Beach Program Appropriations for FY 2018-2019

The Florida Department of Environmental Protection (DEP) Beach Management Funding Assistance Program's (BMFAP) Fiscal Year (FY) 2018-2019 Local Government Funding Request (Funding Request) submitted to the Florida Legislature on December 22, 2017, contained a total of nearly \$57 million in applications from local governments to conduct beach erosion control projects. Approved applications were presented in the Funding Request on either the Beach Management List or the Inlet Management List. The Beach Management List contained the Beach Restoration and Nourishment Projects in priority order with a separate list of Post-Construction Monitoring projects. The Inlet Management List contained sand bypassing and Inlet Management Plan (IMP) implementation projects with a separate list of post-construction monitoring projects.

In FY 2018-2019, DEP received a new appropriation of \$50,000,000 for beach and inlet projects listed in the Funding Request, per Chapter 2018-009, Laws of Florida, GAA Line Item 1597:

From the funds in Specific Appropriation 1597, \$29,493,889 in recurring funds and \$20,506,111 in nonrecurring funds are provided for the Department of Environmental Protection's Beach Management Funding Assistance Program (BMFAP) Local Government Funding Requests for Fiscal Year 2018-2019, pursuant to section 161.101, Florida Statutes, for Beach Restoration/Nourishment and Inlet Sand Bypassing/Inlet Management Plan Implementation Projects Lists. Funds in Specific Appropriation 1597 shall be provided for Beach Restoration and Nourishment projects on the Fiscal Year 2018-2019 list, in priority order. Funds in Specific Appropriation 1597 shall be provided for Inlet Sand Bypassing and Inlet Management Plan Implementation projects including post-construction monitoring, in priority order, based on the amount of inlet funding requested as a percentage of the total statewide funding requested. Funds in Specific Appropriation 1597 shall be provided for all post-construction monitoring projects for Beach Restoration/Nourishment and Inlet Sand Bypassing/Inlet Management projects, to be cost-shared equally, in the BMFAP. Any remaining unencumbered surplus funds shall be available for beach and inlet management projects in continued priority order. Funds in Specific Appropriation 1597 shall not be provided for any activities related to beach nourishment utilizing offshore sand sources from Martin and St. Lucie counties for the Dade County Shore Protection Project. Any funds in Specific Appropriation 1597 to the Surfside Segment/Dade County Shore Protection Project included in the Department of Environmental

Project Name	Sponsor	Amount Per LBR (State Share)	Amount Appropriated (State Share)	Contract Status
Fort Pierce IMP Implementation	St. Lucie County	\$679,500	-	See page 19
Estero Bay Regional Inlet Management Study	Lee County	\$158,474	-	See page 18
Boca Raton IMP Implementation	City of Boca Raton	\$116,250	-	See page 18

Note: Funding was provided in priority order until exhausted. Wiggins Pass Project had a shortfall of \$811,561.

Table 4. Inlet Post-Construction Monitoring 2018-2019
Ranked list from the FY 2018-2019 BMFAP Local Government Funding Request

Project Name	Sponsor	Amount Per LBR (State Share)	Amount Appropriated (State Share)	Contract Status
Lake Worth IMP Implementation	Palm Beach County	\$207,750	\$138,500	Executed 7/23/18
St. Lucie IMP Implementation	Martin County	\$337,500	\$225,000	Executed 8/10/18
South Lake Worth IMP Implementation	Palm Beach County	\$120,000	\$80,000	Executed 9/5/18
Boca Raton IMP Implementation	City of Boca Raton	\$16,350	\$10,900	Executed 8/10/18

Note: Funding was provided at 50/50 cost share.

Update: Beach Program Appropriations for FY 2017-2018

DEP’s FY 2017-2018 Funding Request submitted to the Florida Legislature on December 1, 2016, contained a total of \$73,000,000 in applications from local governments to conduct beach erosion control projects. Approved applications were presented in the Funding Request on either the Beach Management List or the Inlet Management List. The Beach Management List contained the Beach Restoration and Nourishment Projects in priority order with a separate list of Post-Construction Monitoring projects. The Inlet Management List contained sand bypassing and IMP implementation projects with a separate list of post-construction monitoring projects.

