Annual Public Used Oil Collection Centers (PUOCCs) Registration Information

Dear Public Used Oil Collection Centers Contact,

To fulfill the requirements pursuant to Rule 62-710.510 (6), F.A.C., PUOCCs must annually register their activities with the Department of Environmental Protection (Department) no later than July 1st of each year.

In 2016, DEP implemented the PUOCC on-line registration process. You may use the online process to do the following: add a facility, edit a facility (if allowed), associate a facility with an existing corporation, close a facility, or reopen a closed facility. To edit a closed facility; you will first need to re-open the facility, then perform your edits (two separate steps). Please see the instructions below.

In the case of multiple locations, (ten or more) the Department especially requests that you use the on-line registration process and no longer submit Excel spreadsheets.

Currently, adding or editing a corporation online is not possible. To register a new corporation or edit the information for a corporation that has previously registered, please call or email the Used Oil Coordinator at the contact information below.
