PROGRAM OVERVIEW AND PURPOSE

Florida Recreation Development Assistance Program

The Florida Recreation Development Assistance Program (FRDAP) is a competitive, state funded grant program that provides financial assistance for acquisition or development of land for public outdoor recreation.

[Rule Chapter 62D-5, F.A.C.](#) outlines all of the rules that govern the FRDAP. It is a great resource of programmatic information, including general requirements, application requirements and processing, application evaluation criteria, grant administration, and compliance responsibilities.

A screenshot of the Florida Administrative Code & Florida Administrative Register website. The page displays the header with the Florida Department of State logo and navigation links. The main content area shows "Rule Chapter: 62D-5" and "Chapter Title: FINANCIAL ASSISTANCE FOR OUTDOOR RECREATION". Below this, there is a table titled "View Individual Rules" with columns for "Latest Version", "Rule No.", "Rule Title", and "Effective Date". The table lists 16 rules, each with a document icon and a link to the rule's details.

FRDAP APPLICATION OVERVIEW

FRDAP Application Information

Eligible participants include all county governments, municipalities in Florida and other legally constituted local governmental entities with the responsibility for providing outdoor recreational sites and facilities for the general public.

The maximum grant request may not exceed \$200,000. Matching funds are required for projects exceeding \$50,000. Eligible Rural Areas of Opportunity (RAO), as identified by the Florida Department of Commerce (formerly known as the Department of Economic Opportunity) may submit a request for a match waiver or reduction. An applicant's requested grant funds may be revised by the department due to the availability of program funds. Grant awards are contingent upon annual appropriation by the Florida Legislature.

PROJECT COST	GRANT AWARD	SPONSOR MATCH
\$50,000 or less	100%	0%
\$50,001 to \$150,000	75%	25%
\$150,001 up to \$200,000	50%	50%

Applicants must have, and demonstrate, adequate site control of project sites and are able to construct, operate, and maintain the area for the term required by FRDAP and the grant agreement.

FY2024-2025 FRDAP APPLICATION CYCLE

FY2024-2025 FRDAP Application Cycle: August 1 – 31, 2023

Applications must be submitted through the Department's Grantee Portal (Portal) at <https://fdep.force.com/grants/s/>.

The Portal will go live on August 1st

The Portal will not accept any applications submitted after 5:00 p.m. on August 31, 2023.

Incomplete applications will not be considered.

29. Enter the number of “Acres Acquired”. This is the number of acres being acquired or developed with FRDAP funding.
30. Enter the “Proposal Description”. Provide a description of the proposed project which includes existing and future uses, existing and proposed physical improvements, natural and historical resources, any proposed resource protection/conservation and any existing buildings structures on the project site. If your description exceeds 255 characters, you will be able to upload a supporting document in the Exhibit section later in the application.
31. Indicate whether or not there is a “Natural Spring on Site” of the project.
32. Indicate whether or not “Public Access Provided” to the project (either through an existing street or easement and describe the public access.)
33. Fill in the “Describe Public Access” field. If there will be no public access provided, enter “N/A”.
34. The “Acquiring Multiple Parcels” prompt requires an answer.
 - a. If you are applying for a Development or Trail Construction project grant, enter “N/A” in the field.
 - b. If you are applying for an Acquisition project grant where only one parcel is being acquired, enter “N/A” in the field.
 - c. If your project proposal includes multiple parcels for acquisition, enter these in sequential order. In the event that all parcels cannot be acquired, then the application must demonstrate that the purpose of the project can be achieved. Address the ability to have public access through an existing street or easement. If your description exceeds 255 characters, upload supporting documentation in the exhibit section later in the application.

PRIMARY RECREATION AREAS AND FACILITIES: *Primary facilities include all recreation facilities and opportunities. The primary facilities cost must be equal to or greater than fifty percent (50%) of the total cost.*

Primary facility examples include: beach access, picnic facilities, fishing piers, ball fields, tennis courts, trails, trailheads, shade structures for recreational facilities, etc. Enclosed structures are not eligible costs. Costs of planning and site preparation should be included within the cost of each element. If land value is used as match, it should be included under primary cost. If this is a trail project, list the uses or types of trails. If developing one trail for multi-purposes, state multi-purpose trail, but if doing several different trails list separately with each use (example: walking trail or bike trail).