In FY 2017-2018, DEP received a new appropriation of \$50,000,400 for beach and inlet projects listed in the Funding Request, per Chapter 2017-070, Laws of Florida, GAA Line Item 1609:

From the funds in Specific Appropriation 1609, \$20,506,511 in nonrecurring funds from the General Revenue Fund and \$29,493,889 in recurring funds from the Land Acquisition Trust

Funds are provided for the Department of Environmental Protection's Beach Management Funding Assistance Program Local Government Funding Requests for Fiscal Year 2017-2018 pursuant to section 161.101, Florida Statutes, for Beach Restoration/Nourishment and Inlet Sand Bypassing/Inlet Management Plan Implementation Projects Lists, in priority order. Funds in Specific Appropriation 1609 are provided to the Department of Environmental Protection's Beach Management Funding Assistance Program (BMFAP), Local Government Funding Requests for Fiscal Year 2017-2018, from the Beach Restoration/Nourishment and Inlet Sand Bypassing/Inlet Management Plan Implementation Projects Lists, in priority order. Funds in Specific Appropriation 1609 shall be provided for the three highest ranked Inlet Sand Bypassing and Inlet Management Plan Implementation projects, based on the amount of inlet funding requested as a percentage of the total statewide funding requested, reducing local funding requests proportionately. Funds in Specific Appropriation 1609 shall be provided for post-construction monitoring projects for Beach Restoration/Nourishment and Inlet Sand Bypassing/Inland Management projects, to be cost-shared equally, in the BMFAP. All remaining funds in Specific Appropriation 1609 shall be provided for Beach Restoration and Nourishment projects on the Fiscal Year 2017-2018 list, in priority order. Funds in Specific Appropriation 1609 shall not be provided for any activities related to beach nourishment utilizing offshore sand sources from Martin and St. Lucie counties for the Dade County Shore Protection Project. Any funds in Specific Appropriation 1609 to the Sunny Isles Segment - Dade County Shore Protection Project included in the Department of Environmental Protection's Beach Management Funding Assistance Program Fiscal Year 2017-2018 Local Government Funding Requests may only utilize upland sand sources.

All projects that applied for funding in the FY 2017-2018 Funding Request are listed in the following tables. The beach projects are listed in *Table 5*. The beach post-construction monitoring is listed in *Table 6*. The inlet projects are listed in *Table 7* and the inlet post-construction monitoring is listed in *Table 8*. Those projects that did not receive funding are shown with their request and no funding under the column labeled "Amount Appropriated (State Share)."

Table 5. Beach Restoration and Nourishment Projects 2017-2018
Ranked list from the FY 2017-2018 BMFAP Local Government Funding Request

Project Name	Sponsor	Amount Per LBR (State Share)	Amount Appropriated (State Share)	Contract Status
St. Johns County Shore Protection Project	St. Johns County	\$100,000	\$100,000	Executed 4/26/18

Project Name	Sponsor	Amount Per LBR (State Share)	Amount Appropriated (State Share)	Contract Status
St. Lucie IMP Implementation	St. Lucie County	\$431,250	\$287,500	Executed 5/22/18
Lake Worth IMP Implementation	Palm Beach County	\$198,000	\$132,000	Executed 7/23/18
South Lake Worth IMP Implementation	Palm Beach County	\$90,000	\$60,000	Executed 7/30/18
Boca Raton IMP Implementation	City of Boca Raton	\$15,900	\$10,600	Executed 4/6/18
Longboat Pass IMP Implementation	WCIND	\$15,000	\$10,000	Executed 3/28/18

Note: Funding was provided at 50/50 cost share.

