current schedule.</i> 	4	<input type="checkbox"/> Yes
3. Indicate which items are inspected on a routine schedule:		
<ul style="list-style-type: none"> • HVAC equipment: Most recent inspection date: <input style="width: 20%; border: 1px solid black;" type="text"/> 	4	<input type="checkbox"/> Yes
<ul style="list-style-type: none"> • Ventilation systems: Most recent inspection date: <input style="width: 20%; border: 1px solid black;" type="text"/> 	3	<input type="checkbox"/> Yes
<ul style="list-style-type: none"> • Lighting timers and sensors: Most recent inspection date: <input style="width: 20%; border: 1px solid black;" type="text"/> 	3	<input type="checkbox"/> Yes
<ul style="list-style-type: none"> • Refrigerators: Most recent inspection date: <input style="width: 20%; border: 1px solid black;" type="text"/> 	3	<input type="checkbox"/> Yes
<ul style="list-style-type: none"> • Stoves, fryers: Most recent inspection date: <input style="width: 20%; border: 1px solid black;" type="text"/> 	3	<input type="checkbox"/> Yes
<ul style="list-style-type: none"> • Pool equipment: Most recent inspection date: <input style="width: 20%; border: 1px solid black;" type="text"/> 	3	<input type="checkbox"/> Yes
<ul style="list-style-type: none"> • Laundry exhaust vents: Most recent inspection date: <input style="width: 20%; border: 1px solid black;" type="text"/> 	3	<input type="checkbox"/> Yes
<ul style="list-style-type: none"> • Grounds equipment: Most recent inspection date: <input style="width: 20%; border: 1px solid black;" type="text"/> 	3	<input type="checkbox"/> Yes

Florida *Green Lodging* Program *Designation* Application

Indoor Air Quality

Check **ONLY** if the practice is implemented in at least 50 percent of the facility, or at least 50 percent of the time. Documentation will be required to verify practices noted in *italics*. For assistance, see [Best Management Practices](#) and [Technical Assistance](#).

Over the past few decades, clean air practices have become increasingly important in progressive hotel management. These changes have not only led to an increase in energy efficiency and reduced exposure to health-related liabilities but have also created positive impacts on the “bottom line” and higher employee and guest satisfaction. Indoor pollution sources that release gases or particles into the air are the primary causes of indoor air quality problems. According to the U.S. Environmental Protection Agency (EPA), indoor air quality can be up to 10 times worse than the quality of outside air. There are many sources of indoor air pollution. These include the combustion of fuels such as oil, gas, kerosene, coal and wood; building materials and furnishings as diverse as deteriorating insulation, wet or damp carpets, and furnishings made of certain pressed wood products; products for cleaning and maintenance; central heating and cooling systems and humidification devices.

A minimum of **21** points must be obtained from this section for it to be considered complete and satisfied.

1. Use at least two, environmentally preferable cleaners that are biodegradable and do not contain NTA (nitrilotriacetic acid), chlorine bleach or phosphates or two cleaners that have a third party green cleaning designation. <ul style="list-style-type: none"> • <i>Enter products & brands:</i> <input style="width: 300px; height: 20px;" type="text"/> 	5	<input type="checkbox"/> Yes
2. Use air filters with a Minimum Efficiency Reporting Value (MERV) of 8 or better. <ul style="list-style-type: none"> • <i>Manufacturer:</i> <input style="width: 200px; height: 20px;" type="text"/> • <i>Submit receipt or proof-of-purchase.</i> 	5	<input type="checkbox"/> Yes
3. Clean all air handler units and coils, at minimum, annually. Keep and follow a preventative maintenance schedule and a record of activities. <ul style="list-style-type: none"> • <i>Submit current schedule.</i> 	4	<input type="checkbox"/> Yes
4. Properly label and store all chemicals.	3	<input type="checkbox"/> Yes
5. No visible mold or mildew is present.	4	<input type="checkbox"/> Yes
6. Ceiling tiles, wallpaper, shower curtain or other absorbent surfaces are routinely monitored for signs of mold and replaced as necessary.	3	<input type="checkbox"/> Yes
7. Waterlogged carpets are immediately lifted and dried, or immediately replaced.	3	<input type="checkbox"/> Yes
8. Maintain HVAC inspection records for the following: <input type="checkbox"/> Mold and bacteria <input type="checkbox"/> Obstructions to air flow <input type="checkbox"/> Clean drip pans <ul style="list-style-type: none"> • <i>Submit copy of current records.</i> 	5	<input type="checkbox"/> Yes
9. Drain condensate or any liquid from HVAC maintenance to sanitary sewer; not to stormwater drain. (Only storm water is permitted to go to the stormwater drain or retention pond).	4	<input type="checkbox"/> Yes
10. Maintain a relative humidity between 35% and 55% throughout the property.	3	<input type="checkbox"/> Yes

Florida Department of Environmental Protection Florida *Green Lodging* Program *Designation* Application

Verification and Authorization

Florida *Green Lodging* Designation requires the lodging facility to verify regulatory compliance with the Florida Department of Environmental Protection (DEP) and authorize to posting its environmental practices on the Florida *Green Lodging* Program website. Please indicate agreement by completing the following:

(*Facility Name*) is in compliance with all applicable federal, state and local environmental rules and regulations; allows its environmental practices to be posted on the Florida *Green Lodging* website; and makes its practices available to the public, guests and others upon request.

- As authorizing agent for this property, I accept the Terms and Conditions of designation.
- No false or misleading information is presented in this application.
- My property is ready for designation.

General Manager

Date

Thank you for your commitment to conserve Florida’s natural resources through your participation in the Florida *Green Lodging* Program. The Florida *Green Lodging* Program will review your application and documentation, and will notify you of your designation status.

IMPORTANT NOTE: Once you completed the application, please save the form as a .pdf using the ‘Save As’ function. Attach application to an email and send to GreenLodging@floridadep.gov. Be sure to include any additional documentation required in the above sections. Attachments should be in .pdf format, titled clearly with your property’s name and documents should be no larger than 250 kb in size. Your application will not be reviewed for designation without the supporting documents.

If you have any questions, please contact the Florida *Green Lodging* Program at (850) 245-2116 or by email at GreenLodging@floridadep.gov.

MAKE SURE TO SAVE A COPY OF THIS APPLICATION BEFORE SUBMITTING
