

Florida *Green Lodging* Program Tips and Best Management Practices*

A Meeting Planner's Guide to Going 'Green'

This guide is offered by the Department of Environmental Protection's (DEP) Florida *Green Lodging* Program. The Florida Green Lodging Program is a voluntary initiative of the DEP that designates and recognizes lodging facilities that make a commitment to conserve and protect Florida's natural resources. The Program's environmental guidelines allow the hospitality industry to evaluate its operations, set goals and take specific actions to continually improve environmental performance.

Selecting a Destination

- ✓ Select a destination compatible with the event's purpose and demographics of the attendees. If a destination requires extensive attendee travel, consider using carbon offset programs.
- ✓ Use a list of environmental criteria or the [Environmental Destination Selection Questionnaire](#) with each meeting Request for Proposal (RFP). The questionnaire helps you gain information about a destination's environmental practices.
- ✓ Ask the destination's convention and visitors' bureau and local destination management companies to recommend venues and suppliers that have environmental practices in place.
- ✓ Inform vendors and/or suppliers of your environmental preferences and ask about their environmental practices.
- ✓ Include a clause in the contract with the vendor or property that states their commitment to comply with your environmental requests.
- ✓ Consider cities with mass transit systems that connect major venues with each other and with major transportation hubs (i.e., airports, train stations).
- ✓ Consider off-site events and tours that involve event attendees in the area's natural environment with minimal impact.

Choosing Accommodations and Venues

- ✓ Select properties that have earned a designation as members of the Florida Green Lodging Program.

Last Update: June 2017

Florida *Green Lodging* Program Tips and Best Management Practices*

- Designated properties are available on the [Green Lodging Program](#) website.
- ✓ Use a checklist to assist you in determining the venue's or property's environmental practices.
 - ✓ Include a clause in the contract with the venue or property that states their commitment to comply with your environmental requests.
 - ✓ Consider venues and properties willing to offer some of the following services:
 - Recycling programs that includes the collection of materials such as paper, aluminum, glass and plastic.
 - Staff is instructed to shut blinds, turn off lights and turn down the heat or air conditioning when guest rooms and meeting rooms are vacant.
 - Guest rooms have dispensers for soaps, shampoos and lotions, or the property donates unused portions of amenities to charity.
 - A linen and towel reuse program with placards offering guests the option to reuse linens and/or towels.
Housekeeping staff are fully trained to follow guests' requests.
 - ✓ If using multiple facilities, choose locations where the hotel and event venue are within walking distance of each other.

Transportation

- ✓ Inform transportation companies of your environmental preferences and ask about their environmental practices.
- ✓ Include a clause in your contract with the transportation provider that states their commitment to comply with your environmental requests.
- ✓ Alert attendees to environmentally preferable transportation choices such as mass transit and carpooling for getting to their destinations.
- ✓ Provide information about the local public transit system and/or arrange for shuttles to transport attendees to and from the airport and the event venue.

Ground Transportation

- ✓ Ask providers if they follow environmentally responsible maintenance and recycle used oil, batteries, antifreeze and tires.

Florida *Green Lodging* Program Tips and Best Management Practices*

- ✓ Ask providers if they train drivers to minimize idling and the use of air conditioners especially when no passengers are in the vehicle.
- ✓ Provide a public transit pass and map in attendees' registration packets.
- ✓ Ask providers if they offer fuel-efficient or alternative fuel vehicles.

Air Transportation

- ✓ Ask airlines if they use reusable or biodegradable service ware.
- ✓ Ask if they collect service items in flight and recycle them.
- ✓ Ask if the aircraft is fuel-efficient and low-noise.

Food and Beverage

- ✓ Inform suppliers of your environmental preferences and ask about their environmental practices.
- ✓ Include a clause in your contract with suppliers and caterers that states their commitment to comply with your environmental requests.
- ✓ Require by contract that the caterer or supplier meet the following standards:
 - Use reusable cutlery, dishware, linens and decorations. If disposables are unavoidable, make sure they contain a significant amount of recycled content.
 - Use compostable and/or biodegradable products ONLY when they can be disposed of in a municipal or commercial facility operated in accordance with best composting management practices.
 - Consider using water dispensers or coolers and paper cups made with a minimum of 30 percent post-consumer recycled content in conferences and meetings rather than bottled water, or glasses and pitchers.
 - Have condiments, beverages and other food items provided in bulk instead of individually packaged and that any packaging is recycled.
 - Use locally produced seasonal and/or organic food and beverage when possible.
 - Allow staff to consume left-over foods and/or donate them to a local food bank or soup kitchen, and compost or donate table scraps to farms where possible. Many states generally limit liability of a business that donates food items to licensed food handlers.

