Key Information

What is a Grant?
A grant is a financial support agreement that is generally with a local governmental entity to complete a locally prioritized project with the department’s financial assistance. Grants are typically funded with FCO appropriation, and usually support capital improvements and related activities, including land acquisition.

What is the Florida Recreation Development Assistance Program (FRDAP)?
The Florida Recreation Development Assistance Program (FRDAP) is a competitive program which provides grants, subject to legislative appropriation, to local governmental entities for acquisition and development of land for public outdoor recreation use or to construct recreational trails. At this time, the FRDAP program is the only grant application accepted through the FDEP Grants website.
