Less-Than-Fee

Marion County

<i>Year Added to Priority List</i>	<i>2003</i>
<i>Project Acres</i>	<i>12,293</i>
<i>Acquired Acres</i>	<i>2,161</i>
<i>Remaining Project Acres</i>	<i>10,132</i>
<i>2024 Assessed Value of Remaining Acres</i>	<i>\$43,095,504</i>

Purpose for State Acquisition

The Mill Creek project will increase Florida’s biodiversity by preventing the conversion of natural areas to alternative uses. The project will also increase the amount of forestland available for natural resource management, enhance existing wetlands through the prohibition of future timber harvesting, and benefit water quality and quantity by protecting property adjacent to the Orange Creek Restoration Area which flows to Orange Creek.

General Description

The Mill Creek project is in northern Marion County adjacent to Orange Creek Restoration Area and the Millpond Swamp conservation easement (Conservation Florida). The project is also near the Quail Roost conservation easement (Conservation Trust for Florida), Lochloosa Slough Preserve, Marjorie Harris Carr Cross Florida Greenway and Ocala National Forest. The Mill Creek property has been impacted by cattle and timber operations such as conversion to pasture, pine plantation and cypress harvesting.

On June 25, 2020, the Department of Environmental Protection (DEP) and the St. Johns River Water Management District acquired a conservation easement on the Mill Creek Mitigation Bank.

Coordination

There are no acquisition partners currently.

Management Policy Statement

As a less-than-fee acquisition, the Mill Creek project would be managed for conservation purposes by the landowner as outlined in the conservation easement.

Manager(s)

If acquired as less-than-fee, management responsibility of the Mill Creek project would remain with the landowner. Periodic monitoring of the site's management to confirm continued conservation easement compliance would be coordinated by DEP's Division of State Lands.

Management Prospectus

DEP's Division of State Lands will periodically monitor the conservation easement, while the management will be conducted by the property owner.
