- 1. DEP 101:** The Florida Department of Environmental Protection is the State's lead agency for environmental management and stewardship, protecting our air, water, and land. Please join us for an overview of DEP's history, mission, values, and more.
[Presenter – Erica Peck & Heather McClurg]
- 2. Stormwater Pollution Prevention Plans (SWPPP):** Developing a Stormwater Pollution Prevention Plan (SWPPP) is an important requirement for the NPDES Stormwater permits like, Construction Generic Permits (CGPs), Multi Sector Generic Permits (MSGPs) and Industrial Wastewater (IW) permits. In this presentation, you will learn about the Stormwater Pollution Prevention Plan (SWPPP) components to help develop an effective SWPPP that meets the permit requirements.
[Presenter – Ramandeep Kaur & Maggie Kratzer]
- 3. Map Direct – Air, Solid Waste & SLERP Overview:** In this presentation we will be going over basic MapDirect GIS software navigation and implementation, with a variety of applications that are beneficial for any type of user. Specific applications demonstrated in this presentation will include Air facilities, Solid Waste facilities, Wetlands and Surface Waters (SLERP), and a few other tips and tricks detailing best uses of the MapDirect software.
[Presenter – Warren McNelley & Cathy Rodriguez]
- 4. Waste Cleanup:** Brief summary of 62-780 F.A.C. assessment, remediation and closures. Also, will discuss Brownfields and Waste Cleanup success stories.
[Presenter – John Segó & Robert Sellers]
- 5. Oculus – Introduction & Next Level:** Oculus is where DEP houses our documents (permits, inspections, monitoring reports and the like). This presentation will cover different ways to search in Oculus, from the basic broad search (with how to enter Facility-Site ID's), to more nuanced searching methods. We will also go over the DEP Information Portal which is an interface that links the documents in Oculus with our MapDirect GIS site.
[Presenter – Catherine Rodriguez]

6. **EzDMR – Electronic Submission Discharge Monitoring Reports:** This training will cover the Electronic Discharge Monitoring Report System (EzDMR) [NPDES facilities are required to submit via EzDMR]. By utilizing this secure web-enabled system, the facility will save on postage, paper, and time.
[**Presenter – Coral Evans**]

7. **GIS – Shape File requirements for ERP & Waste Cleanup:** This training will go through the FDEP shapefile requirements. A demonstration will be provided on how to create a shapefile, and ensure the shapefile is compatible with MapDirect.
[**Presenter – Evan Wimberly**]

8. **Disaster Debris Management Site (DDMS) Overview:** This presentation will provide a brief overview of requirements related to Disaster Debris Management Sites (DDMS), as well as a walkthrough of submitting DDMS pre-authorization requests through the DEP Business Portal.
[**Presenter – Emily Wargo**]

9. **Construction Generic Permit (CGP) requirements:** This training will cover the requirements of the NPDES Stormwater CGP requirements. Detailed information will be provided on Stormwater Pollution Prevention Plan (SWPPP), dewatering and inspections along with Best Management Practices (BMP) examples.
[**Presenter – Ramandeep Kaur**]

10. **MapDirect – Wastewater & Potable Water Overview; Hazardous Waste & Tanks Overview:** In this presentation we will be going over basic MapDirect GIS software navigation and implementation, with a variety of applications that are beneficial for any type of user. Specific applications demonstrated in this presentation will include Wastewater, Potable Water, Hazardous Waste and Storage Tank facilities, along with a few other tips and tricks detailing best uses of the MapDirect software.
[**Presenter – Emmalise Hunter & Leslie Pedigo**]