SUPPORT FACILITIES AND IMPROVEMENTS: *Support facilities are facilities which can not stand alone, or which would have little or no public outdoor recreational value without the primary facility. No enclosed structures are eligible except restrooms, bathhouses or restroom/concession stands.*

Other support facility examples include: parking, landscaping, and security lighting. Amenities such as benches, or bike racks will receive no points when being scored. The enclosed structures listed above cannot be phased and must be completed with one grant.

Elements funded by the FRDAP are not eligible for renovation if awarded within the past 5 years.

2. INFRASTRUCTURE ASSESSMENT OF LOCAL GOVERNMENT RECREATION AND PARK DEPARTMENT FACILITY NEEDS IN THE STATE OF FLORIDA

A) List the facilities which are addressed on page 7 & 8 of this application which are identified in the priority ranked Index clusters of outdoor facilities needs for renovation and/or new construction identified within the applicant's population density as set forth in the Department's study entitled "Infrastructure Assessment of Local Government Recreation and Park Department Facility Needs in the State of Florida" effective December 1995. (See attached pages 22-26) for Priority Ranked Index Clusters. A project facility not listed in the priority ranked Indexes will receive a score of a similar facility included in the Indexes, as determined by the Department staff. (If developing trails, must have separate trails to receive separate points.)

This evaluation provides for the development portion of the acquisition project for the proposed project elements identified at the link for the top three priority ranked index clusters of outdoor facilities needs for **all new construction** within the applicant's population density set forth in the Rule and hereafter referred as the Infrastructure Assessment study for this presentation. In this section identify all of the project elements that will be developed for this acquisition project.

2. NEEDED RECREATIONAL ACREAGE EVALUATION

Select your response to the Needed Recreation Acreage Evaluation question

For the **needed recreational acreage evaluation**, an applicant will describe how the proposed project provides for identified needs for additional park acreage pursuant to the applicant's adopted local comprehensive plan. (Select an Option)

3. CAPITAL IMPROVEMENT PLAN (CIP)

The applicant must identify the development portion of the proposed acquisition project in their capital improvement plan (CIP) or schedule during the current or next 3 fiscal years. (Use the down arrow to make the selection)

If the development portion of the proposed acquisition project is not identified in the Applicant's CIP, the proposed project can be identified as an adopted resolution to amend the CIP schedule to include and complete the project should it receive grant program funds. (Use the down arrow to make the selection). Also, this will be labeled as "Exhibit_A" in the upload section.

Exhibit B: Statewide Comprehensive Outdoor Recreation Plan (SCORP)

Submit a written response to Part IV, Item 3, Page 9 of the application. Include narrative explaining how the project implements one or more of the outdoor recreation goals and objectives as listed in the [2019 SCORP](#).

State of Florida Outdoor Recreation Goals
SCORP 2019
City of Arcadia
McSwain Park

HEALTH & WELLBEING

Priority Area One:

Goal 1-1: Increase the promotion of active and healthy lifestyles in the outdoors.

- Recreation providers should work with appropriate agencies and organizations to deliver effective programming that boosts physical activity, promotes family-centric health and wellness and exposes youth to nature.

The Arcadia McSwain Park picnic, playground, walking path and restrooms all contribute to improved health and quality of life for those who use the facilities. The City will develop programming that is appropriate for the facilities at the park.

- Recreation providers should partner with county health departments and local health care providers to promote active, healthy lifestyles through community-level health improvement initiatives.
- The FDEP should assist Florida's Department of Health in implementing recreation-related objectives in the State Health Improvement Plan.
- Recreation providers should seek partnerships with private sector companies that share the common vision of creating healthy, active and walkable communities.

The City of Arcadia is always seeking public-private partnerships to help sustain parks and recreational facilities. Sponsorships help to offset the costs of maintaining parks. Further, the City is developing this park to further the goal of creating a healthy, active and walkable community.

- Recreation providers should collaborate to develop a statewide campaign that promotes the whole-health benefits of outdoor recreation, including improved mental health and workplace productivity.

