**Beach Management Program Appropriations for Fiscal Year 2024-25**

The Florida Department of Environmental Protection (DEP) Beach Management Funding Assistance Program’s (BMFAP) Fiscal Year (FY) 2024-25 Local Government Funding Request (Funding Request) submitted to the Florida Legislature on Jan. 5, 2024, contained a total of \$64.9 million in applications from local governments to conduct beach erosion control projects. Approved applications were presented in the Funding Request on both the Beach Management List and the Inlet Management List. The Beach Management List contained the Beach Restoration and Nourishment Projects in priority order, with a separate list of Post-Construction Monitoring projects. The Inlet Management List contained sand bypassing and Inlet Management Plan (IMP) implementation projects with a separate list of post-construction monitoring projects.

In FY 2024-25, DEP received a new appropriation of \$50,000,000 for beach and inlet projects listed in the Funding Request, per Chapter 2024-231, Laws of Florida, GAA Line Item 1856:

*Funds in Specific Appropriation 1856 are provided to the Department of Environmental Protection for distribution to beach and inlet management projects consistent with any component of the comprehensive long-term management plan developed in accordance with section 161.161, Florida Statutes. Funds may be used in accordance with section 161.101, Florida Statutes, for projects on annual ranked lists, storm repair projects, or projects on land managed by the state.*

All projects that applied for funding in the FY 2024-25 Funding Request are listed in the following tables. The beach projects are listed in *Table 1* and the beach post-construction monitoring projects are listed in *Table 2*. The inlet projects are listed in *Table 3* and the inlet post-construction monitoring projects are listed in *Table 4*.

**Update: Beach Management Program Appropriations for FY 2023-24**

DEP’s FY 2023-24 Funding Request, submitted to the Florida Legislature on March 8, 2023, contained a total of \$50 million in applications from local governments to conduct beach erosion control projects. Approved applications were presented in the Funding Request on either the Beach Management List or the Inlet Management List. The Beach Management List contained the Beach Restoration and Nourishment Projects in priority order, with a separate list of Post-Construction Monitoring projects. The Inlet Management List contained sand bypassing and IMP implementation projects with a separate list of post-construction monitoring projects.

In FY 2023-24, DEP received a new appropriation of \$50,000,000 for beach and inlet projects listed in the Funding Request, per Chapter 2023-239, Laws of Florida, GAA Line Item 1822:

*Funds in Specific Appropriation 1822 are provided to the Department of Environmental Protection for distribution to beach and inlet management projects consistent with any component of the comprehensive long-term management plan developed in accordance with section 161.161, Florida Statutes. Funds may be used in accordance with section 161.101, Florida Statutes, for projects on annual ranked lists, storm repair projects, or projects on lands managed by the state.*

All projects that applied for funding in the FY 2023-24 Funding Request are listed in the following tables. The beach projects are listed in *Table 5* and the beach post-construction monitoring projects are listed in *Table 6*. The inlet projects are listed in *Table 7* and the inlet post-construction monitoring projects are listed in *Table 8*. Projects that did not receive funding only have the funds requested in the “Amount per LBR (State Share)” column.

**Funding, Accountability and Transparency Reporting**

In Laws of Florida, Chapter 2019-122, subsection (20) of section 161.101, F.S. was amended to read:

“The department shall maintain active project lists, updated at least quarterly, on its website by fiscal year in order to provide transparency regarding those projects receiving funding and the funding amounts and to facilitate legislative reporting and oversight. In consideration of this intent:

(a) The department shall notify the Executive Office of the Governor and the Legislature regarding any significant changes in the funding levels of a given project as initially requested in the department's budget submission and subsequently included in approved annual funding allocations. The term "significant change" means a project-specific change or cumulative changes that exceed the project's original allocation by \$500,000 or that exceed 25 percent of the project's original allocation.

1. Except as provided in subparagraph 2., if there is surplus funding, the department must notify and provide supporting justification to the Executive Office of the Governor and the Legislature to indicate whether surplus dollars are intended to be used for inlet management projects pursuant to s. 161.143 or for beach restoration and beach nourishment projects, offered for reversion as part of the next appropriations process, or used for other specified priority projects on active project lists.

2. The department may use surplus funds for projects identified in subparagraph 1 that do not have a significant change. The department must post the uses of such funds on the project listing web page of its website. The department is not required to post any other notice or supporting justification before it uses the surplus funds for a project that does not have a significant change.

(b) The department shall prepare a summary of project activities, their funding status, and changes to annual project lists for the current and preceding fiscal year. The department shall include the summary with the department's submission of its annual legislative budget request.

(c) Funding for specific projects on annual project lists approved by the Legislature must remain available for such projects for 18 months. A local project sponsor may at any time release, in whole or in part, appropriated project dollars by formal notification to the department. The department shall notify the Executive Office of the Governor and the Legislature of such release and indicate in the notification how the project dollars are recommended to be used after such release."

The [Funding Request and Appropriation Status Report](#) identifies all projects and their funding amounts as listed in the Fixed Capital Outlay Funding Request for each fiscal year. Specific project phases and funding status are provided in the tables of this document. To aid in program transparency, the BMFAP maintains all documents used for the development of the most recent Funding Request on the [Beach Funding Assistance Information](#) webpage.

### **Reallocation of Funding for Beach Management Projects**

Annually, surplus programmatic funds are identified when 1) projects do not require the full appropriation or 2) when completed projects do not expend the entire encumbrance at grant

closeout and funds are unencumbered. These funds are annually reallocated, pursuant to section 161.101(20)(a), F. S.:

*“if there is surplus funding, the department must notify and provide supporting justification to the Executive Office of the Governor and the Legislature to indicate where surplus dollars are intended to be used for inlet management projects pursuant to s. 161.143 or for beach restoration and beach nourishment projects, offered for reversion as part of the next appropriations process, or used for other specified priority projects on active project lists.”*

Unencumbered funds available for reallocation are listed in *Table 9*. Unencumbered funds were distributed to beach projects on approved lists based on priority order from the FY 20-21 and FY 23-24 BMFAP Funding Request, in accordance with section 161.101(20)(a), F.S. Funds reallocated to FY 2020-21 and FY 2023-24 beach management projects are listed in *Table 10*.

**Table 9. Unencumbered Project Funds for Reallocation**

<b>Project Funds Released</b>	<b>Funding Year</b>	<b>Excess Funding</b>
St. Joseph Peninsula Beach Nourishment	2017-2018	\$70,896.96
Collier County Beach Nourishment Project	2019-2020	\$1,063,876.61
Charlotte County Beach Nourishment Project	2019-2020	\$1,181.51
Pensacola Beach Nourishment Project	2020-2021	\$31,450.00
South Lake Worth Inlet Management Plan Implementation	2020-2021	\$24,240.33
South Jupiter Beach Feasibility Study	2020-2021	\$235.50
St. Johns County Shore Protection Project	2020-2021	\$31,417.30
<b>Total Project Funds Released</b>		<b>\$1,223,298.21</b>

**Table 10. Funds Reallocated to Beach Management Projects**

<b>Released Funds Reallocated to Projects</b>	<b>Local Sponsor</b>	<b>FY of Request (LGFR)</b>	<b>Amount Contracted (State Share)</b>	<b>Contract Status</b>
Collier County Beach Nourishment Project	Collier County	FY2021-22	\$1,063,876.61	Executed
St. Andrews State Park Beach Restoration Project	Bay County	FY2023-24	\$159,421.60	In Draft
<b>Total Reallocated Funds</b>			<b>\$1,223,298.21</b>
