

Join us for a **free** webinar to learn about how to become a Clean Marina and/or Clean & Resilient Marina. This is a great workshop for new marinas, boatyards, retailer owners, operators, managers and staff who are seeking "Clean" designation status!

This webinar is also good for marinas currently designated as a "Clean Marina" that may want to find out about the additional steps to achieve the "Clean & Resilient" designation.

We're holding this event on August 26, 2021.

The workshop is presented by the Florida Department of Environmental Protection through its Office of Resilience and Coastal Protection's Clean Boating Programs.

**Register here for the webinar on
Thursday, August 26, 2021, from 2 to 3 p.m.**

For more information, contact
Clean Marina Program Manager Pamela Grainger