Goal 1-2: Increase the number the recreation facilities, programs and

Florida Recreation Development Assistance Program
Clay County Board of County Commissioners

Exhibit B – Moccasin Slough Park

Constructing a new 7,200 ft trail with nature observation platforms will meet several of the goals listed in the Outdoor Recreation in Florida – 2019 Plan (SCORP, 2019). Goal 1-1 asks recreation providers to “increase the promotion of active and healthy lifestyles in the outdoors.” In preparing for the trail and nature observation project at Moccasin Slough, County staff has engaged the community in a survey to promote knowledge and use of the park, a public meeting, and a meeting with the local Bikeways, Blueways, and Trails Committee. Over 140 residents completed the survey, with some indicating that they were not aware of the park previously but would visit if the proposed project was completed. Goal 1-2 requires governments to “increase the number of recreation facilities” available. The proposed project provides an additional 7,200 ft of multi-use trail and observation platforms for watching a variety of birds and manatees. Community members surveyed expressed enthusiasm for having additional trails for birdwatching, a popular outdoor recreation hobby at Moccasin Slough.

The second set of SCORP goals relates to access, accessibility, and connectivity. The Moccasin Slough trail and observation platform project aligns with multiple goals in priority area two. Goal 2-1 encourages organizations to develop “inclusive and welcoming... facilities.” The County and project engineers are working to develop a project implementation plan that facilitates equitable access for all parkgoers, regardless of their ability level. The trail will be of sufficient width to accommodate wheelchairs and scooters, and observation platforms will be designed to allow the greatest degree of accessibility possible. Goal 2-2 seeks to “improve universal accessibility on all public lands.” The project is being designed with accessibility as a goal. Rather than design for simplicity and then try to retrofit the facility, the County has set accessibility as a priority from the planning stage. Goal 2-3 seeks to “ensure that appropriate conservation lands and waters are open and accessible for public use and are widely promoted.” Moccasin Slough Park was purchased through a grant from the Florida Communities Trust (FCT). The purpose of the acquisition was to ensure the proper conservation of the upland and wetland habitat and to provide the public access to enjoy nature watching and learn about conservation. The multi-use path and observation platforms will provide this access to the public and will allow County Parks staff to educate the public about the habitat and the wildlife found there.

An additional SCORP goal relates to promoting “the economic benefits of outdoor recreation and ecotourism in Florida” (Goal 3-1). The County actively promotes ecotourism and outdoor recreation in County parks. The unique nature of the proposed multi-use trail and observation towers will make it a destination for nature lovers. The County’s communications team will actively promote the trail and observation towers as a new amenity to be enjoyed in the County through the website, newsletters, social media, and press releases. By spreading the word about this exciting project as it nears completion, the County expects to draw both locals and tourists visiting the area to the park.

The final set of SCORP goals relate to resource management and stewardship. Goal 4-1 seeks to “encourage the conservation and protection of Florida’s natural, historical and cultural resources.” The purpose of the FCT grant for the purchase of Moccasin Slough Park was to ensure the conservation of a unique uplands and wetlands habitat and to provide the public access to the natural beauty found there. If funded, this project will provide increased access to the land for the public and provide a significant opportunity for conservation education through programming at the park. Goal 4-2 calls for agencies to “support natural, historical and cultural resource management to ensure high quality outdoor recreation experiences for Florida’s residents and visitors.” The multi-use trail will provide increased access, particularly to the wetlands habitat and the St. Johns River. The additional access will be vital in supporting conservation and resource management efforts in the region.

GOALS, OBJECTIVES AND POLICIES

RECREATION AND OPEN SPACE ELEMENT

Goal: To ensure the provision and maintenance of parks, recreational areas and open space to meet the needs of the existing and future residents of Wakulla County.

Objective 1: Implement and maintain a system of parks and recreation program that meets the needs of the County's population by maintaining a level of service (LOS) standard of five (5) acres of developed recreation per thousand (1000) population (or fraction thereof).

Policy 1.1: The County may establish and collect impact fees to raise revenues to purchase land and develop or improve parks.

Policy 1.2: The County shall preserve and maintain existing parks and recreation facilities through the use of adequate operating budgets and proper management techniques.

Policy 1.3: Developed recreation land, for purposes of meeting the LOS standard, shall include any land containing playgrounds, playfields, fields for organized sports, recreation halls, tennis courts, swimming pools, and similar facilities, boat ramps, multiuse bike trails and necessary parking and service uses and surrounding passive open space.

Policy 1.4: The County shall implement a bicycle, pedestrian and blueways master plan for the unincorporated areas of the County to adequately plan for future recreational needs and to facilitate the acquisition of funding from non-County sources.

Objective 2: Ensure that adequate open spaces are provided.

