

Introduction to Map Direct

What is Map Direct?

- Web based application that allows you to research if DEP has information regarding a property and/or other properties nearby.
- Can be used to access certain information using links to Oculus.

<http://ca.dep.state.fl.us/mapdirect/?focus=standard>

Accessing Map Direct

- **LINK:**
<https://ca.dep.state.fl.us/mapdirect/>
- **SEARCH:** You may also perform a web search for “FDEP map Direct”

Map Direct Main Screen

If You Need Help...

A screenshot of a web-based map interface. The map shows the southeastern United States, including parts of Texas, Louisiana, Mississippi, Alabama, Georgia, and Florida. A red arrow points from the text "NEED HELP? Click Here" to a question mark icon in the map's toolbar. The toolbar also contains icons for search, print, zoom, and share. The map includes labels for various cities, states, and geographical features like the Gulf of Mexico and the Black Belt. In the bottom left corner, there is a "Show Imagery Slider" and a scale bar. In the bottom right corner, there is a location pin icon and a coordinate display: "32.67012964 x -97.68896484" and "32°40'12.4667" x -97°41'20.2734".

Map Direct Main Screen

The screenshot displays the Map Direct main screen with a map of the Southeastern United States. The interface includes a top navigation bar with a search icon, a menu icon, and a title "Map Direct: Standard Map". A toolbar contains icons for home, print, zoom in, share, and help. A search bar in the top right corner is highlighted with a red arrow and the text "Enter Address/Parcel ID to search". A red box on the left side highlights a "Show Legend" button and a "More Data..." button with a plus sign icon, with the text "Add Additional Data Layers to search" below it. The bottom left corner features a "Show Imagery Slider" and a scale bar. The bottom right corner shows a location pin icon and a text box with coordinates: "32.67012964 x -97.68896484" and "32°40'12.4667" x -97°41'20.2734".

Adding Layers

No layers are preloaded, you must select at least one.

- **Scroll down to view all available layers.**
- **Search for layers by program (e.g., ERP, Waste, Potable Water).**
- **Click “Add Layer to Map” to select.**
- **Add/remove as many layers as needed.**

A screenshot of the FDEP MapDirect web application. The interface shows a map on the left and a search panel on the right. The search panel is titled "Add More Data to the Map" and contains several options: "Add REST Endpoint Layer", "Add Shapefile", "Add ArcGIS Online Item", "Add Storm Imagery", and "Add Layers by D". Below these options, there is a search bar with the text "4852 Total Items Available." and a search input field. A filter dropdown is set to "Show Only Items From Florida Department of Environmental Protection". The search results are displayed in a list format, showing three items: "ERP Permits - Current - SRWMD", "ERP Permits - Current - SFWMD", and "ERP Permits - Pending - SWFWMD". Each item includes a small map thumbnail, a location pin icon, and a button labeled "Add Layer to Map". The background map shows a portion of Florida with various geographical features and labels like "MISSISSIPPI", "EDWARD PLATEAU", and "MONTESSA".

Suggested Layers

- **Permit Application**
- **ERPpa**
- **ERPce**
- **Air Resource Management Sites (ARMS)**

- **UIC Class V ASR Wells**
- **UIC Class I Wells**
- **Ground Water Contamination Areas**
- **Mandatory Phosphate Mine Boundaries 2012**
- **Mandatory Non-Phosphate Sites 2014**
- **Mitigation Bank Service Areas**

Searching for Address

Address should auto-populate

Searching for Address

- **Search for a specific location using address, County, Parcel ID or latitude/longitude.**
 - **When using Parcel ID, first add the “Cadastral 20xx” (Property Appraiser Parcels) layer but do not include dashes.**
- **Search for additional data layers by using the *Add More Data* to map feature.**
- **Once all data layers are added and visible, run the *Area of Interest* report by selecting “*What’s Nearby.*”**

Drop Marker

- **When using the Drop Marker feature, the address identified on the map may not be accurate.**
- **Click on surrounding properties and verify physical address or parcel id number.**
- **Once identified, click on the center of the property and select the “Drop Marker” button and name the marker.**
- **Then click “What’s Nearby.”**

Search Radius

- **In the Search Radius (Buffer) pop-up, type over the “1” with an area that should cover the property (Remember to start small - e.g., .05).**
- **Click on Search.**
- **The red-shaded radius will show whether the selected area is too large or too small.**
 - **If it is the wrong size, re-run the report by clicking the center of the property and clicking “What’s Nearby” again.**

Search Results

- A new tab will open with the search results.

Search Results

- **Resulting report will:**
 - Identify possible records.
 - Provide links to available documents.
 - Provide site information, including:
 - Potential address
 - County Parcel ID #
 - Facility/Site ID (can be used to search Oculus)
 - Facility/Site Name
- Report will also indicate “No Results Found” for active data layers.
