

Recreational Trails Program Project Boundary Map Requirements

1. Submit a dated project boundary map which clearly delineates the project area.
2. The project boundary map and/or attachments must identify the following:
 - The title of the project and project elements.
 - The date of map preparation.
 - The area(s) under lease and term remaining on the lease(s).
 - All known outstanding rights and interests in the area held by others. Known easements, deed/lease restrictions, reversionary interests, etc. are to be included.
 - The project area in sufficient detail so as to be legally sufficient to identify the lands to be afforded protection under the RTP. The following methods of identification are acceptable:
 - Deed references
 - Adjoining ownerships
 - Adjoining easements of record
 - Adjoining water bodies or other natural landmarks
 - Meters and bounds
 - Government survey

Where one or more of the above methods are not readily suited for boundary identification, measurements from permanent locators must be used. A formal survey is not generally required.
