62-330.601, Florida Administrative Code (F.A.C.). General Permit
for the Installation, Construction, and Maintenance of Inshore
Reefs
And
62-330.604, Florida Administrative Code (F.A.C.). General Permit
for the Installation, Construction, and Maintenance of Living
Shorelines

Rule Development Workshop Agenda

This rule development workshop is being held to discuss and receive public input on the proposed revisions to Chapter 62-330, F.A.C., “Environmental Resource Permitting”, to create a new General Permit for the Installation, Construction, and Maintenance of Inshore Reefs. These changes will increase efficiency and encourage appropriate material to be used in inshore reef projects in marine and estuarine environments.

Additionally, DEP is proposing revisions to Chapter 62-330, F.A.C., “Environmental Resource Permitting”, to create a new General Permit for the Installation, Construction, and Maintenance of Living Shorelines. These changes will provide a regulatory framework for nature-based solutions addressing shoreline erosion. The [Notice of Rule Development for Chapter 62-330.601, F.A.C.](#) and the [Notice of rule Development for Chapter 62-330.604 F.A.C.](#) on the above subject matter were published in the Florida Administrative Register on October 20, 2025, (Vol. 51, No. 204).

The rule development workshop is open to the public. DEP is hosting this public workshop via webinar and in person at 2600 Blair Stone Road, Room 609, Tallahassee, FL 32399. For those participating virtually, please [register for the webinar](#).

1. Call to Order, Statement of Purpose, and Announcement of Public Workshop.
2. Introduction.
3. Review of Draft Rule Language.
4. Public Input.
5. Closing Remarks.