Update: Beach Program Funds for Hurricane Appropriations

DEP develops hurricane recovery plans to quantify the damages caused by storms, recommend storm repair strategies and estimate anticipated costs for repairs. These plans outline management strategies that incorporate on-going and emergency federal, state and local efforts to repair and restore the hurricane related damages to beaches and dunes that are vital to Florida’s health, safety and economic welfare. The reports are intended to supplement the BMFAP’s Funding Request, which prioritizes the recurrent beach and inlet management projects designed to address the statewide long-term, comprehensive management strategies planned for the next fiscal year.

2017 Hurricane Season

During the 2017 hurricane season, Hurricane Irma caused significant damages to the Florida Keys, Gulf of Mexico, and Atlantic Coast beaches. A new appropriation of \$11,198,282 was provided by the Legislature to assist counties with sand replacement associated with Hurricane Irma, per Chapter 2018-009, Laws of Florida, GAA Line Item 1594:

The nonrecurring funds in Specific Appropriation 1594 are provided for the purpose of implementing beach and dune repair and restoration projects in response to the damages caused by Hurricane Irma. These funds shall be placed in reserve until October 1, 2018, when they will be available as state match to federal funds. The department is authorized to submit budget amendments on or after October 1, 2018, to request the release of funds pursuant to

the provisions of chapter 216, Florida Statutes. The funds shall be used as necessary state match to federal funds, or otherwise provide for up to 50 percent of the beach and dune restoration costs where federal assistance is not provided. Counties impacted by Hurricane Irma that are interested in receiving this funding must submit a detailed scope of work to the Beach Management Funding Assistance Program before October 1, 2018. In evaluating this funding, the Department shall prioritize state match to federal funds and proportionately distribute the remaining funds among the areas most critically impacted by Hurricane Irma.

The legislation provided this funding as a match to federal funds, or otherwise up to 50 percent of beach and dune restoration costs, where federal assistance is not provided. The BMFAP completed its review of the requests for Hurricane Irma supplemental funding. Projects which applied for federal funding were given priority; however, sufficient state funds were also available for storm repair projects without federal funding.

The Hurricane Irma supplemental funding requests from impacted coastal communities included assessments for sand replacement and dune revegetation, post-storm surveys, and engineering and design. There were 17 federal projects (Table 9) and four non-federal projects (Table 10). A budget amendment is pending approval before funds can be contracted.

Table 9. Hurricane Irma Supplemental Funding Requests with Federal Funding

Project Name	Sponsor	Federal Allocation	State Allocation
Anna Maria Island Dune Nourishment	Manatee County	\$770,952	\$256,984
South St. Lucie Dune Nourishment	St. Lucie County	\$9,290,837	\$3,096,946
Vero Beach Dune Nourishment (Sector 7)	Indian River County	\$922,614	\$307,538
Coral Cove Dune Nourishment	Palm Beach County	\$1,363,075	\$454,358
Singer Island Dune Nourishment	Palm Beach County	\$664,037	\$221,346
Ponte Vedra Beach Dune Nourishment	St. Johns County	\$2,639,460	\$879,820
South Amelia Island Dune Nourishment	Nassau County	\$959,002	\$319,667
Brevard County Dune Nourishment (Mid and South Beaches)	Brevard County	\$3,146,202	\$1,048,734
Charlotte County Dune Nourishment	Charlotte County	\$1,252,512	\$417,504
Lido Key Dune Nourishment	Sarasota County	\$596,998	\$198,999

Project Name	Sponsor	Federal Allocation	State Allocation
Captiva Island Dune Nourishment	Captiva Erosion Prevention District	\$778,991	\$259,664
Hillsboro Beach Dune Nourishment	Town of Hillsboro Beach	\$2,949,109	\$983,036
Key Biscayne Dune Nourishment	Village of Key Biscayne	\$1,178,804	\$392,935
Lantana Dune Nourishment	Palm Beach County	\$149,517	\$49,839
South Jupiter Dune Nourishment	Palm Beach County	\$181,634	\$60,545
Blowing Rocks Dune Nourishment	Town of Jupiter Island	\$19,977	\$6,659
Bal Harbour Dune Nourishment	Village of Bal Harbour	\$142,117	\$47,372
Subtotal		\$27,005,837	\$9,001,946

