In your mind, what is the most important issue to consider in the future management of the Gilchrist Blue Springs? (choose one)

- Water Quality/Springs Protection
- Canoeing/Kayaking

What recreational activities would you like to see developed or enhanced within Gilchrist Blue Springs? (choose 3)

- Swimming
- Hiking
- Picnicking

What would you like to see made or enhanced within Gilchrist Blue Springs? (choose 1)

- New cabins
- Ecosystems Restoration
- Pathways

How would you like to see overnight accommodations improved? (choose 1)

- New cabins
- Ecosystems Restoration
- Make it more like other state parks

Can you think of any other comments or suggestions for the future management of the Gilchrist Blue Springs?

- Please build a new boardwalk made of composite materials. Please allow direct access from Santa Fe River to boardwalk. Please move canoe/kayak launch to said location.

- Along with public recreational excess of course I would want springs to be preserved, please make sure the area is surrounded by walls.

- As the Board Chair of the Native Sons and Daughters Program of Jacksonville, Blue Springs has been a great place for our program to camp with our kids. Ginny Springs is too wild for families but Blue Springs has not been. Camping and Tubes would be nice. A lifeguard would also be great as our program members have twice saved other people’s kids from drowning at Blue Springs.

Reasonable camping accommodations and diving/boat access could be a huge draw for the area and bring in income. Also with the Ginnie college crowd nearby a well enforced family environment would be most welcome.

Would be nice to keep the jumping area for the kids and camping. It would also be nice to allow scuba diving to the limits of certificate.

Gilchrist Blue has been a place for locals and visitors to enjoy for many years. We need to make sure Gilchrist Blue is open for public use. We invite folks to come and explore our Santa Fe River and all its hidden beauty!

This is a beautiful park that is loved by the community preserving it for future generations to enjoy the recreation is very important.

Please operate Gilchrist Blue the way it has been run for many years. Locals as well as visitors love this park!

An onsite educational facility would better improve public understanding about the threats facing our springs and possibly provide a learning space for students. Also, prohibiting swimming in the spring run is important to protect the vegetation.
