Help using OCULUS

We have several tools available to assist in using the OCULUS Document Management System. At any point, users can click the help menu to open the [Online help system](#). For help finding documents in OCULUS, please see the [Public Document Taxonomy](#). If you believe that you've found an error with a document, please contact servicedesk@dep.state.fl.us to report the problem.

At times Microsoft Office updates may cause users to lose the ability to "View" TIF documents in OCULUS and limit their options to 'Save' or 'Cancel' when trying to view them. If your computer is experiencing this problem, please try the steps outlined [in this document](#).

If you can open documents correctly but find black pages while viewing 'TIF' documents from OCULUS or you are having other trouble viewing documents, please [follow these instructions](#) for help installing an alternative viewer.

If you find that you cannot view or open a document type of '.MSG', '.PST', or '.OST', email formats, you may not have compatible software for these file types.

Please visit [.MSG viewer download page](#) to download the free Mail Viewer or visit [.PST or .OST viewer download page](#) to download the free Outlook Viewer for viewing these file formats outside of MS Outlook.

If you're still having trouble, please contact servicedesk@dep.state.fl.us for assistance.

Search Screen

- After logging in, the search screen will populate.

The screenshot shows the OCULUS search results page. The top navigation bar includes 'Search', 'Actions', 'Tools', 'Help', and 'Logout'. The main content area is titled 'Search Results' and shows 'Catalog' information: '5 documents in 1 catalog'. Below this, there are controls for 'ERP - Environmental Resource Permitting (5)', 'Results/Page: 5', a 'Refresh' button, and an 'Export to Excel' button (highlighted with a red box). There is also a 'Send Search Results' button and a 'Printable Hitlist' link. Below the controls is a table with the following columns: File Type, Profile, Facility-Site ID, Document Date, Received Date, Document Type, and Permit Type. The table contains five rows of data, all for 'Permitting_Authorization' documents with Facility-Site ID 'ERP_386305' and dates of '04-21-2020' and '03-26-2020'. At the bottom, a file explorer window shows the downloaded file 'OCULUSSearchDat....xlsx'.

OCULUS Tips

- **Always clear the search before beginning.**
- **The user may type “today” in the date box instead of the current date.**
- **The broader the search the better.**
- **You can type in the date as mmddyyyy instead of using the calendar feature.**
- **If a document type within a specific profile does not appear, the wrong catalog may have been chosen.**
- **If OCULUS appears not to be working, give it 10 minutes and try again.**
- **OCULUS mass uploads are done at night which slows down OCULUS considerably.**

OCULUS

- **Maintained by DEP.**
- **Accessible via internet.**
- **Document management system.**
- **Links to every database.**
- **Updates instantly and nightly.**
- **Is required by statute.**
- **Can export searches.**
- **Over 25,000 different formats acceptable; however, to date, movies or voice records cannot go into OCULUS.**
- **There is a size limitation on documents going into OCULUS (250 MB). This is especially important when using the business portal for document submittal.**