Policy 2.1: The County shall maintain Land Development Codes which include recreation areas and specific open space definitions and standards.

Policy 2.2: The County shall, at least annually in connection with the preparation of the annual budget, review the availability of land which can be acquired to increase open space. The review of land development proposals shall include the evaluation of open space areas which exhibit unique natural character and which can be acquired through dedication.

Policy 2.3: The County shall revise its Land Development Codes to require that the land uses and activities involved in areas adjacent to beaches and water bodies shown on the Future Land Use Map be arranged so as to facilitate access by the public to such beaches and waterbodies. Where private development occurs, public access or preservation of access to such beaches or waterbodies shall be dedicated to a private organization established for the purpose of maintaining the access.

Objective 3: All public recreation facilities will have automobile, bicycle and pedestrian facilities access and will provide access for the elderly and for individuals with disabilities.

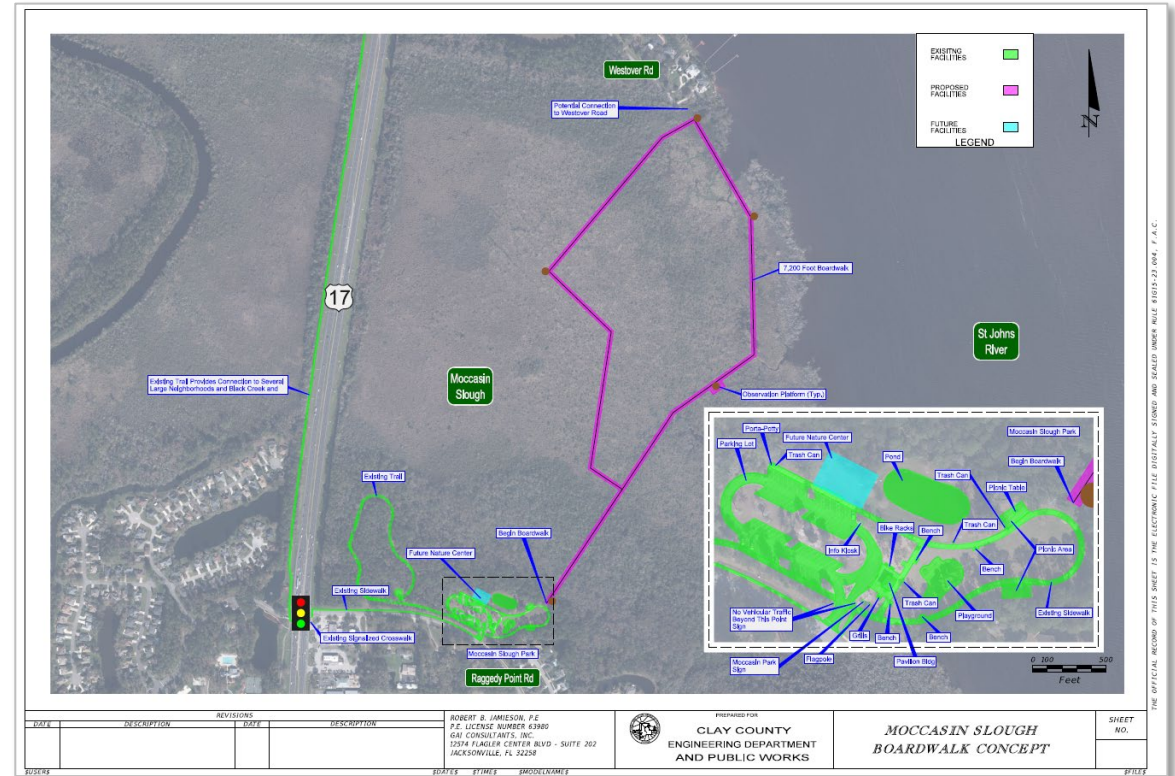

REQUIRED

Submit a conceptual site plan displaying the project boundary and facilities to be developed as proposed in the scope of the application. The site plan must correlate with the submitted cost estimate and project boundary area identified in the site control documentation.

The site plan must **CLEARLY DELINEATE & COLOR CODE** between facilities and opportunities currently existing, facilities proposed for funding in this application and facilities planned for future development (not in this project's scope of work). It should also include the project number, name, and elements constructed through any previously awarded grants.

