Memorandum

TO: Austin Hofmeister, Program Administrator, 
Florida Department of Environmental Protection, Division of Waste
Management, Petroleum Restoration Program,

FROM: Melike Altun, Contract Manager 
Florida Department of Environmental Protection, Division of Waste
Management, Petroleum Restoration Program,

SUBJECT: Spending Category Policy for Forensic and other Technical Support
Services Contract (F&TSS) Work

DATE: May 17, 2018

The Forensic and other Technical Support Services Contract (F&TSS) is established to support and emphasize the Department's goal. The work authorized by the Division of Waste Management under this contract, is to enforce and ensure quality services ~~are~~ conducted in support of the Division's strategic goal.

F&TSS contract scope of work is to provide environmental forensics site investigation and other technical support services, verification assessment, baseline data collection, special case studies, statistics and data evaluation, tank abandonment, and/or tank removal. The work is authorized by the contract coordinator with the management's approval under Departmental Desecration, on an as needed basis and funded under this category. Therefore, authorized work under this contract will not be counted toward the individual site's cleanup fund.

If you have any questions, I can be reached at 850-245-8868.

Thank you,
Melike
