## **PROGRAM OVERVIEW AND PURPOSE**

### **Florid Recreation Development Assistance Program**

The Florida Recreation Development Assistance Program (FRDAP) is a competitive, state funded grant program that provides financial assistance for acquisition or development of land for public outdoor recreation.

#### Rule Chapter 62D-5, F.A.C.

outlines all of the rules that govern the FRDAP. It is a great resource of programmatic information, including general requirements, application requirements and processing, application evaluation criteria, grant administration, and compliance responsibilities.

## FY2024-2024 FRDAP APPLICATION CYCLE

FY2024-2025 FRDAP APPLICATION WEBINAR CARAGAMAMA AND S

## FRDAP APPLICATION OVERVIEW

### **FRDAP Application Information**

Eligible participants include all county governments, municipalities in Florida and other legally constituted local governmental entities with the responsibility for providing outdoor recreational sites and facilities for the general public.

The maximum grant request may not exceed \$200,000. Matching funds are required for projects exceeding \$50,000. Eligible Rural Areas of Opportunity (RAO), as identified by the Florida Department of Commerce (formerly known as the Department of Economic Opportunity) may submit a request for a match waiver or reduction. An applicant's requested grant funds may be revised by the department due to the availability of program funds. Grant awards are contingent upon appropriation by the Florida Legislature.

PROJECT COST	GRANT AWARD	SPONSOR MATCH
\$50,000 or less	100%	0%
\$50,001 to \$150,000	75%	25%
\$150,001 up to \$200,000	50%	50%

Applicants must have, and demonstrate, adequate site control of project sites and are able to construct, operate, and maintain the area for the term required by FRDAP and the grant agreement.

## FY2024-2025 FRDAP Application Cycle: August 1 – 31, 2023

Applications may be submitted through the Department's Grantee

Portal (Portal) at <a href="https://fdep.force.com/grants/s/">https://fdep.force.com/grants/s/</a>.

### **Exhibit B: Statewide Comprehensive Outdoor Recreation Plan (SCORP)**

Submit a written response to Part IV, Item 3, Page 9 of the application. Include narrative explaining how the project implements one or more of the outdoor recreation goals and objectives as listed in the <u>2019 SCORP</u>.

Goal 1-2: Increase the number the recreation facilities, programs and

#### Florida Recreation Development Assistance Program Clay County Board of County Commissioners

#### Exhibit B – Moccasin Slough Park

Constructing a new 7,200 ft trail with nature observation platforms will meet several of the goals listed in the Outdoor Recreation in Florida – 2019 Plan (SCORP, 2019). Goal 1-1 asks recreation providers to "increase the promotion of active and healthy lifestyles in the outdoors." In preparing for the trail and nature observation project at Moccasin Slough, County staff has engaged the community in a survey to promote knowledge and use of the park, a public meeting, and a meeting with the local Bikeways, Blueways, and Trails Committee. Over 140 residents completed the survey, with some indicating that they were not aware of the park previously but would visit if the proposed project was completed. Goal 1-2 requires governments to "increase the number of recreation facilities" available. The proposed project provides an additional 7,200 ft of multi-use trail and observation platforms for watching a variety of birds and manatees. Community members surveyed expressed enthusians for having additional trails for birdwatching, a popular outdoor recreation hobby at Moccasin Slough.

The second set of SCORP goals relates to access, accessibility, and connectivity. The Moccain Slough trail and observation platform project aligns with multiple goals in priority area two. Goal 2-1 encourages organizations to develop "inclusive and welconing...facilities." The County and project engineers are working to develop a project implementation plan that facilitates equitable access for all parkgoers, negardless of their ability level. The trail will be of sufficient with the accommodate wheelchairs and scooters, and observation platforms will be designed to allow the greatest degree of accessibility possible. Goal 2-2 seeks to "improve universal accessibility and then try to retrofit the facility, the County has set accessibility as a goal. Rather than design for simplicity and then try to retrofit the facility, the County has set accessibility as a priority from the planning stage. Goal 2- 3 seeks to "ensure that appropriate conservation lands and waters are open and accessibility as a did to provide the public access to ensure the proper conservation of the upland and wetland habitat rad to provide the public access to enjoy nature watching and learn about conservation. The multi-use path and observation platforms will provide this access to the public and will allow County Parks staff to educate the public about the habitat and the wild life found there.

An additional SCORP goal relates to promoting "the economic benefits of outdoor recreation and ecotourism in Fordia" (Goal 3-1). The County actively promotes ecotourism and outdoor recreation in County parks. The unique nature of the proposed multi-use trail and observation towers will make it a destination for nature lovers. The County's communications team will actively promote the trail and observation towers as a new anemity to be enjoyed in the County through the website, newsletters, social media, and press releases. By spreading the word about this exciting project as it nears completion, the County expects to draw both locals and tourists visiting the area to the park.

