

Waste Site Cleanup Section

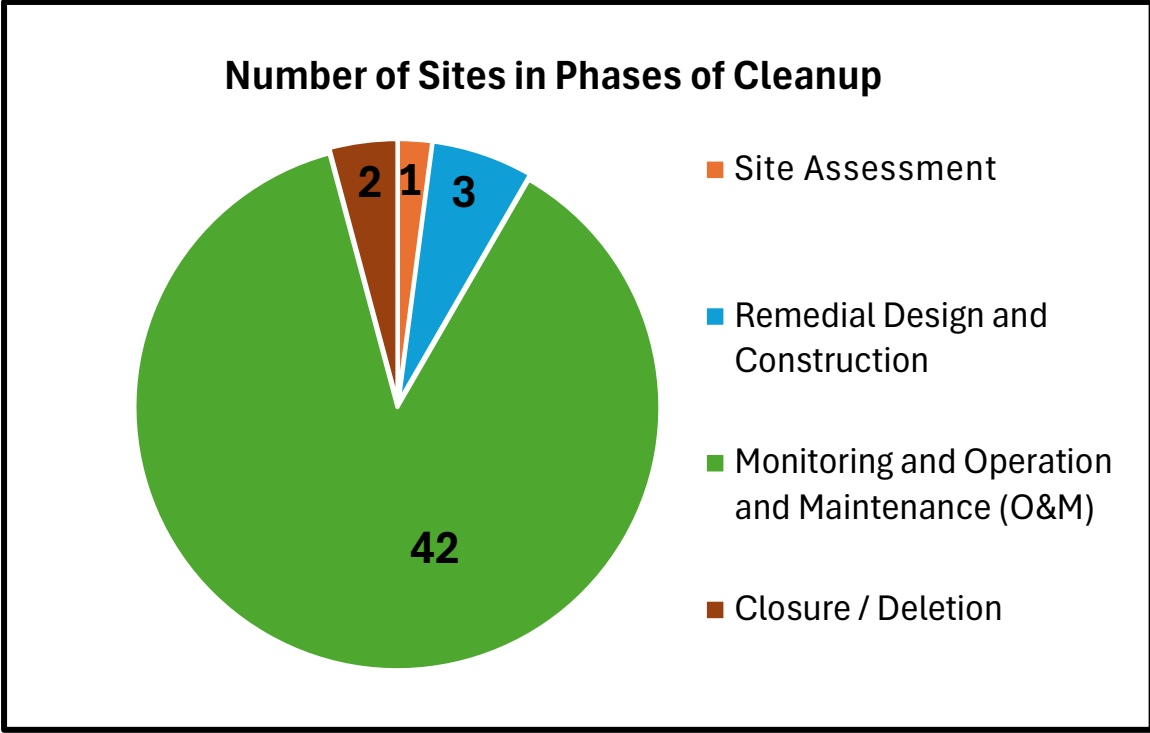

National Priority List (NPL) Dashboard

Sites that are on the NPL are also known as Superfund Sites.

The U.S. Environmental Protection Agency (EPA) is the lead agency for Superfund Cleanup. The Department of Environmental Protection provides support and oversight of the cleanup of these sites.

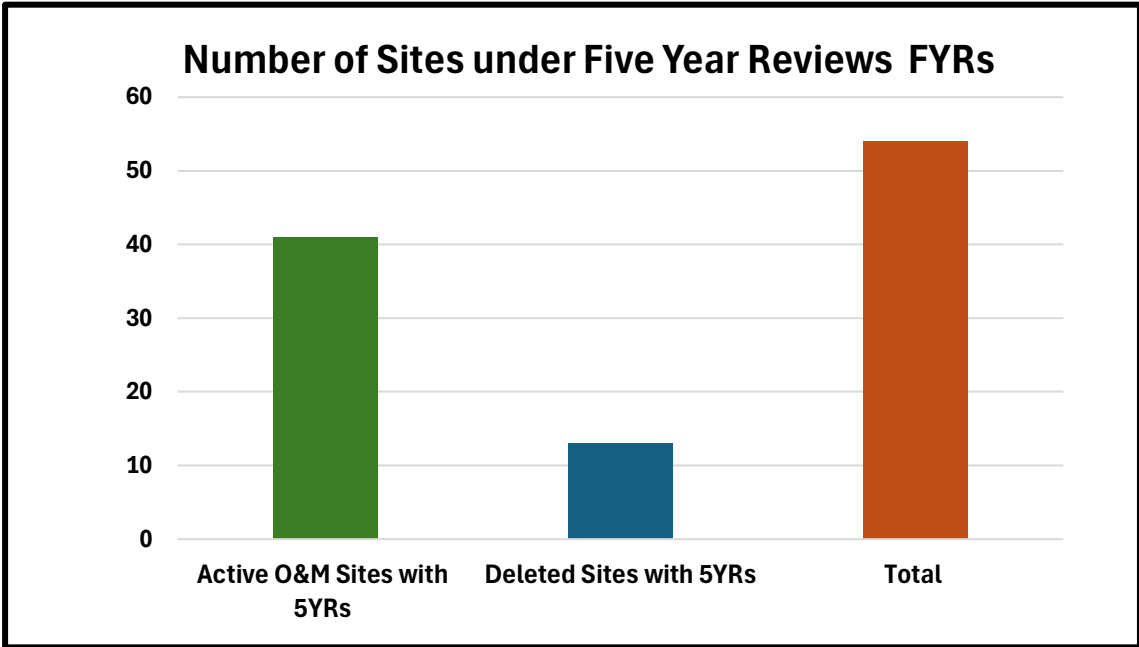

The Waste Site Cleanup Section (WSCS) assists EPA in overseeing the cleanup of most Superfund sites. A list of Florida National Priority List Superfund sites is available in the ["Quick Look" Summary](#).

Sites Managed by the WSCS	
Site Status Cleanup	Number of Sites
Active	48
Closed / Deleted	28
Total	76
The 48 active sites include 1 site that is proposed for the NPL, and 1 site that has a Superfund Alternative Agreement	

Site Funding for Remedial Action & O&M	
Funding for the Remedial Action	Number of sites
Responsible Party (RP)	30
Fund Lead (includes 10% State Cost Share)	17
RP & State Funded (IPTF)	1
Table provides the number of sites that are Fund Lead or Responsible Party (RP) Lead, or State and RP funded	

Closed Sites / Deleted from NPL	Number of Sites
Unrestricted Use and Unrestricted Exposure (UU/UE)	15
Continued Operation & Maintenance (O&M) and Five Year Reviews (FYRs)	13
Total	28
Deleted Sites are either UU/UE (no restrictions) or closed with required O&M and Five Year Reviews	

State Funding	Total Annual Cost	Number of Sites
Superfund State Contract (SSC)*	\$ 61,498	16
Long Term Monitoring/O&M	\$ 79,872	7
*SSC - Includes the 10% State cost share for the remedial action. Total amount is based on FY 24 costs. BIL Funding has provided for the cost share amount since FY 25.		
Long Term Monitoring/O&M - State funds associated with long term monitoring or O&M. These services are provided through state funded contractors.
