2017 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	2017	Sample at each POE* every year.
Primary Inorganics	2018	Sample at each POE every 3 years.
Secondaries	2018	Sample at each POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	2018	Sample at each POE every 3 years.
Volatile Organic Contaminants (VOCs)	2018	Sample at each POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2018	Sample at each POE every 3 years.
Stage 2 Disinfection Byproduct (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July-September 2018	Begin <u>reduced</u> (triennial) testing July – Sept. 2018. Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2020-2021	Asbestos-Free Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C. Asbestos-free certification received 9/15/11.
Lead and Copper (Tap Sampling)	June - Sept 2018	Test in accordance with the most recently approved sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/DrinkingWater/</u> <u>Compliance/CCR/default.htm</u>

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2017 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4142 or (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

- > It is important for you to provide this information to your operator and/or sampler.
- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/17</u> to provide time for revisions, re-tests, and/or corrections. <u>Failure to sample within the required monitoring periods may result in enforcement action.</u>

> Test results must be submitted to DEP within the first 10 days following the end of the required monitoring period, or the first 10 days following the month in which the sample results were received, whichever time is the shortest. Failure to comply with deadlines may result in enforcement action.

Primary Inorganics	2019	Sample at each POE every 3 years.
Volatile Organic Contaminants (VOCs)	2019	Sample at each POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2019	Sample at each POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July-Sept 2019	Continue <u>reduced</u> (triennial) testing July – Sept. 2019. Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2020-2022	Asbestos-Free Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C. Asbestos-free certification submitted 9/16/11.
Lead and Copper (Tap Sampling)	Biannual until further notice.	Sample Biannually beginning in July through December 2016 and continue until further notice.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment. ** NTNC \leq 1,000 population sample quarterly due to Revised Total Coliform Rule becoming effective April 1, 2016.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2017 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

- > It is important for you to provide this information to your operator and/or sampler.
- Test results must be submitted to DEP within the first 10 days following the end of the required monitoring period, or the first 10 days following the month in which the sample results were received, whichever time is the shortest. Failure to comply with deadlines may result in enforcement action.

2016 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Quarterly	Sample monthly until March 31, 2016. After April 1, 2016, begin <u>routine</u> quarterly monitoring. Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	2017	Sample at each POE* every year. Note: If a well is reactivated or permitted for the water system, this schedule does not include additional monitoring which may be needed.
Primary Inorganics	2019	Sample at each POE every 3 years.
Volatile Organic Contaminants (VOCs)	2019	Sample at each POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2019	Sample at each POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)***NTNC***	2025	Sample at the POE.
Stage 2 Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July-Sept 2019	Begin <u>reduced</u> (triennial) testing July – Sept. 2019. Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2020-2022	Asbestos-Free Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C. Asbestos-free certification submitted 2/9/12.
Lead and Copper (Tap Sampling)	June-Sept. 2019	Test in accordance with the most recently approved sampling plan.

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

** NTNC \leq 1,000 population sample quarterly due to Revised Total Coliform Rule becoming effective April 1, 2016.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2016 and may not include additional sampling required during the year due to special circumstances. 2017 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually on bacte reports.
Disinfectant Residual Reports	Quarterly	Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	2017-EA.WP	Sample at each POE* every year.
Primary Inorganics	2017-EA.WP	Sample at each POE every 3 years.
Secondaries	2017-EA.WP	Sample at each POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	2017-EA.WP	Sample at each POE every 3 years.
Volatile Organic Contaminants (VOCs)	2017-EA.WP	Sample at each POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2 Quarters 2017- EA.WP	Sample at each POE for 2 quarters every 3 years; samples shall be taken at least 60 days apart.
Stage 2 Disinfection Byproducts (DBPs) and Disinfection Byproduct Reports <i>Total Trihalomethanes & Haloacetic Acids (5)</i>	Quarterly (every 90 days) Same monitoring for 2017	Continue <u>routine</u> (qtrly) testing at <u>6 sites</u> for both T/H (dual samples). Report disinfectant residuals.
Bromate	Monthly	Test each POE monthly of plants with ozonation. Submit bromate running annual averages quarterly.
Asbestos	2020 (test)	Asbestos-free certification or results due every 9 years. Use Asbestos Form 62-555.900(10), F.A.C.
Lead and Copper (Tap Sampling)	June-Sept. 2017	Test in accordance with the most recently approved sampling plan.
Water Quality Parameters (WQPs)	June-Sept. 2017	Distribution sites per Optimal WQP Approval Letter.
Water Quality Parameters (WQPs)	JanJune & July–Dec. 2017	Sample at <u>each POE</u> (7 POEs) at least every two weeks per Optimal WQP Approval Letter.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/Drinking</u> <u>Water/Compliance/CCR/default.htm</u>

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2016 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

