

# PRP POST FOR AGENCY TERM CONTRACTORS

Issue 5

February 14, 2018

## RECENT SUCCESSES

### PRP ATC Assignment Process

A prior ATC assignment shall be considered for issuance of a Purchase Order for continued site rehabilitation for a period of up to 3 years from the receipt date of the Final Deliverable for the LSA Purchase Order.

### Certified Deliverables

All deliverables under the Agency Term Contract must be submitted electronically to the Site Manager. Paper copies are not required unless the deliverable includes a Professional Engineer (PE) or Professional Geologist (PG) signature and/or seal that does not meet the requirements for electronic or digitally-affixed signatures pursuant to Chapters 61G15 or 61G16, Florida Administrative Code, as applicable.

**Petroleum Cleanup  
is our Priority**

## Sharing Information with Our Contractors

New **NAM Guidance** is available on the PRP Website.

Technical Protocol for Evaluating Natural Attenuation Parameters at Sites with Petroleum Contaminated Groundwater, posted January 2018 under PRP Quick Link “Remediation Guidance”.

### **Q: How does acceptance of SRFA Agreement sites affect new assignments?**

A: SRFA projects do not count as an “award” from the Contractor Selection Formula batch, but they do count as an assignment under the CSF formula, and as a closure under the CSF for the CLPRank (Closure Percentage Rank) and can affect future formula ranking.

### **Q: Is fuel for diesel equipment included in the price for equipment?**

A: Clarification was provided in QA for the ITN: fuel is considered to be included wherever applicable in all pay items *except* those in Short Term/Episodic System Operation packages (Section 16.B) and Remedial Action Equipment/System Use (Section 18), which specifically exclude utilities (electricity, propane & sewer may be paid as reimbursable items, if not paid by DEP directly). Thus, fuel may also be added as a reimbursable cost in Sections 16.B and 18.

### **Q: Are “as-built” drawings (pay item 19-18) allowed in conjunction with initial system start-up?**

A: As-Built or Red-lined drawings are a part of Item 19-19, Initial System Start-up Report, and are scoped as item 19-18 only when related to an activity that is **not** an initial start-up. The PE review of as-built drawings (21-29) may be scoped with either item 19-18 or 19-19. Construction drawings must have been prepared prior to the preparation of as-built drawings.

**We do not inherit the Earth from our ancestors, we borrow it from our children. - Native American Proverb**

## UPCOMING EVENTS

Quarterly ATC Meeting and Webinar  
March 28, 2018—11:00 A.M.—BMC Room 609
