### 2017 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	2017	Sample at each POE* every year.
Primary Inorganics	2018	Sample at each POE every 3 years.
Secondaries	2018	Sample at each POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	2021	Sample at each POE every 3 years.
Volatile Organic Contaminants (VOCs)	2018	Sample at each POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2018	Sample at each POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs) and Disinfection Byproduct Reports <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>	July – Sept. 2018	Begin reduced (triennial) testing July – Sept. 2018. Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2020-2021	Asbestos-Free Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C. Asbestos-free certification received 11/13/11.
Lead and Copper (Tap Sampling)	June-Sept. 2018	Test in accordance with the most recently approved sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/DrinkingWater/</u> <u>Compliance/CCR/default.htm</u>

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2017 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

- > It is important for you to provide this information to your operator and/or sampler.
- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/17</u> to provide time for revisions, re-tests, and/or corrections. <u>Failure to sample within the required monitoring periods may result in enforcement action.</u>
- > Test results must be submitted to DEP within the first 10 days following the end of the required monitoring period, or the first 10 days following the month in which the sample results were received, whichever time is the shortest. Failure to comply with deadlines may result in enforcement action.

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2017 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

- > It is important for you to provide this information to your operator and/or sampler.
- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/17</u> to provide time for revisions, re-tests, and/or corrections. <u>Failure to sample within the required monitoring periods may result in enforcement action.</u>
- > Test results must be submitted to DEP within the first 10 days following the end of the required monitoring period, or the first 10 days following the month in which the sample results were received, whichever time is the shortest. Failure to comply with deadlines may result in enforcement action.

## 2017 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	2017	Sample at each POE* every year.
Primary Inorganics	2018	Sample at each POE every 3 years.
Secondaries	2018	Sample at each POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	2021	Sample at each POE every 3 years.
Volatile Organic Contaminants (VOCs)	2018	Sample at each POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2018	Sample at each POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July – Sept. 2018	Continue <u>reduced</u> (triennial) testing July – Sept. 2018. Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2020-2021	Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C., Asbestos Free Certification or Asbestos Sampling Plan
Lead and Copper (Tap Sampling)	June-Sept. 2018	Test in accordance with the most recently approved sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/DrinkingWater/</u> <u>Compliance/CCR/default.htm</u>

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

Volatile Organic Contaminants (VOCs)	2018	Sample at each POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2018	Sample at each POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July – Sept. 2018	Continue <u>reduced</u> (triennial) testing July – Sept. 2018. Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2020-2021	Asbestos-Free Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C. Asbestos-free certification received 3/14/11.
Lead and Copper (Tap Sampling)	June-Sept. 2018	Test in accordance with the most recently approved sampling plan
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/DrinkingWater/</u> <u>Compliance/CCR/default.htm</u>

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2017 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact appropriate personnel at (407) 897-4142 or (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

- > It is important for you to provide this information to your operator and/or sampler.
- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/17</u> to provide time for revisions, re-tests, and/or corrections. <u>Failure to sample within the required monitoring periods may result in enforcement action.</u>
- > Test results must be submitted to DEP within the first 10 days following the end of the required monitoring period, or the first 10 days following the month in which the sample results were received, whichever time is the shortest. Failure to comply with deadlines may result in enforcement action.

## 2017 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	2017	Sample at each POE* every year.
Primary Inorganics	2018	Sample at each POE every 3 years.
Secondaries	2018	Sample at each POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	2018	Sample at each POE every 3 years.
Volatile Organic Contaminants (VOCs)	2018	Sample at each POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2018	Sample at each POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs) Total Trihalomethanes & Haloacetic Acids (5)	July – Sept. 2018	Continue <u>reduced</u> (triennial) testing July – Sept. 2018. Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2020-2021	Asbestos-Free Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C. Asbestos-free certification received 11/18/11.
Lead and Copper (Tap Sampling)	June-Sept. 2018	Test in accordance with the most recently approved sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/DrinkingWater/</u> <u>Compliance/CCR/default.htm</u>