If the project provides for increased trail access by connecting an existing, publicly owned and designated recreational trail which is outside the project boundary, applicants must indicate on the site plan the project trail/connection and name and location of existing trail(s) outside the boundaries.

THIS INDENTURE, made this 19th day of December A.D. 2003, between THE TRUST FOR PUBLIC LAND, a non-profit California corporation, whose address is 306 N. Monroe St., Tallahassee, FL 32301, Grantor, and CLAY COUNTY, a political subdivision of the State of Florida, whose address is 477 Houston St., Green Cove, Springs, FL 32043, Grantee.

(Wherever used herein the terms "grantor" and "grantee" include all the parties to this instrument and their heirs, legal representatives, successors and assigns. "Grantor" and "grantee" are used for singular and plural, as the context requires and the use of any gender shall include all genders.)

WITNESSETH: That the said grantor, for and in consideration of the sum of Ten Dollars and other good and valuable considerations, to said grantor in hand paid by said grantee, the receipt whereof is hereby acknowledged, has granted, bargained and sold to the said grantee, and grantee's successors and assigns forever, the following described land situate, lying and being in Clay County, Florida, to-wit:

See Exhibit "A" attached hereto and by this reference made a part hereof.

By acceptance of this warranty deed, the Grantee hereby agrees that the use of the Property described herein shall be subject to the covenants and restrictions as set forth in the Grant Award Agreement attached hereto as Exhibit "B" and recorded in the Public Records of Clay County, Florida. These covenants and restrictions shall run with the Property herein described. If any term or condition of the Grant Award Agreement is violated by the Grantee or by some third party with the knowledge of the Grantee and the Grantee does not correct the violation pursuant to the Grant Award Agreement, fee simple title to all interest in the Project Site shall be conveyed to the Board of Trustees of the Internal Improvement Trust Fund of the State of Florida in accordance with Chapter 380, Part III, Florida Statutes.

AND the said grantor does hereby fully warrant the title to said land, and will defend the same against the lawful claims of all persons whomsoever.

Exhibit P: Description of Physical Characteristics

Development and Trail Construction Projects:

Provide a description of the proposed project which includes existing and future uses, existing and proposed physical improvements, natural and historical resources, any proposed resource protection/conservation and any existing buildings on site. Indicate if a natural spring is located on project site. Describe the site's public access and indicate if there is an entrance to the park through an existing street or easement.

Acquisition Projects: (In addition to the above information)

If the proposed project consists of acquiring multiple parcels or from multiple owners, identify specific order in which the parcels will be acquired to ensure that in the event that all parcels cannot be acquired, the purposes of the project can be achieved. Also, address the ability to have public access to the park either through an existing street or easement.

*Florida Recreation Development Assistance Program
Clay County Board of County Commissioners*

Exhibit P - Physical Characteristics of the Project

The proposed project entails construction of a 7,200 ft multi-use **nature trail** at Moccasin Slough Park in Fleming Island, Clay County. The trail will allow **walking, running, exercise, biking, and hiking**. The project also calls for construction of observation platforms along the trail. The platforms will provide views of the marshlands and the St. Johns River and foment **nature watching**.

There are currently no buildings on the site. The park's existing features include a fitness loop with fitness stations. There is also a second short loop sidewalk trail around existing amenities, which include a picnic pavilion, a playground, and handicap accessible paved parking. Existing trails total 4,245 ft. The proposed trail will connect to the short loop trail and bring total trail spans within the park to 11,445 ft in length. Trails within the park also connect to a sidewalk on Raggedy Point Road, separated from the road, which has a signaled cross walk at US-17 to provide connectivity to the Black Creek Trail. Future phases of the park project will include construction of an environmental education center and permanent bathroom facilities.

The park was acquired through grant funding from the Florida Communities Trust. Plans for the project and for future projects follow the Florida Communities Trust Management Plan (October 20, 2003) to ensure preservation of natural resources. According to the Management Plan, the area likely was home to a "short-term hunting and gathering campsite." (p. 13) In completing the proposed improvements, the County will work with the Division of Historic Resources to comply with Florida Statutes if evidence is found of historical resources.

Moccasin Slough Park is located at the junction of US Highway 17 and Raggedy Point Road in Fleming Island, Florida. Access to the park is available via a paved entrance on Raggedy Point Road. With its proximity to US-17, Moccasin Slough is highly accessible to both residents and visitors of Clay County.