The final set of SCORP goals relate to resource management and stewardship. Goal 4-1 seeks to "encourage the conservation and protection of Florida's natural, historical and cultural resources." The purpose of the FCT grant for the purchase of Moccasin Slough Park was to ensure the conservation of a unique uplands and wetlands habitat and to provide the public access to the natural beauty found there. If funded, this project will provide increased access to the land for the public and provide a significant opportunity for conservation education through programming at the park. Goal 4-2 calls for agencies to "support natural, historical and cultural resource management to ensure high quality outdoor recreation experiences for Florida's residents and visitors." The multiuse trail will provide increased access, particularly to the wetlands habitat and the St. Johns River. The additional access will be vital in supporting conservation and resource management efforts in the region.

Florida Recreation Development Assistance Program Clay County Board of County Commissioners Exhibit H - Moccasin Slough Park The Florida Greenways and Trails System Plan (2019-2023) emphasizes the importance of trails for community health, recreation, and economic development. The plan says that trails "provide free recreation for people of all ages and fitness levels, and they offer opportunities to study nature or local history" (p. 10). The proposed multi-use trail at Moccasin Slough will be designed to provide access to nature study for residents and visitors of all ages and fitness levels. Further, the proposed project will support economic development by providing access to wetlands along the St. Johns River with connectivity to over nine miles of additional trails. During the height of the COVID-19 global health crisis, access to outdoor recreational facilities was seen as a vital, mental health service. In addition to the mental health benefits that the proposed trail and observation platforms will provide, these resources will enhance the physical health of Floridians who enjoy them. ### Exhibit K: Boundary Map

The map must provide a legal description and sketch of the project area boundaries, display known easements and be legally sufficient to identify the project area. Plat maps may be accepted if the above criteria are identified. The boundary map survey MUST encompasses the entire site area which will be the same area dedicated in perpetuity once the proposed project is deemed complete.

REQUIRED

Aerial photographs are not accepted.

### **Exhibit L: On-Site Photographs**

Submit color, on-site photographs sufficient to depict the **current** physical characteristics of the project area. Aerial photographs are requested, but not required. Please mark an approximate boundary of the project site and note major roads and/or landmarks on the aerial photo.

#### Note: This will not be accepted as the boundary map.

If you are requesting funding for an acquisition project, you must include pictures of the property to be acquired and include conceptual pictures of the facilities that will be developed on site following the purchase.

REQUIRED

### **Exhibit M: Location Map and Directions**

Submit a detailed street, road or highway map precisely locating the project site. Also, provide clear and concise written driving instructions from the nearest federal or state highway.

Confirm that street names listed in the written directions are the same as those posted on street signs in the area.

### **Exhibit P: Description of Physical Characteristics**

**Development and Trail Construction Projects:** Provide a description of the proposed project which includes existing and future uses, existing and proposed physical improvements, natural and historical resources, any proposed resource protection/conservation and any existing buildings on site. Indicate if a natural spring is located on project site. Describe the site's public access and indicate if there is an entrance to the park through an existing street or easement.

Acquisition Projects: (In addition to the above information) If the proposed project consists of acquiring multiple parcels or from multiple owners, identify specific order in which the parcels will be acquired to ensure that in the event that all parcels cannot be acquired, the purposes of the project can be achieved. Also, address the ability to have public access to the park either through an existing street or easement.

Florida Recreation Development Assistance Program Clay County Board of County Commissioners

#### Exhibit P - Physical Characteristics of the Project

The proposed project entails construction of a 7,200 ft multi-use nature trail at Moccasin Slough Park in Fleming Island, Clay County. The trail will allow walking, running, exercise, biking, and hiking. The project also calls for construction of observation platforms along the trail. The platforms will provide views of the marshlands and the St. Johns River and foment nature watching.

There are currently no buildings on the site. The park's existing features include a fitness loop with fitness stations. There is also a second short loop sidewalk trail around existing amenites, which include a picnic pavilion, a playground, and handicap accessible paved parking. Existing trails total 4,245 ft. The proposed trail will connect to the short loop trail and bring total trail spans within the park to 11,445 ft in length. Trails within the park also connect to a sidewalk on Raggedy Point Road, separated from the road, which has a signaled cross walk at US-17 to provide connectivity to the Black Creek Trail. Future phases of the park project will include construction of an environmental education center and permanent bathroom facilities.

The park was acquired through grant funding from the Florida Communities Trust. Plans for the project and for future projects follow the Florida Communities Trust Management Plan (October 20, 2003) to ensure preservation of natural resources. According to the Management Plan, the area likely was home to a "short-term hunting and gathering campsite." (p. 13) In completing the proposed improvements, the County will work with the Division of Historic Resources to comply with Florida Statutes if evidence is found of historical resources.

Moccasin Slough Park is located at the junction of US Highway 17 and Raggedy Point Road in Fleming Island, Florida. Access to the park is available via a paved entrance on Raggedy Point Road. With its proximity to US-17, Moccasin Slough is highly accessible to both residents and visitors of Clay County.
