

FY 20/21 GRANT EVALUATION FORM
Florida Department of Environmental Protection

REVIEWER No.: TEMPLATE

PROPOSAL NO. : _____

AMOUNT REQUESTED: _____

Question #	Section I. Project Components	Scoring
1	Goals & Priorities <i>Meets at least one priority as stated in the program materials. 5 Points . Meets additional priorities. 1-5 additional points, total not to exceed 10 .</i>	<input type="text"/>
2	Includes an outreach component <i>Includes at least 2 public meetings 5 Points. Includes additional outreach efforts. 1-5 additional points, total not to exceed 10.</i>	<input type="text"/>
3	Feasible in allowed timeframe <i>Project is likely to be finished in the proposed timeframe. 0-10 points</i>	<input type="text"/>
4	Deliverables clearly defined <i>Deliverable are clear, measurable, tangible, and specific to each task as described. 0-10 points</i>	<input type="text"/>
5	Level of detail <i>There is enough detail in the application to understand what will be accomplished, how it will be accomplished and how much it will cost. 0-10 points</i>	<input type="text"/>
6	Adaptation Action Areas <i>Comprehensive plan language creating at least one Adaptation Action Area is drafted. 2 points minimum, not to exceed a total of 10 points.</i>	<input type="text"/>
7	Social Vulnerability <i>Includes an analysis of adaptations for addressing social vulnerability using best practices such as those identified by the US Centers for Disease Control. 2 points minimum, not to exceed a total of 10 points.</i>	<input type="text"/>
8	Historic Resources: <i>Includes an analysis of adaptations for addressing vulnerabilities of historic resources within the project areas. 2 points minimum, not to exceed a total of 10 points.</i>	<input type="text"/>
Section II. Project Merit		
9	Supports natural resources' <i>Outputs show effects of sea level rise on natural resource communities; offer natural resource-based resilience/adaptation strategies; emphasize use of natural-resource based resilient/adaptation strategies, including conservation and preservation . 0-10 points</i>	<input type="text"/>
10	Advances project location's resilience <i>For example, uses robust, publicly available data; relevant outputs will comply with statutory requirements; can result in Peril of Flood or Adaptation Action Area language being added to the comprehensive plan; results in an adaptation plan. 0-10 points</i>	<input type="text"/>
Section III. Project Budget		
11	Efficiently uses grant resources <i>Tasks and deliverables should be described in enough detail to determine if the grant funds will be used effectively. 0-10 points</i>	<input type="text"/>
12	Project costs are reasonable for the work planned. <i>The overall costs for the project are in line with commonly acceptable costs for similar work. 0-10 points</i>	<input type="text"/>
Total Points		<input type="text" value="0"/>
