

November 9, 2022

Ms. Alex Reed, Director
Office of Resilience and Coastal Protection
Florida Department of Environment
Protection
3900 Commonwealth Boulevard
Tallahassee, Florida 32399

Dear Ms. Reed:

As required by Chapter 2022-89, Section 2, Laws of Florida, the Florida Department of Economic Opportunity (DEO) herein provides a list of local governments that are required to comply with the requirements of Section 163.3178(2)(f), Florida Statutes (F.S.), but have not yet addressed said statute. This Section requires coastal local governments to include within their comprehensive plans' coastal management element a redevelopment component, which outlines the principles that must be used to eliminate inappropriate and unsafe development in the coastal areas when opportunities arise. This list of local governments is provided to support the Florida Department of Environmental Protection's preparation efforts for a report regarding flood resilience and mitigation efforts in the state.

Since the aforementioned statutory requirement for the coastal management element was approved in 2015, DEO has routinely provided technical assistance to local governments in addressing this provision. Community Planning Technical Assistance Grants have also been made available to provide financial assistance in addressing this requirement. Additionally, in August 2022, a workshop to assist interested coastal local governments in understanding their responsibilities in addressing this requirement was conducted by DEO staff. As of October 12, 2022, and based on the best available data in DEO's records, the local governments who have not yet fully addressed the requirements of Section 163.3178(2)(f), F.S. are as follows:

City of Apalachicola (Indicated amendment will be prepared)
Bay County (Indicated amendment will be prepared)
Town of Bay Harbor Island (Indicated amendment will be prepared)