Table 10. Hurricane Irma Supplemental Funding Requests for Non-Federal Projects

Project Name	Sponsor	Local Allocation	State Allocation
Ft. Pierce Physical Surveys	St. Lucie County	\$8,669	\$8,669
Collier County Dune Nourishment	Collier County	\$1,917,724	\$1,917,724
South Marco Island Dune Nourishment	Collier County	\$244,943	\$244,943
St. Augustine Beach Dune Vegetation	City of St. Augustine Beach	\$25,000	\$25,000
Subtotal		\$2,196,336	\$2,196,336

2016 Hurricane Season

During the 2016 hurricane season, the State of Florida was significantly impacted by two hurricanes: Hermine and Matthew. The most significant damages occurred in Northeast Florida (Duval through Indian River counties), especially along critically eroded beaches that have not yet been restored. Sand losses were documented for these two storms along most of the Atlantic Coast counties and along Gulf Coast counties from Franklin County southward through Charlotte County.

Under executive authority, Governor Rick Scott announced on January 27, 2017, that under Executive Orders 16-230 and 17-16, emergency funding of \$15,762,499.66 would be allocated for emergency beach and dune repairs in response to the damage caused by Hurricane Matthew in St. Johns, Flagler, Volusia and Brevard Counties. The emergency funding was intended for immediate use to address critically eroded beaches where there was an imminent threat to beachfront structures, such as roadways,

homes and businesses. The projects that received funding under the Governor's Executive Orders are provided in *Table 11*.

For FY 2018-2019, the Legislature appropriated \$13,333,333 for Hurricane Matthew projects per Chapter 2017-070, Laws of Florida, GAA Line Item 1605:

Funds in Specific Appropriation 1605 are provided for beach and dune repair projects in response to the damages caused by Hurricane Matthew. These funds were in addition to unobligated emergency dune repair funds previously provided in Executive Orders by the Governor and constitute the state's share of project costs, to be used to match up to 50 percent of the total costs, unless otherwise specified. The Department of Environmental Protection was authorized to distribute the funds appropriated in this act among identified projects in the department's December 2016 draft preliminary hurricane recovery report to effectively implement recovery and leveraging of matching funds from federal and local sources. Funds were provided to projects identified in the department's report in the following priority order: new dune restoration projects in St. Johns and Flagler Counties; dune reconstruction projects landward of Federal project areas; and, with remaining funds, for the 12.5 percent state match for FEMA Category G projects based on areas in greatest need of repair and timeliness to construct.

The projects that received funding under the legislative appropriation are provided in *Table 12*.

Table 11. Hurricane Matthew Emergency Funding Recipients (Executive Order 16-230)

Project Name	Sponsor	Amount PER LBR (State Share)	Amount Appropriated (State Share)	Contract Status
St. Johns County Hurricane Matthew Recovery	St. Johns County	N/A	\$3,750,000	Executed 6/20/17
St. Johns County Hurricane Matthew Recovery	St. Johns County	N/A	\$52,168.36	Pending Execution
Flagler County Hurricane Matthew Recovery	Flagler County	N/A	\$5,375,000	Executed 7/6/17
Flagler County Hurricane Matthew Recovery	Flagler County	N/A	\$52,168.54	Executed 8/2/18
Brevard County Hurricane Matthew Recovery	Brevard County	N/A	\$2,687,500	Executed 6/20/17
FD073*	Hurricane Irma – Sept. 2017	N/A	\$3,845,662.76	Executed in 2017
Total			\$15,762,499.66	

Note: *Funding was provided under multiple purchase orders for Hurricane Irma emergency protective measures.