2017 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite		Sample at POE* every year.
Primary Inorganics		Sample at POE every 3 years.
Secondaries		Sample at POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)		Sample at POE every 3 years.
Volatile Organic Contaminants (VOCs)		Sample at POE every 3 years.
Synthetic Organic Contaminants (SOCs)		Sample at POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July-Sept. 2018	Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2020-2021	Asbestos-free certification or results due every 9 years. Use Asbestos Form 62-555.900(10), F.A.C. Asbestos-free certification received on 2/1/11.
Lead and Copper (Tap Sampling)	June-Sept. 2018	Test in accordance with the most recently approved sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/DrinkingWater/</u> <u>Compliance/CCR/default.htm</u>

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2017 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

- > It is important for you to provide this information to your operator and/or sampler.
- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/17</u> to provide time for revisions, re-tests, and/or corrections. <u>Failure to sample within the required monitoring periods may result in enforcement action.</u>

2017 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	2017	Sample at POE* every year.
Primary Inorganics	2018	Sample at POE every 3 years.
Secondaries	2018	Sample at POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	2018	Sample at POE every 3 years.
Volatile Organic Contaminants (VOCs)	2018	Sample at POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2018	Sample at POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July-September 2018	Continue reduced (triennial) testing July – Sept. 2018. Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2020-2021	Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C., Asbestos Free Certification or Asbestos Sampling Plan
Lead and Copper (Tap Sampling)	June-Sept. 2018	Test in accordance with the most recently approved sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/DrinkingWater/</u> <u>Compliance/CCR/default.htm</u>

2017 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	2017	Sample at each POE* every year.
Primary Inorganics	2018	Sample at each POE every 3 years.
Secondaries	2018	Sample at each POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	2021	Sample at each POE in 2021.
Volatile Organic Contaminants (VOCs)	2018	Sample at each POE every 3 years.
Special Monitoring Total Xylene	Quarterly	Sample at each POE quarterly
Synthetic Organic Contaminants (SOCs)	2018	Sample at each POE every 3 years.
Stage 2 Disinfection Byproduct (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July-September 2018	Continue reduced (triennial) testing July – Sept. 2018. Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2020-2021	Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C., Asbestos Free Certification or Asbestos Sampling Plan
Lead and Copper (Tap Sampling)	June-Sept. 2018	Test in accordance with the most recently approved sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/DrinkingWater/</u> <u>Compliance/CCR/default.htm</u>

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2017 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

- > It is important for you to provide this information to your operator and/or sampler.
- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/17</u> to provide time for revisions, re-tests, and/or corrections. <u>Failure to sample within the required monitoring periods may result in enforcement action.</u>

Volatile Organic Contaminants (VOCs)	2018-EA.WP	Sample at each POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2018-EA.WP	Sample at each POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July – Sept. 2017 (annually)	Continue <u>routine</u> (annual) testing at 2 sites for both T/H (dual samples). Report disinfectant residuals.
Asbestos	2020-2021	Asbestos-Free Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C.
Lead and Copper (Tap Sampling)	June-Sept. 2018	Test in accordance with the most recently approved sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/DrinkingWater/</u> <u>Compliance/CCR/default.htm</u>

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2016 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

- > It is important for you to provide this information to your operator and/or sampler.
- > Test results must be submitted to DEP within the first 10 days following the end of the required monitoring period, or the first 10 days following the month in which the sample results were received, whichever time is the shortest. Failure to comply with deadlines may result in enforcement action.

2017 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance is based on a running annual avg.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	2017	Sample at POE* every year.
Primary Inorganics	2018	Sample at POE every 3 years.
Secondaries	2018	Sample at POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	2021	Sample at POE every 3 years.
Volatile Organic Contaminants (VOCs)	2018	Sample at POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2018	Sample at POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July – Sept. 2017	R <u>outine</u> (annual) testing at <u>1 site</u> for both T/H. Report disinfectant residuals.
Asbestos	2020-2021	Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C., Asbestos Free Certification or Asbestos Sampling Plan
Lead and Copper (Tap Sampling)	June – Sept. 2018	Test in accordance with the most recently approved sampling plan.
Water Quality Parameters (WQPs)	JanJune & July–Dec. 2017	Sample at each POE at least every two weeks per Optimal WQP Approval Letter.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/DrinkingWater/</u> <u>Compliance/CCR/default.htm</u>

*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2016 and may not include additional sampling required during the year due to special circumstances. - > It is important for you to provide this information to your operator and/or sampler.
- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/17</u> to provide time for revisions, re-tests, and/or corrections. <u>Failure to sample within the required monitoring periods may result in enforcement action.</u>
- > Test results must be submitted to DEP within the first 10 days following the end of the required monitoring period, or the first 10 days following the month in which the sample results were received, whichever time is the shortest. Failure to comply with deadlines may result in enforcement action.

2017 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite		Sample at POE* every year.
Primary Inorganics		Sample at POE every 3 years.
Secondaries		Sample at POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)		Sample at POE every 3 years.
Volatile Organic Contaminants (VOCs)		Sample at POE every 3 years.
Synthetic Organic Contaminants (SOCs)		Sample at POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July-Sept. 2018	Continue <u>reduced</u> (triennial) testing July – Sept. 2018. Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2020-2021	Asbestos-Free Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C.
Lead and Copper (Tap Sampling)	June-Sept. 2018	Test in accordance with the most recently approved sampling plan.