Volatile Organic Contaminants (VOCs)	2017-EA.WP	Sample at the POE of all 3 WPs in 2017.
Synthetic Organic Contaminants (SOCs)	2 Quarters 2017- EA.WP	Sample at each POE for 2 quarters every 3 years; samples shall be taken at least 60 days apart.
Special Monitoring Di(2-Ethylhexyl)Adipate Di(2-Ethylhexyl)Phthalate	1 <sup>st</sup> QTR 2017	Sample at the POE at WTP4 during the 1 <sup>st</sup> QTR of 2017 and the 1 <sup>st</sup> QTR of 2018.
Stage 2 Disinfection Byproducts (DBPs) and Disinfection Byproduct Reports <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>	Quarterly	System will continue <u>routine</u> (qtrly) testing at $\frac{4}{\text{sites}}$ for both T/H (dual samples). Report disinfectant residuals. Refer to 40 CFR Subpart U 141.605(c)(1) – (c)(8). A System Specific Study was performed during IDSE phase for Stg. 2 sites.
Asbestos	2020 (test)	Asbestos-Free Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C.
Lead and Copper (Tap Sampling)	June-Sept. 2017	Test in accordance with the most recently approved sampling plan (new plan requested – to be sent by City after 3/27/15)
Water Quality Parameters (WQPs) WQP rqrmnt added 3/27/15 due to pop. increase	June-Sept. 2017	Distribution sites per Optimal WQP Approval Letter ( <i>letter to be sent after 3/27/15</i> ).
Water Quality Parameters (WQPs) WQP rqrmnt added 3/27/15 due to pop. increase	JanJune & July–Dec. 2017	Sample at each POE (3 POEs) at least every two weeks per Optimal WQP Approval Letter ( <i>letter to be sent after 3/27/15</i> ).
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/Drinki</u> <u>ngWater/Compliance/CCR/default.htm</u>

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2017 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

This schedule and state forms can be found at <u>http://www.dep.state.fl.us/central/Home/DrinkingWater/default.htm</u> on the Central District's website. Click on "Monitoring Schedules and Forms" under "Highlights" in the right-hand column.

### > It is important for you to provide this information to your operator and/or sampler.

- It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by <u>9/30/17</u> to provide time for revisions, re-tests, and/or corrections. <u>Failure to sample within the required monitoring periods may result in enforcement action.</u>
- Test results must be submitted to DEP within the first 10 days following the end of the required monitoring period, or the first 10 days following the month in which the sample results were received, whichever time is the shortest. Failure to comply with deadlines may result in enforcement action.

### 2017 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually on bacte reports.
Disinfectant Residual Reports	Quarterly	Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	2017-EA.WP	Sample at each POE* every year. 3 active WPs in system: Bella Lago (orig. WP6), Peabody (orig. WP2), & Huron (orig. WP5). Note: Country Club (orig.WP3), Wilderness (orig.WP4), and McLane (orig. WP1) were decommissioned in 2012.
Primary Inorganics	2017-EA.WP	Sample at each POE every 3 years.
Secondaries	2017-EA.WP	Sample at each POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	2020-EA.WP	Sample at each POE every 3 years.
Volatile Organic Contaminants (VOCs)	2017-EA.WP	Sample at each POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2 Quarters 2017- EA.WP	Sample at each POE for 2 quarters every 3 years; samples shall be taken at least 60 days apart.
Stage 2 Disinfection Byproducts (DBPs) and Disinfection Byproduct Reports <i>Total Trihalomethanes &amp; Haloacetic Acids (5)</i>	Quarterly (every 90 days)	Continue <u>routine</u> (quarterly) testing at <u>4 sites</u> for both T/H (dual samples). Report the disinfectant residuals. Test in accordance with the Stage 2 D/DBP Monitoring Plan.
Asbestos	2020 (test)	Asbestos-Free Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C.
Lead and Copper (Tap Sampling)	June – Sept. 2017	Test in accordance with the most recently approved sampling plan.
Water Quality Parameters (WQPs)	June – Sept. 2017	Distribution sites per Optimal WQP Approval Letter. These WQPs are to be tested at the same time that the Lead and Copper testing is done.
Water Quality Parameters (WQPs)	JanJune & July–Dec. 2017	Sample at <u>each POE</u> at least every two weeks per Optimal WQP Approval Letter.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2017 & August 10, 2017	Data for CCR can be obtained at: <u>http://www.dep.state.fl.us/central/Home/Drinking</u> <u>Water/Compliance/CCR/default.htm</u>

\*POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2017 and may not include additional sampling required during the year due to special circumstances.