Table 12. Hurricane Matthew Supplemental Appropriation Funding Recipients

Project Name	Sponsor	Amount Per LBR (State Share)	Amount Appropriated (State Share)	Contract Status
Flagler County Hurricane Matthew Recovery	Flagler County	N/A	\$6,666,666.50	Executed 8/2/18
St. Johns County Hurricane Matthew Recovery	St. Johns County	N/A	\$6,666,666.50	Pending Execution
Total			\$13,333,333.00	

Funding, Accountability and Transparency Reporting

In Laws of Florida Chapter 2012-65, subsection (20) of section 161.101, Florida Statutes was amended to read:

“The department shall maintain active project listings on its website by fiscal year to provide transparency regarding those projects receiving funding and the funding amounts, and to facilitate legislative reporting and oversight. In consideration of this intent:

- (a) The department shall notify the Executive Office of the Governor and the Legislature regarding any significant changes in the funding levels of a given project as initially requested in the department's budget submission and subsequently included in approved annual funding allocations. The term "significant change" means those changes exceeding 25 percent of a project's original allocation. If there is surplus funding, notification shall be provided to the Executive Office of the Governor and the Legislature to indicate whether additional dollars are intended to be used for inlet management pursuant to s. 161.143, offered for reversion as part of the next appropriations process, or used for other specified priority projects on active project lists.
- (b) A summary of specific project activities for the current fiscal year, funding status, and changes to annual project lists shall be prepared by the department and included with the department's submission of its annual legislative budget request.
- (c) A local project sponsor may at any time release, in whole or in part, appropriated project dollars by formal notification to the department, which shall notify the Executive Office of the Governor and the Legislature. Notification must indicate how the project dollars are intended to be used."

The Funding Request and Appropriation Status Report can be found on the Department's website at the following address:

<https://floridadep.gov/water/beaches-funding-program/content/beaches-funding-documents>

Specific project phases and funding status are provided in the tables of this document.

To aid in program transparency, the BMFAP maintains all documents used for the development of the most recent Funding Request on the Department's website, at the following address:

<https://floridadep.gov/water/beaches-funding-program/content/beaches-funding-assistance-information>

Funding Released for Reallocation to Inlet Projects

Pursuant to section 161.143(5)(c), Florida Statutes:

“The department shall make available all statewide beach management funds that remain unencumbered or are allocated to non-project-specific activities for projects on legislatively approved inlet management project lists. Funding for local-government-specific projects on annual project lists approved by the Legislature must remain available for such purposes for a period of 18 months pursuant to s. [216.301\(2\)\(a\)](#). Based on an assessment and the department’s determination that a project will not be ready to proceed during this 18-month period, such funds shall be used for inlet management projects on legislatively approved lists.”

All available unencumbered funding from appropriations are summarized in *Table 13*.

Table 13. Unencumbered Funds for Reallocation

Project Funds Released	Funding Year	Excess Funding
Panama City Beaches Shore Protection Project	06/07	\$24,794.55
Juno Beach Nourishment	06/07	\$12,212.86
Longboat Pass Inlet Management Study	07/08	\$7.36

Reallocation of Funding for Inlet Projects

Unencumbered funds were distributed to the following projects on approved Inlet Lists, in accordance with s. 161.143(5)(c), F.S. Reallocations were provided to inlet projects based on readiness to proceed and based on approved scopes of work. Funding provided to projects on the FY 2017-2018 inlet list are itemized in Table 14. Funding provided to projects on the FY 2018-19 inlet list are itemized in Table 15.

Pursuant to Executive Order 18-276, unencumbered funding from the BMFA Program was available to provide emergency funding for feasibility and design level efforts for beach restoration in the City of Mexico Beach following Hurricane Michael. These emergency funds are itemized in Table 16.

Table 14. Funds Reallocated to FY 2017-2018 Inlet Management Projects

Released Funds Reallocated to Inlet Projects	Project Phase	Amount	Comments