Florida *Green Lodging* Program Tips and Best Management Practices*

- ✓ Have attendees' sign-up for meals on the registration form to indicate their intentions to attend specific meal functions throughout the event. Better attendance numbers will reduce food wastes and costs.

Exhibitions

- ✓ Inform exhibiting organizations of your environmental preferences.
- ✓ Include a clause in the exhibitor agreement that ensures their commitment to comply with your environmental request. Include the following practices:
 - Minimize the use of collateral materials, and for any necessary materials, produce them on double-sided, with a minimum of 30 percent post-consumer, recycled paper with vegetable-based inks.
 - Minimize packaging and recycle packaging when appropriate.
 - Use products which contain a significant amount of recycled content as give-a-ways and do not use gift items made from endangered or threatened species.
 - Try to use locally grown or made products.
 - Provide materials electronically on memory sticks or on a website for future references.
 - Bring only what is needed for the event, reuse what is not distributed. Inform facilities and decorators of your environmental preferences and ask about their environmental practices.
 - If leftover materials cannot be returned, work with one of Florida's Education Reuse Centers in your area. See "Resources" at [SWIX](#).
- ✓ Include a clause in the agreement with the facility and/or decorator to:
 - Provide recycling for cardboard, pallets, paper, cans, plastic, glass and other recyclable materials that are generated.
 - Ensure clean-up crews are trained to keep recyclables and reusable items out of the garbage.
 - Choose decorations and display materials that can be reused and/or made from recycled materials.

Event Communication and Marketing

- ✓ Consider opening each plenary session with a "green" tip.
- ✓ Ensure that staff is informed of your environmental standards and initiatives for the meeting/event.
- ✓ Communicate the event's "green" initiatives to attendees, stakeholders and the media.

Florida *Green Lodging* Program Tips and Best Management Practices*

- ✓ Reduce paper use by using the web and email to promote the event, offering electronic registration and providing the event itinerary and proceedings online (include speaker notes and handouts).
- ✓ For materials that need to be printed, print on double-sided, post-consumer, recycled paper using vegetable-based inks.
- ✓ Request name tags made of recycled content and provide 'reuse' collection bins for them.
- ✓ Request the hotel or venue provide Banquet Event Orders (BEO) and rooming lists electronically, in addition to providing electronic check-in and/or check-out services to attendees.
- ✓ Reduce transportation emissions and support local economies by using local talent and products whenever possible.

Office Procedures and Marketing

- ✓ Establish detailed environmental policies and procedures to implement them. Communicate policies to engage all employees, vendors and clients.
- ✓ Encourage low-impact transportation, such as walking, biking or mass transit, which reduces energy consumption and emissions.
- ✓ Focus on cost-saving, energy efficient efforts including:
 - Purchasing ENERGY STAR® products when replacing equipment.
 - Using laptops or tablets when possible (on average, they use 10 percent less energy than desktop computers).
 - Using LCD rather than CRT monitors.
 - Encouraging employees to turn off equipment and lighting, and turn down thermostats when leaving for extended periods.
 - Using inkjet printers rather than laser printers as they use less energy.
 - Considering multipurpose office equipment, such as all-in-one fax, printer, scanner and copier. These generally require less energy and space than individual counterparts.
- ✓ Shift written communication, rooming lists and layout, event orders, settlement of accounts and other contractual documentation, to email whenever possible.

Florida *Green Lodging* Program Tips and Best Management Practices*

- ✓ When printing is required, use double-sided copies and post-consumer, recycled content paper with soy based ink.
- ✓ Minimize the use of costly new packaging supplies by reusing boxes and packing materials.
- ✓ Save directional, food and beverage and other generic signs for reuse.
- ✓ Occasionally use regular mail, rather than bulk discounted mail, to ensure that mailing lists are valid which reduce waste.

Environmental Destination Selection Questionnaire**

Company XYZ is planning a conference to take place [date] for [number] delegates.

We are looking for a host city that adheres to high environmental standards.

Please complete the following questionnaire to assist us in our selection process.

1. Does your city have a program to recycle and/or otherwise reduce solid waste? Please describe.
2. Does your city have a mass public transit system? Please describe.
3. Does your city have a conference center that will accommodate the number of delegates identified above, and that is situated to proximity of the airport and a selection of hotels?
4. Does your city have an environmentally sound disposal system for solid and liquid wastes? Please describe.
5. Does your city have a comprehensive environmental, or greening plan? Please outline the major points of the plan.
6. Does your city have a program to reduce the consumption of water?
7. How does your city derive most of its energy? Does your city have a program to reduce energy consumption in place?
8. Please describe any other environmental initiative in place within your city.
